PARKS AND RECREATION DEPARTMENT.

PROPOSALS FOR SUBSOILING AND CONCRETE LINERS AT EVERGREEN CEMETERY, BRIGHTON, MASS.

The Commissioner of Parks and Recreation of the City of Boston, 33 Beacon street, invites proposals for subsoiling and concrete liners at Evergreen Cemetery, Brighton, Mass. Forms of proposals must be obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed and marked "Proposal for Subsoiling and Concrete Liners at Evergreen Cemetery, Brighton, Mass.," and left before 2 o'clock P.M. on Tuesday, September 28, 1954, at the office of the Parks and Recreation Department, with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the Engineer's office of the Parks and Recreation Department. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioner reserves the right to reject any or all proposals.

INVITATION FOR PROPOSALS FOR PAINTING 52
WOOD FRAME HOUSES.

The City of Boston, acting by and through the Boston Housing Authority, Room 303, 230 Congress street, Boston, in accordance with the provisions of chapter 372 of the Massachusetts Acts of 1946, as amended, invites proposals for painting of fifty-two (52) wood frame houses.

A bond will be required for doing the work of a surety company authorized to transact business in the Commonwealth of Massachusetts in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 303, 230 Congress street, Boston. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Painting Fifty-two (52) Wood Frame Houses," and left at Room 303, 230 Congress street, Boston, Mass., before 2 P.M., Eastern Daylight Time, on Monday, September 27, 1954, at which time and place the proposals will be publicly opened and read.

Bid security in the sum of 5 per cent of the amount of the proposal in the form of cash or certified check shall accompany each proposal.

Proposals must be made in quadruplicate, one (1) sealed proposal without bid security to be deposited by the bidder with the City Auditor previous to the time made for opening the bids.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Housing Authority. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

The city reserves the right to reject any or all proposals and to waive any informalities either in the bidding or in the proposals, and reserves the right to award the contract or contracts as it deems for its best interest.

No bid shall be withdrawn for a period of thirty (30) days subsequent to the opening of bids without the consent of the city.

CITY OF BOSTON, ACTING BY AND THROUGH
THE BOSTON HOUSING AUTHORITY,

OWEN A. GALLAGHER,
Chairman.

Proposals for Bituminous Concrete Pavement
in A Street, Ward 6, from Dorchester
Avenue to Congress Street.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in A street, Ward 6, from Dorchester avenue to Congress street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in A Street, Ward 6, from Dorchester Avenue to Congress Street," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, SEPTEMBER 30, 1954, with a certified check for FORTY-TWO HUNDRED (4200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SATURDAY, SEPTEMBER 25, 1954.

No. 39

MAYOR HYNES ALLOTS \$1,149,395 TO CITY DEPARTMENTS TO CARE FOR LIABILITIES INCURRED AS RESULT OF HURRICANE DAMAGE ON AUGUST 31 AS EMERGENCY INVOLVING HEALTH AND SAFETY.

The following communication has gone forward from this office:

JOSEPH P. LALLY,
City Auditor.

DEAR SIR:

In view of the extreme emergency involving the health or safety of persons or property caused by the hurricane of August 31, 1954, and acting under the authority of section 16, chapter 486, of the Acts of 1909, as amended, I hereby authorize the incurring of liabilities by the following departments, in an amount not to exceed the amount set beside each respective department, in excess of such amounts as have been previously appropriated for each respective department:

CITY OF BOSTON'S BASEBALL SEASON ENDED SEPTEMBER 1 WITH HIGH SUCCESS — 115 UMPIRES WERE USED BY PARKS AND RECREATION DEPARTMENT AT A COST OF \$6,602 — ALL PLAYGROUNDS USED FOR CONTESTS UNDER AUSPICES OF VARIOUS LEAGUES.

According to report of the Parks and Recreation Department to the Director of Administrative Services there were 115 baseball umpires used, at an expense of \$6,602. The season ran from May 17 to September 1. The report submitted to Charles J. Fox, Administrative Services Director, reads as follows:

PARKS AND RECREATION DEPARTMENT.
BOSTON, September 13, 1954.

CHARLES J. Fox, *Director*, Administrative Services Department, Room 60, City Hall, Boston, Mass.

DEAR SIR:

Your approval is requested for the temporary employment of the 115 baseball umpires listed on attached sheets who officiated during the 1954 Parks and Recreation Department baseball season from May 17 through September 1, 1954.

They are to be paid for the number of games at rates per game listed opposite their respective names, charged to No. 110, budget item, total amount, \$6,602.

FAMOUS AQUARIUM AT MARINE PARK, SOUTH BOSTON, TO BE ABANDONED OCTOBER 1 — MAYOR JOHN B. HYNES HAS APPROVED DECISION OF PARKS AND RECREATION DEPARTMENT BECAUSE OF UPKEEP COST AND EXPENSE ESTIMATED AT \$300,000 FOR RESTORATION, RULED EXCESSIVE UNDER PRESENT CONDITIONS — EMPLOYEES TO BE TRANSFERRED TO OTHER DEPARTMENTS UNDER DIRECTOR OF ADMINISTRATIVE SERVICES.

Mayor John B. Hynes has approved the decision of the Park Department to close the famous Aquarium at Marine Park in South Boston as having lost its usefulness to citizens. It has been voted to transfer such exhibits as still remain there to the Franklin Park Zoo.

The notification to the Mayor reads as follows:

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

At the meeting of the Board of Parks and Recreation Commissioners held at the office of the commission, 33 Beacon street, on Thursday, September 9, it was voted to close the Aquarium on October 1, 1954, and to transfer the Aquarium exhibits to the Franklin Park Zoo.

Arrangements will be made to transfer the personnel to vacancies now existing in this department.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

Faced with the prospect of spending \$300,000 to restore the famed exhibit to its former condition, the Mayor decided to convert the structure into a Park Department storage building.

The closing was recommended by the Administrative Services Department, which pointed out that ten employees would be released for more important duties in other city departments and the savings, including maintenance costs, would amount to \$41,538 a year.

Five turtles and a small number of common fish will be returned to the sea or placed in some other aquarium, Park Commissioner Frank R. Kelley disclosed. A seal has been transferred to the Franklin Park Zoo.

The Aquarium budget last year was \$41,000, all but \$8,000 of it going for salaries.

The Park Commission voted to close the Aquarium after receiving a study of its operation from the Administrative Services Board.

The board found the 42-year-old building to be in "very poor condition" and in need of a "major repair job."

Only ten of the forty-nine display tanks are in use, "exhibiting common types of fish which, from a marine point of view, have little intrinsic display value."

The Aquarium was built in 1912 at a cost of \$149,530 from the George F. Parkman Trust Fund.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Boston, September 2, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Public Welfare Department has submitted a requisition for seven Royal typewriters.

Royal Typewriter Company, Division of Royal-McBee Corporation, manufacturer of Royal typewriters, has submitted an informal quotation. Inasmuch as these typewriters cannot be purchased from anyone other than the manufacturer, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Royal Typewriter Company, Division of Royal-McBee Corporation.

Approximate total amount of contract will be \$1,215, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Boston, September 13, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted a requisition to this office for repair parts for the 600-KW turbo generator Serial No. 18130 located at the Power Plant.

This generator, which was originally furnished by the Westinghouse Electric Corporation, is being overhauled under the supervision of a representative from this company. Informal prices for the repair parts have been submitted by Westinghouse Electric Corporation.

Inasmuch as this company originally furnished the generator to the hospital and since the Chief Engineer of the hospital recommends that there should be no further delay in repairing the equipment, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Westinghouse Electric Corporation. It is my opinion that in this way the best interests of the city will be served.

Approximate total amount of contract will be \$3,003.50, net, thirty days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

CIVIL DEFENSE DEPARTMENT.

BOSTON, September 10, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES:

I am hereby requesting permission to award a contract, in an amount not to exceed \$3,000, without advertising, to the B. Feneno Company for the repair of structural damage caused by the hurricane of August 31, 1954, to siren tower installations.

All of this work is of a special and emergency nature. In view of the fact that the B. Feneno Company has installed much of this equipment and responds at any hour of the day or night on an emergency basis, it is my considered opinion that nothing would be gained and much might be lost through awarding this contract to another company.

The contract will be awarded on the same basis as that followed by the Department of School Buildings. This will mean the use of the Department of School Buildings wage scale and departmental allowance, and involves cost of materials plus 10 per cent.

I trust that this request will meet with your approval.

Respectfully submitted,

JOSEPH L. MALONE, *Director,*
Boston Civil Defense Department.

BOSTON, September 10, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES:

I am hereby requesting permission to award a contract, in an amount not to exceed \$3,000, without advertising, to the Emerson Electric Company for the repair of damage to siren electrical installations caused by the hurricane of August 31, 1954.

All of this work is of a special and emergency nature. In view of the fact that Emerson Electric has installed much of this equipment and responds at any hour of the day or night on an emergency basis, it is my considered opinion that nothing would be gained and much might be lost through awarding a contract for maintenance to another company.

The contract will be awarded on a cost-plus basis. The electrical work will be subject to inspection by Mr. Bernard Whelan, Superintendent of Electrical Inspection Division.

I trust that this request will meet with your approval.

Respectfully submitted,

JOSEPH L. MALONE, *Director,*
Boston Civil Defense Department.

PUBLIC WORKS DEPARTMENT.

BOSTON, August 17, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Under date of June 8 of the current year, I wrote to your Honor, requesting, in substance, that the sum of \$125,000 be provided for the construction of a modern district yard, with necessary offices, garages, and other related facilities, at the Forest Hills Street site to replace the outmoded and antiquated district yard located on Child street, Jamaica Plain.

This money was recently made available as the result of an order passed, after a second reading, by the City Council under date of July 26, and approved by your Honor. The order authorizes the Collector-Treasurer to issue bonds in the total amount of \$7,500,000 for the construction of departmental buildings, under

the provisions of clause 3 of section 7 of chapter 44 of the General Laws. The above-referenced \$125,000 is included in the amount authorized to be borrowed under the provisions of the Council order.

It is my intention to have the buildings and related facilities completed before the end of the current construction season, in order that the entire facility will be available for use during the coming winter months. As soon as the construction of the new district yard is completed, it is my intention to abandon the Child Street Yard and recommend that it be transferred to the Real Property Department for disposal.

In order to insure the completion of this proposed project by the end of the year, it is necessary for me to engage the services of an architect immediately to prepare the necessary plans, specifications, etc. It is my intention, therefore—subject to your approval—to engage the services of William W. Drummey of 80 Boylston street, Boston, who is an eminent architect and has a long and varied experience in this specialized field. He has submitted a proposal to me, agreeing to undertake the design of the buildings and preparation of necessary plans and specifications at a fee based on 6 per cent of the total cost of the proposed improvements. This fee is standard, and no advantage would accrue to the city by publicly advertising for proposals.

This is the type of contract, in my opinion, that does not lend itself to public advertising, as cost is a secondary consideration, notwithstanding the fact that it is of importance. In general, municipalities and state agencies do not advertise for bids for professional services of architects or engineers. I am heartily in favor of such a policy, as it is far more important to select an architect or engineer on the basis of his background, experience, skill, and ability, rather than on the basis of the cost of such services, as long as the agreed fee is reasonable and in keeping with the standard fee established for the particular type of project under consideration.

In view of the circumstances, I respectfully request your authority to dispense with advertising and to award a contract to William W. Drummey, architect, of 80 Boylston street, Boston, for furnishing complete professional services in connection with the preparation of plans and specifications for the buildings and related facilities that are to be constructed at the Forest Hills Street Yard of the Public Works Department. It is understood that the above-referenced architect will accept, as full payment for the furnishing of these services and for the preparation of the necessary plans and specifications, 6 per cent of the total cost of the buildings and related facilities for which plans and specifications are to be prepared by him, with the further understanding that the cost of these services will not be in excess of \$7,200.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

BOSTON, September 16, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On July 22, 1954, I wrote to your Honor requesting that the sum of \$25,000 be provided for the construction of a modern structure for garaging snow removal equipment and equipment used by the various other services throughout the

year, along with pertinent facilities, at the Brighton District Yard on Western avenue. This structure would replace the then existing outmoded and unsightly wooden buildings located in this yard, since demolished.

This money was recently made available through the passage of an order by the City Council under date of August 23, and approved by your Honor. The order provides that under section 63 of chapter 44 of the General Laws the sum of \$25,000 be appropriated from the Special Account—Sales of City Property, to be expended under the direction of the Commissioner of Public Works, for the construction of departmental buildings. It is my intention to have the buildings and related facilities constructed as soon as possible, and, in order to expedite matters, it is my opinion that the services of an architect should be engaged immediately, to prepare the necessary plans, specifications, etc.

At present, the department has a contract with William W. Drummey, architect, of 80 Boylston street, Boston, for the preparation of plans and specifications for a garage and office buildings to be constructed at the new Forest Hills Street Yard in West Roxbury, at a fee based on 6 per cent of the total cost of the proposed improvements. I believe it would be in the best interests of the city to amend the current contract with William W. Drummey to include the preparation of plans and specifications for the proposed improvements at the Brighton District Yard, as the work proposed at this yard is similar—although much smaller in scope—to that under design for the Forest Hills Street Yard.

In view of the circumstances, I respectfully request your authority to dispense with advertising and to amend the contract dated August 26, 1954 and approved by your Honor on September 2, 1954, with William W. Drummey, architect, of 80 Boylston street, Boston, to provide for furnishing complete professional services in connection with the preparation of plans and specifications for the buildings and related facilities that are to be constructed at the Brighton District Yard of the Public Works Department.

It is understood that the above-referenced architect will accept, as full payment for the furnishing of these services and for the preparation of the necessary plans and specifications, 6 per cent of the total cost of the building and related facilities for which plans and specifications are to be prepared by him, with the further understanding that the cost of these services will not be in excess of \$1,400.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SEWER IN SILVER STREET,
SOUTH BOSTON.

The Mayor has approved the following orders of the Public Improvement Commission:

Ordered, That 100 linear feet of 10-inch pipe sanitary sewer, at an estimated cost of \$1,500, be constructed in Silver street, South Boston district; and

Ordered, That this Board estimates that the undermentioned parcel of land, situated on the easterly side of Silver street (No. 220-222), will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, in the amount hereinafter mentioned.

Meredith W. and Mabel M. Meyer,
\$325.

EXTENSION OF CONTRACTS.**DEPARTMENT OF SCHOOL BUILDINGS.**

Approval has been given for the extension of the time of completion of the contract approved June 30, 1954, with Seltzer & Co., Inc., for furnishing and installing new steel boilers in the Charles Bulfinch School, from September 15, 1954, to December 1, 1954. This extension was requested because of a delay in the delivery of boilers.

Approval has been given for the extension of the time of completion of the contract approved August 10, 1954, with Arthur H. Curtis Company for new oil burning equipment at the Grover Cleveland School, from September 15, 1954, to September 24, 1954. This extension was requested due to the fact that it was necessary to cease work on account of power failure due to hurricane.

Approval has been given for the extension of the time of completion of the contract approved August 16, 1954, with Burgess & Blacher Company for roofing and metal work at the William B. Rogers School, from September 10, 1954, to November 10, 1954. This extension was requested because it was necessary to concentrate on emergency work due to hurricane.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract dated May 17, 1954, with Beacon Piping Company, for installation of new discharge valves at Calf Pasture Pumping Station, Mt. Vernon street, Dorchester, Mass., from September 14, 1954, to January 30, 1955. This extension was requested because Chapman valves will not be delivered until November 30, 1954.

EXTRA WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

Carriere Construction Company has been directed to perform the following extra work under the contract dated July 6, 1954, for bituminous concrete pavement in Bateman street, Deforest street, Grassmere road, Hallron street, and MacDonald street:

In Hallron street, reset one existing stone bound to new line and grade for lump sum of \$10; abandon one catch basin, including excavation, backfill, and plugging up of existing outlet for lump sum of \$45; regrade about 110 square yards of sidewalk at 20 cents per square yard; reset approximately 150 linear feet of wood forms for sidewalk at 10 cents per linear foot.

Estimated cost of extra work, \$92.

STREET WIDENING IN WEST ROXBURY.

The Public Improvement Commission has ordered that a public improvement be made, consisting of the widening and construction of Morton street, West Roxbury district, as a highway, at the southerly corner of Canterbury street; bounded and described as follows:

The highway named Morton street is hereby widened at the southerly corner of Canterbury street, and ordered constructed

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs or structures standing upon or affixed thereto.

A parcel of land, supposed to belong to Commonwealth of Massachusetts, bounded:

Easterly by the westerly line of Morton street as it existed prior to this order, by two measurements, 50.60 feet on a curve of 40 feet radius and 117.31 feet; and westerly by the westerly line of Morton street as widened under this order, by two measurements, 140.27 feet and 22.62 feet on a curve of 21.13 feet radius; containing 714 square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforesaid land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Morton street as hereby widened is bounded:

Easterly by the westerly line of Morton street as it existed prior to this order, by two measurements, 50.60 feet on a curve of 40 feet radius and 117.31 feet; and westerly by the westerly line of Morton street as hereby widened, 140.27 feet and 22.62 feet on a curve of 21.13 feet radius, containing 714 square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this commission determines that the undermentioned estate sustains damages by the making of the public improvement consisting of the widening and construction of Morton street, West Roxbury district, as a highway, at the southerly corner of Canterbury street, under the order of the commission of August 23, 1954, in the amount hereinafter mentioned, and awards said amount therefor.

Commonwealth of Massachusetts, Department of Mental Health, 714 square feet, \$1.

SEWERAGE WORKS IN DORCHESTER.

The Public Improvement Commission has ordered sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Groveland street, bounded:

Northerly by the northerly line of Groveland street, 50.75 feet; easterly by the easterly line of Groveland street, by two measurements, 374.42 feet on a curve of 750 feet radius and 498.91 feet; south-

erly by another part of Groveland street, 50 feet; and westerly by the westerly line of Groveland street, by two measurements, 499.16 feet and 341 feet on a curve of 700 feet radius, containing 42,839 square feet more or less.

The sewerage works to be constructed are as follows: approximately 785 linear feet of 10-inch pipe sanitary sewer and surface drain, at an estimated cost of \$11,000 for the sanitary sewer and \$2,500 for the surface drain.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcels of land situated on both sides of Groveland street, excluding the parcels at the corners of Maryknoll street, at the corners of Clearwater Drive, and at the corners of Manchester street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of the Survey Division, Public Works Department, of said city.

MUNICIPAL BOND PROPOSALS.

State and municipal bond proposals reported during June as approved by 239 municipalities in 31 states and Alaska totaled \$173,811,935, as compared with \$113,704,950 for June, 1953, the Bond Buyer reports. . . . Jones Beach Parkway Authority in New York has been ordered to show cause why the 10-cent toll on the portion of the Southern State Parkway now completed should not be discontinued. Basis of the suit, it is said, is a claim that all of the highway must be completed before any tolls can be collected.

BOSTON POLICE TRAFFIC DIVISION.

The Traffic Division embraces the area lying within the jurisdiction of Divisions 1, 2, 3, 4, and 16 as well as the traffic post at Boston University Bridge, Division 14. It is charged with the enforcement of statutes, ordinances, rules, and regulations pertaining to traffic within this area, the processing of parking violation notices for the entire department, and the providing of a safety educational program directed to the general public.

FIRE DEPARTMENT ORDERS.

General Order No. 60.

1. ENGINE SQUAD COMPANIES.

Effective at 8 A.M., Tuesday, September 21, 1954, the Engine Squad method of operation will be put into effect in the Boston Fire Department. Engine squad companies will substitute for the following and cover the districts indicated:

Engine Squad Company 11 for District 1.

Engine Squad Company 34 for District 11.

Engine Squad Company 14 for Districts 5 and 9.

Engine Squad Company 18 for Districts 7 and 8.

Engine Squad Company 53 for District 10.

These engine squad companies will answer the first alarms now assigned to the engine companies for which they are substituting—the multiple alarm assignments outside of the district will be assigned to some other engine companies—and will answer all calls formerly answered by the rescue companies in the districts for which they are assigned.

Starting at 8 A.M., Tuesday, September 28, 1954, in those districts where the engine squad companies will operate it will not be necessary for ladder companies to be dispatched on emergency calls, unless the Fire Alarm Office has prior knowledge that the services of a truck will be necessary, or unless the officer in charge requests the services of a truck. In the event an engine squad company is not immediately available, a ladder company shall be dispatched by the Fire Alarm Office. If there is an indication from information at hand that additional help is needed, the Fire Alarm Office shall dispatch the necessary apparatus. If an engine squad company is answering an emergency call, and an alarm is received to which the company is assigned to respond, Fire Alarm Office shall assign a replacement engine company.

Rescue Company 2 shall be deactivated at 8 A.M., Tuesday, September 21, 1954. All members, except officers, will be assigned to training in single-piece unit operations for the week beginning September 21. The officers of the company will report for the day tours of duty during that week to the engine squad companies in order to acquire the basic information relative to rescue work.

Rescue Company 1 and Rescue Company 3 will continue on their present first alarm assignments and respond to multiple alarms as ordered. In this way the remaining districts 2 and 3 and 4 and 6 are covered by Rescue Companies 3 and 1.

The following temporary details shall be made at 8 A.M., Tuesday, September 21, 1954 for four weeks:

Hoseman James W. Parks, from Rescue Company 3 to Engine Squad Company 11.

Hoseman Daniel W. Moynihan, from Rescue Company 3 to Engine Squad Company 11.

Hoseman William J. Desmond, Jr., from Rescue Company 3 to Engine Squad Company 11.

Hoseman Francis L. Danze, from Rescue Company 1 to Engine Squad Company 11.

Hoseman Calvin W. Sweeney, from Engine Squad Company 11 to Rescue Company 1.

Hoseman John E. Nelson, from Engine Squad Company 11 to Rescue Company 1.

Hoseman John J. McGinnis, from Engine Squad Company 11 to Rescue Company 1.

Hoseman William E. Marotta, from Engine Squad Company 11 to Rescue Company 3.

Hoseman Timothy M. O'Brien, from Rescue Company 3 to Engine Squad Company 14.

By Order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

General Order No. 61.

I. RULES AND REGULATIONS OF THE DEPARTMENT.

The attention of the members of the department is called to Rule 226 which reads as follows:

"Companies returning from a fire shall at once check amount of hose and other equipment brought back. If short, the same shall be reported with reason therefor. If a company has hose or appliances belonging to another company, it shall immediately notify the company to which same belongs and make arrangements for its return."

In relation to the foregoing rule, whenever the rescue or engine squad companies are called upon to render emergency service requiring the use of any of the tools or appliances carried on their apparatus, the officer in charge or the member acting in that capacity shall make certain that all such tools or appliances are picked up and returned to the apparatus before they leave the scene. If any tools or appliances are damaged or dropped where they cannot be retrieved, a report of same shall be made immediately upon return to quarters.

Rule 43 of the department rules and regulations shall be amended to read as follows:

"He shall visit each fire station daily and see that it is conducted and maintained in accordance with the rules; that the company is properly officered, that the apparatus is in an efficient condition and adequately manned; that the records are being properly

kept; and he shall examine the company journal to ascertain whether or not the provisions of amended Rule 77 have been carried out; and he shall sign the company journal."

Rule 77 of the department rules and regulations shall be amended to read as follows:

"He shall, when coming on duty, make sure that the maximum quantity of gasoline, oil, and water is provided in the apparatus, and that all tools and appliances supplied to the company for use at fires and other emergencies are in their proper place on the apparatus and available for use, and he shall make entry of such inspection over his signature in the company journal."

Rule 212 of the department rules and regulations shall be amended to read as follows:

"Drivers shall be held responsible for the hose and tools on their trucks, wagons, pumpers, or other apparatus, and no driver shall permit any member not of his company to take such hose or tools unless he names the officer under whose orders he is acting, and is either personally known to the driver or identifies himself by name and company. This rule also applies to property on fireboats. If a member of the department is ordered to get hose, tools, or appliances from a piece of apparatus and such apparatus is not under the immediate supervision of a driver or other member of the company, he shall notify the officer of the company, as soon thereafter as is practicable, that he has taken such hose, tools, or other appliances and the name of the officer under whose orders he was acting."

All of the foregoing rules must be obeyed implicitly in order to prevent the loss of valuable equipment carried on the apparatus of this department, and particularly the new engine squad companies which were put in service at 8 A.M., Tuesday, September 21, 1954.

II. ASSIGNMENT AS ENGINEER, MOTOR SQUAD.

The following assignment, which became effective at 8 A.M., Wednesday, September 22, 1954, is hereby announced:

Hoseman Joseph M. Roper, Maintenance Division, to engineer, Motor Squad.

Hoseman Leo P. Trainor of Engine Company 18 is hereby commended for removing the unconscious occupant of an apartment which was on fire (at Box 3292) on September 8, 1954, while off duty.

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

CHANGES IN SOCIAL SECURITY LAW.

Changes in the Social Security Act now make Old Age and Survivors Insurance benefits available to all municipal employees, except firemen and policemen. The procedure varies, however, for those who are eligible for membership in existing retirement systems and those who are not.

The most important point to remember is that the municipality must take the initiative to secure OASI coverage for its employees and must act through the state government. Proper enabling legislation and contractual clauses in state documents are "musts." They secure coverage as part of the state's contract with the Bureau of Old Age and Survivors Insurance, U. S. Department of Health, Education and Welfare.

POLICE DEPARTMENT ORDERS.

General Order No. 1,929.

The annual ball of the Boston Police Relief Association will be held in the Boston Garden, Friday evening, December 3, 1954.

The proceeds of the ball, as members of the department know, are added to the funds of the association and are used for the payment of sick and death benefits to members of the association and their families, which funds, at the present time, are insufficient to meet the demands made upon the association.

It is the desire of the Commissioner, the Superintendent, and the Board of Directors of the association that all members of the force interest themselves and make a special effort to dispose of the tickets for the ball, and thereby make it such a success that the finances of the association will be put on a sound basis, so that the good work accomplished by the association in assisting its members in time of sickness or death since it was organized in 1871 may be continued.

The tickets for the ball will be distributed to each station by the treasurer, Lieut. Harrington B. Wyand, Division 2, who will receive a receipt therefor. Captains of divisions will distribute the tickets to their officers and keep a correct list of the number of tickets given to each man. Each officer will make a daily return to his captain of the number of tickets he has sold, together with the name and address of the purchaser, and will return the money received to his captain.

All officers will be held strictly responsible for tickets allotted to them.

Captains will collect each day all money received by officers in the sale of tickets. This money will be converted into a check, made payable to Harrington B. Wyand, treasurer, B.P.R.A., and forwarded to the superintendent by morning mail the following day. A correct list containing the ticket numbers, together with the names and addresses of purchasers of tickets, shall be kept on file at the various divisions. In this way, it is expected that a complete canvass of the city will be made, and a substantial increase in the sale of tickets will be accomplished.

All tickets that remain unsold on December 4, 1954, will be collected by the captain of each division and returned to Lieut. Wyand who will furnish a receipt therefor.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,930.

A trial board, consisting of Captains Francis J. Murphy, Leo E. Hoban, and Edward L. Kelley, having heard by reference a complaint made by Lieut. James R. McLaughlin, acting-captain of Division 10, against Patrolman Joseph M. Fahey, Division 10, charging him with violation of the rules and regulations of the Police Department, has reported a finding of guilty, recommending punishment duty of 210 hours.

This recommendation is accepted, and it is ordered that the said Patrolman Joseph M. Fahey perform 210 hours punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,931.

The following promotions and assignments are hereby ordered to take effect Wednesday, September 22, 1954, at 7.45 o'clock A.M.:

General Order No. 1,935.

The Police Commissioner is pleased to publish the following letter received from the President of the Boston Chamber of Commerce:

Greater Boston Chamber of Commerce,
80 Federal Street,
Boston, Mass.,

September 15, 1954.

COL. THOMAS F. SULLIVAN, *Police Commissioner for the City of Boston.*

MY DEAR COMMISSIONER:

The work of the Boston Police Department during the recent devastating hurricanes was a splendid and inspiring example of great devotion to the public service.

I can speak for the entire business community in saying that the Boston police force did a most admirable job in the face of overwhelming obstacles and that this splendid performance is another outstanding example of the efficiency with which our Police Department operates. The entire community is deeply indebted to your fine men.

Sincerely yours,

DONALD J. HURLEY,
President.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

Proposals for Sewerage Works in Bellevue Hill Road, West Roxbury.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Bellevue Hill road, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Bellevue Hill Road, West Roxbury," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of WEDNESDAY, OCTOBER 6, 1954, with a certified check for TWO HUNDRED FIFTY (250) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(Sept. 25.) Commissioner of Public Works.

BUREAU OF INFORMATION AND COMPLAINTS TO BE ESTABLISHED IN CITY HALL TO CARE FOR COMPLAINTS AND TO SETTLE, WHEREVER POSSIBLE, PROBLEMS FACED BY CITIZENS IN EVERYDAY LIFE—NEWS CONCERNING MUNICIPAL SERVICES ALSO TO BE DISPENSED.

Upon the recommendation of Director of Administrative Services Charles J. Fox, Mayor Hynes has approved the suggestion that a department be established as a "gripe center" for the listing of and hearing of all complaints by citizens and employees as to services rendered or needed. The organization is to be known as the Bureau of Information and Complaints. The plan has worked well in other cities, according to the communication sent to Mayor Hynes by the Administrative Services head and is expected to prove beneficial to all.

The communication from Chairman Charles J. Fox, Director of Administrative Services, which the Mayor has approved, reads as follows:

HIS EXCELLENCY, THE MAYOR,
City of Boston, City Hall, Boston,
Mass.

MY DEAR MAYOR,

We here in the American Community, members of the United States Army, Navy, Air Force, and civil service employees, with our 1,100 dependent families, were shocked by the news of the loss of the steeple of the Old North Church during Hurricane "Carol." This edifice together with the tradition and history of your fair city and its surroundings are dear to the hearts of our people here.

PARKS AND RECREATION DEPARTMENT RAPIDLY RECOVERING FROM DEVASTATION CAUSED BY UPROOTING OF TREES DURING HURRICANES THAT VISITED CITY—MAYOR JOHN B. HYNES APPROVED REQUESTS FOR DISPENSING WITH ADVERTISING IN ORDER TO SPEED WORK—FOUR COMPANIES OF TREE SURGEONS GET WORK TO SPEED CLEARING.

The Parks and Recreation Department is rapidly mastering the work of clearing the debris consisting of fallen trees, etc., as the result of the hurricanes that visited Boston and left such devastation in their wake. Mayor John B. Hynes approved the requests of Commissioner Frank R. Kelley for the employment of expert tree men and divided the work among them. The work has been allotted to the following nursery companies: Blueview Nursery; Eastern Tree and Landscape Corporation; Fred Ralston & Co., Inc.; Superior Tree Service, Inc. Letters requesting approval read as follows:

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 13, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

On August 31 and again on September 11 severe hurricanes struck our city, with considerable damage to public property. The greater part of the damage in this department was confined to trees located on public streets, parks, playgrounds, and cemeteries. Several thousand trees were uprooted, large limbs and branches knocked off, and several hundred other trees throughout the city were weakened as a result of these two storms.

In order to cope with the situation, because of the limited number of experienced tree workers in this department, we were required to engage the services of expert tree men wherever available to assist in this great emergency. Because of the emergency, which still exists and from our survey will continue to exist for some time, we were required to supplement our own small force with expert tree men. We have had working with us since the first storm Fred Ralston & Co., Inc., 22 Linden street, Allston, and Eastern Tree and Landscape Corporation, 280 Bridge street, Dedham.

After the first storm, and just prior to the second storm, we engaged the services of Superior Tree Service, Inc., 15 Littlejohn street, Arlington, and Blueview Nursery, 32 Gaston street, Roxbury.

All of these tree concerns have been engaged by this department at the same rates for men and equipment as are being charged to the state, municipalities, townships, and utility companies throughout the Greater Boston area. The rates are as follows:

Foremen.....	\$3.35 an hour.
Climbers and laborers.....	2.85 an hour.
Trucks (up to 1½-ton).....	2.50 an hour.
Trucks (2½-ton).....	3.50 an hour.
Trucks (2½-ton) with winches.....	4.00 an hour.
Power saws.....	2.50 an hour.

Rates for foremen, climbers, and laborers are for the first nine hours in any one day, Monday through Saturday. Time and one-half will be charged for all hours over the first nine. Double time will be charged for foremen, climbers, and laborers for all Sunday and holiday work.

PARKS AND RECREATION DEPARTMENT MAKES
RAPID CLEANUP OF HURRICANE-DAMAGED
TREES.

(Continued from page 1201.)

It is not possible to estimate what the entire cost will be to these contractors for the tree work, as there are approximately 165,000 trees located on city streets, parks, playgrounds, and cemeteries. Many of these trees have been affected by the storms and will require cavity work, tree surgery, trimming, pruning, and removal. In addition, we will be required to remove all stumps located on the above locations. Because of the present danger the trees are being cut down, but the stumps have been left in the ground. It will be necessary to cut the stumps on the city streets to a depth of four inches below the surface, so that the sidewalks may be replaced as a public safety measure.

I respectfully ask your approval for the retaining of the services of the four abovementioned companies at the prices indicated, bills to be submitted for payment through the City Auditor's office and charged to the appropriation, "Hurricane Emergency, 6-52-51."

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 17, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Under date of September 13 I sent your Honor a communication reporting to you the damage to trees in the Parks and Recreation Department located on public streets, parks, playgrounds, golf courses, and cemeteries. In that letter I pointed out to you the urgency of retaining the services of competent tree companies and requested your approval for retaining their services for the removal of dangerous trees, many of which had been uprooted. The rates to be charged for men and equipment are the same as those charged to the state, the municipalities, and utility companies for similar work.

Your Honor approved our request under date of September 14. However, these companies will terminate their current emergency service as of September 19.

For the proper protection of the public it is imperative that we continue the operation of removing dangerous trees and start immediately on tree surgery work and the pruning of dangerous limbs and branches of standing trees in all sections of the city. Unless we take immediate steps to remedy this dangerous condition, we will be in for more serious trouble caused by trees which otherwise will soon fall due to their weakened condition after the two hurricanes.

We are, therefore, anxious to further retain the services of the four tree companies presently engaged in tree removal work. We had estimated the cost of the additional work to be in the neighborhood of \$300,000, but we have been informed that our allowance must be confined to an amount not to exceed \$200,000. In order to continue the services of the companies now working, it is our intention, with your approval, to start work on the trees on Monday, September 20, and to divide the work among the four companies, to be paid for at the following rates:

Foremen.....	\$3.35 an hour
Climbers and laborers...	2.85 an hour
Trucks (up to 1½-ton)...	2.50 an hour
Trucks (2½-ton).....	3.50 an hour
Trucks (2½-ton) with winches.....	4.00 an hour
Power saws.....	2.50 an hour

Rates for foremen, climbers, and laborers are for the first nine hours in any one day, Monday through Saturday. Time and one-half will be charged for all hours over the first nine. Double time will be charged for foremen, climbers, and laborers for all Sunday and holiday work.

The contract with each company is not to exceed \$50,000. All companies have agreed on the standard rates, which, as indicated above, are the same for men and equipment now being charged to the state, the municipalities, and the utilities. As these rates are standard and are on an hourly basis, whereby the city gets full value for the money expended, there would be no gain to the city by publicly advertising for bids.

Therefore, I request your authorization to dispense with public advertising for bids and to enter into a contract with Superior Tree Service, Inc., 15 Littlejohn street, Arlington, for removal, tree surgery, and pruning of dangerous trees in all sections of the city, for a sum not to exceed \$50,000, to be charged to the special appropriation, "Hurricane Emergency, 6-52-51."

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

MAYOR RECEIVES DONATION FROM GERMANY FOR OLD NORTH CHURCH STEEPLE.

(Continued from page 1201.)

As initially planned, the streets in our housing area are named after the thirteen original colonies. Expansion has necessitated the construction of new streets, named after additional states in order of admittance to the Union. In July of this year we designated the community as "Paul Revere Village." Our chapel was designated "The North Chapel," and our theater "The Minuteman." Thus, one might say that we here in Karlsruhe have gone Colonial. Each of us take a great pride in our village and in the history represented by the famous names we have adopted.

I was on leave at the time, and for a few days after, "Carol" struck New England. My Executive Officer, Major E. J. Wronowski, acting in my absence, derived the happy thought that we here would add our bit to the proposed drive

for funds to restore the steeple of the edifice that inspired the naming of our chapel.

Enclosed please find two American Express Company money orders in the amount of \$100.95 as our donation to this fund. It is a humble token and a symbol of the love for freedom of the members of a congregation of all faiths and creeds, as represented by a special collection taken up during chapel services on Sunday, 12 September, 1954. I trust that you will see that this donation and copies of this correspondence are turned over to the person or persons designated the responsibility for control of the rebuilding fund.

Should those actions warrant or receive any publicity, I would appreciate being furnished a copy of such accounts. I know that my people here are most interested in the restoration of Old North Church and join me in a sincere hope that the goal set for the fund drive will be speedily reached.

MAYOR ESTABLISHES BUREAU OF INFORMATION AND COMPLAINTS.

(Continued from page 1201.)

ADMINISTRATIVE SERVICES DEPARTMENT.

Boston, September 7, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

This board has had under consideration for some time the feasibility of establishing, as an agency of the city, an office for the receiving and handling of complaints as well as requests for information concerning municipal services. The initial consideration of this matter was based, first, on an order adopted in the City Council under date of January 25, 1954, and, second, on your memorandum dated March 19, 1954, directing attention to a report issued by the City of Philadelphia concerning the operations of its information center, established in the early part of 1952. Subsequently, information was obtained concerning departments of this character in operation in Columbus and Cleveland, Ohio; Dallas and Houston, Texas; Detroit and Dearborn, Michigan; Norfolk, Virginia; Kansas City, Missouri; Boise, Idaho; and Beloit, Wisconsin.

In perusing the reports of these various cities, it was noted that the operations and systems are more or less standardized and that each agency has met with marked success in solving the everyday problems of the average citizen. It appears that the so-called "gripe centers" insure courteous hearings, speedy transmittals to the proper agencies, and a thorough follow-up until some definite action has been taken upon all types of complaints received.

The City of Philadelphia received more than 100,000 individual complaints or requests for information during the first year of its Information and Complaint Office. According to the Philadelphia report, this office was successful in mediating misunderstandings between city departments and citizens, eliminating delays and inadequate attention where essential services were affected, and promoting efficiency in operations, with a high degree of courtesy and consideration

being displayed throughout the entire city government.

On the basis of the information received, this board is of the opinion that such a bureau or division should be established in Boston with a view to securing greater efficiency in the handling of complaints and information requests and, particularly, to promoting amicable relations among city officials, city employees, and the general public. Before arriving at this opinion, the board has given consideration to the following phases or aspects of the operations of such a division or bureau.

1. Location.

The ideal setup for such a division or bureau would be to have one main building with one main entrance, locating on the first floor, as close to the main entrance as possible, a service booth or office. Such an arrangement is not feasible in Boston, however; first, because of the fact that municipal services are divided between the Hall and the Annex, and, second, sufficient room is not available on the ground floor of either structure. In the absence of a "dead center" location, we believe the next best site or place for the bureau would be in the vicinity of the Mayor's office because most people desiring to register complaints or secure information on municipal services gravitate towards the office of the Chief Executive. We feel that the office now assigned to the Licensing Bureau of the Mayor's office would be a most satisfactory location. It is at the head of the stairs leading to the Mayor's office and is in close proximity to the elevator stop outside of the Mayor's office. In the event of the location of the Complaint Bureau at this spot, the Licensing Bureau could be assigned Room 37 on the third floor of City Hall.

In order to provide for continuity of thought and effort in the operation of the bureau, we believe that it should be established by ordinance either as a unit or division within the Administrative Services Department. Being concerned with the organization, activities, policies, and procedures of all city agencies, this department is the appropriate agency to receive complaints and furnish information on municipal services. Placing the bureau in the Administrative Services Department would avoid the disruption and dislocation of services which, naturally, would be associated with a change in administration, if the bureau was attached to the Mayor's office. As a division of the Administrative Services Department, the bureau could utilize the services of the budget analysts in this department to follow up complaints in the various departments and to make reports as to the progress being made in the handling of individual complaints.

2. Personnel.

At least two, and possibly three, persons would be required to operate a bureau of this character. At the start, a supervisor and secretary-stenographer should be provided, and, if subsequent experience warranted, a clerk-typist might be found necessary. The supervisor, to begin with, should have some knowledge of and acquaintance with the organization of the city, and, in addition, should know how to handle the public both courteously and promptly. The secretary-stenographer should be preferably a young lady with experience in

public relations and receptionist duties. The clerk-typist, if employed, should be familiar with office procedure, especially in the field of filing.

In addition to the personnel within the bureau, each department head should delegate a liaison officer within his department to handle all complaints received from this bureau or division.

3. Reference Material.

For the efficient operation of a bureau of this character, it is absolutely necessary to have reference books that are accurate, up-to-date, and not too technical.

The first job would be the compilation of a manual containing the duties and functions of each department of municipal government, including an indexed reference as to what department an individual should contact regarding various services rendered by the city. When such manuals are compiled and printed, they should be distributed to all police officers, libraries, fire stations, and all other agencies disseminating information to the public.

An accurate and up-to-date street book is now being compiled by the Public Improvement Commission, and several copies of the new edition should be acquired by the new division. In addition to giving the location of all public and private ways, it contains the locations of hotels and apartment houses, fire stations, police divisions, schoolhouses, institutions and hospitals, public libraries, playgrounds, and parks.

Other reference books, both informative and historical, should be obtained from the Chamber of Commerce and the Boston Public Library.

4. Office Procedure.

After studying the various systems used by various cities, it was found that the simplest and most inexpensive system now in operation is that followed by the City of Dearborn, Michigan, which sets forth the following procedures:

a. Receipt of complaint, which may be either written or verbal.

b. Acknowledgment to the complainant of the receipt thereof, if received by mail.

c. Recording, in triplicate, upon a proper numbered blank, which shall show the name and address of the complainant, the date and the cause of the complaint, and contain blank spaces for a statement by the department affected, of the facts, the reason, if any, for the lack of service, and the action taken to prevent a recurrence, if blame shall be with such department.

d. The sending of two copies of the complaint to the department affected and the retention by the bureau of the other copy in a file to be known as the "open file."

e. The investigation and report by the department affected, which shall be completed within five days, the report to be made upon both copies of form prescribed, copy to be retained by department and original returned to the bureau.

f. The original copy of the report shall then be transferred to a file to be known as the "closed file."

g. The sending to the complainant of the report made by the department.

The above system could be put in operation as soon as the necessary forms

are printed and should eliminate any complications as to procedure.

5. Publicity.

All local newspapers, radio stations, the Chamber of Commerce, and other public agencies for the dissemination of information should be fully informed not only of the creation of such a division and its functions but an effort should be made to educate the public to refer complaints of every nature to the newly created division rather than referring the same to the Mayor or department heads.

Press releases issued by the new division should be given to the various news agencies at least once a month by the Mayor, covering unusual complaints received by the division and the subsequent action taken thereon. It is believed that this would be most interesting reading and would acquaint the general public with some of the problems confronting their fellow man each day, and, especially, the city official.

6. Naming of Bureau or Division.

The following titles for an agency of the character under discussion are used in other cities:

Department of Community Relations.

Bureau of Complaints.

Complaint Bureau.

Information Office.

Bureau of Information and Complaints.

Bureau of Information and Service.

It is believed that the title "Bureau of Information and Complaints" best reflects the type of service to be rendered the public by such an agency.

7. Recommendations.

We recommend for your consideration the establishment by ordinance of a unit or division within the Administrative Services Department to be known as the "Bureau of Information and Complaints" for the receiving and answering of all requests for information about the city and its government as well as the receiving and investigating of all complaints concerning the operation of the service activities of the city.

Respectfully yours,

CHARLES J. FOX, *Chairman,*

JOHN V. MORAN,

JOHN A. SULLIVAN,

JAMES E. GILDEA,

JOSEPH P. LALLY,

Administrative Services Board.

LAWRENCE W. COSTELLO,
Secretary.

MAYOR HAILS JEWISH NEW YEAR.

On September 29 Mayor Hynes issued the following Jewish New Year's greeting:

For our fellow citizens of the Jewish faith, another new year has dawned. May it be for those of Jewish blood and for all of us a year of peace and happiness. May it open wider the door of common understanding and respect. May it signal a new era of world progress when all men acknowledge the supremacy of God's laws, and when all men follow the code of brotherly love.

My best wishes for a Happy New Year!

JOHN B. HYNES,
Mayor.

* Contract awarded.

PUBLIC WORKS DEPARTMENT.

Upon September 22 the Mayor approved a contract as requested in the following letter:

Boston, September 21, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On September 4, 1954, proposals for bituminous concrete pavement in Ansonia road, Ward 20; Bowditch road, Ward 19; Cricket Lane, Ward 20; Highfield road, Ward 18; Ledgewood road, Ward 20; Searle road, Ward 20, and such additional locations, if any, in Wards 18, 19, and 20 as may be designated by the Commissioner of Public Works were publicly invited. On September 16, 1954, the bids received, publicly opened and read, were as follows:

J. D'Amico, Inc., \$69,734.10; Dooley Brothers, Inc., \$70,416.40; Brookley Construction Corporation, \$74,865.50; P. V. Barone Corporation, \$75,240.90; James A. Susi, \$76,147.60; Adams Asphalt Company, Inc., \$76,149; S. J. Tomasello Corporation, \$77,732.95; Rufo Construction Company, \$79,516.20; Carriere Construction Company, \$73,629.

As a result of a clerical error in submitting the copy of its bid with the City Auditor, J. D'Amico, Inc., did not set forth its price for one of the contract items of work, namely, the furnishing and erecting of a certain amount of steel beam guard rail, although its grand total price for the whole job includes the cost of this phase of the work. However,

the firm's proposal as submitted to this department was entirely complete.

Therefore, in order to take advantage of the lowest price submitted for the entire project, your authorization is requested to reject all the bids received, to dispense with additional advertising and to award the contract for the above-mentioned work at the unit prices submitted, which prices the firm now offers anew, to J. D'Amico, Inc., 49 Ellison avenue, Dorchester, in the total amount of its bid as filed with the Public Works Department, namely, \$69,734.10 plus 25 per cent thereof, thereby making the proposed contract amount a sum not to exceed \$87,167.62.

Twenty-five per cent was added to the contract sum as herein proposed, in order to provide for expenditures for additional quantities of the contract items of work which may become necessary as the work progresses.

Respectfully submitted,

GEORGE G. HYLAND,
Commissioner of Public Works.

Upon September 23 the Mayor approved a contract with John F. Shea Company, Inc., for roof repairs to the office and storage building, 8 Atkinson street, Boston, the Charlestown Bridge draw house, and the Northern Avenue Bridge draw house, at an estimated cost of \$2,030.

The work to be done under this contract is to be completed within three weeks from the date of order to commence work.

The proposal for doing the above work was publicly opened and read September 17, 1954. There was only one bidder.

Upon September 27 the Mayor approved a contract with Susi & DeSantis Company, Inc., for sewerage works in Derry road and outlet in Westminster street, Hyde Park, at an estimated cost of \$14,955, including concrete pipe. The work to be done under this contract is to be completed within 90 days after the contract is approved by the Mayor. The following bids were received September 22:

Including Clay Pipe.—Susi & DeSantis Company, Inc., \$14,980.50; P. DiMascio, Inc., \$17,817.50; D. F. Frangioso & Co., \$17,732; Ricci & DeSantis Company, Inc., \$16,267; H. DiTullio & Sons, Inc., \$18,645; R. A. Buccella & Sons, Inc., \$18,832.50; D. Federico Company, \$19,450; Z. & S. Construction Company, Inc., \$19,720; Roslindale Contracting Company, \$19,687.50; C. Russo, Inc., \$20,980.

Including Concrete Pipe.—Susi & DeSantis Company, Inc., \$14,955; P. DiMascio, Inc., \$17,647.50; D. F. Frangioso & Co., \$17,647; Ricci & DeSantis Company, Inc., \$16,403; H. DiTullio & Sons, Inc., \$18,475; R. A. Buccella & Sons, Inc., \$18,821; D. Federico Company, \$19,416.50; Z. & S. Construction Company, Inc., \$19,550; Roslindale Contracting Company, \$19,645; C. Russo, Inc., \$20,810.

Upon September 27 the Mayor approved a contract with N. Bevilacqua & Son for sewerage works in Atwill road, West Roxbury, and outlet in private land to Richwood street, at an estimated cost of \$7,346, including concrete pipe.

The work to be done under this contract is to be completed within 60 days after the contract is approved by the Mayor. The following bids were received September 22:

Including Clay Pipe.—N. Bevilacqua & Son, \$7,346; Roslindale Contracting Company, \$8,498.75; Joseph Capone & Son, \$8,861.50; H. DiTullio & Sons, Inc., \$9,361; D. Federico Company, \$10,980.60.

Including Concrete Pipe.—N. Bevilacqua & Son, \$7,346; Roslindale Contracting Company, \$8,159.75; Joseph Capone & Son, \$8,516; H. DiTullio & Sons, Inc., \$8,670; D. Federico Company, \$10,845.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, supply houses, etc., for furnishing labor and supplies. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, September 21, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Penal Institutions Department has submitted a requisition to this office for one "Sea-Skiff" hull with equipment as specified. This hull is to replace the one that was sunk and broken as a result of the August 31 hurricane.

Ralph P. Lowell, doing business as Hiram Lowell & Sons, 459 Main street, Amesbury, Mass., has submitted an informal written quotation on the type of hull suitable for replacement on the engine of the Penal Institutions Department.

Inasmuch as this hull is the exact size required and since the Commissioner has stated that this type will give the most satisfactory service, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Ralph P. Lowell, doing business as Hiram Lowell & Sons. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$1,975, f.o.b. Amesbury, Mass., net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, September 21, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On June 18, 1954, as a result of my prior letter dated June 15, 1954, your Honor approved the awarding of a contract to R. W. LeBaron, Inc., for certain traffic signal equipment at \$3,678.80, a price which this firm had submitted following the public advertising.

As recounted in my earlier communication, a contract in the amount of \$2,540 had been executed with the Marbelite Company, Inc., for this equipment and was canceled by the city when the contractor failed to make delivery.

Since the formal execution of the original contract effected a rejection of all other bids, it is now requested that my communication of June 15, 1954, be hereby amended to include an authorization to dispense with public advertising and to award a contract, without public ad-

vertisement, to R. W. LeBaron, Inc., in the amount of \$3,678.80, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, September 13, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Due to the extensive damage to the Boston Trade High School, which resulted from the hurricane of September 11, 1954, it is imperative to engage the services of a contractor to effect repairs which are vitally needed.

Much of the damage which took place because of the flood waters created havoc and damage to the electrical system and to the building and is a menace to the health of the pupils, teachers, and others using the building, and therefore, in order to have the damage corrected as expeditiously as possible and without the delay which would be unavoidable if public advertising took place, I respectfully request your authorization to dispense with public advertising for proposals and to engage the services of D. Antonellis, Inc., 15 Sparhawk street, Brighton, Mass., by written contract, to perform emergency work and repair of hurricane damage, exclusive of electrical repairs, as will be specified in the contract, at the Boston Trade High School, in an amount not to exceed \$9,500.

It is to be noted that the amount set forth in the foregoing represents the best estimate that the department can make of the probable cost of the emergency work and repair of hurricane damage, exclusive of electrical repairs, needed to be done at the above school, and it is entirely conceivable that as the work progresses it may become apparent that the actual cost of the repairs will be in excess of the amount stated in the contract. Therefore, if this circumstance should occur, I would request from your Honor in writing authorization to increase the particular contract amount as may become necessary.

Very truly yours,

EDWARD M. O'FLAHERTY,
Acting Superintendent of Construction.

HEALTH DEPARTMENT.

BOSTON, September 20, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Your approval is respectfully requested for the City of Boston to enter into a contract with the Animal Rescue League of Boston, for one year from October 1, 1954, under the following agreement:

The Animal Rescue League of Boston agrees, for the term of one year beginning October 1, 1954, to board for the necessary period of quarantine all dogs which during said year may be quarantined at said Animal Rescue League by the City of Boston or by said corporation at the direction of the City of Boston; and the Animal Rescue League further agrees for the said term of one year from October 1, 1954, to perform the work necessary for complete rabies control in the City of Boston, such as the Health Department of said city may designate, for the sum of \$8,000.

The Animal Rescue League has been performing this work since 1941 to the entire satisfaction of the Boston Health Department, and the contract for the year

just ending was approved on an identical basis. Inasmuch as this organization is the only one in Boston equipped to perform this service, your authorization to dispense with advertising is also requested.

Yours respectfully,

JOHN H. CAULEY, M.D.,
Health Commissioner.

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 17, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

I respectfully request your permission to enter into a contract, without publicly advertising for bids, with John M. Gray Company, 169 High street, Boston, for architectural services for the preparation of plans and specifications for the proposed "New Laundry and Alterations to Dover Street Bath House, Dover Street, Boston, Mass."

It is estimated that the new laundry building will cost \$126,400; equipment for the laundry, \$28,429; and the alterations to the existing bath house, \$45,850; making a total estimated cost of \$200,679.

We have funds available for this purpose in the amount of \$179,160.95 and are being allocated an additional amount of \$75,000 from a forthcoming bond issue. As the plans and specifications to be drawn up for this work will take some time, it is imperative that the architect be given a contract now so that he may proceed at once to prepare plans and specifications. We will then be ready to advertise for bids, without delay, when the total amount necessary for the work is made available.

The architect's fee is to be 7 per cent of the amount of the construction costs, exclusive of the equipment allowance, or an approximate sum of \$12,058. The standard architects' fees are 6 per cent on new construction and 10 per cent on alterations. The 7 per cent figure was arrived at by averaging the estimated amount of new construction work at 6 per cent with the estimated amount of alteration work at 10 per cent. As architects' fees are established at standard rates, we believe that nothing would be gained by publicly advertising.

The John M. Gray Company is a well-known architectural firm which has had considerable experience in preparing plans for this type of work as well as other structures of all types. They have been engaged by this department in the past, and we have always found their work to be satisfactory.

In view of all this, I therefore request your approval of the award of the architectural contract to John M. Gray Company for the aforementioned work at the established 7 per cent of the construction costs, as stated above, or approximately \$12,058—the same to be charged to Construction of Buildings and Original Equipment and Furnishings Thereof (Non-revenue 6-61-41 Parks and Recreation Department).

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

REAL PROPERTY DEPARTMENT.

BOSTON, SEPTEMBER 30, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

MY DEAR MR. MAYOR:

Your approval is respectfully requested for the award of a contract, without advertising, in the amount of \$1,297, to H. A. Smith, 39-41 Rochester street,

Boston, for temporary repairs to roof of Houghton & Dutton Building, Beacon and Tremont streets, Boston, damaged by the hurricane on August 31, 1954.

Since it was essential to prevent water damage to our lessee's (United States Government) property inside the building, work had to be commenced immediately after the storm.

Respectfully yours,

HERMAN CARP,
Commissioner of Real Property.

SUFFOLK COUNTY.

COURT HOUSE COMMISSION.

BOSTON, September 22, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MAYOR HYNES:

The Court House Commission requests your permission to award a contract, without advertising, to D. Antonellis, for relining one boiler with interlocking brick on a uni-suspended steel frame at a price of \$2,430. This work was ordered by the boiler inspector and must be done before the heating season begins.

Due to the intense heat, the lining, which has been in service for a number of years, has cracked and is in danger of falling off, leaving the steel frame, which would be badly warped by the heat. This might necessitate the installation of a new steel frame at further cost.

The commission feels that nothing will be gained by advertising since D. Antonellis is an expert in this specialized work, having done the boiler work for the School Department for many years.

Very truly yours,

COURT HOUSE COMMISSION,
by ARNO I. DREW,
Chairman.

EXTRA WORK UNDER
CONTRACT.

PUBLIC WORKS DEPARTMENT.

J. D'Amico, Inc., has been directed to perform the following extra work under the contract for bituminous concrete pavement in Billings street, Gould street, and Hemlock road, dated August 2, 1954:

In Billings street, construct one concrete step including forms and materials for lump sum of \$25. Remove about 14.5 linear feet of straight edgestone that has been set, including cutting and drilling of edgestone and the regrading of sidewalk area for \$2 per linear foot. Removal of above edgestone due to change in driveway location. Estimated cost of extra work, \$54.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract (approved August 10, 1954) with Joseph F. Dwyer for installing HRT Boiler in the Boston Trade High School, from September 30, 1954, to October 30, 1954.

This extension was requested because of delay in delivery of materials from supplier.

Approval has been given for the extension of the time of completion of the contract (approved August 16, 1954) with Supply Service Company for repairs and locker removals in various schools, from September 15, 1954, to October 30, 1954.

This extension was requested because due to work being done at building by another contractor, this work could not be completed on time.

PROCEEDINGS OF CITY COUNCIL.

Friday, September 17, 1954.

Meeting of the City Council, acting as County Commissioners, held in the Council Chamber, City Hall, at 11 o'clock A.M., for a public hearing relative to security measures prevailing at Charles Street Jail. President WHITE in the chair. Absent, Councillors Foley, Hailer, McCormack.

The meeting was opened with the salute to the Flag.

The City Clerk read the following:

Ordered, That the City Council, acting as the Board of County Commissioners, hold a public hearing relative to security measures prevailing at the Charles Street Jail and the recent jail delivery at that institution on Friday, September 17, 1954, at eleven o'clock A.M., in the City Council Chamber, and that Sheriff Frederick R. Sullivan and District Attorney Garrett H. Byrne of Suffolk County be invited to attend.

In City Council August 30, 1954. Passed.
Attest:

W. J. MALLOY,
City Clerk.

The Chair announced that he was informed by the City Clerk that he had mailed copies of the above order to Sheriff Sullivan and District Attorney Byrne.

The City Clerk also read the following:

City of Boston,

Law Department, September 14, 1954.

City Council,
City Hall, Boston, Mass.

Gentlemen:

By an order passed August 30, 1954, your Honorable Body has requested me "to define the powers of the Boston City Council, acting as County Commissioners, in matters of personnel and property pertaining to the County of Suffolk."

Since, by virtue of St. 1948, c. 452, s. 17G (as appearing in St. 1951, c. 376, s. 1), neither the City Council nor any member, committee, officer or employee thereof shall directly or indirectly take part in the appointment or removal of any county employee nor in the conduct of the executive or administrative business of the county, I am of the opinion that so far as the personnel of Suffolk County are concerned, the City Council has, in addition to its familiar power to make appropriations for the payment of such personnel, only those specific powers expressly vested by special statutory provisions such as G. L. (Ter. Ed.) c. 35, s. 56, pertaining to the County Classification and Compensation Plans, and G. L. (Ter. Ed.) c. 152, s. 69, relative to determination of the classes of county employees to be covered by the so-called Workmen's Compensation Act.

By virtue also of the above-cited St. 1948, c. 452, s. 17G, neither the City Council nor any member, committee, officer or employee thereof shall take part directly or indirectly in the purchase of materials, supplies or real estate, nor in the construction, alteration or repair of any public works, buildings or other property, nor in the care, custody or management of the same. In view of this, I am of the opinion that except where a special statutory provision grants other power in a particular situation, the City Council merely has power to make appropriations for the acquisition of property for county use and to authorize its transfer or sale when it is no longer required for such use. In this connection, I might state that title to the real estate used for county purposes is actually in the city.

In trying to comply with your request in this instance, I have been handicapped by the absence of any reference in your request to a specific question confronting your Honorable Body. I must ask your indulgence, therefore, if my reply fails to cover a specific question which you may have in mind.

Respectfully,

WILLIAM L. BAXTER,
Corporation Counsel.

The communication was referred to the next public hearing held by the City Council, acting as County Commissioners.

The City Clerk also read the following:

The Commonwealth of Massachusetts,
County of Suffolk, Sheriff's Office,

Mr. Walter J. Malloy,
City Clerk.

Dear Sir:

I must reluctantly decline your invitation to attend a hearing in the Council Chamber

on Friday, September 17, 1954, which would deal with security measures at the jail because of proceedings currently before the grand jury and the cases relative to jail personnel which are to be heard before the courts.

However, I wish to draw your attention to chapter 126, section 1 of the Annotated Laws of Massachusetts which prescribes that County Commissioners acting as inspectors of prisons "shall twice in each year, at intervals of not exceeding eight months, themselves or by a committee of two of their members, visit all the prisons in their county, and fully examine into everything relative to the government, discipline and police thereof."

I shall be very happy to have the Council or any committee thereof make such an inspection at its convenience.

Yours very truly,

FREDERICK R. SULLIVAN, Sheriff.

The communication was referred to the next public hearing held by the City Council, acting as County Commissioners.

On motion of Councillor HURLEY, the City Council, acting as County Commissioners, voted that when it adjourn it adjourn until after the grand jury has made its findings in its investigation of the matters which are the subject of this hearing.

Coun. PIEMONTE moved that the President of the City Council be requested to invite the Corporation Counsel or his representative to be present at any future meetings of the Council, acting as County Commissioners, with reference to the subject matter of this hearing. The motion was passed.

On motion of Councillor Ahearn, the City Council, acting as County Commissioners, voted at 11.30 A.M. to adjourn the public hearing subject to the call of the President.

Monday, September 20, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President WHITE in the chair. Absent, Councillor Foley.

The Reverend Robert L. Ryer, of the Church of the Blessed Sacrament, Jamaica Plain, was escorted to the rostrum.

INVOCATION BY REV. ROBERT L. RYER.

Omniscient Father, Who knowest the innermost secrets of the hearts of men, sanction among us, we pray Thee, full and generous expression of ideas and honest differences of opinion, but never allow us, no matter what the provocation or temptation may be, to lose sight of our greatest national heritage—our common creed—the American way of life. Amen.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

ILLUMINATION ON JOHN HARVARD MALL, CHARLESTOWN.

The following was received:

City of Boston,

Office of the Mayor, September 20, 1954.

To the City Council.

Gentlemen:

I transmit herewith communication from the Commissioner of Public Works in regard to your order of August 30, 1954, relative to surveying conditions on the John Harvard Mall, running from Main street to Harvard street, Charlestown, for the purpose of determining the need for proper illumination.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Public Works Department,

September 9, 1954.

Harold B. Flemming,

Chief Clerk, Mayor's Office.

Dear Mr. Flemming:

This is in reference to the following order that was passed in the City Council under date of August 30:

"Ordered, That his Honor the Mayor be requested to direct the Public Works Commissioner to survey conditions on the John Harvard Mall, running from Main street to Harvard street, Charlestown, for the purpose of determining the need for proper illumination."

An immediate survey will be made to determine the necessity of providing additional lighting facilities on the above-referenced John Harvard Mall.

You may be assured that every reasonable effort will be made—within the next six or seven weeks—to install whatever additional lights are determined as being necessary to provide adequate lighting facilities in this area.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

APPROPRIATION FOR OFF-STREET PARKING FACILITIES AT MATTAPAN SQUARE.

The following was received:

City of Boston,

Office of the Mayor, September 20, 1954.
To the City Council.

Gentlemen:

I send you herewith an order for the transfer of \$40,000 from the Parking Meter Fund account for the acquisition, construction, and maintenance of an off-street parking site at Mattapan square.

This particular site is very adaptable for local off-street parking. The area in question will accommodate 75 cars and is immediately adjacent to the main shopping stores at Mattapan square. It will be necessary to take two older type dwellings, each of which has one tenant.

Mattapan square is one of the busiest local shopping areas in the city. The problem of accommodating shoppers who drive cars into the square has become a very acute one. In order that the local businessmen may not suffer because of the lack of parking accommodations, and because it is our desire to maintain proper values in these shopping centers, I most respectfully request that the accompanying order be given approval by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Real Property Department,
June 21, 1954.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Real Property Board held on June 10, 1954, on motion duly made and seconded, it was unanimously

Voted, That the chairman be, and he hereby is, directed to write to his Honor the Mayor requesting that he present an order to the City Council asking for the transfer of funds from the Parking Meter Fund surplus to the Real Property Department for acquisition, construction, and maintenance of the off-street parking site at Mattapan square, \$40,000.

Mattapan Square.

Location: River street and Blue Hill avenue (as per plot plan attached hereto).

Area: 27,420 square feet.

Number of cars: 75.

Cost of land, approximately..... \$16,000

Cost of improvement, approximately..... 24,000

Total..... \$40,000

This site has not only been studied by the Boston Traffic Commission, the City Planning Board, and the Real Property Board, but has also been recommended by the Board of Trade in Mattapan.

Two dwellings are to be taken, with only one tenant in each dwelling. Both buildings are in somewhat dilapidated condition and are assessed very low.

Respectfully submitted,

HERMAN CARR,
Chairman, Real Property Board,
Commissioner, Real Property Department.

(Annexed hereto is a plot plan referred to in the above communication.)

Ordered, That under the provisions of section 22B of chapter 40 of the General Laws, as established by chapter 776 of the Acts of 1949, the sum of \$40,000 be, and hereby is, appropriated from the special account "Parking Meter Fees," to be expended by the Board of Real Estate Commissioners for acquiring off-street parking areas and facilities and constructing or reconstructing and resurfacing such areas and facilities in the Mattapan Square district.

Referred to the Committee on Appropriations and Finance.

TRANSFER OF APPROPRIATION TO PUBLIC CELEBRATIONS.

The following was received:

City of Boston,

Office of the Mayor, September 20, 1954.

To the City Council,

Gentlemen:

I submit herewith an order providing for a transfer from the Reserve Fund of \$25,000 to the appropriation for Public Celebrations.

I am advised by the Director of Public Celebrations that the present unexpended balance in the appropriation is fully encumbered and that to carry on to the end of the current fiscal year the additional funds provided by this transfer will be necessary.

I respectfully recommend the adoption of this order by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$25,000, to the appropriation for Public Celebrations, \$25,000.

Referred to the Executive Committee.

TRANSFER OF CERTAIN LANDS TO COMMISSIONER OF REAL PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, September 20, 1954.
To the City Council.
Gentlemen:

I transmit herewith communications received from George G. Hyland, Commissioner of Public Works, and Francis X. Cotter, Fire Commissioner, relative to the disposal of certain city lands no longer required for public purposes.

A recent survey undertaken by the Administrative Services Department has disclosed that there are a number of parcels owned by the city for which it has no use and which should, in the best interest of the city, be offered for public sale. I am submitting, therefore, five separate orders for your adoption which will permit the sale at public auction of the following parcels:

Approximately 485,404 square feet of land on the westerly side of Truman Highway, Hyde Park district, formerly known as the Hyde Park Waterworks land; approximately 82,533 square feet of land and flats, together with the structures thereon, located on the southwesterly side of Sumner street in the East Boston district, known as North Ferry Landing, including the portion thereof containing 430 square feet leased to the United States of America by indenture dated January 4, 1952; approximately 56,771 square feet of land and flats, together with the structures thereon, situated at the southwesterly end of Lewis street, East Boston, known as the South Ferry Landing; approximately 25,440 square feet of land, together with the structures thereon, situated at the easterly end of Eastern avenue, known as the South Ferry Landing; and approximately 1,893 square feet of land, together with the building thereon, on the southwesterly side of East street, corner of East Street place, Boston Proper.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
September 20, 1954.
To the Honorable the Mayor and City Council of Boston.
Gentlemen:

The following properties in the charge of this department are no longer required for public purposes, and it is my recommendation that they be transferred to the Commissioner of Real Property for the purpose of public sale:

Approximately 485,404 square feet of land on the westerly side of Truman Highway, Hyde Park district, formerly known as the Hyde Park Waterworks land; approximately 82,533 square feet of land and flats, together with the structures thereon, located on the southwesterly side of Sumner street in the East Boston district, known as North Ferry Landing, including the portion thereof containing 430 square feet leased to the United States of America by indenture dated January 4, 1952; approximately 56,771 square feet of land and flats, together with the structures thereon, situated at the southwesterly end of Lewis street, East Boston, known as the South Ferry Landing; approximately 25,440 square feet of land, together with the structures thereon, situated at the easterly end of Eastern avenue, known as the South Ferry Landing.

Respectfully,
GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston,
Fire Department, August 30, 1954.
Hon. John B. Hynes and City Council.
Gentlemen:

There is in the control of this department land and building at East street, Boston Proper, formerly occupied by Engine Company 7. The transfer of Engine Company 7 to the new fire station at Fort Hill square rendered the property no longer necessary for public purposes, and I, therefore, recommend that it be transferred to the Commissioner of Real Property for public sale.

Respectfully,
FRANCIS X. COTTER, Fire Commissioner.

Whereas, The City of Boston is the owner in fee of approximately four hundred and eighty-five thousand four hundred and four (485,404) square feet of land on the westerly side of Truman Highway in the Hyde Park district of the City of Boston, formerly known as the Hyde Park Waterworks, and now held by said city for Public Works Department purposes; and

Whereas, The Commissioner of Public Works has determined that said parcel of land is no longer required for public purposes; now, therefore, it is hereby

Ordered, That the above-mentioned parcel of land be, and the same hereby is, transferred from the care, custody, control and management of the Public Works Department to the care, custody, control and management of the Commissioner of Real Property.

Whereas, The City of Boston is the owner in fee of approximately eighty-two thousand five hundred and thirty-three (82,533) square feet of land and flats, together with the structures thereon, situated on the southwesterly side of Sumner street in the East Boston district, known as North Ferry Landing and held by said city for Public Works Department purposes; and

Whereas, The Commissioner of Public Works has determined that the land and structures known as North Ferry Landing, above described, are no longer required for public purposes; now, therefore, it is hereby

Ordered, That the land and structures known as North Ferry Landing above described, including the portion thereof containing 430 square feet leased to the United States of America by indenture dated January 4, 1952, be, and the same hereby is, transferred from the care, custody, control and management of the Public Works Department to the care, custody, control and management of the Commissioner of Real Property, excepting therefrom so much of said land as is required by said city for the purposes of operating and maintaining the vehicular tunnel from Boston to East Boston.

Whereas, The City of Boston is the owner in fee of approximately fifty-six thousand seven hundred and seventy-one (56,771) square feet of land and flats, together with the structures thereon, situated at the southwesterly end of Lewis street in the East Boston district of the City of Boston, presently held by said city for Public Works Department purposes, and known as the South Ferry Landing; and

Whereas, The Commissioner of Public Works has determined that the South Ferry Landing is no longer required for public purposes; now, therefore, it is hereby

Ordered, That the land and structures known as South Ferry Landing, above described, be and the same hereby is, transferred from the care, custody, control and management of the Public Works Department to the care, custody, control and management of the Commissioner of Real Property.

Whereas, The City of Boston is the owner in fee of approximately twenty-five thousand four hundred and forty (25,440) square feet of land, with structures thereon, situated at the easterly end of Eastern avenue, Boston Proper, known as the South Ferry Landing presently held by said city for Public Works Department purposes; and

Whereas, The Commissioner of Public Works has determined that the South Ferry Landing is no longer required for public purposes; now, therefore, it is hereby

Ordered, That the land and structures known as South Ferry Landing, above described, be, and the same hereby is, transferred from the care, custody, control and management of the Public Works Department to the care, custody, control and management of the Commissioner of Real Property.

Whereas, The City of Boston is the owner in fee of approximately one thousand eight hundred and ninety-three (1,893) square feet of land, together with the building thereon, on the southwesterly side of East street, corner of East Street place, Boston Proper, held by said city for Fire Department purposes; and

Whereas, The Fire Commissioner has determined that said land and building are no longer required for public purposes; now, therefore, it is hereby

Ordered, That the above-described parcel of property be, and the same hereby is, transferred from the care, custody, control and management of the Fire Department to the care, custody, control and management of the Commissioner of Real Property.

REGRET AT DEATH OF DR. JAMES W. MANARY.

Coun. HURLEY, for all members of the Council, offered the following:

Whereas, Dr. James W. Manary gave to the people of the City of Boston 47 years of outstanding public service at the Boston City Hospital; and

Whereas, Dr. Manary's outstanding service and record of accomplishments started with the position of intern, and continued through every promotional stage, including resident doctor, assistant superintendent, to, finally, the important and

difficult position of Superintendent and Medical Director, which he carried out faithfully and well for over 19 years; and

Whereas, His outstanding work and great humanitarian efforts caused the authorities of Boston College in their wisdom to confer upon him the honorary degree of Doctor of Science; and

Whereas, Countless thousands of citizens of Boston, of Massachusetts, and of New England were aided, assisted, and cared for at the Boston City Hospital under his guidance and direction; and

Whereas, His contributions to the expansion and successful operation of the hospital were recognized by everyone in the city; and

Whereas, He retired some two months ago to a well-deserved rest with the anticipation of writing a history of the Boston City Hospital and making a trip around the world; and

Whereas, The Almighty God in his infinite wisdom has called Dr. Manary to his heavenly reward; be it therefore

Resolved, That the Boston City Council, in meeting assembled, notes with deep and heartfelt sorrow the untimely passing of Dr. Manary, and extends to Mrs. Manary, his widow, the sympathy of the members of the City Council and the Council staff who worked so harmoniously with the good doctor in behalf of the citizens of Boston, and prays that the inspiration of Dr. Manary's life and work at the City Hospital will be a continuing source of inspiration and guidance to all those who direct, guide, and work at the hospital. As the Boston "American" well stated in an editorial written on Dr. Manary's retirement, entitled "We'll Miss Them," referring to Dr. Manary's and another's retirement: "The 47 years Dr. Manary spent as a member of the City Hospital staff, 17 of them as the Institution Superintendent, will be called the Golden Age of Medicine by the historians of the future. The hard work and inspiring leadership of Dr. Manary contributed much more to that progress than any layman realizes." We will truly miss him and pray Almighty God that his soul will rest in peace.

The resolution was adopted by a unanimous rising vote.

WIDENING CUMMINS HIGHWAY.

The Public Improvement Commission has ordered a public improvement consisting of the widening and construction of Cummins Highway, West Roxbury district, as a highway, at the southeasterly corner of Washington street, bounded and described as follows:

The highway named Cummins Highway is hereby widened at the southeasterly corner of Washington street, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees, shrubs, or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the City of Boston, bounded:

Westerly by Cummins Highway, by two measurements, 16.53 feet and 23.14 feet on a curved line; northerly by Washington street, 16.53 feet; and easterly by the easterly line of Cummins Highway as widened under this order, 49.37 feet on a curve of 32 feet radius; containing 97 square feet, more or less.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty days following a notice of the city's

intention to enter upon said land for the purpose of constructing said improvement.

Said Cummins Highway as hereby widened is bounded:

Westerly by the easterly line of Cummins Highway, as it existed prior to this order, by two measurements, 16.53 feet and 23.14 feet on a curved line; northerly by the southerly line of Washington street as it existed prior to this order, 16.53 feet; and easterly by the easterly line of Cummins Highway as hereby widened, 49.37 feet on a curve of 32 feet radius; containing 97 square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this commission, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published August 6, 7, 9, and 10, 1954, in the *Boston American* and *Boston Globe*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Cummins Highway, Dorchester district, between Woodhaven street and River street, consisting of the reduction in width of the existing sidewalks and the installation of a traffic divisional island, as shown on a plan marked "City of Boston, Cummins Highway, Dorchester, September 2, 1954, James W. Haley, Chief Engineer, Survey Division, Public Works Department," and on file in the office of the Public Works Department.

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the widening and construction of Cummins Highway, at the southeasterly corner of Washington street, as a highway, under the order of the commission of August 23, 1954, and awards no damages therefor.

City of Boston, 97 square feet, nothing.

STREET CONSTRUCTION IN WEST ROXBURY.

The Public Improvement Commission has ordered a public improvement consisting of the laying out and construction of Cable street and Merriam street, West Roxbury district, as a highway, from Minton street to Brookside avenue, with the name of Cable street or some other distinctive name, bounded and described as follows:

A highway named Merriam street is hereby laid out from Brookside avenue to Stony Brook and over Cable street to Minton street, and ordered constructed.

Said highway and the land, exclusive of trees, shrubs, or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Part between Brookside avenue and Stony Brook:

Southeasterly by Brookside avenue, 40.43 feet; southwest by the southwesterly line of Merriam street as hereby laid out, 293.04 feet; northwesterly by Stony Brook, 40.97 feet on a curve of 566 feet radius; and northeasterly by the northeasterly line of Merriam street as hereby laid out, 307.80 feet.

Part over Cable street to Minton street:

Northeasterly by another part of Merriam street, 35.01 feet; southeasterly by the southeasterly line of Merriam street as hereby laid out, 210.08 feet; southwesterly by Minton street, 35.01 feet;

and northwesterly by the northwesterly line of Merriam street as hereby laid out, 210.08 feet.

Trees, shrubs, or structures standing upon or affixed to the aforescribed land shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting parcels of land situated on both sides of Merriam street, from Brookside avenue to Stony Brook and over Cable street to Minton street, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this Commission.

has issued the following statement in connection with the observance of this week:

"The citizen can prevent fires, and this week of fire prevention is purposefully to bring to his attention his responsibility to eliminate the breeding places of fire. If he will make his own home safe, he will protect his own life, the lives of his family and his friends, and safeguard his property. Fire prevention is everybody's business."

An organized campaign to emphasize the importance of fire prevention is being undertaken by the Boston Fire Department, by means of a series of activities concentrated into the Fire Prevention Week period.

Fire stations shall be open to the public between the hours of 12 noon and 8 P.M. for inspection of the premises and for the conveyance of information concerning the Fire Department functions and fire prevention matters. When citizens come to a station during Fire Prevention Week, the man on house patrol shall summon the commanding officer, who should be available and ready to either show the visitors around the quarters and to answer questions regarding the department, or to have a suitable person assigned to this duty.

Children under twelve years of age should not be allowed in the fire stations unless accompanied by adults.

Canvas signs giving notice that Fire Prevention Week is in progress should be displayed from fire stations. Most stations have these signs in their possession from exhibitions of previous years, and it is the responsibility of company officers to see to it that these signs are kept in good condition from year to year. Signs should be displayed from Sunday to Saturday.

District chiefs are required to take an active interest in the fire prevention program in the following manner:

(a) By arranging special visits to plants and large industrial premises in their districts during the week and holding a special fire drill during Fire Prevention Week, particularly where there are now fire brigades already existing. Notices of the date of the fire drill held and the rating of the drill as either "Fair," "Poor," or "Good" should be forwarded to the Fire Prevention Division so that a summary may be made of the number and location of industrial fire drills conducted in the City of Boston during Fire Prevention Week, on each day of the week.

(b) All public and private schools within each district should be visited by a district chief or such officer as may be detailed by the district chief to assist in this work. School fire drills are to be held and permission should be obtained for the presentation of a five-minute talk on the subject of fire and fire prevention at an assembly of the pupils. Such talks should not be read from any manuscript or printed pamphlet, but should be delivered directly by the district chief or by some uniformed member of the Fire Department capable of presenting such a talk effectively and promptly.

(c) Home inspection blanks should be provided to various school principals or head masters for distribution and collection by the teacher-fire councillor of the building. Collection of the filled-out home inspection blanks from teacher-

councillors by the Fire Department is an important feature of the use of these forms and should not be neglected. A list of the schools from which such forms have been collected should be forwarded to the Fire Prevention Division on or before October 27.

(d) Officers assigned by the district chief to deliver addresses in schools likewise should be assigned to attend Rotary Clubs, Kiwanis, Board of Trade, and other neighborhood and local organization functions, including women's club meetings in the district held during the week, or, if no meeting is scheduled during the week, to attend any meeting held during the month of October. Chief officers should know the various representative social organizations in the community and should keep a list of them for reference at such times when fire prevention messages of importance to the community are to be conveyed to such organizations quickly.

Throughout the week all fire fighters are to pay special attention to the observance of fire hazards and to the duty of observing and locating fire hazards along the route followed by them in their coming to and going from daily work. Dilapidated buildings, rubbish accumulations, and other hazards should be reported to the Fire Prevention Division. The public expects uniformed members of the Fire Department to know something about fire prevention work and to have an interest in this subject, since they are public employees engaged in this field. Fire fighters, therefore, during Fire Prevention Week, should have this subject uppermost in their minds and they should not pass by any fire hazard at any time without making a note of it for reference to the Fire Prevention Division. In short, every uniformed man in the Fire Department is a fire prevention inspector at all times.

An extensive program of radio and television broadcasts, news releases, store window displays, parade, and public exhibitions, has been arranged for Fire Prevention Week, notice of which will appear through the usual channels.

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

Special Order 72, September 30, 1954.
From: The Chief of Department.
To: Deputy Chiefs, Divisions 1 and 2.
Subject: Fire Prevention Parade.

The annual Fire Prevention Parade will be held Sunday afternoon, October 3, 1954. All members of the department off duty Sunday, fire fighters, and members of branch divisions are requested to participate and assemble in Bowdoin square, Boston, at 1:30 P.M. A substantial representation of personnel will enhance the department's Fire Prevention message to the public.

One member shall be detailed from each engine company, engine squad company, ladder company, and rescue company, except the companies that are listed in the line of march. There shall be an officer from each district in this contingent. District chiefs shall arrange for company officers.

At the conclusion of the parade, which will terminate on Boston Common, ad-

adjacent to the Charles Street entrance, a public exhibition of drilling by the members of the Boston Fire Department Exhibition Drill Team will be conducted.

REVISION OF GRADE.

The Public Improvement Commission has ordered a public improvement consisting of the revision of grade in Rockland street, West Roxbury district, as a highway, between Washington street and the Dedham boundary line, bounded and described as follows:

The grade of the highway named Rockland street is hereby ordered revised, between Washington street and the Dedham boundary line.

Voted, That this commission determines that no person sustains damages in his estate by the making of a public improvement consisting of the revision of grade in Rockland street, West Roxbury district, between Washington street and the Dedham boundary line, under the order of the commission of July 7, 1954, and awards no damages therefor.

REPAIRS IN CUMMINS HIGHWAY.

The Mayor has approved the following vote of the Public Improvement Commission:

Voted, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published August 6, 7, 9, and 10, 1954, in the Boston *American* and Boston *Globe*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public necessity and convenience require, does hereby order that specific repairs be made in Cummins Highway, West Roxbury district, consisting of the relocation of the existing sidewalk on the easterly side between Harvard street and a point approximately 100 feet northerly

thereof, as shown on a plan marked "City of Boston, Harvard Street, West Roxbury, September 3, 1954, James W. Haley, Chief Engineer, Survey Division, Public Works Department," and on file in the office of said department.

SEWERAGE WORKS IN WEST ROXBURY.

The Mayor has approved the following votes of the Public Improvement Commission:

Ordered, That approximately 307 linear feet of 10-inch pipe sanitary sewer and 322 linear feet of 10-inch pipe surface drain, at an estimated cost of \$4,800, be constructed in Bellevue street and in Bellevue Hill road easterly, West Roxbury district.

Ordered, That this commission estimates that the undermentioned parcel of land, situated at 73 Bellevue Hill road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, in the amount hereinafter set against it.

Rita M. Struzziery, \$1,000.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

Proposals for Repairs to the Waling and Cross Bracing of the Fort Hill Disposal Station.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairs to the waling and cross bracing of the Fort Hill disposal station. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Repairs to the Waling and Cross Bracing of the Fort Hill Disposal Station," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, OCTOBER 14, 1954, with a certified check for ONE HUNDRED FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(Oct. 2.) Commissioner of Public Works.

CHARLESTOWN BRIDGE CLOSED FOR REPAIRS.

A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Roofing Work at the Blacksmith Shop and Stable, Sanitary Division, 650 Albany Street, Boston," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, OCTOBER 14, 1954, with a certified check for ONE HUNDRED AND FIFTY (150) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

WOOLING FRINGE LOT PARKING PATRONS NOT EASY.

Enticing motoring commuters into fringe parking lots can be a difficult courtship. Recent experience in Washington, Baltimore, Cleveland, and St. Louis indicates that success cannot be achieved unless there is provided an attractive parking-transit fee, frequent bus service between the lot and central business district, and easy approaches to the lot. St. Louis offers a 5 to 7½ minute bus service, no parking fee, and a special 35-cent round-trip fare. Patronage of the 600-car lot is increasing, but a profitable operation has not yet been achieved. However, a survey of 500 of the lot's patrons showed 72 per cent rate the service as "excellent." Three out of four said they arrived closer to their downtown destinations than when they drove in. Private lots in downtown Cleveland are now getting short-term parkers—which produces more revenue for the operator than all-day parkers. In Baltimore the consensus is that fringe parking now "does not work."

Another necessity for cities planning fringe parking lots is the provision of convenient shelters to protect patrons from inclement weather. — *American Municipal Association Report.*

CITY OF BOSTON.

BOSTON HOUSING AUTHORITY.

INVITATION FOR PROPOSALS FOR PAINTING 51 WOOD FRAME HOUSES.

The City of Boston, acting by and through the Boston Housing Authority, Room 303, 230 Congress street, Boston, in accordance with the provisions of chapter 372 of the Massachusetts Acts of 1946, as amended, invites proposals for painting of fifty-one (51) wood frame houses.

A bond will be required for doing the work of a surety company authorized to transact business in the Commonwealth of Massachusetts in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 303, 230 Congress street, Boston. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Painting Fifty-one (51) Wood Frame Houses," and left at Room 303, 230 Congress street, Boston, Mass., before 2 P.M., Eastern Daylight Time, on Monday, October 11, 1954, at which time and place the proposals will be publicly opened and read. Bid security in the sum of 5 per cent of the amount of the proposal in the form of cash or certified check shall accompany each proposal.

Proposals must be made in quadruplicate, one (1) sealed proposal without bid security to be deposited by the bidder with the City Auditor previous to the time made for opening the bids.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Boston Housing Authority. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

The city reserves the right to reject any or all proposals and to waive any informalities either in the bidding or in the proposals, and reserves the right to award the contract or contracts as it deems for its best interest.

No bid shall be withdrawn for a period of thirty (30) days subsequent to the opening of bids without the consent of the city.

CITY OF BOSTON, ACTING BY AND THROUGH THE BOSTON HOUSING AUTHORITY,

OWEN A. GALLAGHER,
Chairman.

PAROCHIAL SCHOOL HEALTH PROGRAM.

This is the first full year the Pure Tone Audiometer has been used in the parochial schools. Before starting its use, the entire staff was given intensive training in the use of the audiometer. The nurse in the school makes all the preparations and helps with the children when the testing is done, but it has been found advisable to have one nurse, who is responsible and specially trained, to do the actual testing. All children in the third grades and also those children referred by the teachers from other grades were tested.

BOSTON TO UNDERTAKE \$4,380,000 SOUTH END CENTER FOR CONVERSION TO BUSINESS—MAYOR JOHN B. HYNES MAKES ANNOUNCEMENT OF PLAN TO CITY COUNCIL—SITE TERMED IDEAL FOR BUSINESS CONVERSION—LARGE SLUM AREA TO BE CLEARED, BOUNDED BY WASHINGTON, ALBANY, AND DOVER STREETS AND BY NEW HAVEN RAILROAD TRACKS—24-ACRE SITE WITH DILAPIDATED TENEMENTS TO BE CLEARED—MAYOR HOPES FOR SPEEDY START ON WORK OF CONVERSION—TO TIE IN WITH CENTRAL ARTERY AS TRUCKING BOOM.

BOSTON'S SCHOOL BUILDINGS SUFFERED HEAVILY FROM RECENT HURRICANES BUT ARE RAPIDLY BEING REPAIRED AND RECONDITIONED—MAYOR ORDERS EMERGENCY WORK DONE SPEEDILY, WAIVING ADVERTISING DELAYS—TWENTY-ONE SCHOOLS AFFECTED.

Due to the havoc wrought by the hurricanes of August and September, repairs have had to be made at twenty of the city schools. This was made known when the Department of School Buildings sought from Mayor Hynes permission to award contracts without advertising to various contractors for the repair work. Contracts were approved as follows:

DAMAGE TO ROOFS.

Choate Burnham School.—H. A. Smith, 39 and 41 Rochester street, Boston, Mass., in an amount not to exceed \$2,959.

DIVISION OF COMPLAINTS TO BE ESTABLISHED FOR CONVENIENCE AND INFORMATION OF CITIZENS.

The following letter has been released by the Administrative Services Department:

Boston, October 4, 1954.

To Department Heads.

Under date of October 20, 1954, it is planned to set in operation a Division of Complaints under the direction and control of this office. You will appreciate that, in order to attain the results anticipated, we must have the cooperation of every division of city government, and in this connection it is requested that you designate an employee in your department to act as liaison

(Continued on page 1233.)

The following communication has been made public by the office of the Mayor:

To the City Council.

GENTLEMEN:

I submit herewith, for consideration by your Honorable Body, the Land Assembly and Redevelopment Plan and Supporting Documentation for the "New York Streets" Redevelopment Project, and communication from the Chairman of the Boston Housing Authority.

The Housing and Home Finance Agency has completed its review of the Plan and Supporting Documentation and has authorized the Boston Housing Authority to submit the Redevelopment Plan to the local governing body for approval in compliance with Title I, Housing Act of 1949, Public Law 171; and then to the State Housing Board for approval in compliance with chapter 121, General Laws of Massachusetts.

Chapter 121 of the General Laws requires also that the Land Assembly and Redevelopment Plan be approved by the City Planning Board. On September 14, 1954, the City Planning Board approved the plan.

After the local approvals required by law have been obtained, the Housing and Home Finance Agency will make an allocation of funds and will execute a Loan and Grant Contract with the Boston Housing Authority for the undertaking of the project.

Cost to Boston \$1,460,080.

The net costs, based upon currently available data, are \$4,380,240, one third of which (\$1,460,080) is the city's share.

The "New York Streets" project area is preponderantly substandard and deteriorating. For many years the area has been undergoing a rapid decline in realty values, while the costs of municipal services to the area have been increasing considerably. The clearance and redevelopment of this area will not only eliminate unhealthful and hazardous conditions which are detrimental to the health, welfare, and safety of our city, but will also enhance and stabilize realty values in the area. New industries will be attracted to the city. Established industries, which are being forced by congestion to consider leaving Boston, will be encouraged to stay.

The clearance and redevelopment of the blighted, deteriorated areas of our city is a very urgent problem which offers a realistic and promising opportunity to solve our municipal financial ills as well as to improve the health, welfare, and safety of our citizenry. Because of this I most respectfully request the prompt consideration of the attached Land Assembly and Redevelopment Plan by your Honorable Body.

The Law Department, in conjunction with the attorneys for the Housing Authority and the Housing and Home Finance Agency, is preparing the Cooperation Agreement and a proposed City Council Resolution which will be submitted to your Honorable Body at a later date, together with the loan order to provide the Local Grants-in-Aid.

Respectfully,

JOHN B. HYNES, Mayor.

PLAN OF PROPOSED SOUTH END DEVELOPMENT.

(Continued from page 1229.)

REDEVELOPMENT PLAN FOR NEW YORK STREETS PROJECT.

Mayor John B. Hynes has submitted the Redevelopment Plan for the first urban redevelopment project to the City Council for its approval. The Mayor announced that the Housing and Home Finance Agency has authorized the Boston Housing Authority to obtain the necessary local approvals for the Redevelopment Plan as required by law.

Under federal and state laws, the Redevelopment Plan must be approved by the City Planning Board, the City Council, and the State Housing Board. (The Redevelopment Plan was approved by the Planning Board on September 14, 1954.)

After these local approvals are obtained, the Housing and Home Finance Agency will make an allocation of funds for the project, and a contract will be executed with the Boston Housing Authority to carry out the project.

The project area, known as the "New York Streets" (because the streets are named after New York cities, such as Albany, Rochester, Oswego, Seneca, etc.), is bounded by Albany street, Dover street, Washington street, and the New York, New Haven & Hartford Railroad tracks at Way and Motte streets.

The project area comprises approximately 24 acres, predominantly residential in character, containing approximately 340 structures and 960 dwelling units, most of which are substandard and decadent. All of the area will be demolished except for a few nonresidential substantial structures which are structurally sound and so located as not to interfere with effective redevelopment of the area. After clearance, the site will be prepared with new streets and utilities and the land sold to private enterprises to be redeveloped for light industry, manufacturing, and commercial uses of a restricted nature. Controls will be exercised to provide off-street parking, off-street loading, land coverage, setbacks, and landscaping, and to prevent objectionable uses in order to protect realty investments and prevent the recurrence of blight.

BLIGHTED AREA.

Mayor Hynes pointed out that it is blight, congestion, and decadent conditions in the central core area of the city which destroy the tax base of the city by causing declining realty values, thereby decreasing city revenues, in addition to increasing the cost of municipal services in these areas. At the present time property values are declining at the rate of \$500,000 each decade in the New York Streets project area. There are 59 lots of vacant land which are city-owned because of tax foreclosures, and a score or more of parcels upon which the city has placed tax liens. These buildings were torn down because they were uninhabitable. These vacant land parcels are unused. It is next to impossible to sell them because the present character of the area does not offer any promise of return on investment.

The present cost of providing municipal services in the area is very high due to the excessive incidence of fire, crime, delinquency, tuberculosis, etc.

The present total taxable valuation in the project area is approximately \$2,200,000. (There is approximately

\$260,000 in tax-exempt property in the project area.) After redevelopment it is expected that the total assessed valuation will amount to more than \$4,000,000. This will mean that tax revenues to the city from the area will be twice the present revenues, while the cost to the city for municipal services will be reduced considerably for police and fire protection, street maintenance, garbage and trash removal, etc. An expected increase of \$125,000 to \$150,000 in taxes from the area after redevelopment will more than amortize the bonds for the payment of the city's share of the project costs. The project is, therefore, not only an excellent investment for the city because it will be self-liquidating but also because there will be increased revenue to the city even while it is being paid for.

STIMULATION TO PROPERTY IMPROVEMENT.

Moreover, the redevelopment of the area will stimulate the improvement of property surrounding the project area, thereby enhancing the peripheral realty values and assessed valuation.

Chairman Owen A. Gallagher of the Boston Housing Authority estimated on the basis of presently available data that the net project cost would be approximately \$4,380,000. Two thirds of this amount, or approximately \$2,920,000, will be provided as a grant by the Federal Government. The remaining one third, approximately \$1,460,000, will be provided by the City of Boston in cash and city-owned land, site improvements, or other services. The city's share of the cost will be made up as follows: Site improvements, such as new streets, water and sewer improvements, etc., are estimated at approximately \$425,000; city-owned land, consisting of tax-foreclosed parcels and an abandoned school, is estimated at approximately \$100,000; a credit of \$275,000 may be allowed by Washington for the Central Artery ramps which will serve the project area, to be constructed by the Department of Public Works, Commonwealth of Massachusetts. This credit, if allowed, will reduce the city's share of the cost. The balance of the city's share of the cost is estimated at approximately \$660,000, and will be provided in cash by the city.

Mayor Hynes emphasized the provisions in both the state and federal laws concerning the relocation of families displaced by the project. The federal law requires a feasible method for the relocation of displaced families into decent, safe, and sanitary homes within their means. By law all displaced families who are eligible for public housing are entitled to priority for public housing. Furthermore, income requirements for public housing have been relaxed for these families in order to make it easier to place them in public housing. The latest survey made in the project area disclosed that the majority of the families in the area were eligible for public housing.

TO RELOCATE FAMILIES.

Those families who are ineligible will be assisted to find decent, safe, and sanitary private housing within their means to pay. A relocation office will be opened in the area when the project is undertaken to assist all displaced families in order to prevent any undue hardships. Approximately 800 families will be displaced, and 189 of these are one-person families.

ESTIMATED TIME SCHEDULE FOR NEW YORK STREETS PROJECT.

City Council approval, State Housing Board approval.....	3 months
Execution of contract with Washington	1 month
Commencement of project, preparation for eminent domain taking, etc.....	2 months

STATISTICAL INFORMATION ON THE CONDITIONS IN THE PROJECT AREA.

Upon the basis of various surveys made by the Authority, and upon examination and analysis by the Authority of various other surveys and studies, including the U. S. Census Reports, the U. S. Census of Housing, and records of the Health Department and Building Department of the city, the Authority finds the following:

A. The project area is an area in which dwellings predominate. The gross area in the project area is 22.3 acres. Of this area 8.1 acres are taken up by public streets, leaving a net area of 14.2 acres in the project area devoted to other uses. This net area is utilized as follows:

Residential—10.1 acres, or approximately 71 per cent.

Industrial—1.4 acres, or approximately 10 per cent.

Commercial—2.7 acres, or approximately 19 per cent.

B. The physical condition and the facilities of the dwelling units in the project area are extremely substandard and obsolete and overcrowded, as is shown by the following statistics:

1. Thirty-six and five-tenths per cent of the dwelling units have no private bath or are dilapidated, as contrasted with a city-wide percentage of 15 per cent.

2. Eighty per cent of the dwelling units have only one means of egress.

3. Ninety per cent of all dwelling units have no central heat.

4. The majority of buildings with dwellings in the project area are over 75 years of age. A survey of Boston Building Department records shows:

Seventy per cent of dwelling structures 75 years or over.

Thirty per cent of dwelling structures 50 to 75 years.

No new dwelling structures have been built since 1907.

5. There are 968 dwelling units in the project area, or 43 per gross acre, as against 7.3 for the entire city. There are 42 families per acre in the project area, versus only 7.3 per acre for the city.

6. Of all dwelling units in the project area only 4.9 per cent are owner-occupied, as compared with a city-wide average of 24.4 per cent.

7. Twenty-one and six-tenths per cent of the dwelling units have more than one person per room in the project area, while the city-wide total is only 1.3 per cent. This shows the overcrowding of the units in the project area.

8. There are 273 residential or predominantly residential structures in the project area, of which 90 per cent are on parcels of less than 1,300 square feet. All of the residential structures cover 90 per cent of the lot upon which they are situated, and all of these structures have no setback from the street line. The area was subdivided in 1844, and the most common lot is 20 by 45 feet in size, with a total of 900 square feet.

9. A sample survey of the project area, using American Public Health Association techniques for housing evaluation, revealed the following:

DWELLING UNIT SCORES.

Grade of Housing.	Penalty Point Score.	Percentage.
Good	0-29	0
Fair	30-59	6.1
Poor	60-89	10.2
Substandard	90-119	30.6
Very substandard	120 or more	53.0
		100.0

Dwelling unit score of 90 or over is considered to be substandard by APHA, and 83.6 per cent are in this category. A score of 50 or more makes the dwelling unit and its structure unsuitable for rehabilitation, and 98 per cent fall into this grouping.

C. For the year 1952 in the project area there were fifteen active cases of tuberculosis which resulted in six deaths, which would give a 0.34 per cent rate, while the city-wide rate was only 0.097 per cent, as revealed by the Boston Health Department. Thus the incidence rate is about four times as high for the project area as for the city as a whole.

D. There is one active welfare case in the project area for every four families, which is 100 per cent higher than the city-wide ratio.

FROM BOSTON HOUSING AUTHORITY, URBAN REDEVELOPMENT DIVISION.

The salient features of the first Urban Redevelopment Project in Boston are as follows:

Name: "New York Streets" Project. (So termed because many of the streets in the district have names of New York municipalities.)

Location: Bounded by Albany, Dover, and Washington streets and the New Haven Railroad.

Total Area: About 24 acres, including streets. Approximately 16 acres for disposal and redevelopment after clearance.

Total Assessed Valuation: About \$2.4 million, less \$260,000 which is tax-exempt. (It has declined 17 per cent in the past ten years, \$506,000 since 1941.)

Character of the District: Predominantly residential. Inharmonious commercial and industrial uses.

Its Present Condition: Largely substandard dwellings. Excessive land coverage and population density. Deteriorated property values. Narrow streets. Commonly considered a "blighted district" in which further deterioration is inevitable unless a program of redevelopment is undertaken.

Public Agency in Charge of Project: Urban Redevelopment Division of the Boston Housing Authority. (Owen A. Gallagher, Chairman of the Authority; Kane Simonian, Chief of Urban Redevelopment.)

Federal and State Laws: *Federal*—Housing Act of 1949, Public Law 171, 81st Congress. *State*—sections 26 JJ-MM, chapter 121, General Laws.

Purposes of the Project: To redevelop a decadent urban district, to eliminate slums, and to provide maximum opportunity for industrial development.

Net Project Cost: About \$4.3 million. (Represents gross cost less \$750,000 from resale of land.)

Division of Cost: Federal Government will make a capital grant of two thirds, or about \$2.9 million. City of Boston will finance the balance, or about \$1.4 million. City's share will consist in part of site improvement and provision of public facilities, and the balance will be in cash.

Number of Families Affected: About 900. The law requires relocation of these families. All except a few will be accommodated in public housing projects.

Initial Procedure: The Authority will take the property by eminent domain (except for a few industrial properties which will be allowed to remain). It will demolish existing buildings, lay out new street pattern, do the necessary landscaping, and lay out new parcels of land for industrial development.

Disposal of Land: The new parcels, totaling 16 acres in area, will be offered for sale or long-term lease to private individuals or firms at fair value of the land. Purchasers will develop the parcels under restrictions as to use, area, etc., prescribed by the Authority. There will be no public expenditure for development of the land; it will be entirely in the hands of private enterprise. After ownership of the land passes into private hands, there will be no tax concessions.

Industrial Advantages: *Accessibility*—the district is close to the heart of the city, within one mile of financial, wool, leather, insurance, retail trade, and garment districts. The Central Artery will run immediately south of the district and connect with it. Rapid transit lines will serve it. *Freedom from traffic congestion*—there will be wider and better laid out streets and provisions for off-street loading and parking. *Nearness of labor supply*.

Anticipated Results: Creation of an ideal area for light industry. Better living for people now residing in the district. Increased property values that will more than repay city expenditures. More than \$4 million in new tax values are anticipated.

Approvals Necessary: Mayor and City Council. State Housing Board. Housing and Home Finance Agency (federal agency).

NATIONAL EMPLOY THE PHYS- ICALLY HANDICAPPED WEEK URGED BY MAYOR.

The following declaration has been issued by Mayor John B. Hynes:

Whereas, Ten years is not a particularly long time in the life of a nation, and yet in this time the movement for employment of the physically handicapped has gained much impetus; and

Whereas, While the past decade has seen increased job opportunities for the handicapped, it has at the same time seen a great increase in the number of handicapped because of the wounds of World War II and Korea, plus the increased highway, industrial, and home accidents of a 60-mile-an-hour civilization; and

Whereas, As with most worth-while objectives the mere favoring of the objective of jobs for the handicapped is not sufficient; and

Whereas, To free men the individual is possessed of dignity and an eternal destiny; and

Whereas, In this American spirit the President of the United States and the Governor of this Commonwealth of Massachusetts have by proclamation designated the week of October 3-9, 1954, as National Employ the Physically Handicapped Week, a period in which all good citizens should strive to increase employment opportunities for the qualified handicapped men and women

among us who seek only work and a chance to play their part in life of the individual community;

Now, therefore, I, John B. Hynes, Mayor of the City of Boston, do hereby call upon the people of our community to properly observe the tenth anniversary of National Employ the Physically Handicapped Week, beginning October 3, 1954, by supporting the nation-wide effort to increase opportunities in employment of the physically handicapped; and I further urge all employers of our community to place their job openings with the Employment Office of the Division of Employment Security at 6 Somerset and 400 Stuart streets, Boston, to the end that our physically handicapped citizens can prove that they are capable, productive, and reliable workers.

COMPLAINTS DIVISION TO BE ESTABLISHED.

(Continued from page 1229.)

officer between this newly established division and your department.

It would be well to consider the designation of an employee who can be relied upon to follow through on all complaints referred by the Complaints Division for adjudication in a prompt and efficient manner. In the case of some of the larger departments it might be advisable to designate an individual from each one of your larger divisions to insure immediate and intelligent action on specific complaint referrals. In most cases we will expect definite action and reply within 24 hours, with a 5-day limit placed on all extraordinary and unusual complaints.

Kindly forward to this office on or before October 13 the name and title of the designated employee or employees who will be responsible for the carrying out of these liaison duties. On and after October 20 all correspondence concerning complaints should be directed to the Supervisor of Complaints, Administrative Services Department, Room 25, City Hall.

Your cooperation in this important phase of operations will be appreciated.

Very truly yours,

CHARLES J. FOX,
Director.

AMENDED DAMAGES.

The Public Improvement Commission has voted that the order of the Street Commissioners and Mayor of July 23, 1953, as amended determining damages caused by the making of the public improvement consisting of the laying out and construction of Cranmore road, Hyde Park, be, and the same hereby is, amended, by adding to said order the amount \$70 as an award to Alexander W. and Johanna F. Wilson; that the amount \$70 be, and the same hereby is, awarded to Alexander W. and Johanna F. Wilson for the damages so sustained.

The School Committee has approved proposals for furnishing basketball, track, and hockey equipment for Boston public schools. Bids were opened on Wednesday, August 11, from the following dealers:

James W. Brine Company, William H. Brine Company, Max Goodman & Sons, Inc., Huber Sports Equipment Company, Iver Johnson Sporting Goods Company, Horace Partridge Athletic Goods Company.

Awards were made to the lowest responsible bidders as follows:

James W. Brine Company, \$8,134.25; William H. Brine Company, \$1,610.28; Max Goodman & Sons, Inc., \$1,527.79; Iver Johnson Sporting Goods Company, \$2,998.03; Horace Partridge Athletic Goods Company, \$2,008.25.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies, and the like. Communications from heads of departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.
Purchasing Division.

BOSTON, June 8, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On May 10, 1954, your Honor authorized the awarding of a contract to the Beetle Boat Company, Inc., for supplying to the Parks and Recreation Department ten standard M.I.T. dinghies, without equipment, at a cost of \$398 each, or a total of \$3,980. Beetle Boat Company, Inc., is the only source of supply for the boats requested.

Subsequent to the approval date, the Parks and Recreation Department informed this division that it desired to have these ten dinghies completely equipped at a price of \$596 each.

Your permission is now requested to amend our original letter by authorizing the awarding of a contract, without public advertisement, to the Beetle Boat Company, Inc., for ten standard M.I.T. dinghies, completely equipped, at a cost of \$596 each, or a total of \$5,960, less 1 per cent discount for payment in ten days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, September 27, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 26, 1954, authority is requested at this time to award a contract, without public advertisement, to the following companies for furnishing perishable foods to the various city departments from October 1, 1954, to March 31, 1955, inclusive:

Consolidated Lobster Company, Inc., 924 Washington street, Gloucester, Mass.
Linnahan Fruit Supply, Inc., 304 C street, South Boston, Mass.

Very truly yours,

JOHN V. MORAN,
Purchasing Agent.

FIRE DEPARTMENT.

BOSTON, September 28, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Your Honor's permission is requested to execute a contract, without publicly advertising for bids, with James S. Munro, 1 Winnisimmet street, Chelsea, Mass., for repair work to rails and decks, caulking work, and some painting on fireboats, Engines 31 and 47, for a sum not to exceed \$2,846.

Both fireboats were damaged during the hurricanes "Carol" and "Edna" and must be repaired as soon as possible.

I have received two bids for doing this work as follows:

James S. Munro, \$2,846; Bethlehem Steel Company, \$5,754.

This is emergency work, and James S. Munro has proper and adequate facilities for performing and completing the repair work within a short period of time.

In my opinion, no advantage would be gained by the City of Boston publicly advertising the work, inasmuch as the price quoted by James S. Munro is reasonable. It is also my opinion that no lower price could be obtained by the Fire Department for said work.

Respectfully yours,

FRANCIS X. COTTER,
Fire Commissioner.

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 26, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The concession privileges at the Refectory Building and the Golf Building in Franklin Park expire on September 30.

Since 1928 the Refectory Building concession has been held by William J. Burke and, since his decease, by his son, John P. Burke, of 22 Myrtle street, Jamaica Plain. In 1928 William J. Burke was the highest bidder, and by extension and renewal the Burke family has continued to hold the lease at this location since that time, a period of 26 years. They have always conducted the business in a manner satisfactory to the officials of this department and have never failed to pay the rental as it has become due. Mr. John P. Burke is presently paying a rental of \$5,000 per year for the concession in the Refectory Building and \$100 per year for tonic machine space in the Golf Building. It is our intention to combine both these privileges in one lease.

Your permission is requested to issue a new lease to John P. Burke, 22 Myrtle street, Jamaica Plain, for the concession privilege as indicated above, at an annual rental of \$5,100, to run for a period of one year, from October 1, 1954, to September 30, 1955.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract approved August 23, 1954, with Modern Engineering Company, Inc., for new cast-iron sectional boiler at the Henry Abrahams School, from September 15, 1954, to October 15, 1954. This extension was requested because of delay in delivery of boiler.

Approval has been given for the extension of the time of completion of the contract approved August 23, 1954, with Modern Engineering Company, Inc., for installing new boiler in the Frederic A. Whitney School, from September 15, 1954, to October 15, 1954. This extension was requested because of delay in delivery of boiler.

Approval has been given for the extension of the time of completion of the contract approved August 10, 1954, with S. J. Connolly for installing a new boiler at the Boston Technical High School, from September 15, 1954, to October 15, 1954. This extension was requested because of a delay in delivery of boiler.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with Daddario-Piatelli, dated May 29, 1953, for the building of sewerage works in Section 17, Stony Brook, Hyde Park, from September 30, 1954, to October 31, 1954. This extension was requested because excessive rains have prevented the completion of the work.

Approval has been given for the extension of the time of completion of the contract dated August 25, 1953, with Charles Callahan Company, 50 Call street, Jamaica Plain, for bituminous concrete pavement in Asticou road, Avon street, Brookdale street, etc., from September 1, 1954, to November 30, 1954. This extension was requested because the contractor was delayed by inclement weather.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Martin J. Kelly Company, Inc., has been directed to perform the following extra work under the contract dated July 17, 1954, for redecking the Southampton Street Bridge and the Cummins Highway Bridge, over the New York, New Haven & Hartford Railroad:

Cummins Highway Bridge.—Furnish and install reinforced concrete fillers on floor beams in track areas; dimensions, grade, etc., to match existing fillers adjacent to track area; new work to be bonded to old, all as directed, for agreed price of \$200.

Southampton Street Bridge.—Furnish all welding equipment and labor necessary to install holding down stud bolts on steel floor beams for timber fillers, at agreed price of \$150.

Estimated cost of extra work, \$350.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A 10-inch pipe sanitary sewer in private land (Dell terrace outlet), between Dell terrace and Lincoln street, in the Hyde Park district, at an estimated cost of \$3,300.

A 10-inch pipe sanitary sewer and 12-inch pipe surface drain in Clearwater Drive (Groveland street outlet), between Groveland street and 55 feet easterly (to existing sewers), in the Dorchester district, at an estimated cost of \$900.

CITIES GENERALLY DO NOT CONTROL PRIVATE PARKING RATES.

Review of numerous ordinances and other materials by AMA for a member league shows that cities do not generally exercise any control over rates charged for parking. Supply and demand seems to furnish the regulation needed. Generally, however, applications for a parking lot or garage license require that rates charged be set forth in the application, that rates be posted conspicuously at the entrance to the lot, and that rates cannot be changed without official written notice to the municipality.

CHANGES IN SOCIAL SECURITY LAW.

Changes in the Social Security Act now make Old Age and Survivors Insurance benefits available to all municipal employees, except firemen and policemen. The procedure varies, however, for those who are eligible for membership in existing retirement systems and those who are not.

The most important point to remember is that the municipality must take the initiative to secure OASI coverage for its employees and must act through the state government. Proper enabling legislation and contractual clauses in state documents are "musts." They secure coverage as part of the state's contract with the Bureau of Old Age and Survivors Insurance, U. S. Department of Health, Education and Welfare.

PROCEEDINGS OF CITY COUNCIL.

Monday, September 27, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President WHITE in the chair. Absent, Councillor Foley.

The Reverend Benjamin F. Bowling, C.S.P., Catholic Information Center, Park street, Boston, was escorted to the rostrum.

INVOCATION BY REV. BENJAMIN F. BOWLING.

In the name of the Father, and of the Son, and of the Holy Ghost. Amen.

We beseech Thee, O Lord, that our actions be carried on by Thy holy inspiration and with Thy assistance; that every word and deed of ours may always begin with Thee and through Thee be happily ended.

We beseech Thee, O Lord, to enlighten our minds so that we may clearly see and understand the implications of Thy commandments in the relationship of our work in this Council. Teach us to understand that we ourselves have a tremendous moral influence on our people, and on the law and order of the city. Teach us to take opposition as councilmen sincerely and earnestly, that our deliberations and our counsel may make our city a better and happier place in which to live. Through Christ our Lord. Amen.

The meeting was opened with the salute to the Flag.

RESTORATION OF BUS SERVICE TO LEXINGTON STREET, BETWEEN SHELBY AND MERIDIAN STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1954.
To the City Council.
Gentlemen:

I transmit herewith communication from the general manager of the Metropolitan Transit Authority concerning your order of September 20, 1954, relative to restoring the bus service to Lexington street, East Boston, between Shelby street and Meridian street.

Respectfully,
J. B. HYNES, Mayor.

Metropolitan Transit Authority,
September 23, 1954.

Mr. Harold B. Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

In connection with the subject matter of Lexington street, East Boston, upon the restoration of through service between Maverick square and Chelsea square over the Meridian Street Bridge since it was rebuilt, the trustees rearranged the service in this area to better serve the area as a whole, as well as serve the high school, and were given approval by the Department of Public Utilities to introduce the service through White street.

The patronage on the line has improved since the change, which would indicate it was serving a greater number of people, and it has been well received.

Very truly yours,
EDWARD DANA,
General Manager.

REMOVAL OF VEHICLES PARKED IN DOWNTOWN AREA.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1954.
To the City Council.
Gentlemen:

One of the statutes enacted during the current year to take effect upon acceptance by vote of your Honorable Body subject to the provisions of the City Charter is chapter 369 of the Acts of 1954 entitled "An Act Empowering the Boston Traffic Commission to Provide by Rule or Regulation for the Removal of Vehicles Parked or Standing in Violation of Law on Public Ways in the Downtown Area of the City of Boston." This legislation was the result of a petition filed by me at the suggestion of the Citizens' Advisory Committee on Traffic with a view to alleviating traffic congestion in downtown Boston, and is similar to legislation now in effect in many of the large cities in our country.

The Citizens' Advisory Committee on Traffic has reaffirmed the belief that a considerable amount of the traffic congestion in downtown Boston is occasioned by flagrant violations of traffic regulations which the tagging procedure is not stringent enough to deter. To illustrate, certain traffic rules prohibit the parking or standing of vehicles at certain places at certain times so that traffic

may flow freely; if a vehicle is parked in violation of these rules, the inconvenience and loss of time caused motorists by the violation far exceeds the \$15 maximum penalty permitted by statute for the violation. The public interest in such a case requires that a public authority remove the offending vehicle so that the motoring public may have the full advantage of the traffic rule. Acceptance of chapter 369 of the Acts of 1954 would vest the Boston Traffic Commission with power to authorize such removal by the Police Commissioner or such sergeant or officer of higher rank in the Boston Police Department as the Police Commissioner may from time to time designate. While the act imposes added burdens and added expense on the Police Department, nevertheless, public interest will be served and the objective sought for by the Citizens' Advisory Committee on Traffic will be accomplished.

Transmitted herewith is an order for the acceptance of chapter 369 of the Acts of 1954, which I urge that you adopt so that the public will know that local officials as well as the Legislature are vitally interested in alleviating the traffic congestion in the heart of our beloved city.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
September 22, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In the last session of the Legislature a bill was passed authorizing the Boston Traffic Commission to provide by rule or regulation for the removal of vehicles parked or standing in violation of the law in public ways in the downtown area of Boston.

Under the provisions of the law passed and after establishment of rules by the Traffic Commission, the Police Department would be authorized by the legislation to tow cars flagrantly violating our traffic regulations.

This act specified that it should take effect on its acceptance by a vote of the City Council of Boston. Accordingly, I am bringing this matter to your attention in the hope that this bill will be submitted to the Council for its approval.

The legislation is not exactly what we requested, as it restricts the towing operation to the Police Commissioner of the city or such sergeants or officers of high rank in the Police Department of the city as he may from time to time designate. Nevertheless, since it is a gain in enforcement powers, and the psychological advantage of a towing law is obvious, it is my hope that the Council will approve of this order at its earliest convenience. Having accepted the order we will then be enabled to petition the Legislature for an amendment of the point restricting towing to officers of the Police Department so that it might be done by others. However, if the order is not acted upon favorably, then, obviously, the whole activity will have to be started anew and the members of the Legislature may logically raise the question as to why we did not act upon the law which they gave us last year.

I feel that it would be easier to get an amendment of the present law than to try to obtain a new law.

For years many have asked why it is that cars are permitted to remain on highways in the downtown section where "No Parking" regulations apply. Our fines are not heavy enough to be a deterrent in many cases, and up to now the Police Department has not had the clear authority to tow away cars of persons who persistently and flagrantly disregard parking regulations in a given area.

There is no intention on the part of anyone concerned to indiscriminately tow away cars, but practically every big city in the country has authority to do so under certain circumstances where conditions warrant towing.

The legislation to be approved by the Council at least puts the city in a position where its enforcement of traffic laws can be properly emphasized wherever conditions warrant.

Accordingly, I bring this to your attention so that you may give it whatever consideration you feel the proposal deserves.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.

Ordered, That chapter 369 of the Acts of 1954, entitled "An Act Empowering the Boston Traffic Commission to Provide by Rule or Regulation for the Removal of Vehicles Parked or Standing in Violation of Law on Public Ways in the Downtown Area of the City of Boston" be, and hereby is, accepted.

REPORT OF COMMITTEE ON CLAIMS.

Coun. PIEMONTE, for the Committee on Claims, submitted the following:
 1. Report on petition of Francis M. Keane (referred August 16) for indemnification for hospital, surgical, medical, and nursing expenses incurred as a result of an injury sustained by him while in the performance of his duties as a member of the Boston Fire Department on December 31, 1953—recommending passage of accompanying order.
 Ordered, That under the provisions of section 100 of chapter 41 of the General Laws, upon petition of Francis M. Keane, a hoseman in the Fire Department, for indemnification for hospital, surgical, medical, and nursing expenses incurred by him as a result of an injury received through no fault of his own while in the performance of his duty on December 31, 1953, there be allowed and paid, as recommended by the Fire Commissioner and approved by the Corporation Counsel, to the following the amount stated—Francis M. GREETINGS TO THOSE OF JEWISH FAITH.

Coun. HURLEY and KERRIGAN offered the following:
 Ordered, That the Boston City Council, in meeting assembled, desires to extend to the people of Jewish faith in the City of Boston the greetings and good wishes of the Council as they approach their Rosh Hashanah.
 May their year 5715 be healthy, happy, and be the year which will bring permanent and lasting peace to the world.
 Passed under suspension of the rules.

COMMENDATION TO PERSONNEL OF CERTAIN CITY DEPARTMENTS.

Coun. WHITE offered the following:
 Whereas, The City of Boston has just been subjected to two successive hurricanes which, but for the prompt and speedy action of the personnel involved, could have resulted in a terrific loss of life and property; and
 Whereas, The prompt response of the various city agencies involved reflected great credit upon their departments and the city; therefore, be it
 Resolved, That the Boston City Council in meeting assembled extends its warmest praise and commendation to all city personnel for their work during this grave emergency; and be it further
 Resolved, That copies of this resolution be forwarded to the Commissioner of the Boston Fire Department, the Police Commissioner, the Commissioner of Public Works, and the Commissioner of Parks and Recreation.
 The resolution was adopted under suspension of the rules.

DESIGNATION OF OCTOBER 10 AS "FREE CHINA DAY."

Coun. McCORMACK offered the following:

Resolution.

Whereas, On October 10, 1911, under the leadership of Dr. Sun Yat-sen, the Chinese people overthrew the tyranny of the Ching Dynasty and established the Republic of China; and
 Whereas, The Chinese National Government, which has been recognized by the United States and the majority of the civilized family of nations since 1928, is still administered primarily by disciples of Dr. Sun; and
 Whereas, Although the Chinese National Government has been driven to Formosa by international communist aggression, and many millions of Chinese in Formosa, on the China mainland, and overseas are continuing the struggle against the communist aggressors for liberty and independence; and
 Whereas, It is particularly important at this time to encourage and support the freedom-loving Chinese people everywhere who are contributing their efforts toward the defeat of communist aggression in China and throughout the world; therefore be it

Resolved, That his Honor the Mayor designate October 10, 1954, as "Free China Day," as a tribute to the people of China who are struggling for freedom under the communist yoke, and in honor of the freedom-loving Chinese people everywhere who are contributing their efforts toward the defeat of communist aggression in China and throughout the world. The Mayor is requested to issue a proclamation calling upon all the people of the United States to join in the observance of such day with appropriate proceedings and ceremonies.
 The resolution was adopted under suspension of the rules.

VACANT LAND ON HANSON STREET AS PLAY AREA.

Coun. McCORMACK offered the following:
 Ordered, That the Parks and Recreation Department, through his Honor the Mayor, investigate the possibility of utilizing the 3,182 square feet of vacant land at 14 and 16 Hanson street in the South End (next to the Franklin School) as a play area.
 Passed under suspension of the rules.

The report was accepted, and the order was rejected.

CANCELLATION OF LEASE ON PIERS 3 AND 4, EAST BOSTON DOCKS.

Coun. McCORMACK offered the following:

Whereas, On April 28, 1954, the City Council asked William Gulliver, Chairman of the Port of Boston Commission, to report the status of repairs to be made on Piers 3 and 4 at the Boston & Albany Docks in East Boston; and

Whereas, In answer to this request Mr. Gulliver informed this Honorable Body that the New York Central Railroad had informed the Port Commission that the repairs would be made forthwith; and

Whereas, Despite continued protests the said New York Central Railroad has refused to make the repairs required under its lease with the Commonwealth of Massachusetts and has allowed these vital facilities to deteriorate to a point where the lives and safety of the personnel working in this area are endangered; therefore be it

Resolved, That the City Council, through its Honor the Mayor, request the Attorney General to cancel the lease of the New York Central Railroad relating to Piers 3 and 4 of the East Boston docks.

The resolution was adopted under suspension of the rules.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such

as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Furbush road, bounded:

Southwesterly by another part of Furbush road, 42.21 feet; northeasterly by the northeasterly line of Furbush road, 177.74 feet; northeasterly by another part of Furbush road, 40 feet; and southeasterly by the southeasterly line of Furbush road, 192.21 feet; containing 7,400 square feet more or less.

The sewerage works to be constructed are as follows:

Approximately 150 linear feet of 10-inch pipe sanitary sewer and approximately 150 linear feet of pipe surface drain in the above-described premises, being part of the private way known as Furbush road.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, that this commission estimates that the abutting parcels of land situated on the northwesterly side of Furbush road, for a distance of approximately 170 feet northeasterly from Newfield street, and the abutting parcels of land situated on the southeasterly side of Furbush road, beginning at a point 30 feet northeast of Newfield street and extending for a distance of 120 feet northeasterly, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; in the amounts hereinafter respectively set against them; said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of the Survey Division of the Public Works Department.

IMPORTANCE OF FOOD-BORNE DISEASE.

The relationship of food to disease continues to be an important public health program. The United States Public Health Service reported 327 outbreaks of food-borne disease in the United States in 1948, which resulted in 9,962 cases and 17 deaths. As only one out of ten cases of food-borne disease is ever reported, the resulting situation is far more important than available statistics would indicate.

The United States Public Health Service reports that there occurred in the United States in 1948, 30 cases and 6 deaths resulting from botulism; 74 cases and 1 death resulting from chemical food poisoning; 120 cases of dysentery; 8,832 cases and 7 deaths resulting from food infection and gastroenteritis; 270 cases of scarlet fever.

APPOINTMENTS

The following nominations by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

(BY PROMOTION)

Directors and Associate Director

Department of Adult Educational and Recreational Activities—Charles E. Schroeder, director (from head of department, Roxbury Memorial High School—Boys), July 15, 1954; Francis X. Sullivan, associate director (from head of department, Roxbury Memorial High School—Girls), Sept. 1, 1954.

Department of Fine Arts—Elizabeth H. Gilligan, director (from supervisor), Sept. 1, 1954.

On roll call the rules were suspended and the appointments approved by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Mr. Lee, Mr. Musco and Mr. Ward—5.

Mr. Lee: Mr. Chairman, I would have just mentioned before voting on Mr. Sullivan that I think this Committee is being very enlightened in the steps it has taken to help our youngsters to grow up sensibly by our pushing into frontiers a little bit beyond the classroom.

I mean that here we are taking a step through this appointment of an Associate Director who can give emphasis to the recreational use of our buildings at night to give our growing youth a chance in their leisure nonschool hours

to have an environment which challenges their athletic instincts and their aptitudes of various sorts.

I think it ties into our action a month ago in authorizing the Superintendent to set up courses for our high school girls on how to bring up children, which in an indirect way will affect the child outside of school hours. It is because I think that is a pressing problem that I might pause to tie in the fact that Mr. Ohrenberger himself has had extensive experience outside the classroom in these very matters of useful, good living.

I think it is of significance that this Committee is going ahead on those frontiers of trying to reach the whole child outside the classroom, of which this here is one step.

Chairman: I agree with you.

Mr. Ward: Mr. Chairman, I agree with what Mr. Lee says, and I think that this further should be considered. I can think of many men. I can name many men. I can name Mr. Hartman in our system, and I can think of a man whom Mr. Lee mentioned earlier—a Mr. Fishman, who had that camp down in Maine. All the children went there, and they paid nothing, and he ran that camp himself. What is the name of it?

Miss Fitzgerald: The Burroughs Newsboys Camp.

Mr. Ward: That was done. I can think of a man in South Boston who had charge of the South Boston area for that particular activity, and all of these men could probably fit in better with a program in this adult education.

Chairman: You mean in the program we may find at some time that it is necessary to call upon him.

Mr. Ward: Those names I mentioned are those of men whom I know are qualified—equally qualified—and I know that what Mr. Lee says will mean a step in the right direction. Why have an educational program at all if you are going to have one man in there and have absolutely nothing done? It just runs by itself. You have to have a department there.

Chairman: This is the Department of Adult Educational and Recreational Activities, Mr. Ward, that I think Mr. Lee so ably brought out.

Mr. Ward: I think Mr. Lee had some good points on that.

Mr. Musco: Mr. Chairman, I would like to take this opportunity to commend the Superintendent for his fine selection of administrative people whom he has inducted into our school system and in reference to the reorganization and revitalization of this strong team that is going into the season of 1954-55.

Superintendent: Thank you, Mr. Musco.

LETTER FROM EDITOR, AMERICAN LEGION MAGAZINE

Mr. Lee: Madam Chairman, I would like to read the first and last sentence of a letter which I received from the American Legion which I think is worthwhile for you all to hear.

You remember that when we had a rather extensive debate on our textbooks and whether these history textbooks were progressive or were presenting outworn ideas, at that time, on motion of Mr. Musco, it was moved to send the printed proceedings of that discussion to the textbook publishers, which has been done.

In the meantime I took the liberty of mailing a copy to the American Legion Magazine because they have been having a series of articles dealing with what is being taught in our schools. I would like to read the first and last sentence of the brief note they sent me.

"Dea Mr. Lee:

"Thank you very much for the transcript of the debate on history textbooks. Since I know that other meetings of this sort frequently degenerate into shouting sessions, this meeting could serve as a model.

"Sincerely yours, Joseph C. Kelly."

I take it that he is the editor of the American Legion Magazine.

Miss Fitzgerald: I think that is a very interesting letter. We appreciate hearing about it, Mr. Lee.

AMENDMENTS TO RULES AND REGULATIONS

NOTE: All degrees must be from colleges "approved by the board of superintendents."

All teaching experience must be in "regular graded day schools."

*Teachers employed by a Massachusetts School Committee before July 26, 1951 are exempt from State certification.

Mr. Lee: I take it that that is a matter of record now in our public meeting. I think it ought to be entered in the meeting along with that motion that we had a special conference at which everybody went over these rules in detail after copies previously had been supplied to each member so that each member had already studied the rules; and therefore any changes we are making are as the result of special study by each of us followed by group study by all of us.

On roll call, the rules were suspended and the order passed by the following vote:

YEAS:—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco, and Ward—5.

NAYS—0.

The Secretary read the following:

ORDERED, that the rules be amended as follows:

Section 84, paragraph 1. Strike out the paragraph and substitute in place thereof the following:

Sect. 84. 1. Certificates shall cease to be valid as follows:

Certificates issued on examination after January 1, 1949, shall cease to be valid on the thirtieth day of June of the third year following the date of issue; provided that no certificate shall remain valid after the thirty-first day of December next following the fiftieth birthday of its holder, except as hereinafter provided.

This age limitation shall not affect the validity of:

(a) Certificates which render the holder eligible for appointment to temporary positions in the day school service;

(b) Certificates issued to re-entrant men, single or widowed women, etc. (The fifty-year age limitation applies to married women.)

(c) Certificates issued hereafter to teachers in permanent day school service.

On roll call the rules were suspended and the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, and Mr. Musco—3

NAYS—Mr. Lee, and Mr. Ward—2

The Secretary read the following:

ORDERED, That the rules be amended as follows:

Section 86, paragraph 1. Strike out the fourth paragraph and substitute in place thereof the following:

No person except as otherwise provided in this section shall be appointed whose service is to begin later than the thirty-first day of December following his fiftieth birthday, provided, however, that the restrictions of this section shall not apply to the promotion of a permanent teacher to any position in the public schools.

On roll call the rules were suspended and the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Mr. Musco, and Mr. Ward—4

NAYS—Mr. Lee—1

The Secretary read the following:

ORDERED, that the regulations be amended as follows:

Section 274. Strike out the section and substitute in place thereof the following.

Sect. 274. 1. Re-entrance to permanent service up to the age of fifty-five may be allowed under the following conditions:

Re-entrance to permanent service up to the age of fifty-five

Men, single women, widowed women, etc., who have held permanent positions in the day school service who have not reached the age of fifty-five shall be eli-

gible for re-entrance to the rank in which they were serving at the time of resignation, or to a rank in which they had previously served; provided, that they shall pass either the regular prescribed examinations therefor, and their names be placed on the regular eligible list, or shall pass the major examination only and have the examination mark doubled and their names placed on a Supplementary Eligible List; and provided further, that women candidates for re-entrance are financially dependent upon their own resources.

2. Re-entrance to permanent service up to the age of fifty may be allowed under the following conditions:

Re-entrance to Permanent Service up to the Age of Fifty

Married women shall be eligible for appointment up to the age of fifty, provided that (a) they shall meet the present eligibility requirements, and (b) they shall pass the regular prescribed examination, and their names be placed on the regular eligible list.

Note: All married women, not re-entrants, shall comply with the requirements set forth in paragraph 2.

On roll call the rules were suspended and the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, and Mr. Musco—3.

NAYS—Mr. Lee, and Mr. Ward—2.

REPORT ON SECONDARY AND HIGHER TRAINING IN COMMERCIAL EDUCATION

Mr. Musco: Madam Chairman, referring to the foregoing order and in particular to Mr. Ward's future promise of a school of commerce, and Mr. Lee's discussion concerning commercial education, I would like to submit the report which I have compiled on secondary and higher training in commercial education, of which I have given copies to the members and which I request to be printed in full in the record of this meeting.

Miss Fitzgerald: We will be very glad to do that, Mr. Musco.

Mr. Lee: I understand that Mr. Musco calls for a Director of Commercial Education—which we had in the old days, Mr. Superintendent, did we not?

Superintendent: That is true, Mr. Lee.

Mr. Lee: I hope that the matter will be given consideration by the Board of Superintendents and not merely published and left unseen.

The following is Mr. Musco's report which was ordered spread in full upon the records of this meeting:

Boston has assumed a top place in the industrial, commercial and business world of today. It is considered, by its excellent facilities and advantages to world trade, to be among the top level cities in the United States; and to maintain this high standard it should be the responsibility of our school department to train and qualify our people for future work in this growing field.

Commercial Education has a two-fold objective: it must be founded upon the cardinal principles of secondary education and must recognize these general aims, but, in addition, it must accomplish the exact and special purposes of vocational training in the industrial and business job objectives.

We must, therefore, furnish the pupil with adequate tools for making a living and also develop ideals of character and high standards of ethics that will strengthen his growth into a livelihood and equip him for his future social relationships.

Inasmuch as commercial pupils are the largest group in the high schools today, their training should be co-ordinated and supervised by a Director of Commercial Education who will constantly serve their best interests in our busy City of Boston.

The Director of Commercial Education must have a knowledge of current business practice so that he may be able to:

1. Advise the Superintendent of Schools, Assistant Superintendents, Heads of Departments, and official committees on matters pertaining to business-commercial education and prepare such reports as may be requested by them.

2. Recommend textbooks equipment, departmental classroom layouts, and improved methods and materials of instruction.

3. Recommend and supervise the preparation, implementation and evaluation of courses of study and syllabi in the area of business education—including stenography, typewriting, accounting, clerical practices, distributive education, small business organization, business machines, cooperative and work-study programs as they relate to business education and other related subjects—in cooperation with the Curriculum Development, and Educational Research departments.

4. Encourage, organize, coordinate, direct and supervise business-commercial education in-service courses for teachers at all levels.

5. Act in a liaison capacity on matters pertaining to business-commercial education with colleges, city departments, for Vocational and Extension Education, advisory councils in business education, industry and government agencies.

6. Report to the Superintendent of Schools, Assistant Superintendents, and the Board of Examiners on personnel needs in the area of business education.

7. Promote the institution of a Junior College level program so as to improve and advance all business subject matter in every intermediate, senior, and post-graduate high school to maintain Boston's standing in this field.

Today, many large school systems have a Director of Commercial Education with a smaller percentage of students than ours taking these specialized, skillful subjects, and so the City of Boston would benefit greatly by the continuance of such a worthwhile position of progress.

I ask that a comprehensive report on the matter be submitted to this Committee by the Superintendent's office.

SALE OF SCHOOL PROPERTY

The following was offered:

WHEREAS, The following-named property is now vacant and not in actual use for school purposes, it is hereby

ORDERED, That it is advisable to sell the following-named property, which is not now required for school purposes, in accordance with the provisions of Chapter 259 of the Acts of 1906:

Brandeis Vocational High School, Warrenton Street, Boston: Land and building, containing approximately 16,289 square feet.

On roll call the preamble was adopted and the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Mr. Lee, Mr. Musco, and Mr. Ward—5.

AWARD OF SCHOLARSHIP

Mr. Musco stated that Mr. Daniel F. O'Connell, Head of Department of Mathematics in the High School of Commerce, has been granted by the Massachusetts Civil Air Patrol an all-expense paid scholarship to the University of Colorado, July 22 to Aug. 25, 1954, for the 1954 National Aviation Education Workshop, for his outstanding work in the field.

Mr. O'Connell is the first teacher in the Boston Public Schools selected by the Massachusetts Civil Air Patrol for this scholarship.

RESIGNATION OF CUSTODIAN

A communication was received from the Superintendent, under date of July 12, 1954, reporting the resignation, on July 12, 1954, of Walter J. Mayer, senior building custodian, Thomas Gardner School.

Accepted.

PAYMENT OF SALARY DUE AT DEATH

The following was offered:

ORDERED, That the salary due Raymond Boly, late senior building custodian, Mayhew School, be paid to his widow, Adeline Boly.

The order laid over at the meeting of July 1, 1954, amending Section 283, paragraph 1 of the Regulations, relating to marriage of female teachers, was taken up and read by the Secretary.

On roll call the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Mr. Lee, and Mr. Musco—4

NAYS—Mr. Ward—1

Mr. Ward: My vote is "No" just in opposition to married teachers within our schools.

Miss Fitzgerald: We understand. You have consistently opposed that, Mr. Ward.

Mr. Ward: If this is simply a question that they report to the Superintendent after something is done, it's a technical subject. I again reiterate my firm stand and belief that if we are going to stop juvenile delinquency, we are going to stop mothers teaching in schools and not taking care of the family at home.

As I have stated before, if they want to visit their children in a reformatory in an automobile which they own because there are two salaries coming in, then they have a child in the reformatory. They should give the car up and keep the child at home.

The order laid over at the meeting of July 1, 1954, making additions to or changes in the List of Authorized Text Books was taken up.

On roll call the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Mr. Lee, Mr. Musco and Mr. Ward—5.

DATE OF MEETING

Mr. Musco: Madam Chairman, before we adjourn for this next period, I would like to ask the Committee to set aside August 16th as the nearest date to discuss our budget problem.

I know that on April 29th we had a discussion on the continuance of raises to both academic and nonacademic people, and on June 18th I believe we received the approval of the City Council to allow the \$2,214,000 as a supplemental school budget. We were also instrumental in reducing the tax rate ninety cents, and on June 7th I presented to the Superintendent a list of General School Purposes items for his

consideration in contemplated salary increases. I would like with your permission to have that first meeting when we do return in reference to that particular problem.

Chairman: Budget?

Mr. Musco: Yes.

Chairman: I imagine that is what it will be. It is approaching August 31st, and in all probability outside of the eighteen points we will spend most of the time on the budget.

VISUAL EDUCATION

Mr. Ward: I have one item which I want to discuss briefly. The members of the Committee, with the Superintendent, discussed tonight the program of visual education. I would like to ask the Superintendent if he would study that matter during this period of recess so that we may prepare for that in September.

Miss Fitzgerald: In August.

Mr. Ward: Or in September when schools open.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS

1954 Jimmy Fund

Boston 16, Mass., October 4, 1954.

COMMISSIONER THOMAS F. SULLIVAN,
Police Headquarters, Boston, Mass.

DEAR COMMISSIONER:

I know my written word is a poor medium of expression, but I just cannot let this occasion pass without telling you how much we appreciate your cooperation and that of the Boston police in the Jimmy Fund drive.

I know that you will be pleased to learn that because of the work of your police officers, through the youngsters throughout the City of Boston, the sum of \$10,277.51 was collected.

The Boston Red Sox and the Variety Club of New England join with Ted Williams and Big Brother Bob Emery in congratulating you and the men in your department and offer our most sincere thanks.

With every good wish, I am

Very truly yours,

WILLIAM S. KOSTER,
Executive Director.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

Proposals for Sheet Asphalt Pavement in James Street, Ward 8, from East Brookline Street to East Newton Street.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in James street, Ward 8, from East Brookline street to East Newton street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in James Street, Ward 8, from East Brookline Street to East Newton Street," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, OCTOBER 21, 1954, with a certified check for TWO HUNDRED FIFTY (250) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(Oct. 9.) Commissioner of Public Works.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CONSTRUCTION OF SCHOOL BUILDINGS, ACQUISITION OF LAND, ETC., \$300,000.

Order of City Council of Boston of May 19, 1953, effective June 9, 1953. Payable \$15,000 annually, October 1, 1955, to October 1, 1974, inclusive.

All loans will be issued in Coupon Bond Certificates of \$1,000 each, and will be paid on the dates specified for each loan, all with interest payable semiannually on the first days of April and October in each year, at the office of the Collector-Treasurer, Boston.

In comparing bids, preference will be given to the bidder whose bid provides for the lowest net interest cost to the city. (Total interest for the duration of the loan from October 1, 1954, less the amount of premium bid.)

The bonds will be dated October 1, 1954, and will be ready for delivery on or about November 19, 1954. Delivery of the bonds will be made either in Boston or in New York City at the option of the purchaser. Interest will begin October 1, 1954, and will cease on the dates on which the bonds are payable.

These bonds are exempt from taxation in Massachusetts and from the present Federal Income Tax.

Proposals must be sealed and addressed to James E. Gildea, Collector-Treasurer, Boston 8, Mass., endorsed "Proposals for Loans." Each proposal must be accompanied either by a cashier's check or by a certified check in the amount of \$30,000, drawn on a Boston or New York City National Bank or Trust Company, the check made payable to the City of Boston, James E. Gildea, Collector-Treasurer. The check of any bidder to whom an award is made will be retained as part payment for the loans awarded. All other checks will be returned.

Accrued interest from October 1, 1954, to date of delivery, is to be paid by the purchaser.

All proposals will be opened in the office of the Collector-Treasurer, Tuesday, October 19, 1954, at 12 o'clock M., Eastern Daylight Saving Time (11 A.M., Eastern Standard Time). The Collector-Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the city.

(Oct. 9.)

JAMES E. GILDEA,
Collector-Treasurer.

BOSTON TODAY FACING HARD FACTS OF LIFE IN EFFORT TO SAVE FUTURE OF CITY AND COMMUNITY — MAYOR JOHN B. HYNES ADDRESSES SPECIAL STATE HOUSE COMMISSION STUDYING DEVELOPMENT OF BACK BAY AREA — GLOWING FUTURE PAINTED FOR 28-ACRE SPOT BEING ABANDONED AS FREIGHT YARDS BY BOSTON & ALBANY RAILROAD — FINANCIERS STAND READY TO BACK IMPROVEMENT BY INVESTMENT OF MORE THAN \$50,000,000 — ASKS THEY BE GIVEN NEEDED ENCOURAGEMENT.

MAYOR PLANS PARKING SITES FOR 5,000 CARS IN DOWNTOWN DISTRICT FOR 1955—ASKS COUNCIL TO APPROVE ADDITIONAL BOND ISSUE TO AID IN STUDY AND COMPLETION OF WORK.

Plans for construction of downtown parking facilities for 5,000 cars will be put into operation early next spring, Mayor Hynes has announced.

Following a conference with city officials, he disclosed that impetus will be given to the program by constructing three garages simultaneously in order to alleviate the parking problem in the shopping and business districts. Each garage would accommodate 600 cars.

The garages would be located within "reasonable walking distance" of downtown Boston and the Central Artery. Several sites are being studied by the city's Real Property Department.

BOSTON BEGINS PLANS FOR CHRISTMAS FESTIVITIES — MAYOR HYNES NAMES HARRY J. BLAKE AS CHAIRMAN OF COMMITTEE FOR FIFTH CONSECUTIVE YEAR — OTHER LEADING CITIZENS ALSO NAMED TO COMMITTEE.

Mayor John B. Hynes has named Harry J. Blake, prominent Boston wool merchant, as Chairman, for the fifth consecutive year, of the City of Boston Christmas Festival Committee. He also appointed Lloyd D. Brace, president of the First National Bank of Boston, as Finance Chairman of the committee.

Also appointed were Chandler Bigelow, vice president of the Old Colony Trust Company, as Treasurer; Ephron Catlin, vice president of the First National Bank, as Assistant Finance Chairman; and Paul Hines, Industrial Advisor to

(Continued on page 1267.)

At the State House on Wednesday, October 13, during a public hearing before the special commission studying the development of the Back Bay area, Mayor John B. Hynes told the commission that Boston today is facing the hard facts of life in an effort to save the future of the city and the community.

The Mayor was the first speaker at the hearing called to discuss the future of the Boston & Albany yards in the Back Bay which the railroad interests plan to abandon. Senator Richard H. Lee of Newton, chairman of the commission, presided and announced that opponents of the plan would be given a hearing at some later date. The meeting was called primarily to allow Roger Stevens of New York and Chicago, a financier heading a \$50,000,000 investment group, to present the plans drawn by his group looking to improvement.

The development area is bounded by Exeter street, Massachusetts avenue, Boylston street, Huntington avenue, and Belvidere street. It is proposed to include a shopping center, department store, supermarket, four office buildings, a hotel and motel, an exhibition building, convention hall, and a parking area for 6,000 cars.

Facing Hard Facts of Life.

In his address Mayor Hynes said:

What I wish to state, very briefly, here today is an appeal to rationalism, rather than emotionalism.

Here in Boston we are, in our city government, facing the hard facts of life. It is needless for me to impress upon you that rather dark clouds hover over Boston, and these clouds will be darker and stormier unless there is a willingness — an unselfish willingness — on all sides to march together toward brighter horizons.

Within the orbit of what is termed the downtown section of Boston is a vast tract of 28 acres of land now occupied by the Boston & Albany Railroad Company. Within a year or two these railroad yards will be moved to another location.

When that occurs, one of two things will happen to these 28 acres of desirable land. They will be sold off, very likely in piecemeal fashion, to a variety of willing buyers for a variety of purposes; or they will be sold to one buyer for development and construction on a scale that will mark the beginning of a new, forward-looking era in Boston's history.

To my way of thinking, what happens to the site of the Boston & Albany yards will have a decided bearing on the future of Boston and the Boston community. Either we shall have a hodgepodge of minor construction and uninspired development at this location, or we shall have a planned project, combining utility and beauty, which will give our city the life it needs and bring renewed vitality to a part of our city which lends itself to progressive development.

(Continued on page 1267.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by the sons' and thy daughters' unselfish devotion."

MAYOR SEEKS COUNCIL APPROVAL FOR BOND ISSUE FOR NEW PARKING FACILITIES.

(Continued from page 1265.)

The city has \$5,000,000 now available for the work, which will require another bond issue of the same amount before the entire project is completed.

The Mayor has asked the Council to pass the following order:

Ordered, That his Honor the Mayor request the Commissioner of Public Works, the Chairman of the Real Estate Board, and the Director of the Planning Board to meet and develop a master plan for parking facilities for the City of Boston and give special consideration, without limiting their scope, to:

1. Downtown parking in connection with land taken by the Commonwealth for the express highway.

2. Advisability of providing meter parking in areas adjacent to and under the Fitzgerald Highway from North Station to South Station.

3. A survey to provide parking facilities which might be used during certain hours for special parking.

4. Disseminating a brochure on the proposed under-Common garage, with a view to activating interest among developers.

5. Advisability of preparing maps, leaflets, etc., showing existing parking facilities and proposed facilities.

MAYOR OUTLINES PLANS FOR HUGE DEVELOPMENT IN BACK BAY.

(Continued from page 1265.)

OPPORTUNITY OF CENTURY.

Perhaps never again will a cleared site in the inner city be available for development purposes on a large scale. Perhaps never again will such an opportunity to reverse trends in Boston be within our grasp.

Today, Roger Stevens, who heads a group of investors willing to expend fifty or more million dollars in the modern development of this site, is here to present the difficulties confronting his group in proceeding with the proposed project.

I hope you will give him sober attention. Roger Stevens is no fly-by-night promoter. Behind him is a record of outstanding accomplishment and success in development projects of a large nature. Already Mr. Stevens has sunk \$300,000 of his own money in the prospects of improving Boston.

He means business. Where others have feared to tread, he has come forward to take his chances and risk his own money.

Roger Stevens will tell you that a huge investment in Boston, at this particular time, is out of the question, unless the investor is given some reasonable security to protect his capital. This means, in short, that a tax program must be worked out to give some protection to the large investor. The bill before your committee provides that protection and incentive.

There is, and will be, strong opposition to this bill. I will not state that this opposition is purely selfish, nor will I state that there is no vestige of justification in such opposition. But I will state that I believe this opposition is short-

sighted opposition, and I will also predict that if the B & A yards are developed with no thought of tomorrow, those who now oppose the present bill, and cause its defeat, will live to regret that opposition. I also state that, to my way of thinking, defeat of this bill is tantamount to a notice to the world that Boston is content with its present economic situation, and is not really interested in its future progress and future development.

CITIES DON'T STAND STILL.

Cities don't stand still—at least not for long. They go forward or backward. We can go forward if we are willing to apply the old rule of give and take. An exciting, outstanding development of the B & A yards site, with a convention hall and auditorium to be built by the city within it, can be the one thing that will mean a real stride forward for our city.

What is good for the Back Bay section of our city is good for all the city. What is good for all the city is good for all the community. What is good for the community is good for the entire state.

The plans and programs of a new Back Bay center will be explained by Roger Stevens. Gentlemen, give him heed. He is willing to risk his personal fortune and his personal reputation in a venture that can mean a new and a better city, but, beyond all that, he is willing to do for Boston what Boston needs and what others have not offered to do.

As Mayor of Boston, I will greatly appreciate your conscientious analysis of this bill which means so much to all of us, whether or not we live within the close confines of the city itself.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be thirty (30) days, vehicles are excluded from the following street, effective October 8, 1954:

Rockwood Street, West Roxbury.

From Pond street to the Boston-Brookline line.

Voted, That as urgently required by considerations of public safety and convenience, during the period of underground construction by the Boston Edison Company, estimated to be thirty (30) days, parking of vehicles is prohibited in the following street, when and where official signs are in place, effective October 11, 1954:

Cambridge Street, Charlestown.

Both sides, from Sullivan square to the Boston-Somerville line.

MAYOR NAMES CHAIRMAN FOR BOSTON'S CHRISTMAS FESTIVITIES.

(Continued from page 1265.)

the Mayor, as Festival Director. Other committee members will be named later this week, according to the Mayor's office.

"This is the first time in five years when our Festival activities have begun in an atmosphere of peace," the Mayor said in announcing the opening of the 1954 Festival. "I hope the committee will take recognition of this fact as we make ready once again to hail the birth of the Prince of Peace."

The Festival will open with a striking musical program to mark the lighting of the first candle in the City's Advent Wreath, at City Hall Plaza, the day after Thanksgiving, Friday afternoon, November 26, and will continue through Little Christmas, January 6.

Boston Common and the Public Garden will again be the centerpieces of the Christmas Festival. Public transportation and police facilities are already being prepared for the visits of more than a million people to the Common area during the season of Advent.

An elaborate musical program representing thousands of singers and other musicians is also being prepared. Last year over a hundred musical groups performed during the month of December, and that number will be increased this year, the Mayor said.

JAMES E. GRDEA,

Collector-Treasurer of the City of Boston.

MILK INSPECTION.

The people of Boston are drinking a high quality milk that is good as well as safe. Results of bacteriological examinations of samples taken of milk—pasteurized, the poorest quality of milk sold in Boston, contained an average of less than 5,000 colonies of bacteria in one cubic centimeter. This average is more than twice as good as that prescribed for Grade A milk by the Commonwealth of Massachusetts and more than five times as good as the requirements of the United States Public Health Service Code. Grade A milk sold in Boston averaged about 1,000 colonies of bacteria in one cubic centimeter.

NINE CONTRACTORS -
MAYOR HYNES APPROVES
REQUEST OF HOSPITAL
TRUSTEES HEAD FOR PER-
MISSION TO LET CON-
TRACTS AS EMERGENCY,
WITHOUT DELAY FOR
PUBLIC ADVERTISING.**

During the hurricane blow of August 31 there was caused \$41,360 in damages at Long Island Hospital. This information came to light when Richard J. Condon, President of the Board of Trustees of the Hospital, sought and obtained permission from Mayor John B. Hynes to employ, without public advertising, contractors for repairs to buildings and land.

The letters of request, designating the contractors hired for the work, read as follows:

HOSPITAL DEPARTMENT.

Boston, September 1, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The hurricane of August 31, 1954, caused considerable damage to the buildings at the Long Island Hospital. Because there is extreme danger to the health of the patients and employees, it is necessary to repair this damage immediately.

We respectfully request permission to award a contract to M. Solimando, 584 Columbia road, Dorchester, for removing debris and repairing porches of the East Wing of the Women's Hospital damaged by the hurricane in the amount of \$4,000, without advertising, as an emergency measure.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

Boston, September 1, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The hurricane of August 31, 1954, uprooted 75 trees on the grounds at the Long Island Hospital. As there are many other trees and broken branches that are a hazard to the health of the patients and employees, it is necessary to remove these broken branches and tree trunks immediately.

We respectfully request permission to award a contract to the Blueview Nursery, 32 Gaston street, Roxbury, for removing fallen trees and broken and damaged limbs and pruning various trees damaged by the hurricane in the amount of \$7,900, without advertising, as an emergency measure.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

Boston, September 1, 1954

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The hurricane of August 31, 1954, caused considerable damage to the build-

ings at the Long Island Hospital. Because there is extreme danger to the health of the patients and employees, it is necessary to repair this damage immediately.

We respectfully request permission to award a contract to R. Tweed & Son, 249 Hyde Park avenue, Hyde Park, to replace 500 missing and broken lights and glass of various sizes damaged by the hurricane in the amount of \$1,700, without advertising, as an emergency measure.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

Boston, September 1, 1954.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 4, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President WHITE in the chair and all the members present. The Reverend Charles McElhinney, M.S., La Salette Seminary, Ipswich, was escorted to the rostrum.

INVOCATION BY REV. CHARLES McELHINNEY, M.S.

O God, as we begin this new week, may we accept its challenge and opportunity to bring to our torn and troubled world the confidence and consolation of a great trust in Thee.

Give us, we pray, the grace of humility of spirit, clarity of vision, correctness of understanding, and fearless courage, that we may both know and do that which is good and just in Thy sight. May our eyes not be dazzled by the superficial brilliance of things. May our ears not be deafened with the confusing noise of things. Grant that we may never mistake movement for advance, nor change for improvement.

Make it absolutely impossible for any one of us here present ever to be proud or self-complacent so long as a single human is being denied the freedom of the children of God. Keep from our hearts that spirit of cynicism which would make us judge all things according to the sole standard of what we will get out of it ourselves. Instead plant deep in our hearts a spirit of universal love, making us see in every human being a creature of Thy hand and an object of Thy love, that working for others, doing for others, we and You may know that we so live because we love Thee and want to serve Thee, and ultimately want to come and live with Thee forever, through Christ our Lord. Amen.

The meeting was opened with the salute to the Flag.

NAMING OF INTERSECTIONS IN HONOR OF DECEASED VETERANS.

The following was received:

City of Boston,
Office of the Mayor, October 4, 1954.
To the City Council.
Gentlemen:

I submit herewith nine orders for the naming of various intersections in the city in honor of deceased veterans of World War II and the Korean action.

The Committee to Memorialize Veterans, after due consideration, has recommended the naming of the various sites as set forth in the accompanying orders.

In view of the fact that each site is to be named in memory of a veteran who sacrificed his life on the altar of liberty, I recommend that your Honorable Body give approval to the accompanying orders.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Improvement Commission,
September 28, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Committee to Memorialize Veterans, held this day, it was voted to designate the following intersections in honor of the following-named veterans:

Referred to the Executive Committee.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, October 4, 1954.
To the City Council.
Gentlemen:

I submit herewith an order providing for the appropriation of \$34,000, now available in the income of the George F. Parkman Fund, to be used for the maintenance and improvement of the Park Department.

I respectfully recommend adoption of this order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
September 30, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

I respectfully request that you ask the City Council to transfer from the income of the George F. Parkman Fund the sum of \$34,000, which is now available, to be expended under the direction of the Parks and Recreation Commission as follows:

Common and Parks in Existence on

January 12, 1887, Maintenance and

Improvement of \$34,000

When making up the budget estimates for the year 1954, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item 100, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1954, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
FRANK R. KETLEY,
Commissioner.

Ordered, That the sum of \$34,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Commissioner of Parks and Recreation for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of \$34,000

Referred to the Committee on Appropriations and Finance.

TRANSFERS OF APPROPRIATIONS.

The following was received:

City of Boston,
Office of the Mayor, October 4, 1954.
To the City Council.
Gentlemen:

I submit herewith two transfer orders providing additional funds for the Property Division of the Real Property Department. In connection with the general reorganization program, two employees of the Public Works Department were transferred to this department. The appropriation for the compensation of these employees was provided in the budget of the two divisions in the Public Works Department where these employees were originally assigned. To provide for the compensation of these employees in the department where now assigned, the first transfer order is necessary.

In connection with the activities of the Rehabilitation Committees appointed in various sections of the city, increased demands have been made on the Real Property Department for the cleaning and improvement of city-owned lots and buildings. As a result of these requests, the original budget appropriation provided for the cleaning and improvement of these areas has been exhausted. The Commissioner of Real Property has submitted a list of complaints and requests received involving the cleaning of such property. To provide for the work set forth on this list would require an additional appropriation in the neighborhood of \$10,000.00. With three fourths of the year already elapsed, it is questionable whether a program of this magnitude could be completed before the end of the year. I therefore have reduced the request of the commissioner by one half and submit herewith an order providing for the transfer of \$5,000 from the reserve fund.

I respectfully recommend adoption of both of the orders herewith submitted by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$5,000, to the appropriation for Real Property Department, Property Division, 2, Contractual Services, \$5,000.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Works Department, Paving Service, 1, Personal Services, \$1,766.49, Public Works Department, Survey Division, 1, Personal Services, \$3,250.85, to the appropriation for Real Property Department, Property Division, 1, Personal Services, \$5,287.34. Referred to the Executive Committee.

URBAN REDEVELOPMENT, "NEW YORK STREETS" PROJECT.

The following was received:

City of Boston,
Office of the Mayor, October 4, 1954.
To the City Council.
Gentlemen:

I submit herewith for consideration by your Honorable Body the Land Assembly and Redevelopment Plan and Supporting Documentation for the "New York Streets" Redevelopment Project, and communication from the Chairman of the Boston Housing Authority.

The Housing and Home Finance Agency has completed its review of the Plan and Supporting Documentation and has authorized the Boston Housing Authority to submit the Redevelopment Plan to the local governing body for approval in compliance with Title 1, Housing Act of 1949, Public Law 171; and then to the State Housing Board for approval in compliance with chapter 121, General Laws of Massachusetts.

Chapter 121 of the General Laws required also that the Land Assembly and Redevelopment Plan be approved by the City Planning Board. On September 14, 1954, the City Planning Board approved the plan.

After the local approvals, required by law, have been obtained, the Housing and Home Finance Agency will make an allocation of funds and will execute a Loan and Grant Contract with the Boston Housing Authority for the undertaking of the project.

The net project costs, based upon currently available data, are \$4,380,240, one third of which (\$1,460,080) is the city's share.

The "New York Streets" project area is preponderantly substandard and deteriorating. For many years the area has been undergoing a rapid decline in realty values, while the costs of municipal services to the area have been increasing considerably. The clearance and redevelopment of this area will not only eliminate unhealthy and hazardous conditions which are detrimental to the health, welfare, and safety of our city, but will also enhance and stabilize realty values in the area.

New industries will be attracted to the city. Established industries, which are being forced by congestion to consider leaving Boston, will be encouraged to stay.

The clearance and redevelopment of the blighted, deteriorated areas of our city is a very urgent problem which offers a realistic and promising opportunity to solve our municipal financial ills as well as to improve the health, welfare, and safety of our citizenry. Because of this I most respectfully request the prompt consideration of the attached Land Assembly and Redevelopment Plan by your Honorable Body.

The Law Department, in conjunction with the attorneys for the Housing Authority and the Housing and Home Finance Agency, is preparing the Cooperation Agreement and a proposed City Council Resolution which will be submitted to your Honorable Body at a later date together with the loan order to provide the Local Grants-in-Aid.

Respectfully,

J. B. HYNES, Mayor.

Boston Housing Authority,

October 1, 1954.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mayor Hynes:

Re: "New York Streets" Redevelopment Project. I am submitting for your approval the Land Assembly and Redevelopment Plan and Supporting Documentation for the "New York Streets" Redevelopment Project.

The Housing and Home Finance Agency has completed its review of the Land Assembly and Redevelopment Plan and Supporting Documentation and has authorized the Boston Housing Authority to submit the Redevelopment Plan to the local governing body for approval in compliance with Title I, Housing Act of 1949, Public Law 171; and then to the State Housing Board for approval in compliance with chapter 121, General Laws of the State of Massachusetts. (In compliance with chapter 121, General Laws of Massachusetts, the City Planning Board approved the Redevelopment Plan on September 14, 1954.)

After the local approvals required by law have been obtained, the Housing and Home Finance Agency will make an allocation of funds and will execute a Loan and Grant Contract to carry out the project. The net project costs, based upon data currently available, are \$4,380,240, one third of which (\$1,460,080) is the city's share.

Accordingly, if the plan meets with your approval, you are respectfully requested to submit the Land Assembly and Redevelopment Plan and Supporting Documentation to the City Council for consideration.

The Law Department, City of Boston, in conjunction with the attorneys for the Boston Housing Authority and the Housing and Home Finance Agency, is preparing the Cooperation Agreement which will be sent to you for a later submittal to the City Council together with the loan order to provide the Local Grants-in-Aid.

Respectfully yours,

OWEN A. GALLAGHER, Chairman.

(Attached hereto is the Land Assembly and Redevelopment Plan referred to in the foregoing message.)

Referred to the Executive Committee.

Later in the session, Coun. HURLEY moved reconsideration of the reference of the message of the Mayor and the Land Assembly and Redevelopment Plan to the Executive Committee. The motion was carried. On further motion of Councilor Hurley the message and Land Assembly and Redevelopment Plan were referred to the Committee on Public Housing.

REPORT OF COMMITTEE ON CONFIRMATIONS.

Coun. McCORMACK, for the Committee on Confirmations, submitted the following report:

On the appointments by the Mayor, referred March 23, 1953, of George A. Laird, Jr., Gaetano D. Finamore, Melvin H. Liguori, Paula M. Liguori, Samuel A. Schneider, Eli Sternberg, and Frederick Sturn, as constables authorized to serve civil process upon filing of bonds for the term ending April 30, 1953, as appearing in Document No. 39 for the year 1953, the Committee on Confirmations, having considered the same, respectfully recommends no further action is necessary on these appointments.

For the Committee,

EDWARD J. McCORMACK, Chairman.

The report was accepted.

REPORT OF COMMITTEE ON CLAIMS.

Coun. PIEMONTE, for the Committee on Claims, submitted the following:

Report on petition of Victor C. Vecchio (referred September 20) to be reimbursed as result of execution issued against him on account of his acts as member of Fire Department—recommending passage of the accompanying order:

Ordered, That the sum of \$398.05 be allowed and paid to Victor C. Vecchio in reimbursement for amount of execution issued against him on account of his acts as a member of the Fire Department, said sum to be charged to the appropriation for Executions of Court, Damage Claims and Disbursements.

The report was accepted and the order was passed.

REPORT OF COMMITTEE ON LICENSES.

Coun. PIEMONTE, for the Committee on Licenses, submitted the following:

Report on 36 petitions (referred September 27) for license to operate bowling alleys on the Lord's day—recommending that licenses be granted.

The report was accepted, and the licenses were severally granted under the usual conditions.

NAMING OF SQUARE IN HONOR OF CARMINE F. SARNO.

Coun. PIEMONTE offered the following:

Ordered, That the Committee to Memorialize Veterans be requested, through his Honor the Mayor, to name the square at the corner of Sheafe street and Snow Hill street in Boston in honor of Corp. Carmine F. Sarno, who lost his life on July 10, 1944, while in the service of his country as a member of the 351st Infantry of the 88th Division, Passed under suspension of the rules.

CERTAIN INFORMATION RE SECTION 17 OF CITY CHARTER.

Coun. PIEMONTE offered the following:

Ordered, That the Corporation Counsel submit in writing at the next meeting of the Boston City Council answers to the following questions:

1. The authority of the Boston City Council or any of its members to compel the Mayor to answer questions propounded by any member of the Council in conformance with section 17 of chapter 376 of the Acts of 1951 and any amendments pursuant thereto.

2. The authority of any citizen to compel the Mayor to answer questions propounded by any member of the Council in conformance with section 17 of chapter 376 of the Acts of 1951 and any amendments pursuant thereto.

3. The procedure and remedy to be followed in either instance to enforce compliance.

Passed under suspension of the rules.

OFF-STREET PARKING FACILITIES IN NEW REDEVELOPMENT PROJECTS.

Coun. PIEMONTE offered the following:

Whereas, The downtown business district of the City of Boston presently suffers from the widely recognized problems of traffic congestion and inadequate off-street parking and loading facilities which reduce Boston's competitive economic position and jeopardize business stability and opportunity for new development;

Whereas, The Central Artery (now under construction) and other street and highway improvements such as Embarkment road (now being widened) will allow more passenger cars and trucks to enter the business district and thereby increase the need for off-street facilities;

Whereas, The Boston Housing Authority contemplates redevelopment of a section of the South End (the New York Streets Area) and the West End—a process which provides for complete demolition and clearance of the existing substandard buildings and facilities and provides an area for new construction and development;

Whereas, These urban redevelopment projects provide an opportunity to rebuild part of our city in conformity with off-street parking and loading requirements and thereby reduce traffic and parking problems and encourage a healthy economic condition; now, therefore, be it

Resolved, That his Honor the Mayor be requested to direct the Boston Housing Authority, Redevelopment Division, to:

(a) Take the necessary measures to insure that adequate off-street parking facilities will be provided in the New York Streets Redevelopment Project and in the West End Redevelopment Project to serve whatever new development will take place in the project area.

(b) Take the necessary measures to insure that adequate off-street loading facilities will be provided in the New York Streets Redevelopment Project and in the West End Redevelopment Project to serve whatever new development will take place in the project area.

(c) Consider the advisability of using land in the two redevelopment projects for needed off-street parking facilities to serve adjacent and nearby existing businesses and other developments.

(d) From time to time advise this Honorable Body of the progress made.

The resolution was adopted under suspension of the rules.

CALL FOR STATE ELECTION NOVEMBER 2.

PROPOSED TRANSFER OF LAND FROM PARK DEPARTMENT

The following communication was presented:

City of Boston
Office of the Mayor
City Hall

July 29, 1954

Miss Agnes E. Reynolds
Secretary

The School Committee
15 Beacon Street
Boston, Massachusetts

My dear Miss Reynolds:

In your letter of June 25th you called my attention to a conference of the School Committee to the effect that certain land of the Park Department be transferred to the School Department for school purposes. I referred your communication to the Board of Parks and Recreation Commissioners. This Board, as you will note from the attached communication, voted unanimously against the transfer of this property.

Respectfully
(Signed) J. B. Hynes
Mayor

Placed on file.

The following communication was presented:

Park Department
33 Beacon St.
Boston 8

July 28, 1954

Honorable John B. Hynes
Mayor of Boston
Boston, Massachusetts

Dear Sir:

Under date of July 19, 1954, you addressed a communication to me requesting that the Board of Parks and Recreation Commissioners discuss the request of the School Committee relative to the transfer of certain property in the Fenway section of the city from the Parks and Recreation Department to the School Committee for school construction purposes.

The communication addressed to you by the School Department, under date of June 25, requested transfer of approximately 4,805,741 square feet of land located in the Fens and bounded by Park Drive, Boylston Street, The Fenway, and Agassiz Road.

The Parks and Recreation Commission gave full consideration to this request at its meeting on July 27 and voted unanimously, all members being present, against any transfer of this property.

Respectfully yours,
(Signed) Frank R. Kelley
Commissioner

Placed on file.

In connection with the foregoing communications, it was agreed that the following discussion of this matter in the Conference be printed in full in the record of this meeting:

Mr. Musco: Mr. Chairman, I don't intend to sit down and let these letters which we have received from the Mayor and the Park Commissioner go unanswered.

I know we are very much interested in progress in the schools. We are interested in new buildings. Whether the Parks and Recreation Commission feels that we need a new building is beside the point. I think many of our buildings are in need of repair. We are in need of new buildings in that particular area.

I would like the support of the members in further inquiring upon this particular problem and suggest that the Committee refer back to a statement a month or so ago in which I asked the Superintendent to submit a comprehensive report on the need of a new Boston Technical High School and a new Girls' Latin School in this area.

I have no intention of taking this answer from the Mayor or the Park Commissioner as No. I know we need the buildings. I know we want the buildings.

I think we ought to expend all possible effort in order to obtain this land from the Parks and Recreation Department. I hate to see it undeveloped. I hate to see it standing idle. I hate to see

that we are sacrificing new school construction because the Parks and Recreation Department wishes to hang on to this property for many years to come.

I know it might be a little bit radical in asking for over four million square feet of land, but on the other hand in the past week or so we voted to turn over to the Parks and Recreation Department four or five pieces of property and some land for its use. I think, in all due respect to us for our planning program, we ought to be given access to this particular land so that it can be developed for a school area, a recreational area. Let's take a firm stand on it.

I don't know how to go about it legally, but I don't want the matter to drop here.

Miss Fitzgerald: Mr. Chairman, could I suggest, if this meets with Mr. Musco's desires, that the School Committee attempt to arrange a formal meeting between itself as one official body of the city and the Board of Park Commissioners and tell them what we propose to do with that land? I think Mr. McMackin drew up a tentative plan for possible school use of that area. At that meeting with the Parks and Recreation Department we could show them what we intend to do with this land and ask them what present use is made of it. I think we should get behind the reasons for their initial refusal to us of the use of this property for schools.

Mr. Musco: That is exactly what I mean. I don't intend to take a letter like this where the Board of the Parks and Recreation Commissioners voted unanimously, all members being present, against any transfer of this property. Our Department is as much a part of the city as the Parks and Recreation Department, and I think right at the moment, with the dire conditions of Boston Technical High School and also the situation that faces us in regard to Girls' Latin School, we ought to take a positive stand.

If we don't face it now, we are going to have trouble in the next five or ten years, and I would like your support in going after this particular property. If it is not going to be used, then certainly our grandchildren and great-grandchildren will still be looking for Parks and Recreation Department land which is still uncultivated and undeveloped in The Fenway.

To me it is an ideal spot for two schools, plus a general type of auditorium with both indoor and outdoor recreational activities; and I think the Parks and Recreation Department, the School Department, and every other department in the city can make good use of it.

We have a good building program in the elementary schools. We don't have anything and

haven't had anything in the past twenty years for a new, modernized high school.

Chairman: Is it the desire of the members that we arrange a formal meeting with the Parks and Recreational Department in order to present our plans for the use of this land and impress upon them the need for it?

Miss Fitzgerald: Yes, Mr. Chairman.

Chairman: Is that all right with you, Mr. Lee?

Mr. Lee: Yes, but take enough time for the Superintendent to get all his plans and details in pretty sound condition so that we won't—

Chairman: So that we can present a sound case.

Miss Fitzgerald: Mr. Chairman, I think we could ask the Park Commissioner to give us a time which is convenient for the Parks and Recreation Department.

Chairman: Is it the wish of the Committee that the Mayor be present at this meeting? Where he has such power, I think it would be advisable that the Mayor be asked to be present at the same time.

Mr. Lee: The Mayor might be present on a future occasion. I think perhaps it would be logical for the two departments to meet first.

Chairman: I think he ought to hear both sides of the case.

Mr. Lee: Wouldn't it be better to meet with the Mayor after the matter had been thrashed over by the two departments.

Chairman: All right.

Mr. Lee: I am just raising the question.

Mr. Musco: Mr. Chairman, I would like to insert this for the public record. I know this is a serious situation, and I know everybody is interested, and we shouldn't take a passive attitude on it. We should take a progressive stand and really go after this particular property. We need it now, and we will need it in the future; and so that we may be better understood on this problem and let the public know of our proposal, and so that our intentions are not misinterpreted, I just repeat these statements again.

We may certainly note first that there have been several editorials in the Boston newspapers in the past few weeks about certain properties in the city; and that is, of course, resulting in probably a set-back in our own acquisition of the land in that area, but we do need two new schools. I agree with the general thought that the land for recreational activities is vital to the welfare of our present and future recreational programs.

I do wish, though, that there be further exploration and evaluation of this land in The Fenway. I have asked for that report and I would like to continue it; and if we have to, I think we ought to take up the fight and

try to obtain this particular property because I have looked at it with both Mr. Daley and Mr. McKenney. This particular area is not being used for any particular purpose other than for victory gardens. We do need two new high schools and we need them right away.

I understand, too, that the youngsters coming in to Boston Technical High School are going to the Theodore Roosevelt School. I do know, too, that Mr. McCoy, Head Master, Girls' Latin School, is going to have his problems as we prophesied back the first of the year. We can't have that continue for another year or even a year after that, and I believe that we can secure this land and erect these two new buildings to improve our own school plant.

I would advocate also the finest of recreational appointments for the Board of Parks and Recreation Commissioners, and these facilities might be used not only during the school year but during the vacation periods.

We have a deplorable situation in our high school athletic program. Teams have to travel all over the city, and I can't help but emphasize time and time again the fact that youngsters travel from intown to West Roxbury, a distance which is probably too much for them, and then they have to go home.

Now if we are interested in the development of the child, both in mind and in body, we have to have the cooperation of the entire city and all its departments.

I would like you to place me on record as being in favor of demanding that we try to obtain this land.

I have issued a statement to the press, and I would like to have that included in the public record also.

If I have to, I will be responsible for this particular upset in the Mayor's office and the Parks and Recreation Department because I don't think they realize how serious our problem is. We have lived so close to it that we know what the needs are in the educational field.

Chairman: Any further questions on this matter?

Mr. Musco: For the public record I would still like to receive from the Superintendent's office the report which I asked for over a month ago, and which I think he has ready.

Superintendent: Mr. Chairman, we presented that report. We presented the drawing that you worked out, you remember, Mr. McMackin.

Mr. McMackin: Yes.

Superintendent: And with the plot area.

Mr. McMackin: That's right.

Superintendent: And certainly with my recommendation, Mr. Musco, that we take every step, as you have said, to try to acquire this land.

Mr. Musco: May we place that in the public record, too?

Superintendent: Oh, yes.

Miss Fitzgerald: Mr. Chairman, would you then, as Chairman, contact Commissioner Kelley and ask him when he could set a date for the School Committee to present its case for the use of this property for school purposes and how it could, as Mr. Musco points out, work in with the recreational activities of the city as well as the schools?

Chairman: Miss Reynolds?

Secretary: I will be glad to.

Chairman: Contact the Board of Park Commissioners and say that it is our desire to meet with them to discuss this matter.

Miss Fitzgerald: To appeal the decision they made.

Chairman: And ask them to reconsider their action. Any further questions?

Superintendent: Aren't you going to ask for a personal conference?

Chairman: With them?

Superintendent: Oh, yes.

Mr. Musco: As far as I am concerned, our original request would have received a No answer anyway. I think that if we want this property, if we sincerely believe in it, we have to go out and get it. As far as any reciprocal agreements are concerned, certainly we can trace back over the last two or three weeks where we transferred the Quincy Street School, the Robert Swan School, the Sumner Street land and the Stephen M. Weld play area of 10,000 feet to the Parks and Recreation Department. We also transferred three buildings to the National Guard without cost. We transferred two buildings to the Boston Housing Authority; turned over to the city for sale, so that we can use the money, three pieces of property; and turned over one piece of property to the Planning Board.

Why can't we receive fair and reasonable consideration for a plot of land which to us is very vital in the future years to come for a centrally located high school community?

Mr. Lee: Mr. Chairman, in Mr. Musco's call for a thorough report on the matter, I think he may be in pursuit of something we ought to go through. I would think that a more formal report than has as yet been prepared should be prepared by either the Superintendent or his staff made up of four parts: one part describing the need for the centralized high schools such as we have today—Boston Technical High, Girls' Latin, etc.; a second part of the report stating what the advantages and disadvantages would be if those schools stand in their present locations; a third part would be the advantages or disadvantages of trying to locate those schools in Franklin Park, together with the feasibility of that; and lastly, the advantages and disadvantages if those schools were placed in The Fenway area.

In other words, I think the Mayor and the Board of Parks and Recreation are entitled to a

fairly careful study of what we are talking about, what the needs are, what the alternatives are, and what the losses and gains would be.

I rather think that we shouldn't act until we have that in fairly good outline, together with a couple of photographs like the ones that appeared in the Christian Science Monitor showing the neglect of that whole wide tract. I would be perfectly happy to leave it to the discretion of you, as far as I am concerned, and the Superintendent as to when you felt you had your material sufficiently in hand to ask for a date of hearing, and also the point that you brought up of whether the Mayor should be present at that stage, which I think is not the best way, but as far as I am concerned I would be glad to leave that decision to you or the Superintendent, for example.

Chairman: Any objections to having the Superintendent and myself gather together this report as suggested by Mr. Lee; and when we feel that it is sufficiently comprehensive, we will arrange or attempt to arrange a meeting or a personal conference with members of the School Committee, the Parks and Recreation Department, and the Mayor.

I feel that the Mayor should be in on the thing. After all, we are not going to get any place without his say so.

Mr. Musco: Well, I am in hear' accord with talking with the top officials on this problem. First of all, it affects them. It affects the Mayor as chief administrator and it also affects an important department like the Parks and Recreation Department, and the School Department.

Secondly, I don't intend to stand by and have any criticism or any action take similar place to that which happened in connection with the Boston City Hospital. We, as trustees of the School Department, have buildings, etc.; and we have to take the responsibility of allowing conditions to exist that we know exist without going after them with good faith and with fair and reasonable progress.

Sure, we ought to have a plan and we ought to have a brochure. Both Mr. Lee and myself have visited the Department of School Buildings and also have talked with the Engineer's office; and if we have a good enough sales brochure, I think we can win something over which will stand the entire system in good stead.

Chairman: Will you do that, Dr. Haley?

Superintendent: I will be glad to, Mr. Chairman.

ACCEPTANCE OF OFFICE

The following communication was received:

July 14, 1954
Miss Agnes Reynolds, Secretary,
Boston School Committee,
Boston, Massachusetts
My dear Miss Reynolds:

Thank you for your letter of July 12th, notifying me that a meeting of the Boston School Committee, held on July 12, 1954, on the nomination of the Superintendent, I was unanimously elected Assistant Superintendent, Boston Public Schools, for the term ending August 31, 1954, to complete the unexpired term of the late John W. Corcoran; and for a term of six years beginning September 1, 1954.

In accepting this position, I wish to thank Superintendent Dennis C. Haley and the members of the Boston School Committee for the confidence they have placed in me, and to assure them of my determination to discharge the duties of the Assistant Super-

intendent in a manner that will justify my election.

Very sincerely yours,
(Signed) William H. Ohrenberger
Assistant Superintendent

DEATHS

The Superintendent reported the deaths of the following-named teachers:

Roslindale High School—Fredrick J. Murray, master, July 31, 1954.

Michelangelo-Eliot-Hancock District—Frances S. Rodgers, July 31, 1954.

Placed on file.

Mr. Musco; Mr. Chairman and Members. I know that all the Boston school system—administrators, teachers, and pupils—were shocked by the sudden and unexpected death recently of Fred J. Murray, teacher coach at Roslindale High School for the past eighteen years and, prior to that, teacher coach at English High School for several years.

I feel a deep and personal loss because I was taught and coached by Mr. Murray at English High School, even though it was only for one short year.

Fred Murray was an inspiring gentleman who was not only skilled as a teacher and coach but as a counsellor and friend to hundreds of students in their formative years.

There is an inscription carved into one part of the granite walls which gird the reservation of the United States Military Academy at West Point. This inscription reads as follows: "The Greatest Game is the Game of Life—Play It with Courage, Honor and Integrity."

The life of Coach Murray epitomized these meaningful admonitions. He inculcated directly and indirectly these principles into the hopeful aspirants who were placed in his charge. He made the grade with us. We followed eagerly and with satisfaction the recognition given to him as an official in the field of intercollegiate athletics. We admired him.

Frederick J. Murray had the privilege of having his son, Father Frederick J. Murray, Jr., sing his requiem Mass. He earned and merited this great privilege. May he rest in Peace.

I will be honored to have my remarks included in the minutes, and may I also present the following resolutions prepared at my request by Mr. Thomas Gately, Head Master of Roslindale High School, and Mr. D. Leo Daley, Assistant Superintendent.

With your permission, I would like to submit these resolutions for the public record.

Mr. Musco offered the following:

WHEREAS, God has seen fit to take from our midst Frederick J. Murray, teacher and coach at the Roslindale High School for the past eighteen years, and

WHEREAS, his long service as teacher and coach in the Boston Public Schools was one in which he endeared himself to young people of the City of Boston who came into contact with him both in the classroom, on the athletic field and in adult life, and

WHEREAS, he instilled into the youth of the City of Boston those sterling qualities of clean manhood and good citizenship of which he was truly an excellent exemplar; be it therefore

RESOLVED, That the School Committee hereby expresses its sincere sorrow on the loss of a teacher and coach who in his daily tasks exemplified all the fine things that go to make up a real gentleman and father of a very fine family, and be it further

RESOLVED, That a copy of these resolutions be sent to the family of the late Frederick J. Murray as an expression of the deepest sympathy of the Boston School Committee.

On roll call the preamble and resolutions were adopted by the following vote:

RECONSIDERATION OF SALARY INCREASES FOR NON-ACADEMIC AND ACADEMIC PERSONNEL

It was agreed that the following discussion in Conference, pertaining to salary increases for non-academic and academic personnel, be printed in full in the record of the open meeting:

Mr. Musco: Mr. Chairman, Mr. Superintendent, and Members:

This particular problem has been a popular one since the first of the year, and I know that while we discussed these items sometime in February, March, and April, we came to no particular decision other than to suspend our entire decision on this until we met with the Mayor. At that time I was one of those in accord with the principle, particularly the single salary schedule—and, of course, we are all interested in increases for both non-academic and academic personnel in some particular respect.

With your indulgence I would like to read the following statement into the records because I have struggled with this particular problem since the day that I voted against the increase because of economy measures, and now I want to make this statement as to just how I stand.

"I am happy at this time to recommend the continuation of the single salary schedule and the equitable salary readjustment of groups and individuals, both academic and non-academic. This action is made possible by the current happier financial picture of the School Department.

"The School Committee, in the early part of 1954, faced the financial problem of adjusting school expenses to a reduced budgetary ceiling with a view to holding down the tax rate. Our objective was to lighten the City's financial burden while maintaining the efficiency of its school system. Our cooperative efforts proved successful as shown by the lower 1954 tax rate of \$69.80, in which the members of the School Committee are proud to share the credit.

"I felt, early in the year, that certain economies could be effected in the overall budget. It was the unanimous desire of my colleagues on the Board to streamline the school system and to make certain curtailments where possible. With this objective in mind, I submitted to the Superintendent my personal observations and suggestions for savings. These included a specific list of items under General School Purposes.

"Today we can be justly proud of our directives and actions in the areas of economy and efficiency. The streamlining of our organization and the wise allocation of funds over the months have resulted in a more healthy and sound educational and financial picture.

"The credit for these accomplishments which now permit the continuance of the single salary schedule and equitable adjustments in other salary classifications belongs to the Superintendent, the Business Manager, and their staffs.

"This program has been carried on quietly and effectively without hurting the operational efficiency of the school system. The morale of the school personnel will be improved; and our

high standards will be maintained. This Committee has accomplished all this even with a lowering of the tax burden."

Mr. Chairman, I would like to suggest that we immediately start working on these particular problems, either tonight or tomorrow night, and take some action on the recommendations that have been submitted to us by the Superintendent on the petitions that we have all received in the past few months. If we can get started on it Monday, Tuesday, Wednesday, Thursday, Friday, and even next week, of course everybody will be happy, and I know that the outcome will be a fair and just one for everyone concerned.

Chairman: Thank you very much, Mr. Musco.

Mr. Lee: Mr. Chairman, I listened with interest to what Mr. Musco said, although I thought he was somewhat rough on the School Committee. As far as I knew at the time we went over the budget last spring, we used every effort and certainly a great deal of time and nervous energy to streamline the school system as far as it was within our power to do so. I also believed at that time that the Superintendent and his staff had tried to always apply the taxpayers' money to the wisest and most expeditious advantage of the children, and I had every reason to think that he would continue to do so.

In other words, I am a little reluctant to believe that something has taken place since our budget meetings which has somehow produced this streamlining. As far as I know, we put through a very economical budget at the time, and as far as I knew, we were working with the Superintendent and his staff who had already applied the taxpayers' money wisely to education.

I am glad to have reaffirmed that which I thought was the case last spring but I am certainly not convinced that something new or different has happened in which I may be in error, but I am speaking for myself at that point as I believe Mr. Musco is speaking for himself in his remarks.

Chairman: Thank you very much, Mr. Lee.

In answer to one of the suggestions as proposed by Mr. Musco, may I inform the members that it is the intention of the Chair to go into a public meeting now, and following the public meeting we will go into executive session to take up specifically the items that he has mentioned—namely, the salary petitions and the salary schedule. I believe it is the intention of the Chair to call meetings either this week or next week for three or four days in a row so that we may dispose of these matters.

Mr. Lee: Mr. Chairman, on that point of yours about executive session, there is nothing I want to hear in private from Mr. Mus-

co, yourself, or others and nothing I want to say in private. I think of all parts of the School Committee's work, that part which apportions the taxpayers' money to various services would be considered in public. There may be an occasional item where a teacher has seemed unworthy and we do not wish to bring censure upon that teacher in public or where you may get a problem of personalities in assigning people to certain positions in the School Department all the way from assistant superintendent down to custodian.

Chairman: Mr. Lee, in order to alleviate your hesitancy about an executive session, I might call it a working meeting. It is merely a meeting of the School Committee to iron these things out.

Miss Fitzgerald: I think further to alleviate Mr. Lee's mind, Mr. Chairman, it is the Committee's intention that all the votes or deliberations on any of the recommendations made to us or any discussions that may help us arrive at these decisions upon which we vote will, of course, be done in public. This is not a meeting at which we are apportioning money but it is a meeting at which we are exploring the situation to see how we may be equitable to all persons in the apportioning of money, which will be done later publicly.

Mr. Lee: I don't see why the first part can't be done in public. I am not quite clear whether by this executive session you mean a session with the press present. Have you said whether that is implied? I mean I can see that this horseshoe table isn't very convenient for laying out an enormous number of papers.

Chairman: It is a meeting of the School Committee with the Administration. It was the hope of the Chairman that the School Committee would meet with members of the Administration.

Mr. Lee: And with nobody else?

Chairman: That's right.

Mr. Lee: I am opposed to such a meeting unless we do it as a regular practice throughout the year. I should think the problem of apportioning moneys, of all problems—

Chairman: We have done it several times through the year.

Mr. Lee: I think we did it where we wanted to spare from criticism a teacher who had a personal case, but I don't recall apportioning our moneys at a private session. We certainly had the budget hearings, where we discussed these problems, with the press present and would have had the public except we couldn't get all our papers and all the staff's papers around a table as small as this, and I see no reason whatever for it.

The Committee adjourned.

REAL PROPERTY BOARD.

INVITATION FOR PROPOSALS FOR CONSTRUCTION OF AN OPEN-AIR SUBURBAN OFF-STREET PARKING FACILITY ON THE SOUTHERLY SIDE OF RUGGLES STREET, BETWEEN SHAWMUT AVENUE AND WASHINGTON STREET, ROXBURY DISTRICT, BOSTON, MASS.

The Real Property Board of the City of Boston, hereinafter called the Board, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction of an open-air off-street parking facility on the southerly side of Ruggles street, between Shawmut avenue and Washington street, Roxbury district, Boston, Mass. A bond will be required for doing the work of a surety company approved by the Board in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals and the form of contract, together with the plans and specifications therein referred to, may be had daily (except Saturdays, Sundays, and holidays), between 9 A.M. and 5 P.M. at the office of the Board, Room 809, City Hall Annex, Court street, Boston. Copies of the plans and specifications may be taken out upon deposit of twenty-five dollars (\$25) for each set, refundable only to persons returning the same in good condition within ten days (Saturdays, Sundays, and holidays excluded) after the opening of bids.

Proposals shall be submitted in duplicate on forms obtained as aforesaid. Each copy of the proposal shall be properly filled out, signed, enclosed in an envelope, sealed and marked, "Proposal for Construction of an Open-Air Off-Street Parking Facility on the Southerly Side of Ruggles Street, between Shawmut Avenue and Washington Street, Roxbury District, Boston, Mass." One copy of the proposal, accompanied by a bid deposit in the form of a cashier's check on, or a certified check on, a responsible bank or trust company, in the sum of one thousand dollars (\$1,000), payable to and to become the property of the City of Boston if the proposal after acceptance is not carried out, shall be filed with the Board at its said office on or before Thursday, October 28, 1954, at 11 A.M., at which time and place all proposals will be publicly opened and read. The other copy of the proposal shall be filed by the bidder at the office of the City Auditor, City Hall, School street, Boston, prior to the opening of the bids.

If the price of any item appears to the Board to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price.

No proposal shall be withdrawn after the day and hour hereinbefore set for the opening of the proposals.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Real Property Board. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract.

The Board reserves the right to reject any or all proposals, or any part of a proposal, and to award the contract as the Board deems for the best interest of the city.

LONG ISLAND HOSPITAL WINS SIGNAL HONORS—RECEIVES FULL ACCREDITATION AT HANDS OF BOARD OF COMMISSIONERS OF NATIONAL JOINT COMMISSION ON HOSPITALS—SUPERINTENDENT MCGILLIVRAY PASSES INFORMATION TO MAYOR—INSTITUTION NOW RANKS AMONG LEADERS RENDERING SERVICE TO CITIZENS OF COMMUNITY.

Long Island Hospital, in Boston Harbor, has received a signal honor at the hands of the Joint Commission on Accreditation of Hospitals, thus adding to the luster of Boston as a city caring for its ill and infirm. Mayor Hynes has received this information in a letter sent by the Joint Commission on Accreditation of Hospitals to Commissioner John E. McGillivray, Superintendent of Long Island Hospital.

Member organizations of the Joint Commission are: the American College of Physicians, American College of Surgeons, American Hospital Association, American Medical Association, and the Canadian Medical Association. The letter of award, as made public by Mayor Hynes, reads as follows:

LONG ISLAND HOSPITAL RECEIVES CERTIFICATE OF ACCREDITATION.

(Continued from page 1293.)

JOINT COMMISSION ON ACCREDITATION OF
HOSPITALS,

600 NORTH RUSH STREET, CHICAGO, ILL.,

October 13, 1954.

MR. JOHN R. MCGILLIVRAY, *Superintendent*, Long Island Hospital, Boston, Mass.

DEAR MR. MCGILLIVRAY:

The Board of Commissioners of the Joint Commission on Accreditation of Hospitals has approved the recommendation that the Long Island Hospital receive full accreditation. As you know, this is a result of the evaluation of the hospital survey conducted on August 12, 1954, by Dr. William R. Albus, a field representative of the Joint Commission. Your courtesy to Doctor Albus at the time of his visit is appreciated.

Full accreditation will continue until such time as another survey conducted under the auspices of the commission indicates that it should be changed.

The Board of Commissioners has also approved the format of the Certificate of Accreditation, which we will send you as soon as it is available from the printers. Please complete and return the enclosed mimeographed form so that the name of your hospital will appear correctly on the certificate.

Please let us know of your progress and be assured of our cooperation if you have any questions.

Sincerely yours,

KENNETH B. BABCOCK, M.D., *Director.*

CITY PLANNING BOARD ISSUES NEW CITY MAP.

and connections, the Sullivan Square interchange, the Mystic River Bridge with its expressway connections, the East Boston Expressway, the changes in the Storrow Memorial Drive, the widening of the William T. Morrissey Boulevard, and the new Forest Hills overpass are shown.

Land reclamation areas in Dorchester and West Roxbury are indicated, as are also many of the new housing projects.

In the past half dozen years over 300 new streets have been added to Boston's street system, along with several hundred street name changes.

The last compilation of the Board of Street Commissioners showed a total of 5,397 streets in Boston, of which 3,051 are public streets, 2,027 private ways, 235 part public, and 84 public alleys. The over-all area of the city is 30,593 acres, or 47.8 square miles. Public streets total 720 miles in length and private streets 141 miles. Washington street is the longest, about nine miles from Haymarket square to the Dedham line. Commonwealth avenue to Kenmore square is the widest—200 feet. Forty-foot long Butler square in the old market district is the shortest, and Hammond avenue, from Chambers street to Leverett street, is in a class by itself, being only four feet wide.

In addition to official distribution, copies are now available to the general public at a nominal fee of 25 cents per copy, which barely covers the cost of printing, at the City Planning Board office, Room 1101, City Hall Annex.

ELECTRICAL WEEK DECLARATION.

The Mayor has issued the following declaration:

Whereas, Electricity is a vital factor in the lives of all of us, giving us the benefits of increased production and the highest standard of living in the world; and

Whereas, In commemoration of the seventy-fifth anniversary of the invention of the first practical light bulb by Thomas Alva Edison, and as a tribute to the many leaders in the electrical industry in our own City of Boston, where one of the first electric generating stations was put in operation on February 20, 1886; and

Whereas, It is important to impress upon the public generally the vital role which electricity plays in their everyday life, for their convenience, comfort, and safety; and

Whereas, We in the City of Boston have undertaken an educational program in our schools to teach the lesson of the proper, efficient, economical, and safe use of electricity in our work and in our homes; now, therefore

I, John B. Hynes, Mayor of the City of Boston, do hereby publicly declare the week of October 18-24, 1954, as Electrical Week in the City of Boston.

BOSTON, October 13, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:

Proposals for the construction of a 300-foot addition to the reinforced concrete sea wall, rear of the new men's prison, Deer Island, Boston Harbor, were publicly opened and read at this office on Monday, October 11, 1954, at 12 noon.

The following proposals were received: Navarro Construction Company, Inc., \$29,640; Walsh Company, Inc., \$29,190; A. Orlando, Inc., \$43,205; Vincent A. Brennan, \$25,994; Faetra Brothers, Inc., \$33,900; Dane Construction Corporation, \$27,242.30; Albany Contracting Company, \$27,940; Clingar Engineering Company, \$28,780; Michael Racioppi, \$31,923; A. Singarella & Sons, Inc., \$27,020; Michael Solimando, \$25,845 (with alternate bid on Item 5), \$25,965.

Michael Solimando, 584 Columbia road, Dorchester, was the lowest bidder by a margin of one hundred and forty nine dollars (\$149) and with his alternate bid

on Item 5 was the lowest bidder by a margin of twenty-nine dollars (\$29).

I respectfully request your permission to award the contract for the above-described work to the lowest bidder, Michael Solimando, in the amount of twenty-five thousand, nine hundred and sixty-five dollars (\$25,965) which amount would include his alternate bid on Item 5 of the proposal.

The work to be performed under this contract is to be completed on or before sixty working days from date of award.

Very truly yours,

EDWARD L. FRIEL,

Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT.

REAL PROPERTY DEPARTMENT.

Upon October 18 the Mayor approved a contract with Court Street Parking Company as requested in the following letter:

BOSTON, October 15, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

At a meeting of the Real Property Board duly held on Thursday, October 14, 1954, it was unanimously

Voted, To accept the bid of Court Street Parking Company, a Massachusetts Corporation, it being the highest bidder in the amount of \$3,600 per month, for the leasing of the off-street parking facility, located on Pearl, Franklin, and Hartford streets, Boston, for a term of six months, beginning November 1, 1954, and ending April 30, 1955, in accordance with the terms of the proposal and subject to the approval of the Mayor. It was unanimously

Voted, That the Chairman is authorized to take the necessary legal steps for the preparation and execution of the lease to Court Street Parking Company, for a term of six months, beginning November 1, 1954, and ending April 30, 1955, at a monthly rental of \$3,600, in accordance with the terms of the proposal and subject to the approval of the Mayor.

Following is a tabulation of the bids:

Court Street Parking Company, 22 Court street, Boston, \$3,600.

Boston Auto Parks, Inc., 25 Hunting-ton avenue, Boston, \$2,500.

Kendall Square Garage Company, 40 Beach street, Boston, \$2,250.

Devy Annex, Inc., 70 Federal street, Boston, \$2,175.

Joseph Pastore & William J. Sakowich, 82 Litchfield street, Brighton, \$2,126.

Your approval of the action of the Board is respectfully requested.

Respectfully yours,

HERMAN CARP, *Chairman,
Commissioner of Real Property.*

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor and supplies to the city departments. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

BOSTON, October 4, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Water Division of the Public Works Department has submitted a requisition for two (2) Burroughs Sensi-matic water billing machines.

Burroughs Corporation, the manufacturer of the above machines, has submitted an informal written quotation. Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Burroughs Corporation. Inasmuch as this company is the manufacturer, it is my opinion that no advantage would be gained by publicly advertising for prices.

Approximate total amount of contract will be: two (2) machines at \$3,241 each, \$6,482, less 10 per cent government discount, \$648.20—\$5,833.80, net, thirty days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, October 8, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the provisions of the letter approved by your Honor on January 26, 1954, authority is requested to award a contract, without public advertisement, to C. A. Swanson & Sons, Inc., of Massachusetts, for furnishing perishable foods to the various city departments from October 15, 1954, to March 31, 1955, inclusive.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, October 7, 1954.

HON. JOHN B. HYNES,
*Mayor of Boston.*SUBJECT: New School Building, Columbia
Point, William E. Russell District.

DEAR MR. MAYOR:

To assure myself of condition of soil upon which the loads of the new structure will be imposed, I find it necessary to make approximately twenty-eight (28) borings to acquire accurate information.

As this work is by nature highly classified I considered it to be in the best interests of the City of Boston to consult an established foundation engineering firm for estimates, and I have received from the Charles A. Leary Company, Foundation Engineers, 44 School street, Boston, Mass., information to the effect that they will make the 28 borings at approximately one dollar and sixty cents (\$1.60) per linear foot of boring; 24 of the borings to be approximately 50 feet deep, and the other four approximately 100 feet or to refusal. They will also arrange to have boring locations staked out on the ground by a professional surveyor so that the locations bored will be approximately on a building line of the building as shown on our drawing furnished to them, drawing dated August 27, 1954.

For the cost of surveying land plus the cost of borings an estimate not to exceed thirty-five hundred dollars (\$3,500) has been established.

As I am certain it will be in the best interests of the City of Boston to engage the Charles A. Leary Company, I ask that you approve of the awarding of a contract without public advertising.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

BOSTON, September 24, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Trustees of the Hospital Department and of Boston City Hospital request permission to enter upon a contract with Justin M. Kearney, of 1054 Brook road, Milton, Mass. It was voted by the trustees on September 17, 1954, that Mr. Kearney be engaged as an expert consulting engineer in hospital planning and plant operation. His qualifications are stated in an accompanying letter.

It is planned to use Mr. Kearney's services as a consultant in all the institutions within the Hospital Department. It is planned to utilize his services immediately if approval for this contract is granted.

It is proposed to pay Mr. Kearney a consultant's fee of one hundred dollars (\$100) per diem. It is planned to use his services as extensively as his other commitments will permit during the balance of 1954. The demand for his services will be somewhat lessened during 1955.

It is specifically proposed that permission be granted to enter upon a contract for 65 days of consulting services at \$100 per diem during the remainder of 1954. Funds are available for these services within our present budget.

It is further proposed to include within the contract the services of Mr. Kearney for an average of three consultant days' services per week during the first three months of 1955 up to and including March 31, 1955, at \$100 per diem, in an amount not to exceed \$4,000.

Since this is one of the most important and urgent phases of the work of reorganization of the department, authorization to enter upon this contract with Mr. Kearney at the earliest possible date will be very much appreciated.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

BOSTON, September 24, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The matter of very extensive maintenance and engineering problems within the entire plant of the Hospital Department has been discussed by the trustees with Dr. John F. Conlin, Director of Hospitals. There is agreement that the services of an expert hospital engineering consultant are urgently needed.

Such consultant services are needed immediately because of pressing needs of emergency nature in various essential utilities services within the department. There is also needed an immediate survey of all existing facilities to determine intelligently future needs for expansion and replacement.

By definition such a consultant should preferably be a college graduate in engineering. (Reference: Job Descriptions and Organizational Analysis for Hospitals and Related Health Services. Prepared in cooperation with the American Hospital Association by the U. S. Department of Labor and U. S. Employment Service, U. S. Government Printing Office, Washington, January, 1952.) Electrical or mechanical engineering options are preferred. Five to ten years of progressive experience in maintenance work is required.

Knowledge should include familiarity with building maintenance techniques, equipment and operation of power plants and laundries, plumbing and heating systems, sanitation, refrigeration, electrical systems, fire and safety regulations and procedures. There should be familiarity with work and limitations of various crafts, particularly licensed workers who are employed in building maintenance. Understands engineering specifications and is familiar with industrial ordering procedures, cost computations, government regulations and inspection procedures on such equipment as elevators and high pressure boilers, and state and local building and sanitation codes.

Justin M. Kearney, of 1054 Brook road, Milton, Mass., is available in this capacity. He is 44 years old. He is a consulting engineer, specializing in hospital planning and plant operation. He graduated from Massachusetts Institute of Technology in 1934. He is a registered professional engineer in both Massachusetts and Connecticut. He is a licensed builder, Classes A, B, and C, in Boston. He was engineer of Harvard University's Department of Buildings and Grounds, 1939-1940. He was superintendent of plant at Peter Bent Brigham Hospital, Boston, 1941-1946. He was assistant managing director of New Britain General Hospital (Connecticut), 1946-1949. He has been a consulting engineer for hospital planning and plant operation from 1949 to date.

He has furnished excellent references. These check most satisfactorily.

The trustees propose to your Honor that they be authorized to enter upon a contract with Mr. Kearney as an expert consulting engineer in hospital planning

and plant operation. He will be used on a consultant basis in all the institutions within the Hospital Department. The specific proposal is contained in the accompanying letter.

Respectfully yours,

RICHARD J. CONDON,
President, Board of Trustees.

BOSTON, September 28, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with public advertising, and to award a contract to Thomas F. McDonough, 25 Huntington avenue, Boston, Mass., for full architectural services in connection with alterations and renovations to the superintendent's residence, Boston City Hospital, at an estimated cost of \$15,000.

The architect is to be paid a fee equal to 10 per cent of the actual cost of the work subject to the provisions of the contract for said services.

Because of the professional nature of the services required, the trustees are of the opinion that there would be nothing gained by publicly advertising for bids.

Respectfully yours,

BOARD OF TRUSTEES,
HOSPITAL DEPARTMENT,
BOSTON CITY HOSPITAL,
RICHARD J. CONDON, *President.*

BOSTON, October 5, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your permission to dispense with public advertising, and to award a contract to Thomas F. McDonough, 25 Huntington avenue, Boston, Mass., for full architectural services in connection with alterations and renovations to Ward I, Pavilion 3, Boston City Hospital.

The estimated cost of the work is \$25,000 and the architect is to be paid a fee equal to ten per cent (10%) of the total cost of construction subject to the provisions of the contract for said services.

Because of the professional nature of the services required, the trustees are of the opinion that there would be nothing gained by publicly advertising for bids.

Respectfully yours,

BOARD OF TRUSTEES,
HOSPITAL DEPARTMENT,
BOSTON CITY HOSPITAL,
RICHARD J. CONDON, *President.*

PUBLIC WORKS DEPARTMENT.

BOSTON, October 8, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Under date of June 4 of the current year, the authorization of your Honor was granted to dispense with advertising and to award a contract to the C. N. Wood Company, in an amount not to exceed \$11,000, for effecting repairs to the so-called Walter snow fighters, which are heavy-duty trucks, used by the department for sanding, salting, and plowing streets during the winter months.

I am informed that the above amount has been substantially expended, due to the fact that the necessary repair work exceeded the estimates that were made prior to the awarding of the above-referenced contract. When the vehicles were taken to the shop of the Wood

Company and the motor heads removed, transmissions exposed, etc., it was discovered that more work than anticipated was absolutely essential. Under the circumstances, the maximum amount was expended on fewer vehicles than anticipated.

At the present time, I am informed by Acting Division Engineer Daniel J. Coughlin of the Automotive Division that there are six (6) units still remaining to be repaired. It is absolutely essential that these units be placed in A-1 operating condition for service during the coming winter, and I recommend that the repair of these units be done by the Wood Company. The latter referenced will take full responsibility for satisfactory operation of the units and will guarantee all workmanship and parts used in the repair work.

Due to the nature of the work, it would be most impractical to attempt to obtain publicly advertised proposals. The work of the contractor will be performed in accordance with contract specifications prepared by this department, and all charges made by the Wood Company will be subject to approval by an inspector of the Automotive Division who will be present at all times during the progress of the repair work.

I respectfully request your authorization to dispense with advertising, and to award a contract to the C. N. Wood Company, in an amount not to exceed \$5,000, for effecting whatever repairs are necessary to the so-called Walter snow fighters, with the understanding that the work will be authorized and assigned by Acting Division Engineer Coughlin of the Automotive Division.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

BOSTON, October 15, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Your approval is respectfully requested to the award of a contract for sewerage works in Margo road and private land, Brighton, to the Roslindale Contracting Company, 34 Averton street, Roslindale, the second lowest bidder, at an estimated cost of \$8,490, including concrete pipe.

The low bid as submitted by Ricci & DeSantis Construction Company, Inc., in accordance with their computations, was in the amount of \$8,351. This bid, however, was informal as it was not based on the total of all items computed on the basis of the unit prices submitted by the above contractor. The actual bid, as determined by the department on the basis of the unit prices, was in the amount of \$5,696.

The contract proposal provides that in the case of a discrepancy between the unit prices and the total sum of all items, the unit prices shall govern. Complying with these provisions, the acceptable bid, therefore, was in the amount of \$5,696 and not \$8,351.

The contractor informed me that he was confused in submitting the bids on Items 1 and 2 with the result that the product of the unit prices and quantities on these two items did not equal the total amount that the contractor inserted in the amount column. There is no question in my mind but that the contractor made an honest mistake and that he intended to bid \$8,351 and not \$5,696.

I am therefore rejecting the formal bid of Ricci & DeSantis Construction Company, Inc., as being abnormally low and

am recommending that the contract be awarded to the second lowest bidder. To award the contract to Ricci & DeSantis Construction Company, Inc., in the amount of \$5,696 would, in my opinion, result in a substantial loss to the contractor and I don't feel that we should take advantage of an honest mistake made by any bidder. Incidentally, our engineer's estimate for the contract was in the amount of \$7,690.

The work to be done under this contract is to be completed within sixty days after the contract is approved by the Mayor.

The following bids were received October 6, 1954, after advertising in the *City Record*, September 25, 1954:

Ricci & DeSantis Construction Company, Inc., \$5,696, clay pipe; \$5,696, concrete pipe; Roslindale Construction Company, \$8,796, clay pipe; \$8,490, concrete pipe; Joseph Capone & Son, \$10,706, clay pipe; \$10,400, concrete pipe; Bagarella Construction Company, Inc., \$11,894, clay pipe; \$11,894, concrete pipe.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

WELFARE DEPARTMENT.

BOSTON, October 14, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

The Board of Overseers of the Public Welfare respectfully requests your permission to award a contract to Dr. Joseph M. Lynch of 23 Bay State road, Boston, for expert services as medical consultant to the Welfare Department for a period of twelve months from October 15, 1954.

Doctor Lynch is a graduate of Tufts Medical School, has long and distinguished service in the medical profession, is on the staff of a number of teaching hospitals, has been a professor of clinical medicine at Tufts School of Medicine, and is a specialist in internal medicine.

The amount of the contract will not exceed four thousand (4,000) dollars for the twelve-month period.

Due to the nature of the services to be performed, your permission is requested for the awarding of the contract without public advertising.

Sincerely yours,

JOSEPH K. COLLINS,
Chairman.

SUFFOLK COUNTY.

MUNICIPAL COURT OF BOSTON.
(For Criminal Business.)

BOSTON, October 15, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with the provisions of chapter 216 of the Acts of 1950 and chapter 182 of the Acts of 1951, I respectfully request permission to award a contract for traffic violation slips to Henry Rosnosky of 16 Lincoln street, Boston, Mass., without advertising, for the calendar year 1955.

Mr. Rosnosky has furnished these violation slips to this court over a long period of years and expects to be able to deliver them on quick notice when slips are needed.

I am estimating at the present time that there will be at least three hundred thousand (300,000) slips used during the year 1955.

These slips are to cost \$6.60 per M sets, including one time carbons, three

slips to a set, or a total of nineteen hundred and eighty dollars (\$1,980), to be delivered in lots of 100,000 as called for.

Respectfully yours,

DANIEL J. LYNCH,
Clerk of the Court.

BOSTON, October 15, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with the provisions of chapter 216 of the Acts of 1950 and chapter 182 of the Acts of 1951, I respectfully request permission to award a contract for registration index books to Henry Rosnosky of 16 Lincoln street, Boston, Mass., without advertising, for the calendar year 1955.

Mr. Rosnosky has furnished this type of book in the past and is familiar with the requirements of this court.

Previous to last year only one set has been needed but, because of the change in law effective May 1, 1953, dividing the jurisdiction of this court into "uptown" and "downtown" Boston, a second set became necessary, making the total cost in excess of one thousand dollars (\$1,000).

These books will consist of two sets of sixteen volumes each, Parking Registration Index Books, one set for uptown violations and one set for downtown violations, at nine hundred and eighty-eight dollars (\$988) per set, or a total of nineteen hundred seventy-six dollars (\$1,976).

Respectfully yours,

DANIEL J. LYNCH,
Clerk of the Court.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract approved August 10, 1954, with Moss & Lepore, Inc., for interior painting at the Boston Clerical School, from September 15, 1954, to October 30, 1954. This extension was requested for the reason that because of other work being done in building, painting could not be completed.

Approval has been given for the extension of the time of completion of the contract dated August 10, 1954, with Brendan Sullivan for alterations at the High School of Commerce, from October 4, 1954, to November 15, 1954. This extension was requested because of additional work.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract dated July 28, 1954, with Palfrey Construction Company, for the building of sewerage works in Newfield street and Furbush road, West Roxbury, from September 28, 1954, to October 6, 1954. This extension was requested because unforeseen obstacles delayed the starting of the work.

TUNNEL TRAFFIC IN MAY.

In the month of May, 1,031,226 vehicles used the Sumner Tunnel. This is the first time in the history of the tunnel that in excess of 1,000,000 vehicles used the facility in any one month.

In May of 1953, 979,920 vehicles went through the tunnel, or 51,306 less than May of this year.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 11, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President WHITE in the chair, and all the members present. The Reverend Charles W. McCarthy, of St. Ann's Catholic Church, Somerville, was escorted to the rostrum.

INVOCATION BY REV. CHARLES W. MCCARTHY.

In the Name of the Father, and of the Son, and of the Holy Ghost. Amen.

O God, Creator and Redeemer of all men, as we approach the difficult problems that await our solution, enlighten our minds and purify our hearts that we may have the virtue and wisdom to do what is right no matter how difficult rather than what is questionable if it is easy.

May any official act of ours be in keeping with Thy divine plan and in conformity with Thy gracious will.

Our Father, Who art in heaven, hallowed be Thy name. Thy kingdom come, Thy will be done on earth, as it is in heaven. Give us this day our daily bread and forgive us our trespasses, as we forgive those who trespass against us, and lead us not into temptation but deliver us from evil. Amen.

The meeting was opened with the salute to the Flag.

CERTAIN INFORMATION ON UNDER-COMMON GARAGE.

The following was received:

City of Boston,
Office of the Mayor, September 27, 1954.
To the City Council.
Gentlemen:

Pursuant to order passed by your Honorable Body on September 20, 1954, I submit the following information:

1. Chapter 294 of the Acts of 1946 authorizing the city to lease space for a garage under Boston Common was approved by the Governor on May 14, 1946, and amended by St. 1948, ch. 654 (approved June 17, 1948) and St. 1951, ch. 355 (approved June 7, 1951).

2. The first agreement by the city under St. 1946, ch. 294, was made July 10, 1946, and amended September 5, 1946.

3. Said first agreement was superseded by an agreement dated December 9, 1949, which, by its original terms, was to expire July 1, 1950, but which was extended on the following dates: July 7, 1950, October 25, 1950, January 12, 1951, April 3, 1951, July 3, 1951, November 30, 1951, May 31, 1952, December, 1952, and November 30, 1953.

4. All said agreements, amendments, and extensions were made with Motor Park, Inc.

5. The most recent extension was made on November 30, 1953, with Motor Park, Inc., acting by Winthrop L. Scudder, Vice President, and extended the agreement as follows: "on an indefinite, indeterminate basis, subject to the condition that in the event an offer should be made to the city by responsible persons who are able to satisfy the city that they are financially able, willing, and ready to commence the construction of a garage under the Common, this agreement can be terminated on ninety days' notice."

"During the ninety days' notice period, Motor Park, Inc., shall have the right to nullify such notice by giving evidence fully satisfactory to the city that it is financially able, willing, and ready to commence the construction of such a garage, which it undertakes to begin forthwith."

6. The present status of the plans and agreements of the underground garage are dependent on offers that we may get from interested persons who show an inclination to build the garage and have the financial backing to do so. Up to the present moment no such offer has been made to the city.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

WITHDRAWAL OF ORDER FOR TRANSFER OF SOUTH FERRY LANDING PROPERTIES.

The following was received:

City of Boston,
Office of the Mayor, September 28, 1954.
To the City Council.
Gentlemen:

On September 20, 1954, I forwarded to your Honorable Body five orders for the transfer of city-owned land no longer needed for public purposes to the Commissioner of Real Property. The purpose of this transfer is to sell such property so that it may be developed into tax-paying properties. One of the orders submitted by me was for the transfer of the property known as the South Ferry Landing, Lewis street, East Boston.

With respect to this piece of property I am in receipt of a communication from the Chairman of the Boston Port Commission in which he informs me that this property is desired by the commission to be used in connection with the general development plan for the Port of Boston. Therefore, I hereby withdraw the order for the transfer of the South Ferry Landing properties so that arrangements may be made by the Public Works Commissioner to transfer this property to the Boston Port Commission.

Respectfully,
J. B. HYNES, Mayor.
Referred to the Committee on Public Lands.

VACANT LAND ON HANSON STREET AS-PLAY AREA.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1954.
To the City Council.
Gentlemen:

I transmit herewith communication from the Head Administrative Clerk of the Park Department concerning your order of September 27, 1954, relative to 3,182 square feet of vacant land at 14 and 16 Hanson street, in the South End, being utilized as a play area.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
October 4, 1954.

Harold B. Fleunuig,
Chief Clerk, Mayor's Office.
Dear Sir:

This will acknowledge memo from your office with attached enclosure, City Council order filed by Councillor McCormack, requesting that an investigation be made regarding the possibility of utilizing the 3,182 square feet of vacant land at 14 and 16 Hanson street, in the South End, next to the Franklin School, as a play area.

An examination will be made of this parcel of land by the Chief Engineer to ascertain whether or not it is one that would be suitable as a play area.

Very truly yours,
JOSEPH R. HYNES,
Head Administrative Clerk.

Placed on file.

SURVEY OF PRESENT MEDICAL NEEDS OF EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1954.
To the City Council.
Gentlemen:

I transmit herewith communication from the Director of Hospitals and Superintendent concerning your order of September 27, 1954, relative to a survey being made to determine the present medical needs of East Boston, with a view to increasing the facilities now offered at the East Boston Relief Station.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Hospital Department, October 7, 1954.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At a meeting of the Board of Trustees on October 1, 1954, the following order from the City Council of September 27, 1954, was presented: "Ordered, That the Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to conduct a survey to determine the present medical needs of East Boston, with a view to increasing the facilities now offered at the East Boston Relief Station, and that the results of such a survey be forwarded to the City Council."

The Trustees voted approval of this request.

Very truly yours,
JOHN F. CONLIN, M.D.,
Director of Hospitals and Superintendent.
Placed on file.

PARKMAN STREET METHODIST CHURCH.

The following was received:

City of Boston,
Office of the Mayor, October 11, 1954.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner concerning your order of September 27, 1954, relative to erection of signs indicating the location of the Parkman Street Methodist Church.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
October 8, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

In response to City Council order dated September 27, 1954 (Hurley), I wish to report that orders have been issued to erect signs bearing the legend "Parkman Street Methodist Church," with suitable arrows at the southwest corner of Adams street and Parkman street, Dorchester, and in the west side of Dorchester avenue 50 feet north of Melville avenue and opposite Parkman street.

These signs should be in place shortly.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.

CERTAIN INFORMATION RE SECTION 17F OF CITY CHARTER.

The following was received:

City of Boston,
Law Department, October 11, 1954.
To the City Council.
Gentlemen:

"This communication is in reply to the following order passed by your Honorable Body on October 4, 1954:

"Ordered, That the Corporation Counsel submit in writing at the next meeting of the Boston City Council answers to the following questions:

"1. The authority of the Boston City Council or any of its members to compel the Mayor to answer questions propounded by any member of the Council in conformance with section 17 of chapter 376 of the Acts of 1951 and any amendments pursuant thereto.

"2. The authority of any citizen to compel the Mayor to answer questions propounded by any member of the Council in conformance with section 17 of chapter 376 of the Acts of 1951 and any amendments pursuant thereto.

"3. The procedure and remedy to be followed in either instance to enforce compliance."

As chapter 376 of the Acts of 1951 has but five sections, and as section 17 of chapter 452 of the Acts of 1948, as appearing in section 1 of chapter 376 of the Acts of 1951, does not concern the propounding of questions, I am treating the above-quoted order as relating to section 17F of chapter 452 of the Acts of 1948, as appearing in section 1 of chapter 376 of the Acts of 1951. As so appearing, said section 17F provides as follows:

"The city council at any time may request from the mayor specific information on any municipal matter within its jurisdiction, and may request his presence to answer written questions relating thereto at a meeting to be held not earlier than one week from the date of the receipt of said questions, in which case the mayor shall personally, or through a head of a department or a member of a board, attend such meeting and publicly answer all such questions. The person so attending shall not be obliged to answer questions relating to any other matter. The mayor at any time may attend and address the city council in person or through the head of a department, or a member of a board, upon such subject as he may desire."

The duty imposed upon the Mayor by the above-quoted statutory provision is to answer publicly, either in person or through the head of a department or a member of a board, written questions relative to a municipal matter within the jurisdiction of the City Council. When

section 17F is compared with the preceding section 17E (where specific mention is made of City Councillors), it becomes plain that the written questions are to be propounded by the City Council acting as a Body and not by one or more individual councillors. The duty to answer is likewise obviously owed to the City Council as a Body and not to one or more individual councillors nor to other citizens. In my opinion, therefore, neither the City Council nor any member or committee thereof has authority to compel the Mayor to answer questions propounded by a member of the City Council; nor has any citizen such authority.

Respectfully,
WILLIAM L. BAXTER,
Corporation Counsel.

Referred to the Executive Committee.

ORGANIZATION OF BOARD OF ZONING ADJUSTMENT.

Notice was received from the Board of Zoning Adjustment of organization of Board as follows: Alan J. Potter, chairman; Albert V. Colman, vice chairman; Thomas E. McCormick, engineer; Mary T. Downey, secretary.

Yeas—Councillors Ahearn, Foley, Hailer, Hurley, Kerrigan, McCormack, McLaughlin, Piemonte, White—9.

2. Report on message of Mayor and order (referred September 20) for transfer of appropriation of \$25,000 to Public Celebrations—recommending that the order ought to pass.

The report was accepted.

On motion of Councillor Hurley the order was referred to the Executive Committee.

COMPENSATION OF CHARLES STREET JAIL GUARDS.

Coun. WHITE offered the following:

Whereas, The morale of the guards of the Charles Street Jail is at an extremely low ebb due to economic and working conditions; and

Whereas, The guards feel that their compensation in these times is not equitable; and

Whereas, They have an extremely hazardous occupation which prevents them from getting insurance for their dependents in case of fatality or lengthy incapacitation due to the nature of their positions; and

Whereas, The Boston City Council had previously recommended an upgrade in their classification; and

Whereas, They are allowed no means of self-protection while guarding criminals placed in the custody of the Charles Street Jail; therefore be it

Resolved, That the Boston City Council recommends an equitable adjustment of their salary compensation, and that a copy of this resolution be sent to the Mayor, the Compensation Review Board, and the Sheriff of Suffolk County.

Referred to the Executive Committee.

APPEARANCE OF REPRESENTATIVES OF AMERICAN FEDERATION OF STATE, COUNTY, AND MUNICIPAL EMPLOYEES.

Coun. AHEARN offered the following:

Whereas, The American Federation of State, County, and Municipal Employees, through their representatives, have called to our attention certain working conditions existing at the Charles Street Jail and relating to the nature of the employment and concerning the employees' compensation and related matters; and

Whereas, Representatives of said organization are desirous of personally presenting certain facts and suggestions to the City Council and have requested that they be allowed to appear before our Executive Committee; now, therefore, be it

Resolved, That representatives of the American Federation of State, County, and Municipal Employees be, and hereby are, invited to appear before and address the Executive Committee of the Boston City Council today on the subject matter above referred to and contained in a letter dated October 4, 1954, sent to his Honor the Mayor, and a copy of which has been sent to each City Councillor.

The resolution was adopted under suspension of the rules.

SIDEWALK ON ORIENT AVENUE, WARD 1.

Coun. PIEMONTE offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Orient avenue (both sides) from Tower street westerly to Faywood avenue, Ward 1, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 203 of the Acts of 1943, as amended.

Passed under suspension of the rules.

INSPECTION OF CLAMS BROUGHT FROM OUTSIDE BOSTON.

Coun. HURLEY offered the following:

Ordered, That the Health Commissioner of the City of Boston be instructed by his Honor the Mayor to have clams brought into Boston from outside Massachusetts inspected for the health and safety of the people of Boston.

Referred to the Committee on Licenses.

CONGRATULATIONS TO FIRE AND POLICE DEPARTMENTS AND M.D.C. POLICE.

Coun. HURLEY and KERRIGAN offered the following:

Resolved, That the Boston City Council, in meeting assembled, extends its congratulations to the officers and men of the Boston Fire Department, the Boston Police Department, and the Metropolitan District Commission Police for their outstanding work in effecting the rescue of nine men trapped

in the new M.D.C. tunnel in Allston. The assistance rendered also by the details of police of the cities of Cambridge, Medford, and Newton to the Boston police is gratefully recognized and once again points out the harmonious and well integrated cooperation between the cities in the Greater Boston area. The work of these firemen and policemen is another proud chapter in the book of heroic deeds performed by these departments through the years.

The resolution was adopted under suspension of the rules.

NAMING OF SQUARE IN HONOR OF BERNARD J. FARRELL.

Coun. McCORMACK offered the following:

Ordered, That the Special Committee to Memorialize Veterans be requested, through his Honor the Mayor, to recommend naming of the square at the intersection of Hillside and Sachem streets, Roxbury, in honor of Corporal Bernard J. Farrell, 309th Infantry, 78th Division, who was killed in action in Germany on March 20, 1945.

Passed under suspension of the rules.

TO REOPEN AQUARIUM.

Coun. McCORMACK, FOLEY, and KERRIGAN offered the following:

Ordered, That the City Council, in meeting assembled, request his Honor the Mayor to consult with the United States Department of the Interior, Fish and Wild Life Division, relative to having that agency replenish the stock of the Aquarium in South Boston, making it possible to reopen the same to the public.

Passed under suspension of the rules.

MASTER PLAN FOR PARKING FACILITIES.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Commissioner of Public Works, the Chairman of the Real Estate Board, and the Director of the Planning Board to meet and develop a master plan for parking facilities for the City of Boston and give special consideration without limiting their scope to:

1. Downtown parking in connection with land taken by the Commonwealth for the express highway.
2. Advisability of providing meter parking in areas adjacent to and under the Fitzgerald Highway from North Station to South Station.
3. A survey of private parking facilities which might be used during certain hours for special parking.
4. Disseminating a brochure on the proposed under-Common garage with a view to activating interest among developers.
5. Advisability of preparing maps, leaflets, etc., showing existing parking facilities and proposed facilities.

Passed under suspension of the rules.

RECESS.

On motion of Councillor Ahearn, the Council voted at 3.18 P.M., to take a recess, subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order at 4.17 P.M. by President WHITE.

SHELLFISH PERMIT FOR JOSEPH A. KEARNEY.

On motion of Councillor Hurley the application of Joseph A. Kearney for a commercial use shellfish permit (referred September 27) was recalled from the Committee on Licenses.

On further motion of Councillor Hurley the permit was granted under the usual conditions.

EXECUTIVE COMMITTEE REPORTS.

Coun. AHEARN, for the Executive Committee, submitted the following:

1. Report on resolution (referred today) that an equitable adjustment be made of salary compensation of guards at Charles Street Jail—recommending that resolution be adopted.

The report was accepted and the resolution was adopted.

AMENDMENT TO COUNTY CLASSIFICATION AND COMPENSATION PLANS.

Coun. FOLEY and WHITE offered the following:

Ordered, That Schedule B of the Classification and Compensation Plans for the Officers and Employees of Suffolk County, adopted by order passed by the City Council on November 24, 1952, and approved by the Mayor on November 25, 1952, be and the same hereby is, amended by striking out after the words "Compensation

Grade" under the caption "Jail Officer" the figure "16" and inserting in place thereof the figure "18."

Referred to the Supervisor of Personnel for report.

GROUP INSURANCE PLANS FOR MUNICIPAL EMPLOYEES.

Coun. FOLEY offered the following:

Ordered, That the Director of Administrative Services determine what Massachusetts cities contribute to group life insurance plans for municipal employees, and also the contribution per employee, in each city; and that this information be forwarded to the City Council when gathered.

Passed under suspension of the rules.

GREETINGS TO POLISH AMERICANS AND POLISH NATIONALS.

Coun. McCORMACK offered the following:

Whereas, Casimir Pulaski came to America to fight for American freedom, landing in Marblehead, Mass., on July 23, 1777; and

Whereas, General Washington, Commander in chief of American forces recommended to Congress a commission for Pulaski, and the latter, unwilling to remain idle, joined the American Army as a volunteer and signalized himself at the Battle of Brandywine; and

Whereas, Pulaski organized the first American cavalry, supported the cavalry out of his own funds, became its first commander, and won for himself the title of "Father of American Cavalry"; and

Whereas, Pulaski, through his bravery and disregard for personal safety, helped to save the City of Savannah, Georgia, where on the field of battle he was mortally wounded; and

Whereas, Pulaski gave his energy, money, and life to American freedom and has become the symbol of devotion to liberty for all persons in America and Europe; therefore be it

Resolved, That the City of Boston, through the City Council, and his Honor the Mayor, extend its greetings to Polish Americans and Polish nationals throughout the world and join with them in the prayer that the freedom which we Americans enjoy and for which Casimir Pulaski sacrificed so much may once again return to his native Poland.

The resolution was adopted by a unanimous rising vote.

Adjourned at 4.45 P.M., on motion of Councillor McCormack, to meet on Monday, October 18, 1954, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

SEWERAGE WORKS IN HYDE PARK.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city;

trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within 60 days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Derry road, bounded:

Northwesterly by Safford street, 40.18 feet; northeasterly by the northeasterly line of Derry road, 284.16 feet; southeasterly by sewer easement taken March 14, 1941, 40 feet; and southwesterly by the southwesterly line of Derry road, 288 feet, containing 10,443 square feet, more or less.

The sewerage works to be constructed are as follows: 185 linear feet of 10-inch pipe sanitary sewer and 185 linear feet of 10-inch pipe surface drain, at an estimated cost of \$3,700.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on the northeasterly side of Derry road, beginning at a point approximately 105 feet southeast of Safford street and extending approximately 195 feet southeasterly, and the abutting parcels of land situated on the southwesterly side of Derry road, beginning at a point approximately 100 feet southeast of Safford street and extending southeasterly 200 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the aforesaid plan and on file in the office of the Survey Division, Public Works Department.

FIRE DEPARTMENT ORDERS.

General Order No. 66.

I. RETIREMENT.

The following retirement, in accordance with section 57, chapter 32, of the General Laws, as amended, which became effective at 8 A.M., Wednesday, October 13, 1954, is hereby announced:

Hoseman William F. Clancy, Engine Company 45.

Hoseman Clancy was appointed to the Fire Department August 24, 1928, and he leaves the department with the best wishes of his associates.

II. TRANSFER.

The following transfer, to become effective at 8 A.M., Tuesday, October 19, 1954, is hereby announced:

Deputy Chief Leo C. Driscoll, from Division 1 to Headquarters.

III. COMMENDATION.

The Fire Commissioner is pleased to commend the members of the department who responded to Box 5221, at 8.29 P.M., Sunday, October 10, particularly those first to arrive, and those who entered the underground tunnel, through the 460-foot shaft, and assisted in the rescue operations of the workmen trapped beyond the location of the fire.

The fire was in a so-called "dolly car," operated by batteries, and weighing several tons. It was located about 3,500 feet from the entrance shaft. First, it was necessary to organize the group in the tunnel, check the fire with CO2 extinguishers, and have the car removed from the tunnel, through the shaft via the elevator, thence to the ground level, where the fire was extinguished with a water stream. After the car was removed, the trapped workmen were reached and directed from the tunnel, through the shaft, to the ground level.

Because of the poisonous nature of the fumes and smoke emanating from the burning material on the car, consisting mainly of storage batteries, it was necessary to equip all members with Chemox masks. The time involved to reach the burning car from the shaft, partially check the fire therein, and remove the car to the ground level, made it imperative that the firefighters work in relays. This does not take into consideration the time that elapsed to reach the trapped men.

This action, by the members of our department, proves that a well-trained organization can accomplish a good deal under most trying and hazardous conditions. It reflects great credit on the Boston Fire Department.

IV. NOMINATION OF TRUSTEES—CHARITABLE ASSOCIATION.

The attention of members of the Charitable Association of the Boston Fire Department is called to Article V, section 1, of the Constitution and By-laws concerning the nomination of trustees.

The Board of Chiefs and each district of the Firefighting Force of the Boston Fire Department (including District 16, so called) and the Boston Protective Department, shall submit the name of any candidate or candidates for the office of trustee of the association to the secretary on or before the first Monday in November of each year.

Nominations should be sent to the secretary, Franklin E. Lawrence, Engine 12, or mailed to same at 38 Mildred avenue, Mattapan, Massachusetts.

V. INSTRUCTIONS FOR OPERATING AND MAINTAINING THE FOAMITE FOAM GENERATOR.

Members of the department are requested to refer to Rules and Regulations of the Boston Fire Department, Appendix XI, and be guided by the information contained therein for operating and maintaining the foamite foam generators in service in companies having said generators and a supply of foam powder which is used with a hopper.

Adjustments.

In connection with this subject, the following adjustments in the departmental rule book shall be made:

On page 171, at bottom of page:

Strike out, Engine 18.

Add, Engine 17.

Strike out, Engine 44.

Strike out the columns with the headings—"Cans" and "Pounds of Powder."

On page 172, strike out the following:

"An additional supply of 100 cans of powder, 45 pounds per can, is kept at the Maintenance Division shop.

There is also stored at the quarters of Engine 31 100 cans of powder.

This powder is available at all times for any emergency for which it may be required. If at any time powder or a portion thereof is used, the Maintenance Division shall be notified in writing so that said division may replenish the supply and keep the reserve at these points up to the full amount."

Add the following:

If, at any time, powder or a portion thereof is used, the Maintenance Division shall be notified in writing so that said division may replenish the supply. Departmental Rule 261 shall be amended to read as follows:

Whenever the department is called to an airplane crash, or advised that an airplane is in landing difficulty, in addition to the regular assignment of apparatus, the Fire Alarm Office shall also dispatch the nearest company equipped with foamite. Foamite equipped companies, with the powdered foam, to be used with a hopper, are Engine Companies 1, 5, 17, 29, and fireboats Engine Companies 31 and 47.

VI. LETTER OF APPRECIATION.

The following communication, received in Fire Headquarters, is hereby published for the information of the department:

"City of Boston,

In City Council.

Resolved, That the Boston City Council, in meeting assembled, extends its congratulations to the officers and men of the Boston Fire Department, the Boston Police Department, and the Metropolitan District Commission Police for their outstanding work in effecting the rescue of nine men trapped in the new MDC tunnel in Allston. The assistance rendered also by the details of police of the cities of Cambridge, Medford, and Newton to the Boston Police is gratefully recognized and once again points out the harmonious and well integrated cooperation between the cities in the Greater Boston area. The work of these firemen and policemen is another proud chapter in the book of heroic deeds performed by these departments through the years.

In City Council, October 11, 1951.
Adopted.

Attest:

WALTER J. MALLOY,
City Clerk."

By order of Fire Commissioner
FRANCIS X. COTTER.

JOHN V. STAPLETON,
Chief of Department.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Glendower street, bounded:

Northwesterly by Poplar street, 40.97 feet; northeasterly by the northeasterly line of Glendower street, by two measurements, 383.96 feet and 111.87 feet on a curve of 468.41 feet radius; southeasterly by another part of Glendower street, 40 feet; and southwesterly by the southwesterly line of Glendower street, by two measurements, 102.31 feet on a curve of 428.41 feet radius and 392.82 feet, containing 19,819 square feet, more or less.

The sewerage works to be constructed are as follows: 500 linear feet of 10-inch pipe sanitary sewer at an estimated cost of \$4,000 and 490 linear feet of 10-inch pipe surface drain at an estimated cost of \$1,500.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Glendower street, for a distance of approximately 500 feet southeast of Poplar street, excluding the parcels at the corner of Poplar street, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said parcels in the amount hereinafter respectively set against it, said parcels and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this department.

Proposals for Sheet Asphalt Pavement in Columbus Avenue (Roxbury Crossing), Ward 9, from Station Street to Roxbury Street.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Columbus Avenue (Roxbury Crossing), Ward 9, from Station Street to Roxbury Street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Columbus Avenue (Roxbury Crossing), Ward 9, from Station Street to Roxbury Street," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of THURSDAY, NOVEMBER 4, 1954, with a certified check for ONE THOUSAND (1,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

NOTICE OF PUBLIC HEARING.

CITY OF BOSTON.

REAL PROPERTY BOARD,
ROOM 809, CITY HALL ANNEX.IN REAL PROPERTY BOARD OF THE CITY OF
BOSTON, ROOM 809, CITY HALL ANNEX,
OCTOBER 14, 1954.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of a parcel of land on the northerly side of River street, Dorchester district, extending through to Blue Hill avenue, containing approximately 31,000 square feet, for off-street parking purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 11 o'clock A.M. of Monday, November 8, 1954, and the Public Hearing Rooms of the Public Improvement Commission of the City of Boston, 401 City Hall Annex, as the time and place for a public hearing in the matter.

DEPARTMENT OF SCHOOL BUILDINGS.

TO STAGE EQUIPMENT CONTRACTORS.

INVITATION FOR PROPOSALS FOR REPAIRS AND
FLAMEPROOFING OF STAGE AND WINDOW
DRAPES, CURTAINS, ETC., IN VARIOUS
SCHOOLS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for repairs and flameproofing of stage and window drapes, curtains, etc., in various schools.

Proposals will be received until 12 o'clock noon, Monday, November 1, 1954, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor. The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
(Oct. 23.) *Superintendent of Construction.*

NOTICE TO SUBSCRIBERS.

If your subscription date has ended and you are still receiving the *City Record*, whether notified or not, send your renewal (\$5.00 for year), to Editor, *City Record*, Room 40, City Hall, Boston, Mass. Subscription from date of order.

MAYOR JOHN B. HYNES OUTLINES NEW TAX PLAN FOR CITY OF BOSTON — PROPOSES FIVE-POINT PROGRAM TO LIFT CITY OUT OF FINANCIAL DOLDRUMS AND BOOST IT TO ONE OF GREATEST CITIES OF WORLD — DELIVERS FIRST OF SERIES OF LECTURES BY LEADING CITIZENS AT BOSTON COLLEGE SCHOOL OF BUSINESS ADMINISTRATION — TACKLES TRAFFIC AND PARKING PROBLEMS AS RELIEF FROM ONEROUS BURDENS BORNE BY REAL ESTATE.

PUBLIC WORKS DEPARTMENT IS REMOVING DEBRIS FROM COLLAPSED WALL IN VICINITY OF ST. ANN'S CHURCH — WESTGLOW STREET REGION WILL BE PASSABLE AGAIN BY REPAIRS.

A dangerous condition, which is a menace to life and health, is being remedied by the Public Works Department in the removal of debris resulting from the collapse of a nine-foot wall on Westglow street, in the vicinity of St. Ann's Church.

The Public Works Department appealed to and secured the approval of Mayor Hynes for the work through the following communication:

PUBLIC WORKS DEPARTMENT.

BOSTON, October 21, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

A concrete wall approximately nine feet high and supporting Westglow street, Dorchester, at the dead end adjacent to property of St. Ann's Church,

(Continued on page 1338.)

RESULTS OF RECENT HURRICANES ARE STILL PLAGUING CITY DEPARTMENTS ENGAGED IN REMOVING RESULTANT DEBRIS — PARKS AND RECREATION AND HOSPITAL DEPARTMENTS REPAIRING DAMAGES AT LONG ISLAND AND ELSEWHERE.

Boston is still being plagued by the results of the hurricanes that visited the city during August and September. Contracts, approved by the Mayor upon request of several departments involved, are being awarded. The letters requesting approval read as follows:

(Continued on page 1335.)

In his talk at Boston College School of Business Administration on Tuesday, October 26, Mayor John B. Hynes spoke as follows:

The theme of my discourse today is "Boston, whither goest thou?" or, more pointedly, is Boston heading for the rough rocks of danger and despair, or are we heading for the happy harbor of safety and security? From this discussion perhaps you may draw a conclusion.

Let me preface what I have to say today by these observations. For at least one generation the municipal government of Boston, and the city itself, has been treading water. We have followed the line of least resistance. We have been slaves to expediency. We have stayed afloat, it is true, but it is also true that we have been outdistanced by other cities in the fiercely competitive race for business, industry, and commerce — the lifeblood of every great city. For a long period, too long a period, we courted and embraced the goddess of ennui. Only the tough fibers woven into our city over the generations that have gone by have kept us whole and intact.

It might be possible to get some vicarious pleasure in pointing an accusing finger at those who might be held responsible for the present economic situation in our city, but there is hardly any sense in such an attitude. We have cried over spilt milk too long. To attempt to unravel the threads of the past will butter no parsnips today or tomorrow. Regardless of who is responsible — be it a succession of shortsighted businessmen, or a succession of shortsighted public officials, or a combination of both — it is of no importance or help in the solution of our present problems. The fact of the matter is that during the past few decades we were looking the other way as the parade went marching by. Perhaps we were enamored and captivated by thoughts of our glorious past. Perhaps, even today, we think too much of the things that were, rather than of the things that could be.

Today and the Future.

Is it possible for us to direct our thinking to the things of today and the things of the future? Is it possible for us to profit from the experiences and mistakes of the past? Is it possible for us to regain our former place as one of the most progressive, forward-looking cities of the world? I believe it is. In fact, I am convinced we have already begun to think in that manner.

During recent years a new spirit has been awakened in Boston. You feel it. I feel it. It is in the air. This meeting here today is a manifestation of that new spirit. If we take advantage of the changing atmosphere, if we foster and nourish it, and if we are determined to get things done in Boston which must be done, our city, ten years hence, or even before that time, will once again be in the forefront of the great cities in our land.

To accomplish worth-while results, however, means that we must work in harness. Each influential element in the community must be willing to pull its share of the load. Each armchair strategist who sees the mote in the other fellow's eye, but never in his own, must be made to realize that no army ever won a decisive battle unless its officers and men worked and fought together to overcome every obstacle in the way of victory.

(Continued on page 1323.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR HYNES OUTLINES NEW TAX PLAN FOR CITY OF BOSTON.

(Continued from page 1321.)

To unfurl the flag of victory over Boston means a hard battle. We can win that battle. We can win it not by dreaming or hoping, but by fighting—and fighting together.

My talk today will be in two parts, the first of which will be concerned with the city government itself and some of its chief problems. The second part will be concerned with those matters in which the municipal government must rely on private enterprise for the fullest cooperation if our city and our community hope to arrive at the goal which spells progress.

With respect to the city government, may I be bold enough to say that I think it has turned a leaf for the better. Certainly your municipal government has not gone backward in the five years I have had the honor and privilege to serve as Mayor. In almost every field of municipal activity we have made progress. We are, however, far from satisfied, for we well realize that there are areas where our progress has been slow to the point of exasperation, chiefly because in those areas we are faced with deep-rooted conditions which are curable only by major upheavals or major surgery.

PROBLEMS OF GOVERNMENT.

One of these problems—an irksome problem, to say the least—is the valuation and assessment of properties in Boston. You might be interested to know that 25 years ago, back in 1930, the valuations in Boston totaled \$1,972,148,200. Today the valuations in Boston are \$1,566,676,000, or some \$400,000,000 less than in 1930.

In those dear, dead days beyond recall, commonly referred to as the roaring twenties, or the years of wonderful nonsense, property values in Boston went up by leaps and bounds, at least on the books of the city. To some extent new taxable construction was responsible for the high valuation figure, but a significant part of that over-all valuation figure was a higher scale of valuations placed on commercial, industrial, and business properties in the city. Residential properties, on the whole, were not increased.

Because times were good, and money flowing in a seemingly unending stream, no great objection was voiced to the higher valuations placed on commercial properties, and neither was there any great objection voiced to the strategy of leaving untouched the valuations on structures occupied by the voters.

Everyone was relatively happy until the great bubble of the 1920's burst. From that time until this time, 1930 to 1954, our valuation picture has been as scrambled and just about as decipherable as a futuristic painting. No mature judgment of our present assessment situation and practices can be formed unless there is some knowledge of what has transpired in this field from which the city receives its main source of income.

When the great depression struck with all its fury in 1930, Boston, as well as other cities and towns, was in a dilemma. The expenditures and commitments of the city were geared up to the income received from the peak valuations. Suddenly the city was faced with the task of meeting these more or less fixed obligations from a violently shrinking tax base. The city officials were in a quandary. If property values were to be reduced to a point commensurate with new, depression-period values, economies of great magnitude, involving the discharge of large

numbers of employees, at a time when jobs were at a premium, would have to be instituted. The officials, humanely, did not take that course.

They grimly held on to the old and higher valuations, believing the depression would soon blow over and good times would once again return to justify the higher values. But the reluctant, hold-the-line taxing officials were soon faced with a new force, the Appellate Tax Board, which was created in 1930 with authority to make adjustments in values established by local assessors. The power and authority of this new governmental agency, exercised directly or indirectly, broke the dam, and property values came tumbling down. In the five-year period, 1930 to 1935, property values in Boston dropped \$300,000,000.

As values dropped and no new income source became available, and no major economies were made, the tax rate began to spiral upward, and from 1930 to date, with a few minor exceptions, that is the direction in which it has been going.

In view of the fact that real estate is, by far, the main income producer through which the city meets its obligations, it is apparent that unless taxable valuations increase perceptibly, or the expenditures of the city decrease perceptibly, there is little prospect for a lower tax rate figure.

LOWER TAX RATE?

At this point, you might well inquire, is there no hope whatsoever for a lowering of the tax rate? There is some hope. Here are a few ways it can be accomplished:

1. A sizable jump in the amount of new taxable construction.
2. A new source of income of substantial proportions.
3. A reduction in city costs of substantial proportions.
4. The formation of a regional or metropolitan type of government.
5. A greater sharing in the income of the state government.

Very briefly, I will discuss these possibilities.

As far as I know, there is no significant new taxable construction in the offing, and, until the tax rate is lower than at present, considerably lower, no such construction can be expected.

This might be a good time to bring this rather startling comparison before you.

In the 25-year period, 1930 to date, the average new taxable construction was \$7,700,000 per year. Prior to 1930 our new taxable construction averaged over \$38,000,000 a year. In other words, today we are getting less than a fourth as much new taxable construction as we got 25 years ago. Rather an ominous comparison, is it not?

No new source of income which would result in an appreciable reduction in the present tax rate is available to the city, and no such source of income can be available without legislative authority.

In this connection, it might be well to keep in mind that Boston's tax rate would be at about the same level or even lower than that of other major cities in our country if Boston had access to the same income sources as those other large centers of population.

A reduction in city costs which could bring about a much lower tax rate would entail huge economies of such a nature as to injuriously affect the safety, health, and convenience of our citizens. That kind of economy is out of the question. The formation of a federated or metropolitan type of government could result in better, more efficient, and more economical service to the people of the metropolitan area. Such a federation is one of the sensible answers to the growing problems of large centers such as Boston. In time it will be adopted here in our community, and in other communities throughout America. Any attempt to create such an authority at this particular time would, I fear, end in failure.

A greater share of the income received by the state government would be most desirable and most acceptable. A fairer and more equitable distribution of state monies would be of some help to Boston, but any help of substantial nature which we might get from the parent government would involve, I am afraid, the imposition of further taxes by the state government.

Therefore, as we consider our present assessment problems, which are inextricably entwined with the annual tax rate figure, we can arrive at these conclusions.

ONLY PARTIAL ANSWER.

No improvements in assessing procedures, worth while and desirable as they may be; no revaluation of all the properties in the city, worth while and desirable as that may be; no steady improvement in the operating procedures, and no steady whittling away at municipal costs, worth while and desirable as they may be, are anything but a partial answer to our financial problem.

Until the existing log-jam is broken, until we reach the point where Boston is once again attractive to new businesses, and until we reach the point where present Boston business will reconstruct or expand, we will not be out of trouble.

That log-jam can be broken, and, once it is, we will be on our way to better things. If our tax rate in Boston was lower by \$15, there would be less cry about high valuations, there would be less demand for adjustments or abatements, there would be a great deal more new construction, which, in turn, would stabilize our whole financial structure. How do we break this log-jam, how do we get out of this morass in which we find ourselves, how do we get out of the strait jacket that presses upon us so tightly? In my opinion, the most efficacious, the most logical, and the quickest way to accomplish this purpose is to broaden the present tax base of the city.

With such a broader tax base most of Boston's troubles would evaporate into thin air. The tax burden in Boston would then be comparable with that of other large cities in our nation, thus vastly improving our competitive position. Petitions for tax abatements would be at a minimum. The proposed over-all equalization of values would not impose additional burdens on residential home owners. A broader tax base would mean new developments in our city, the tearing down of old structures, and the building of new ones. It would mean, as one

excellent example, that investors would expend \$50,000,000 to \$75,000,000 in the development of the 28-acre site now occupied by the Boston & Albany Railroad Yards, without seeking any special tax consideration. It would mean, in short, a building and rebuilding program that would revolutionize and revivify the city, and permit the city government to breathe deeply once again without fear of explosive consequences.

I bid you to think soberly and seriously in this vein. I bid you to believe me when I state that no Mayor, be he the sage of the centuries, or be he a financial genius of acknowledged wizardry, can make two and two add up to five, nor can he sweep back the incoming tide with a broom. You don't need an extraordinarily wise man or a sparkling genius to direct the affairs of a city government, and certainly I fall into neither of those classifications. But, even if I did, I would have to say to you that I can do just so much with the instruments and tools at hand. Only by giving me, or my successor, better tools with which to work can you expect a better product.

AUTO TRAFFIC.

Another current problem, acute, knotty, serious, and exasperating, is the problem of automotive traffic—and its lusty offspring, parking.

Within the lifetime of many of us here the whole tempo of American life has changed. No single innovation, invention, or successful experimentation is more responsible for that change than the motor-driven vehicle.

Not so many years ago the automobile was a luxury to be indulged in only by the well-to-do or the rich. Today the automobile is considered by almost every family to be a virtual necessity. Each year more than 1,000,000 additional automobiles take to the roads—take to roads which, in the case of Boston and many of our older and larger cities, were built to accommodate a much lesser number of horse-drawn vehicles, not to mention a much lesser number of people.

It is a temptation to recount the saga of the automobile and how tremendously it has changed the accepted mode of life of the days of our fathers or our grandfathers. I will dismiss that temptation merely by stating that the story of the automobile and what it has done to and for America is one of the most glowing and vitalizing chapters of our national history.

Over 30 years ago cities, including Boston, began to realize that the growing use of the motor-driven vehicle brought expanding problems as well as expanding business. Thoroughfares that were once satisfactory conduits for the nonmotor vehicle became inadequate to take the flow of an ever-increasing number of power-driven vehicles.

Narrow streets were widened; winding streets were straightened; modern paving was substituted for granite block and dirt roads; traffic regulations for the automobile were instituted; traffic police at busy intersections began to appear; old buildings were razed and parking lots took their place; indiscriminate parking on downtown streets became a safety hazard and a deterrent to the free flow of traffic; parking meters were installed to discourage the all-day parker; it became necessary to prohibit parking, in whole or in part, on some of the narrower and busier streets in the business areas; it became necessary to evolve a system of one-way streets and to line our curbs with

traffic signs, and yet, despite these measures and many others, we could not keep abreast of the increasing number of vehicles using the streets of the city.

Other means were sought to ease the growing and pressing problem of traffic and parking, such as municipally constructed or sponsored parking facilities in the downtown area; fringe parking; facilities close by transportation terminals; local shopping area parking spaces; further widening of streets; and the construction of a Central Artery which will cut through the very heart of the city itself.

Over 30 years ago the increase in the numbers and in the use of the automobile caught us by surprise. We were somewhat like the expectant parents who prepared for the arrival of a bouncing baby boy and were overwhelmed into a condition of mild shock when the stork deposited five rollicking, fluffy, and unpredictable little girls. Sometimes I doubt that we have ever fully recovered from the first realization that the automobile was here to stay.

ALL CITIES AFFECTED.

We must not think, however, that the advent or the increase in the number of motor vehicles caused an astigmatism peculiar only to Boston. I don't know of any large city in the United States, or small city for that matter, not of comparatively recent vintage, whose traffic and parking problem is not as acute or just about as acute as Boston's. It is the number one problem of every large center of population. It is even a problem in the little towns with their elm-lined main streets. In comparison to its size and its population, Boston has been no more and no less traffic- and parking-wise than most of the local governments in our country.

I say this not to give the impression that Boston is smug about the present traffic and parking situation, or content that we are making sufficient progress in the solution of this problem. We are not smug. We are not satisfied. We are just as much annoyed and exasperated about the situation as those who criticize us and tell us to get going at greatly accelerated speed but have no intimate knowledge of the difficulties or the interminable delays that are encountered on every hand, and about which we can do only what the law and the state of our finances and the congested character of the inner city permits us to do.

We realize, for example, that eight or more parking facilities each accommodating 500 or 600 cars are needed in the mile-square downtown area of Boston, and that this need will be aggravated when the Central Artery is completed about two years hence. We know, also, that there is a point beyond which the city should not go in the destruction of valuable properties for parking facilities. We also recognize that unless parking facilities are very close to places where people work, or shop, or worship, or seek pleasure, those facilities are neither fully utilized nor are they self-supporting.

We appreciate the parking problems in the local shopping areas, and we will continue to create parking spaces adjacent to these areas if it is proved that those built, or under construction are used to advantage by local shoppers. We know that the creation of the oft-recommended, vast parking areas on the periphery of the city is not a workable solution to the intown parking problem unless those areas are immediately adjacent to direct rapid transit lines to the heart of the downtown city.

We know, in brief, that we have a traffic and parking situation in Boston alike to in many ways, and yet utterly different from, that of many other large cities. We know that the city government has a primary, if not indeed a selfish, responsibility for the improvement of that situation. We know that unless traffic can move with reasonable freedom through our streets, and unless a reasonable number of parking spaces are available as close as possible to vital business and shopping locations, our city will be further affected by decentralization to the point where serious and tragic consequences may ensue.

There is now no doubt that the automobile is here to stay. There is doubt, however, that our business will stay in our city if we do not expend our best efforts in meeting the challenge the motor vehicle has presented. We do not underestimate the length and the breadth and the force of that challenge, and I hope you do not. I also hope you will have confidence that we of the city government will give no less than our best efforts in this respect.

I cannot leave this topic without a word or two of praise for the present officials in the state government, and for the officials who preceded them. Former Governor Paul A. Dever, and our present Governor, Christian Herter, together with their capable Public Works Commissioners, William Callahan and John Volpe, have been intensely aware of the traffic situation in Boston, as it related to the general traffic situation and general well-being of the Commonwealth. All of these gentlemen have been of the same mind—that a statewide or metropolitan traffic pattern of improvements which stopped at the boundary lines of Boston would be wasteful, incongruous, and incomplete.

Fortunately for Boston, and for the state, these officials, the late chairman of the Metropolitan District Commission, William Morrissey, and its current chairman, Charles Greenough, have been neither niggardly nor shortsighted in the planning and construction of new thoroughfares which, when completed, will open up the City of Boston, give it a new look, a new accessibility, and give us a new incentive to remake and rebuild our city to meet modern-day competition, without destroying the charm and the character which sets Boston out as one of the most distinct and attractive cities in our country.

In my comments concerning the valuation situation in Boston and its by-product, the tax rate, and in my comments relative to those rambunctious twins, traffic and parking, I have purposely refrained from the use of many facts and figures which might be revealing and enlightening. This was done for two reasons: first, because of time limitations, and, second, because at a later date during this series of meetings, specific, detailed information about these matters will be furnished by the department officials most concerned. For the same reasons I have given no mention to many other functions of municipal government of more or less importance.

At the beginning of the second part of this discourse, and with reference to these plans, proposals, projects, or varied activities in which the city government cannot be both the principal performer and the supporting cast, may I state that I believe a bright and promising future for Boston is the ardent desire

and burning wish of everyone here, and many who are not here.

What then can be done, what should be done, what must be done, and how it can, or should, or must, be done, and who is going to do it so that our desires may be realized and hopes fulfilled, is a topic deserving of much serious debate and solid thinking.

In the time remaining to me I cannot present to you a complete or fully charted program of general improvements that should be made, or activities entered into, which will make for a better Boston.

SOME PROPOSALS.

I shall attempt, however, to outline a few proposals which are possible of accomplishment, and which will have a beneficial effect on Boston's future.

Just recently you have read of a plan for urban redevelopment in that section of the South End commonly referred to as the New York Streets area.

What is meant by urban redevelopment? What is its purpose? What do we stand to gain?

Ever so briefly, urban redevelopment aspires to eliminate certain substandard, decadent, blighted areas in a city, and to redeem and reconstruct such areas to a use which will strengthen the economic base of the city.

I think there is no disagreement on the need for urban redevelopment in Boston. We are an old city. The shifting winds of time have left their marks upon our face. Parts of our city which were once flourishing, attractive, and desirable sections in which to live or do business have materially changed. Indeed, some of our sections have deteriorated so much that there is not even the faintest hope for a change for the better, except in the adoption of a redevelopment plan which calls for joint action of government and private enterprise.

In our city, as in other of the large and old cities, the only way that decay and blight may be uprooted, and the only way its contaminating influences may be stayed, is by a complete physical change in the affected neighborhood or area.

OFF-STREET PARKING.

The area comprising the New York streets is that kind of a problem. Through the urban redevelopment law we intend to wipe out all but a few structures in this 24 acres within our city. The district, largely composed of substandard dwellings, will be dedicated to light industrial and commercial use. A new street pattern will be instituted. Restrictions on use of the land will run with the land. Off-street loading and off-street parking will be typical requirements within the area. No noxious or offensive-type business will be permitted, nor will places of amusement or taverns be allowed.

The cost of this redevelopment project will be about \$4,300,000, of which the federal government, which has already given preliminary approval, will assume two thirds, or about \$2,900,000. The other third of the cost, or about \$1,400,000, will be borne by the City of Boston. The city, however, will be given credit for any land or buildings owned by it in the area, and will also be given credit for the cost of utility installations, bringing the net cost to the city down to about \$900,000.

After the area is cleared, the land will then be sold at fair value, and from the proceeds of this sale, estimated to

be \$750,000, the city will receive one third, so that the eventual net cost to the city will be about \$650,000. Within a few years the city will recover its investment in new taxes. The elimination of a congested, disease-breeding section of the city will also be reflected in lower municipal costs.

The new development will utilize but 16 of the 24 acres for building sites, thus insuring free traffic movement and precious light and air for the area.

In going ahead with this, the first of the urban redevelopment efforts in our city, we shall learn a great deal. We believe that the closeness of this pilot area to the financial, wool, leather, insurance, retail trade, and garment district, and its ready accessibility to the Central Artery, will insure its success as a desirable section for light industrial and commercial purposes.

We have other areas in our city in mind for such urban redevelopment, and if it is a fact that private industry is willing to cooperate, participate in, and share in the short-term and long-term advantages which will follow from the elimination and redevelopment of eye-repelling, decadent, congested areas of our city, we will have turned the corner toward better days.

Urban redevelopment presents an opportunity for the private enterprise to improve the general situation of the city while, at the same time, improving its own position. I am confident that private enterprise will accept the challenge.

NEW ZONING CODE.

Another proposition which calls for your consideration is a new zoning code for the City of Boston. Like its blood brother, urban redevelopment, a rezoning of the city is not merely desirable. It is, in fact, essential.

The present zoning statute of the city was put into effect 30 years ago, and, though there have been some changes in the original zoning law and map, nevertheless it is recognized by all informed persons that the present zoning code of the city is a patchwork quilt, outdated and outmoded, and sadly in need of complete revision.

Since the enactment of the original zoning law there has been a revolution in the manner in which people live and do business. There have been sweeping changes in the character of neighborhoods, in the family and social life, and in the methods and types of construction. Our zoning law, with its rigid and almost inflexible provisions, did not contemplate these changes. As a consequence, the original zoning law of 1924, which in all good faith was intended to be a vehicle of planned progress for the city, is now moving only by fits and starts, and threatening to come to a complete halt with our destination still far away.

Recognizing the growing futility of the present law, two years ago I provided funds to our City Planning Board for a study of the zoning code, and for recommendations for a new code geared to meet present conditions and future possibilities. That study is 70 per cent completed. The final report and recommendations will be ready in the late spring or early summer of next year. New enabling legislation will be sought so that the city itself may enact this code by ordinance, and amend it by ordinance, from time to time as the need arises. I hope you gentlemen will take the opportunity to favor this legislation, for by it, and through it, we can accomplish four major objectives.

We can strengthen the economy of the city and enhance its livability by encouraging new construction of desirable types of buildings and by encouraging investment in new land uses.

We can preserve and protect sound homogeneous areas from the intrusion of incompatible land uses. We can, in an orderly and protective way, give warranties to both the home owner and the business concern.

CORRECT PAST MISTAKES.

We can, in equity, of course, correct mistakes of the past. We can reduce nuisances, gradually eliminate nonconforming uses, and make it obligatory, as conditions require, that new structures, and perhaps some old structures, provide for off-street parking or off-street truck loading docks.

We can have a flexibility, now lacking in the present code, which will permit us to readily adapt the code from time to time to meet changing conditions without going through the long, laborious, and time-consuming process of seeking amendments to the law. We can so provide, as a practical matter, that desirable changes in the code will not be deterred because of shortsighted or localized pressures.

No city such as Boston can afford to be without a modern zoning code. A living city is constantly being rebuilt. A city where changes to meet changing times are either very difficult or well-nigh impossible is a dying city. It is estimated that over the next 20 years we can have as much as \$1,000,000,000 of new construction or alterations in our city, provided we make ready the road. One of our critical needs is the attraction of new business or investment capital to bolster our sagging tax base and improve the general economy of our city. A new zoning law is one of the facets which can bring a flood of new business and new hope to our city.

I must hurry along, but I cannot close my discussion without some mention, scanty as it may be, of a few proposals which are, in my opinion, worthy of general community support.

You have read something of a new world trade center in Boston. What is the over-all purpose of such a center? It is to make Boston, once again, a thriving seaport through which will flow imports and exports of every conceivable kind and description.

One of its primary purposes is to provide a conduit through which New England's products may be displayed and sold to foreign purchasers, and foreign products displayed and sold to New England buyers in an atmosphere which promotes good will, confidence, and understanding.

As a seaport city, Boston still has unplumbed possibilities. A world trade center, such as is visualized, is not a mirage. It is not the exciting dream of some hazy thinker. Such a world trade center has been in operation in New Orleans for some ten years. Through it New Orleans has captured business which has brought its port from sixteenth to second in the list of cities engaged in import or export business. It has meant to New Orleans a continued basic prosperity which makes that city the envy of many other cities in our country.

The New Orleans Trade Mart is a clearing house for national and international trade. In pleasant surroundings the domestic or the foreign buyers or sellers can meet to transact their business. Trade and shipping experts, research specialists, bilingual secretaries are avail-

able at all times to give advice and assistance. Library facilities are provided. Suitable accommodations are arranged for the visiting businessman, and his every ordinary need anticipated. The Port of New Orleans Commission publicizes the port all over the world. The result of all this, and the guiding spirits behind it—the businessmen of New Orleans—is that the city is no longer famous only for its gay atmosphere; it is now equally, if not more, famous as a thriving trade headquarters which brings profit and prosperity to that city. What New Orleans, situated on the Mississippi, 120 miles from the Gulf, has been able to do in comparatively few years, we in Boston, with a natural seaport, can also do.

For years upon end we have heard the plaintive cry—"What happened to the Port of Boston, which once was one of the busiest ports in our country?" Again let us not point the recriminating finger. No matter what has happened in the past, we can, if we will, make Boston a great seaport once again. European countries, South American countries, our great neighbor to the north, Canada—are all anxious to do business with America. We can get our share of that business but not by wishing and hoping. We must go after it. We must do what a handful of enterprising men of New Orleans did ten years ago—organize and provide the facilities which will promote two-way trade. The handful of organizers in New Orleans has grown to a membership of 3,000, and the trade mart in that city is increasing in membership and influence through the medium of reciprocal trade missions, student exchange with foreign countries, and well-arranged travel groups.

Two years ago I visited New Orleans with a group of about 20 Boston businessmen. From that visit has come a determination to establish a world trade center here in Boston. A month ago, about 50 responsible concerns or individuals agreed to become founders of a world trade center in Boston. This is but the beginning—but a good beginning. Last night a second meeting was held at the proposed headquarters for our world trade center, and additional concerns or individuals pledged their financial support to this new venture.

Hardly a concern in Boston should fail to join this new organization, be it as founding or as sustaining members.

TO TEST OUR METTLE.

This is something that can test our mettle. This is an opportunity for private enterprise to go ahead on its own, to prove that we can pull ourselves up by our own boot straps without seeking aid or assistance from any branch of government. This, a world trade mart, can unlock many doors that have been closed to us for far too long a period. This is the kind of thing that benefits labor and capital and, indirectly, every Tom, Dick, and Harry in the city. This is an opportunity to prove that Boston is on the upswing. This is where business must take the lead. This is a glorious chance to demonstrate to the world that Boston has taken off its kid gloves, and is ready to go to work.

Another opportunity, spelling real progress, also looms on the horizon. A stone's throw from beautiful Copley square is a piece of land comprising 20 acres, now used as railroad yards by the Boston & Albany Railroad Company, and shortly to be vacated by that company.

Not since the disastrous fire in 1872 has there been available in the heart-land of the city itself a cleared area of land of

comparable size. To my thinking the manner in which this land is developed will have a distinct bearing on the future of Boston. A golden opportunity will be lost, and perhaps forever, if this most favorably located site is peddled off, piecemeal, to a variety of buyers who will make use of the land for a variety of purposes.

On the other hand, if this 28 acres of land is transferred to a purchaser who intends to develop the site as a commercial center, with office buildings, shops, a hotel, and parking for thousands of vehicles, we shall then have an area which will not only revitalize the Back Bay section of our city, and improve values all around it, but will also help reverse the alarming tendency of shoppers to do their purchasing outside the city limits where parking is not a problem.

Spacious parking arrangements at the Back Bay center site will be a magnet for those who now fear to drive the family automobile into downtown Boston. A new hotel with its own parking facilities and a convention hall-auditorium will also be magnets for large, free-spending convention groups which now cannot be accommodated in Boston, to our great loss.

To do all this on a grand, befitting scale, means that an investment of \$50,000,000 to \$75,000,000 must be made. No one, no group, will risk this kind of money unless there is provided some reasonable protection for that investment.

This, then, is the nub of the problem, and, unless we can work out, by legislation, a protective plan which will give some guarantee of reasonable return to the large investor, there will be no breath-taking development of the Boston & Albany site, and there will continue to be a gradual decline in the character and property values of this section of our city.

A tax protection plan to encourage the multimillion dollar development of the Boston & Albany site is now being studied by a special legislative commission. There is opposition to this plan on the part of old established business interests in Boston. I understand the reasons for that opposition and, to a point, I am in sympathetic agreement. But, if Boston is ever, in our time at least, going to loosen the cords which are growing tighter around our economic windpipe, this may be the way, and this may be the time to look a little beyond today, to think a little deeper than personal interest, and to acquiesce in a plan which, in its fulfillment, can very well result in a much more prosperous and attractive city than we have at the present time.

To those who stand against this tax protection plan, and the subsequent large-scale development which is its purpose, may I simply say—think seriously before your objections are voiced, for you well may be standing in your own light. If ever Boston needed a shot in the arm, so to speak, it is now. A few years from now may be too late.

LAWS NEED REVISION.

There comes a time when many man-made laws need revision. In the case of our tax laws I submit that that time is here. Not a revision that provides a loophole for the tax dodger, or which provides an easy road to riches for the itinerant promoter, or which makes heavier the burden of those who have borne the tax load through the heat of the day—but I do believe tax laws should be changed when that change will benefit a whole city, a whole community, indeed the whole Commonwealth.

I am convinced that a change in our laws which will permit of the proposed ultramodern development of the Exeter Street yards to the extent envisioned by willing investors will mark a new and inspiring chapter in the life of Boston.

If time were not so precious, I would like to discuss other physical aspects of our city; to speak of the need for a second tunnel to keep pace with traffic flow from the Central Artery; to speak of the need for thinking and planning for the helicopter age which is just around the corner; to speak of the desirability of a new municipal office building to replace the present obsolete and far from imposing structures on School and Court streets; but such discussions can wait for another time.

Permit me to close this long, and I hope not too boring, dissertation by stating that we are all concerned lest the creeping shadow of blight descend upon our city. At any cost this we must prevent.

Other cities in America, some of which were struggling for existence when Boston was a thriving city, have gone into action to remake, to rebuild, to revitalize their blighted and their downtown areas. The great cities of Pittsburgh, Detroit, Chicago, New Orleans, Philadelphia, Houston, and others are in the midst of planning or in the process of rebuilding their cities on a scale that challenges the imagination, and these major improvements are made possible through the vision and the medium of local capital and local enterprise, in cooperation with local public officials.

What these cities are planning and doing we here in Boston should be planning and doing. Your local public officials are ready to cooperate to the fullest. We await only for local capital and local enterprise to come forward.

Let us then put direction to our newly awakened spirit to accomplish what must be done. Only a few days ago, here in Boston, the president of the second largest insurance company in the world said that our area has the most mature, but still the most flexible, economy of any section of the country. He also predicted that our section of the country in the next two decades will see a new industrial revolution, and that we will grow and develop more than in any comparable period in our history.

Why then do we wait, we who are the guardians of this great center of a great area which, in the words of a highly competent authority, has the most flexible economy of any section of the country?

It is time we began moving forward, for, if we do not, the frightening specters of decadence, blight, and retrogression will haunt us.

These are awesome words, which have an awesome meaning to us, and an even more awesome heritage for those who will take our places. We must never, never let them characterize our city. For over 300 years, generation after generation of sturdy, determined Bostonians, refreshed and reinforced by the restless, surging blood of newly settled immigrants, built up for us a city which has no counterpart in the world—a city of solidity and substance; a city whose foundations rest on ideals and idealism; on fervor and faith; on wholesome reverence and respect for Divine law and man-made law.

Because of those who have gone before us Boston became a great city among the cities of the world. It should be no less great under our stewardship. It has been well said that God provides the food for

every bird that flies, but He does not throw that food into their nests.

God has been good to us in this section of the country, but He will not do for us what we should do for ourselves.

I hope these conferences at the Boston College School of Business Administration will serve to open the doors to broader and more informed thinking in our community. I hope, too, that this series of conferences will open the doors to action.

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Upon September 30 the Mayor approved a contract with vendors as requested in the following letter:

Boston, September 28, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Attached is tabulation of bids received on proposals for furnishing surgical dressings to the various city departments from October 1, 1954, to March 31, 1955, inclusive. These bids were publicly opened and read in this office on September 3, 1954.

Authority is requested to make awards to the vendors as indicated on the accompanying tabulation. Inasmuch as only one bid was received on Item 8 which was not acceptable, authority is requested to reject the bid and purchase Item 8 in the open market.

Approximate total amounts of awards were as follows:

Contracts for Johnson & Johnson, \$45,065.89; Marsales Company, Inc., \$16,730; E. F. Mahady Company, \$9,140.45; McKesson & Robbins, Inc., \$7,354.65; Union Wadding Company, \$2,760.75; Sherman Mills, Inc., \$1,600.

Order for Sparrow Chisholm Company, \$900.

Prices submitted by Sherman Mills, Inc., are net. Discount for all other companies is 2 per cent, time of payment.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Upon October 25 the Mayor approved a contract with Susi & DeSantis Company, Inc., for sewerage works in Moss Hill road, Mossdale road, and Driftwood road, West Roxbury, at an estimated cost of \$22,827.25, including concrete pipe. The work to be done under this contract is to be completed within 90 days after approval by the Mayor. The following bids were received October 20:

Including Clay Pipe.—Susi & DeSantis Company, Inc., \$22,971; Roslindale Contracting Company, \$24,523.75; Bagarella Construction Company, Inc., \$25,710; Joseph Capone & Son, \$26,615; Z & S Construction Company, Inc., \$25,821; C. Russo, Inc., \$27,377.50; H. DiTullio & Sons, Inc., \$28,549; J. D'Amico, Inc., \$26,820; R. A. Buccella & Sons, Inc., \$29,325; Frank Frederick Construction Company, Inc., \$29,878.75; Hyde Park Construction Company, Inc., \$30,037.50; Ricci & DeSantis Construction Company, Inc., \$31,681.25.

Including Concrete Pipe.—Susi & DeSantis Company, Inc., \$22,827.25; Roslindale Contracting Company, \$23,805; Bagarella Construction Company, Inc., \$24,762.50; Joseph Capone & Son, \$25,177.50; Z & S Construction Company, Inc., \$25,389.75; C. Russo, Inc., \$25,482.50; H. DiTullio & Sons, Inc., \$25,674; J. D'Amico, Inc., \$26,820; R. A. Buccella & Sons, Inc., \$28,449.50; Frank Frederick Construction Company, Inc., \$29,591.25; Hyde Park Construction Company, Inc., \$28,600; Ricci & DeSantis Construction Company, Inc., \$31,681.25.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, supply houses, etc., for furnishing labor and supplies. Communications from the various departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Boston, October 1, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

On September 24, 1954, your Honor approved a letter to award contracts and orders to various companies for furnishing groceries and canned goods to the various city departments for the period specified in the letter. Authority was also granted at that time to reject the bids received on Items 109, 111, and 112 inasmuch as none of the bids received at the public opening were acceptable.

Subsequent to the public opening of bids on groceries, Standard Brands, Inc., submitted an informal written quotation on Items 109, 111, and 112. Authority is requested to award a contract, without public advertisement, to Standard Brands, Inc., for these items for the period from October 1, 1954, to March 31, 1955. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$3,698.94, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Boston, October 19, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Welfare Department has submitted a requisition for the following:

2,000,000 I.B.M. cards, 250,000 I.B.M. checks, as per lists submitted by this department.

International Business Machines Corporation, the manufacturer of the above equipment, has submitted an informal quotation. Inasmuch as this company is not only the manufacturer but the only source of supply, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to International Business Machines Corporation. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$3,316, net, f.o.b. Endicott, New York.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, October 19, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

SUBJECT: George Bancroft School Building Fire.

DEAR MR. MAYOR:

About 1.42 A.M., October 12, 1954, fire was discovered in the George Bancroft School Building, and before it was extinguished the upper portion of the building was gutted and the roof and ceilings of the top floor crashed into the interior of the building.

The condition of the building, resultant from the fire, created a public hazard necessitating the roping off of the street and school yard and the erection of fences to prevent injury to the public and school children.

This building has been filled to its full complement by school pupils and of necessity must be renovated to provide the maximum facilities available by alterations.

To provide the public safety measures necessary, and to perform the work of removing the tower, mansard roof, and entire third story, the firm of P. J. Cantwell & Sons, contractors, has been employed and emergency and razing work is now in progress.

As it is impracticable, if not impossible, to specify each item of work necessary to again make the building habitable, I believe it to be in the best interests of the City of Boston to have the Cantwell Company proceed with the complete work of renovation under the direction of inspectors of the Department of School Buildings. Consequently, I ask that you authorize me to dispense with public advertising and negotiate a contract with P. J. Cantwell & Sons, 644 East Fourth street, South Boston, for the work of all trades necessary to complete the entire renovation of the structure in an amount not to exceed forty-eight thousand dollars (\$48,000).

Your cooperation is appreciated.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

Long Island Division.

Boston, October 7, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

I respectfully request your permission to award a contract, without publicly advertising for bids, to John Guarino for

full architectural services in connection with the proposed alterations to the kitchen and toilets in Ward P of the Nichols Building at Long Island Hospital, Boston, Mass., and also to building No. 6 of the employees' quarters in the Fort Strong area.

The estimated cost of the proposed work is \$14,000 for the alterations to the hospital ward and \$9,000 for the alterations to the employees' quarters; and the architect will be paid a fee equal to 10 per cent of the actual total cost of this work.

In view of the professional nature of the services involved, it is felt that nothing would be gained by publicly advertising for bids.

Respectfully yours,

RICHARD J. CONDON, *President,*
Board of Trustees of the Hospital
Department.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

John J. Amara & Sons have been directed to perform the following extra work under the contract dated September 13, 1954, for corner cutbacks on Arlington street, Edgewater Drive, Franklin street, etc.:

S. J. Tomasello Corporation has been directed to perform the following extra work under the contract dated September 2, 1954, for seal coating of street surfaces in Bussey street and Weld street, and bituminous concrete pavement in Rockwood street:

Bussey Street.—Remove two existing gas lampposts, including excavation for shutoff and delivery of posts where directed.

Estimated cost of extra work, \$50.

CHANGE IN CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Domenick Pulco has been ordered to make the following changes in the contract for the Dorchester High School for Boys:

Item 1. Remove and provide two new sanitary drains to replace defective drains below floor of basement corridor, outside of new boys' toilet room; do all excavating, backfilling, cutting, and patching, to match the existing terrazzo floor, for the sum of \$1,039.12.

Item 2. Change location of radiator in girls' toilet room, first floor; provide all additional piping, fittings, etc.; do all necessary cutting and patching of floors, walls, ducts, etc., for the sum of \$226.63.

Item 3. Remove metal partition and brick up opening on second floor corridor at girls' toilet room, for the sum of \$149.46.

Item 4. Remove vent grille at floor and brick up base and reinstall grille, first floor boys' toilet, for the sum of \$10.

Total additions, \$1,425.21, and the amount of \$1,425.21 will be added thereto, making the account as follows: contract price, \$74,214; total additions, \$1,425.21; amount of contract, \$75,639.21.

ADDITIONS TO CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

D. Antonellis, Inc., has been ordered to make the following additions to the contract for the High School of Practical Arts:

Cement a layer of 15-pound asphalt-saturated felt to wood floors in the following locations before asphalt tile is laid: entire area of cafeteria, two cooking rooms, new health room, and doctor's office, for the sum of \$291.

Furnish and install 498 panes of glass in various windows throughout the building, for the sum of \$1,073.

Total additions, \$1,364, and the amount of \$1,364 will be added thereto, making the account as follows: contract price, \$77,816; total additions, \$1,364; amount of contract, \$79,180.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Dooley Brothers, Inc., have been directed to omit and substitute the following work under the contract dated September 2, 1954, for bituminous concrete pavement in Ashley street and Orient avenue, and grading and sodding in Faywood avenue.

Orient Avenue.—Omit, from Tower street to 165 feet west of Montmorenci avenue, 170 tons of bituminous concrete base at \$12 a ton and 170 tons of bituminous concrete wearing surface at \$12 a ton; substitute approximately 1,660 lineal feet of straight edgestone (VA4) at \$3.15 a foot, approximately 60 lineal feet of circular edgestone (VA4) at \$4.22 a foot, approximately 12,300 square feet of artificial stone sidewalks at 40 cents a square foot, and approximately 3,100 square feet of artificial stone driveways at 60 cents a square foot.

Estimated cost of omitted work, \$4,080; estimated cost of substituted work, \$12,955.20; estimated increase in cost, \$8,875.20.

OMIT WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Adams Asphalt Company, Inc., has been directed to omit the following work under the contract dated August 23, 1954, for paving and sewer work in Summit street and Washington street, Hyde Park.

Omit the construction of about 240 lineal feet of 24-inch pipe surface drain in Washington street, between Newacre street and Dana avenue, about 55 lineal feet of 12-inch pipe surface drain and two catch basins in Dana avenue, east of Washington street, together with incidental work.

Estimated cost of work to be omitted, \$3,013.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract approved January 20, 1954, with Rev-Lyn Contracting Company for repairs to Northern Avenue Bridge, over Fort Point Channel, from October 16, 1954, to October 30, 1954. This extension was requested because the contractor was delayed by rainy weather, extra work ordered, and the necessity of doing extra steelwork on the South Boston approach span.

FURTHER CONTRACTS BEING AWARDED FOR HURRICANE DAMAGE.

(Continued from page 1321.)

BOSTON HOUSING AUTHORITY

Boston, October 26, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In connection with the operation by this Authority of veterans' housing developments constructed by it under the Acts of 1936, chapter 372, as amended, you are advised that there was extensive damage caused to a number of the structures by the recent hurricanes.

The Authority has caused an estimate to be made of the damage and finds that the total cost will be \$23,284.33. The Authority will be reimbursed from insurance coverage to the extent of \$9,498.96.

By virtue of the nature of the work, which involves small repairs on a number of buildings and varying amounts on others, and items of interior decoration and replacement of window glass and similar items, it is impossible to procure public bids. In addition to this, the work must be done immediately.

In view of estimates of repairs which have been approved by the Authority and insurance companies, your Honor is respectfully requested to approve an award of contract without advertising to F. C. Dolan & Sons, 18 Aldworth street, Jamaica Plain, in the amount of \$23,284.33.

If this meets with your approval, will you indicate in the usual way? Please sign the enclosed copies of this letter and return them to the Authority.

Very truly yours,

BOSTON HOUSING AUTHORITY,
by OWEN A. GALLAGHER,
Chairman.

DEPARTMENT OF SCHOOL BUILDINGS.

Boston, October 4, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Due to damage to the roof of the South Boston High School, which resulted from the hurricanes of August 31, 1954, and September 11, 1954, it is imperative to immediately engage the services of a contractor to effect repairs.

Therefore, in order to have the damage, which consists of removing skylight frames, installing gypsum roof planking with metal edge stripping, etc., and which is irrespective of the roofing contractor's repairs, corrected as expeditiously as possible and without the delay which would be unavoidable if public advertising took place, I respectfully request your authorization to dispense with public advertising for proposals and to engage the services of P. J. Cantwell & Son, 644 East Fourth street, South Boston, by written contract, to perform work as will be specified in the contract, in an amount not to exceed \$5,620.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, October 4, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Due to damage to the Choate Burnham School, which resulted from the hurricane of September 11, 1954, it is imperative to immediately engage the services of a contractor to effect repairs which are needed.

Therefore, in order to have the damage corrected as expeditiously as possible and without the delay which would be unavoidable if public advertising took place, I respectfully request your authorization to dispense with public advertising for proposals and to engage the services of P. J. Cantwell & Son, 644 East Fourth street, South Boston, by written contract, in an amount not to exceed \$1,280.

Very truly yours,

JAMES H. MOONEY,
Superintendent of Construction.

HOSPITAL DEPARTMENT.

Long Island Division.

BOSTON, September 13, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The hurricane of September 11, 1954, caused considerable damage to doors and windows in various buildings at the Long Island Hospital.

Because of the danger to the health of the patients, it is necessary to repair the damage at once.

I respectfully request permission to award a contract to Martin J. Kelly Company, Inc., of 95 Prince street, Jamaica Plain, in the amount of \$1,900, without advertising, to repair this damage as an emergency measure.

Respectfully yours,

RICHARD J. CONDON, *President,*
Board of Trustees,
Boston City Hospital.

HOSPITAL DEPARTMENT.

Sanatorium Division.

BOSTON, September 17, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

YOUR HONOR:

During the August 31 hurricane, many trees at the Sanatorium Division were uprooted or left in a precarious position. Many large limbs and branches were broken.

Fred Ralston & Co., Inc., 22 Linden street, Allston, who were recommended to us by the City of Boston Park Department, have made a survey of our problem. They estimate that it will cost between \$12,000 to \$15,000 for the removal of uprooted, dead, and fallen trees and branches.

They would charge us at the same rates for men and equipment as are being charged to the state municipalities, townships, and utility companies throughout the Greater Boston area. The rates are as follows:

Foremen, \$3.35 an hour.

Climbers and laborers, \$2.85 an hour.

Truck (up to 1½-ton), \$2.50 an hour.

Truck (2½-ton), \$3.50 an hour.

Trucks (2½-ton) with winches, \$4 an hour.

Power saws, \$2.50 an hour.

Rates for foremen, climbers, and laborers are for the first nine (9) hours in any one day, Monday through Saturday. Time and one half will be charged for all hours over the first nine. Double time

will be charged for foremen, climbers, and laborers for all Sunday and holiday work.

I respectfully request your approval for the retaining of the services of the Fred Ralston & Co., Inc., at the prices indicated, bills to be submitted for payment through the City Auditor's office and charged to the appropriation, "Hurricane Emergency, 6-52-51."

Respectfully yours,

RICHARD J. CONDON, *President,*
Board of Trustees,
Boston City Hospital.

BOSTON, September 17, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

YOUR HONOR:

During the August 31 hurricane, the radial brick boiler house chimney at the Sanatorium Division was damaged. There are two large cracks and two smaller cracks in same. A survey shows that the top 8 feet of the chimney should be removed and rebuilt.

Because of the emergency nature of the work involved, your permission is respectfully requested to dispense with publicly advertising for bids, and to award a contract to the Custodis Construction Company, Inc., for furnishing all labor and materials necessary to do this work at a cost not to exceed the sum of \$1,885.

Under the circumstances, it is felt that public advertising would not be of any avail to the city in this particular instance.

This work will be charged to the appropriation, "Hurricane Emergency, 6-52-51."

Respectfully yours,

RICHARD J. CONDON, *President,*
Board of Trustees,
Boston City Hospital.

BOSTON, October 13, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

YOUR HONOR:

During the August 31 hurricane extensive damage was done to roofs on the various buildings at the Sanatorium Division. Because of the emergency nature of the work your approval is respectfully requested to dispense with public advertising and to award a contract to John F. Shea Company, Inc., in a total amount not to exceed \$12,007.

We wrote to nine roofing contractors and telephoned to several others, asking them to submit bids on this emergency work. We received only three replies, and one from Thomas J. Hind Company was to the effect that they already had so much work scheduled that they could not submit a bid.

The bids received were as follows:

Burgess & Blacher Company, for repairing hurricane damage, \$11,850; for cost of complete new asphalt roof on Assistant Superintendent's house instead of repairing present slate roof, \$1,740, total, \$13,590.

John F. Shea Company, Inc., for repairing hurricane damage, \$11,807; for cost of complete new asphalt roof on Assistant Superintendent's house instead of repairing present slate roof, \$920, total, \$12,007.

The present slate roof on the Assistant Superintendent's house is very old and was very badly damaged. The roofing contractors cannot be held responsible for damage done to existing slates while attempting to repair the hurricane damage, nor could they guarantee the work. They have recommended, therefore, that the

entire roof be replaced, asphalt shingles being substituted for the slate. The new roof would carry a ten-year guarantee, and it is felt that this guarantee warrants the expenditure of the additional \$920.

There would be \$11,087 charged against hurricane damage, and the difference of \$920 would come out of another fund.

Respectfully submitted,

RICHARD J. CONDON, *President,*
Board of Trustees,
Boston City Hospital.

PARKS AND RECREATION DEPARTMENT.

BOSTON, September 24, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR SIR:

Because of the emergency still existing with regard to dangerous trees, many of which have been uprooted, located on city property in all sections of the city, it is necessary for the proper protection of the public that we continue the work of removing these trees.

We have currently been retaining the services of three contractors on an emergency basis, who have the necessary equipment for the removal of large trees. We would like to retain their services for an additional period of five weeks starting September 20, and to issue regular formal City of Boston contracts to them for the completion of the work.

The rates for the equipment and the men operating it are the same as those now being paid by the state, the municipalities, townships, and utility companies for similar work. These rates are standard and are on an hourly basis.

One of these contractors, Carriere Construction Company, has one bulldozer that has currently been engaged by this department in hurricane clearance work. It has been employed on our various department dumping areas where hurricane-felled trees are being disposed of. In addition to the trees being dumped there by the Parks and Recreation Department and by the contractors engaged by this department, the Public Works Department of the city is also using our dumps to dispose of limbs and branches that are being removed from trees in all sections of the city. The bulldozer is actively engaged on the dump in pushing back the trees and debris dumped there, as well as clearing space for future dumpings.

I therefore request your authorization to dispense with public advertising for bids and to enter into a contract with Carriere Construction Company, 21 Glendower street, Roslindale, for a period of five weeks starting September 20, 1954, for furnishing one bulldozer in connection with the disposal of hurricane-felled trees, limbs, branches, etc., for a sum not to exceed \$3,000, to be charged to the special appropriation, "Hurricane Emergency, 6-52-51." This equipment will be employed five days per week, eight hours per day. There will be no overtime work. Rate per hour, \$15.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

One of these contractors, M. Solimando, 584 Columbia road, Dorchester, has one Gradall stump remover that has currently been engaged by this department in hurricane clearance work. It has been used in pulling out stumps of large trees from public sidewalks and other public areas in the city. There is still a great deal of this work to be done.

I therefore request your authorization to dispense with public advertising for bids and to enter into a contract with M. Solimando, 584 Columbia road, Dorchester, for furnishing one Gradall stump remover in connection with hurricane clearance work, for a period of eight weeks starting September 20, for a sum not to exceed \$5,500. This piece of equipment will be used eight hours per day, five days per week. There will be no overtime work. The contract will be charged to the special appropriation, "Hurricane Emergency, 6-52-51." Rate per hour for use of stump remover, \$16.

BOSTON, September 27, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

As a result of the hurricanes of August 31 and September 11, several thousand trees were uprooted, large limbs and branches knocked off, and several thousand other trees throughout the city were left in dangerous condition. A survey of the situation immediately after the storms indicated that a grave emergency existed. Because of the limited number of experienced tree workers in this department, we were required not only to engage the services of expert tree men wherever available but we were also required to engage the services of contractors who had the necessary equipment for coping with the emergency. This emergency still exists and will continue to exist for some time.

The equipment rented from these contractors included trucks, cranes, bulldozers, bucketloader, lift, and Gradall stump remover. The rates paid for the equipment and men to operate it are the same as those being paid by the state, the municipalities, townships, and utility companies. The rates are standard and are on an hourly basis.

The Banfield Company and the Marinucci Company furnished trucks. The rate per hour paid for these trucks for hauling trees, limbs, and brush is in accordance with the scheduled rates of the Boston Public Works Department. The applicable rate to be paid for any one truck is determined by the registration fee paid to the Registry of Motor Vehicles, as shown on the particular registration of each truck. The regular hourly rates and overtime rates for the use of the trucks are the same as those paid by the city and established in connection with contract snow removal work by the Public Works Department last winter.

The rates to be paid for the rental of cranes, lift, bucketloader, bulldozer, and Gradall stump remover are as follows:

Straight Time, Per Hour.—Cranes, \$16.50; lift, \$12.50; bucketloader, \$13.50; bulldozer, \$15; Gradall stump remover, \$16.

Regular Overtime, Per Hour.—Cranes, \$23; lift, \$14; bucketloader, \$15; bulldozer, \$16.50; Gradall stump remover, \$19.

Sunday and Holidays, Per Hour.—Cranes, \$23; lift, \$15.50; bucketloader, \$16.50; bulldozer, \$18; Gradall stump remover, \$22.

Between August 31 and September 19 the Parks and Recreation Department engaged the services of seven contractors, on an emergency basis, to do the work described above. Following is a list of these contractors and the expense incurred with each one:

William J. Banfield, 30 Terminal street, Charlestown, \$6,807.43.

Marinucci Brothers & Co., Inc., 51 Ceylon street, Dorchester, \$3,734.75.

Carriere Construction Company, 21 Glendower road, Roslindale, \$1,149.

Marr Equipment Corporation, 25 D street, South Boston, \$6,291.66.

Rich Brothers Construction Company, 410 Park Square Building, Boston, \$3,608.

R. G. Mearn Company, Inc., 363 Albany street, Boston, \$14,066.75.

M. Solimando, 584 Columbia road, Dorchester, \$1,842.50.

Total, \$37,500.

I respectfully ask your approval for retaining the services of the above listed seven contractors for the period August 31 to September 19 on an emergency basis, bills to be submitted for payment through the City Auditor's office in the total sum of \$37,500.08, to be charged to the appropriation, "Hurricane Emergency, 6-52-51."

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

BOSTON, September 29, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

I respectfully request your permission to renew the agreement with the American Coin Lock Company, of Pawtucket, Rhode Island, for the operation of convenience stations on Boston Common for another one-year period beginning November 1, 1954, and ending October 31, 1955.

The city has been paying to the American Coin Lock Company for this service the sum of \$2,500 per year, and, in addition, the company has been retaining the proceeds of the coin locks. The company furnishes and pays for eight attendants to maintain the stations on the Common at Park street, West street, and Flagstaff Hill, and furnishes all supplies and equipment for the cleaning and servicing of the stations.

We have had a request from the company to increase the annual fee paid by the city from \$2,500 to \$4,500. This \$2,000 increase we feel is justified, because the American Coin Lock Company has been forced to increase the wages of their employees working in the convenience stations on the Common to meet the minimum wage scale in Massachusetts, which is higher than that paid in some other states where this company operates. A representative of the company has called at this office and presented their records showing the amount of money they were required to pay their employees for back wages for the year 1953 in order to comply with the wage scale in this state, which amounted to \$2,000. They will be required to continue to pay this increased wage scale.

In view of these circumstances we feel they are entitled to receive payment of \$4,500 per year for furnishing this service. If the Parks and Recreation Department were to operate these stations, the salaries alone for eight attendants would be approximately \$22,000 and the department would have the additional expense of furnishing all supplies and cleaning materials.

As this company is one of the largest in the country furnishing this type of service, serving many large cities and railroad and bus terminals throughout the country, we feel that nothing would be gained by advertising for bids and that the best interests of the city will be served by renewing the agreement at the rate of \$4,500 for one year.

I therefore request your approval to enter into an agreement with the American Coin Lock Company for operation of convenience stations on Boston Common for one year beginning November 1, 1954, and ending October 31, 1955, at the rate of \$4,500 per year to be paid by the city, charged to Parks and Recreation Department. Budget Item 299.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

BOSTON, October 20, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Under date of September 28, your Honor approved letters for the retaining of the services of three different contractors, on an emergency basis, with regard to rental of equipment in connection with the removal of dangerous trees in all sections of the city. Included in the equipment rented were four bulldozers. The expiration date for the rental of these bulldozers, in conformance with the contract, is October 22.

Because of the emergency still existing with regard to the removal of dangerous trees, branches, limbs, etc., we find ourselves in the position where we are required to continue the rental of two bulldozers. The Public Works Department is still removing branches and limbs that have been placed on the sidewalks by property owners and if we do not have bulldozers on the dumps where the material is being deposited, we will have a pile-up of debris that will be dangerous and unsightly. It is absolutely necessary that we move the debris to all sections of the dumps as evenly as possible. In order to keep up with the emergency that still exists, we will require the services of two more bulldozers for a period of five weeks commencing October 23. One of the contractors from whom we are now hiring bulldozers is R. G. Mearn Company, Inc., 363 Albany street, Boston.

So that this necessary work will not stop, we request your authorization to dispense with public advertising for bids and to enter into a contract with R. G. Mearn Company, Inc., 363 Albany street, Boston, for furnishing two bulldozers and men to operate them for a period of five weeks commencing October 23, for a sum not to exceed \$6,000, to be charged to the special appropriation, "Hurricane Emergency, 6 52-51." The rate for the bulldozers and operators is \$15 per hour. They will be employed eight hours per day, five days per week.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

PUBLIC WORKS DEPARTMENT REPAIRS COLLAPSED WALL IN WESTGLOW STREET, DORCHESTER.

(Continued from page 1321.)

collapsed recently, with the result that a very dangerous condition exists at this location at the present time.

Westglow street was constructed in 1931, and our survey notes made at that time indicate that the wall was in place prior to the original construction, and the wall, therefore, in our opinion, was originally constructed with private funds and not by the City of Boston. However, it has been used over the years to support Westglow street, as there is a difference of approximately nine feet in elevation between the roadway surface of Westglow street and the adjacent yard area of St. Ann's School which faces Neponset avenue.

As stated, the existing condition is dangerous and constitutes a hazard to life, limb, and property of the people and, therefore, I have ordered John Botti, contractor, of 1050 Adams street, Dorchester, to start work in the morning on the removal of the earth material, debris, and sections of concrete wall that collapsed and which are located, at the present time, in the yard of St. Ann's School. The above-referenced contractor will also be required to install sheeting and bracing to shore the present exposed earth face, in order to prevent any further damage to the roadway, and also to protect two houses that are located on Westglow street, directly opposite the point where the wall collapsed.

We estimate that the cost of the work to be done by Mr. Botti will range from \$1,000 to \$1,500. After Mr. Botti has completed his work and shored the sheer embankment, it will be necessary for the department to advertise a contract for the construction of a new wall at this location. The immediate necessity is to remove the existing debris, concrete sections, and to brace and shore the present earth face, in order to make certain that no further damage occurs.

I have not discussed this matter with the Corporation Counsel, but it is my opinion, due to the emergency nature of the work, that no written contract will be required, even though the work to be done by Mr. Botti exceeds \$1,000. However, if the Corporation Counsel subsequently rules that a written contract is necessary, arrangements will be made to prepare said contract. Incidentally, I estimate that Mr. Botti's work will be completed not later than next Monday, which would be prior to the time that any written contract would be prepared.

Based on the assumption that no written contract is necessary, it is my intention to issue a service order to the contractor, in an amount not to exceed \$1,500, or the furnishing of labor, equipment, and materials on a force-account basis to do the work necessitated at the above-referenced location in order to remedy an existing dangerous condition. I respectfully request your approval of the action taken by me in this matter.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

TRAFFIC COMMISSION RULINGS.

DAMAGES AMENDED.

The Mayor has approved the following vote of the Public Improvement Commission:

Voted. That the order of the Street Commissioners and Mayor of September 12, 1952, as amended, determining damages caused by the making of the public improvement consisting of the laying out and construction of Buchanan road, West Roxbury, be, and the same hereby is, amended, by adding to said order the amount \$175, as an award to Austin V. and Mabel A. Torpey; that the amount \$175 be, and the same hereby is, awarded to Austin V. and Mabel A. Torpey for the damages so sustained.

SEWER CONSTRUCTION IN HYDE PARK.

The Public Improvement Commission has voted as follows:

That 240 linear feet of 12-inch pipe sanitary sewer and 250 linear feet of 36-inch pipe surface drain, at an estimated cost of \$7,810, be constructed in Westminster street (in easement taken by the City of Boston for sewerage purposes March 14, 1911), Hyde Park district.

NO DAMAGES SUSTAINED.

The Public Improvement Commission has voted as follows:

That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes in Derry road, Hyde Park district, under the order of the commission of August 23, 1954, and awards no damages therefor.

Derry road (owners unknown), 10,443 square feet, nothing.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 18, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m., President WHITE in the chair. Absent, Councillors Haier and McLaughlin.

The Reverend Joseph F. McGlone, St. Monica's Catholic Church, South Boston, was escorted to the rostrum.

INVOCATION BY REV. JOSEPH F. MCGLONE.

In the Name of the Father, and of the Son, and of the Holy Ghost, Amen.

O Lord and Eternal God, our Eternal Father, we pray this day for our City Councillors, mere men who were created by You and for You, and who now are holding in their hands a very great trust in the welfare of the people of the City of Boston. We pray Thy Spirit may descend upon them—the Spirit of wisdom and understanding, the Spirit of fortitude, the Spirit of knowledge, and the Spirit of Godliness.

May Thy blessing and the blessing of Almighty God, the Father, the Son, and the Holy Ghost, descend upon them forever. Amen.

The meeting was opened with the salute to the Flag.

CANCELLATION OF LEASE ON PIERS 3 AND 4, EAST BOSTON DOCKS.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1954.
To the City Council.
Gentlemen:

I transmit herewith communication from the Attorney General concerning your order of September 27, 1954, relative to repairs on Piers 3 and 4 at the Boston & Albany docks in East Boston.

Respectfully,
J. B. HYNES, Mayor.

The Commonwealth of Massachusetts,
Department of the Attorney General,
State House, Boston,
October 11, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:
I acknowledge receipt of copy of the order of Councillor McCormack of September 27, 1954, relating to repairs of Piers 3 and 4 at the Boston & Albany docks in East Boston.

I have taken steps to obtain the pertinent information from Mr. Gulliver, who is chairman of the Port of Boston Commission, so that I may determine what action, if any, should be taken by this department.

Very truly yours,
GEORGE FINGOLD, Attorney General.
Placed on file.

ORDINANCE RE EXITS OF CERTAIN SINGLE-FAMILY HOUSES.

The following was received:

City of Boston,
Office of the Mayor, October 14, 1954.
To the City Council.
Gentlemen:

I forward herewith communication from the Building Commissioner recommending an amendment in the city ordinances relating to the exits of certain single-family houses.

In order to change the existing building code of the city, it must be done in accordance with statute law, i.e., recommendation by the Building Commissioner and ordinance action by the City Council. The Building Commissioner will be available at the call of the City Council to explain this change in the building code.

I recommend the adoption of the proposed amendment to the ordinances.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Building Department, October 11, 1954.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:
In accordance with the provisions of chapter 479, Acts of 1938, as amended by chapter 217 of the Acts of 1939, as Building Commissioner of the City of Boston I recommend the adoption of the attached ordinance.

There is at present a conflict between section 1105 of the building code and section 1804 (e) of the same code. The adoption of this ordinance will remove the ambiguity.

Very truly yours,
CHARLES A. CALLANAN,
Building Commissioner.

City of Boston.

In the Year Nineteen Hundred and Fifty-Four. An Ordinance Relative to the Exits of Certain Single-Family Houses.

Be it ordained by the City Council of Boston, as follows:

Section 1105 of chapter 479 of the Acts of 1938, as amended by section 133 of chapter 3 of the Ordinances of 1943, is hereby further amended by striking out the last sentence and inserting in place thereof the following sentence: A single-family house may have one stairway if it is less than three stories in height.

Referred to the Committee on Ordinances.

TRANSFER OF APPROPRIATION TO PUBLIC WORKS DEPARTMENT, LIGHTING SERVICE.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1954.
To the City Council.
Gentlemen:

I submit herewith an order providing for the transfer of \$3,515.30 within divisional appropriations of the Public Works Department. This transfer will cover the recent appointment of two assistant electrical engineers in the Lighting Division of the Public Works Department.

Within the next ten or fifteen years the city will be required to take steps to modernize our street lighting facilities. In the opinion of the Commissioner of Public Works, the services of the two assistant engineers, who have been appointed after civil service examination, will save the city thousands of dollars and will ensure a modern and adequately but economically lighted city.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Public Works Department, Paving Service, 1, Personal Service, \$3,515.30, to the appropriation for Public Works Department, Lighting Service, 1, Personal Service, \$3,515.30.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATION TO ADMINISTRATIVE SERVICES DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1954.
To the City Council.
Gentlemen:

I submit herewith an order providing for the transfer of \$3,233.60 from the Reserve Fund for the purpose of establishing a Complaints Division in the Administrative Services Department. The amount involved will provide for the compensation of three employees, who will carry on the activities of the division, as well as an allowance for necessary office furniture and supplies. This division, which will be established in Room 25, City Hall, will receive and investigate all complaints concerning the operation of the service activities of the city, as well as handling requests for information about the city and its government.

This type of agency has rendered excellent service in other municipalities throughout the country, and it is believed that, once established, it will promote amiable relations among city officials, city employees, and the general public.

I respectfully recommend approval by your Honorable Body of the accompanying order.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$3,233.60, to the appropriation for Administrative Services Department, Complaints Division, 1, Personal Services, \$2,432.70, Supplies and Materials, \$175.50, Equipment, \$625.90.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named:

Licenses.

Petition for license to operate bowling alleys on the Lord's day, viz.:

Columbia Billiard Company, by Nicholas Cameles, 558 Columbia road, Dorchester, Ward 13.

TRANSFER OF APPROPRIATION TO MIDDLESEX COUNTY TRAINING SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, October 18, 1954.
To the City Council.
Gentlemen:

I am advised by the City Auditor that the number of boys being boarded at the Middlesex County Training School substantially exceeds the figure on which the budget appropriation for the current year is based. According to an estimate prepared by the Auditor, board payments this year will total in the neighborhood of \$103,000, whereas the appropriation provided in the 1954 budget was only \$70,000.

In view of this development, I submit herewith an order providing for the transfer of \$33,000 from City Debt Requirements, Interest, where a surplus is present, since interest requirements on temporary loans have not been as great as originally anticipated.

I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for City Debt Requirements, interest, \$33,000, to the appropriation for Middlesex County Training School, \$33,000.

Referred to the Executive Committee.

UNION OF CYPRUS WITH GREECE.

Coun. WHITE offered the following:

Whereas, The glorious history of the United States bespeaks the firm adherence by our government to the unchanging and changeless principles of the right to self-determination and of the right to liberty, both of which were declared in the City of Philadelphia, the birthplace of American independence, to be inalienable human rights by the founding fathers of our great land; and

Whereas, The people of Cyprus have, at incalculable expense of blood and spirit, gallantly struggled for the cause of world freedom and liberty, the ideal for which our American soldiers, side by side with the Greek and Cypriot soldiers, fought victoriously in two World Wars; and

Whereas, The people of Cyprus have overwhelmingly, by plebiscite in 1950, proclaimed their desire to be unified with their motherland, Greece, and so eminently deserve and should have the blessing of self-determination and freedom; and

Whereas, Freedom-loving people everywhere have reposed their abiding confidence and faith in the United Nations to secure peaceful independence to every country whose people desire and are capable of sustaining an independent existence; therefore be it

Resolved, By the Council of the City of Boston, that we hereby respectfully petition the General Assembly of the United Nations to vote to liberate Cyprus from British colonial rule and to permit the incorporation and unification of the people of Cyprus with their motherland, Greece; and be it

Resolved, That certified copies of this resolution be forwarded to the Honorable Dag. H. A. Hanmarskjold, Secretary-General of the United Nations, the Honorable John Foster Dulles, Secretary of State of the United States of America, and the Honorable Henry Cabot Lodge, United States Delegate to the United Nations.

The resolution was adopted under suspension of the rules.

TEMPORARY APPOINTMENTS IN CLERK OF COMMITTEES DEPARTMENT.

Coun. WHITE offered the following:

Ordered, That effective October 20, 1954, the following persons be, and they hereby are, appointed in the service of the Clerk of Committees Department to the positions set against their respective names until the fourth Wednesday of November, 1954, at the salaries in effect for them on October 19, 1954:

Francis R. Burke, temporary clerk; Peter J. Clougherty, temporary clerk; Nicholas DeMella, temporary stenographer-clerk; Agnes G. Dinsmore, temporary clerk-receptionist; Katherine E. Dunn, temporary stenographer-clerk; Mary E. Flynn, temporary stenographer-clerk; Catherine Monahan, temporary stenographer-clerk; Paul G. O'Hara, temporary clerk.

Passed under suspension of the rules.

MUNICIPAL BUILDING IN ALLSTON DISTRICT.

Coun. AHEARN offered the following:

Whereas, There is no municipal building in the Allston district of Boston; and

Whereas, A lack of proper facilities for social and recreational purposes gives rise to conditions which lead to juvenile delinquency; and

Whereas, Civic organizations in the area are desirous of making available proper facilities for recreational and athletic activities as well

as social gatherings indoors, and desire a municipal building or its equivalent; now, therefore, be it

Ordered, That his Honor the Mayor is hereby requested to consider for the Allston district the advisability of either erecting a suitable municipal building or acquiring an adaptable building already in existence and converting it for community, recreational, and municipal purposes in the Allston area.

Passed under suspension of the rules.

OAK SQUARE PLAYGROUND IMPROVEMENTS.

Coun. AHEARN offered the following:

Ordered, That his Honor the Mayor is hereby requested to direct the Park Commissioner to put in a state of good repair the Oak Square Playground, which is now in such a run-down and dilapidated condition as to discourage its use and to present a hazard to children when used.

Passed under suspension of the rules.

RESTRICTION ON USE OF RESIDENTIAL STREETS BY CERTAIN TRUCKS.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Traffic Commissioner to make a study of the present traffic of business vehicles over residential streets with a view to making recommendations restricting the use of residential streets by certain trucks.

Passed under suspension of the rules.

REVOCATION OF GASOLINE POCKET LICENSE AT 120-127 BORDER STREET, EAST BOSTON.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Committee on Licenses of the Building Department to revoke a pocket license for the keeping or storage of 100,000 barrels of gasoline on the premises at 120-127 Border street, East Boston, issued on June 22, 1949, to State Marine Corporation.

Passed under suspension of the rules.

LEGISLATION RE SUMNER TUNNEL.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor request the Law Department to prepare legislation, or by other means to seek relief, whereby residents of East Boston would be entitled to a rebate on the toll charge paid in the use of the Sumner Tunnel; and, further, to prepare legislation placing the Sumner Tunnel in the same category as state highways for the purpose of receiving certain monies from the gas fund to defray the cost of maintenance.

Passed under suspension of the rules.

CERTAIN INFORMATION CONCERNING PARKING METERS.

Coun. PIEMONTE offered the following:

Ordered, That his Honor the Mayor be requested, under the provisions of section 17F of chapter 376 of the Acts of 1951, and any amendments pursuant thereto, and under any authority vested in the City Council, to furnish the City Council, at the meeting of the Council next ensuing after one week from receipt of this order, answers in writing to the questions set forth in the following:

1. The number and location of parking meters now in use in the City of Boston.
2. The revenue received from parking meters for each week of September, 1954.
3. The number and location of parking meters in September, 1953.
4. The revenue received from parking meters for each week of September, 1953.
5. The present unexpended monies received from parking meters.
6. A detailed statement of the revenue and expenditures of monies received from the parking meters for the year 1953.

Passed under suspension of the rules.

PROPOSALS FOR DEMOLITION OF BUILDINGS AT CUMMINGS ESTATE, BEDFORD ROAD, WOBURN-BURLINGTON, MASS.

The Commissioner of Parks and Recreation of the City of Boston, 33 Beacon street, invites proposals for demolition of buildings at Cummings Estate, Bedford road, Woburn-Burlington, Mass. Forms of proposals must be obtained at the Engineer's office of the Parks and Recreation Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed and marked "Proposal for Demolition of Buildings at Cummings Estate, Bedford Road, Woburn-Burlington, Mass.," and left before 2 o'clock P.M. on Tuesday, November 9, 1954, at the office of the Parks and Recreation Department, with a certified check for \$100, payable to and to be the property of the City of Boston, if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the Engineer's office of the Parks and Recreation Department. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioner reserves the right to reject any or all proposals.

Proposals for Laying Water Pipes in Glendower Street, Ward 18; Mossdale Road, Ward 19; Atwill Road Extension, Haviland Road, and Selwyn Street, Ward 20, and Such Additional Locations, If Any, in Wards 18, 19, and 20 As May Be Designated by the Commissioner of Public Works.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying water pipes in Glendower street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Laying Water Pipes in Glendower Street, etc.," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of WEDNESDAY, NOVEMBER 10, 1954, with a certified check for THREE HUNDRED (300) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

DEPARTMENT OF SCHOOL BUILDINGS.

TO BUILDING WRECKING CONTRACTORS.

INVITATION FOR PROPOSALS FOR DEMOLITION OF THE EMERSON SCHOOL, PRESCOTT STREET, EAST BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for demolition of the Emerson School, Prescott street, East Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, November 8, 1954, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

No. 45

MAYOR JOHN B. HYNES APPEALS TO SOME PUBLIC-SPIRITED CITIZEN TO PURCHASE FAMOUS PAINTING OF GEORGE WASHINGTON AT DORCHESTER HEIGHTS AND PRESENT IT TO CITY AS HISTORICAL CONTRIBUTION—HOPES THUS TO HAVE IT REMAIN PERMANENTLY IN THIS CITY.

At the Vose Galleries, 559 Boylston street, there is on view a painting of General George Washington at Dorchester Heights. This painting was done by the same artist who painted the famous portrait "Washington Crossing the Delaware"—E. Leutze.

I have seen this most striking painting, which stands about ten feet high and shows George Washington standing in all his majesty before a cannon which was brought over the road from Fort Ticonderoga for the siege of Boston.

WEST ELEVATOR IN CITY HALL TO BE COMPLETELY AUTOMATIC WHEN REPAIRS ARE COMPLETED—MAYOR HYNES HAS APPROVED REQUEST OF BUILDINGS DIVISION, REAL PROPERTY DEPARTMENT, FOR SUCH WORK AT A COST OF \$13,502—EFFICIENCY AND GREATER SAFETY SOUGHT IN PLAN.

Mayor John B. Hynes has approved the request of the Real Property Department, Buildings Division, for the installation of facilities that will make the west elevator at City Hall fully automatic in its operation. This approval was given at the request of the Buildings Division for the purpose of facilitating the use of the lift at all times.

The letter from George P. Donovan, Assistant Commissioner, reads as follows:

REAL PROPERTY DEPARTMENT.
Buildings Division.

Boston, October 29, 1951.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On July 16, 1954, following a solicitation of bids for the performance of ex-

(Continued on page 1351.)

FINANCE COMMISSION PROPOSES A METROPOLITAN PLANNING COUNCIL TO DIRECT AND GUIDE SUCH CHANGES AS WILL BENEFIT BOTH CENTRAL DIVISION AND SUBURBAN AREAS INTO A COOPERATIVE WHOLE—TO RESOLVE ECONOMIC DILEMMAS—TO AID IN BUILDING OF BUSINESS AND INDUSTRY AS WELL AS SOCIAL GREATNESS FOR FUTURE COMPARISON WITH OTHER METROPOLITAN AREAS.

The Finance Commission of the City of Boston has addressed the following to the Mayor and City Council:

November 1, 1954.

To the Honorable the Mayor and City Council.

For some time Boston has witnessed an impressive effort by various official and civic agencies to raise the administrative, social, and economic level of the city. This activity on so many fronts has, doubtless, been encouraged by the demonstrated sincerity of the Mayor and Council in taking such progressive steps as reorganizing the departmental structure of the city government, revamping procedures, adhering to policies of economy, initiating planning, housing, and zoning studies, and the like.

The Finance Commission at this time, for the purpose of suggesting directions along which you may lead this activity, wishes to state its views in this situation.

Any planning for the future of Boston in its political, economic, and fiscal phases ought to take into account, it would seem, those plans and explorations which have already been made. It then becomes easier to determine those areas which have been inadequately covered and call for special attention. This memorandum considers such an approach to the problem.

For the purposes of this discussion, Boston may be viewed as:

- 1) An administrative unit, or governmental and departmental structure;
- 2) A fiscal unit, concerned with balancing expenditure and income, and with the problem of obtaining additional income to meet increasing expenditures;
- 3) A physical and economic unit containing business, industry, residences, neighborhoods, schools, parks, transportation systems, *et al.*, which form the framework of the City's social and economic life;
- 4) The central city of a metropolitan area.

Present Status of Planning and Exploration of These Areas.

The first step in this approach might be such an examination of the plans and studies that have been made in each of these areas, as appears in the following analysis:

(Continued on page 1351.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean;
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

MAYOR APPROVES RECONSTRUCTION OF ELEVATOR IN CITY HALL.

(Continued from page 1349.)

tensive repairs on the west elevator in the City Hall Building, by written invitation sent to Beckwith Elevator Company, F. S. Payne Company, Otis Elevator Company, and Portland Elevator Company, a \$7,702 contract was executed between the City of Boston and the Beckwith Elevator Company, Inc., 151 Pearl street, Boston, which firm, of the two companies who responded to the invitation for proposals, submitted the lower price for the elevator repair work.

Following considerable discussion and deliberation, and immediately prior to the inception of the repair work, the Director of Administrative Services strongly recommended that, in addition to performing the repairs on the elevator, the west elevator be altered to operate automatically by the installation of such a system.

Therefore, it is proposed, subject to your Honor's prior approval, to effect a mutual cancellation of the existing contract, to dispense with public advertising in the *City Record*, and to enter into a new contract covering all the west elevator repair work plus the installation on the elevator of all the controls and facilities necessary to make the elevator fully automatic in operation, at a cost of \$7,702 for the repair work and \$5,800 for the installation of the automatic features, thereby making the total cost of proposed contract a sum not to exceed \$13,502.

The Beckwith Elevator Company, Inc., as stated, submitted the lowest price for the work as originally proposed. Furthermore, the additional amount to be charged for converting the west elevator into one of automatic operation is fair and reasonable. In addition, this company has carried out elevator repair and service work for the Public Buildings Department for several years, and its performance has been completely satisfactory in every respect.

Respectfully yours,

GEORGE P. DONOVAN,
Assistant Commissioner.

MAYOR'S APPEAL FOR PURCHASE OF FAMOUS PAINTING.

(Continued from page 1345.)

This painting is one which should stay in Boston, for it has a far greater interest to our city than any other place in our country. Somewhere in the Greater Boston area there must be someone who would be willing to purchase this painting and donate it to the city. There are many places we could hang this painting, with a suitable plaque indicating the donor, where it could be seen by thousands of people.

If there is any public-spirited, patriotic-minded person in our area who would be willing to make a contribution of this painting to the City of Boston, I would be very glad to hear from this person and make arrangements for a visit to the galleries, so that the contributor might be entirely satisfied that the painting is as strikingly beautiful and desirable as I believe it to be.

FINANCE COMMISSION RECOMMENDS A METROPOLITAN PLANNING COUNCIL.

(Continued from page 1349.)

The Administrative Unit. The most recent definitive surveys made in this area of the problem are:

a) The so-called Strayer Survey of the schools (Boston Finance Commission, 1944). A plan for school building has also been produced since then.

b) The general survey of all other municipal departments made under the direction of the Boston Finance Commission in 1948.

c) Supplementary surveys made under the sponsorship of the Mayor's Committee on Municipal Finance, currently in existence.

The School Survey of 1944 produced a blueprint of desirable organization and administration for the schools. A reorganization of municipal departments resulted from the general survey of 1948. A continuous objective should be to press for the adoption of the recommendations contained in both these surveys.

A certain amount of desirable reorganization still remains, as well as certain intradepartment changes.

Of equal importance with the production of a blueprint of sound organization and administration is a continuous audit of municipal operations which the Finance Commission attempts to provide. Within the executive branch of the government, control over organization and administration has been strengthened by the establishment of a department of administrative services serving, so to speak, as the right hand of the chief executive.

In brief, the administrative area of this problem has been, in general, well covered, and is under continuous scrutiny. However, legislation where necessary to carry out certain recommendations of the over-all survey of 1948, upon which no action has been taken, should be sought.

FISCAL UNIT.

The above listed studies and investigations have the effect of promoting efficiency and controlling expenditures, consistent with a given level of municipal service. Boston, however, is faced with the need for increased revenue to meet the cost of expanding service demands. It is important, however, both in fairness to the taxpayer and to arrest decentralization from the city, that Boston does not look for increased revenue in the direction of the property tax, on which this city relies to a greater extent than does any other city in the country. The remedy must be sought rather in the State House, where State Legislative Commissions have been considering the question of State-Local financial assistance, for several years.

A Special Legislative Commission on Taxation issued several reports between March 1, 1951, and November 1953. This group has been succeeded by a "Fiscal Survey" Commission which is currently considering State-Local fiscal relations.

In brief then, there is still much study and exploration, not to mention strong representations to be made in the "fiscal" area of this problem.

A Physical and Economic Unit. The (General (or comprehensive) Plan of the City published by the City Planning

Board in 1950 is the definitive plan with respect to the physical development of the city. This will be supplemented by a rezoning study which is now underway. Related to this planning is the work of the Boston Housing Authority which has built extensive public housing projects and now plans the "Urban Redevelopment" and "Urban Renewal" of certain areas of the city. Both these latter two programs look to the rebuilding of blighted areas and the conservation of other areas, respectively. The Planning Board works in conjunction with the Boston Housing Authority in these projects, but there is a lack of provision in law of mandatory referral and specific approval by the Planning Board over the planning of school buildings and off-street parking.

The Planning Board's general plan which presents a proposed area development for Business and Industry, Residence, Schools and Recreation, Transportation, is a well studied report and undertakes to paint a broad canvas of Boston's future development. One section, however, appears to call for further and more specific treatment. This is the section on Business and Industry.

METROPOLITAN AREA.

The Central City of a Metropolitan Area. Considerable attention was focused on this question in 1944 as the result of a contest sponsored by the Boston Society of Architects. Many plans and ideas were produced which looked to the integration of the cities and towns in this area in one way or another, i.e., functionally, politically, or financially. Progress in this direction has been stalled, due to

1) The resistance of the individual cities and towns involved; and

2) The lack of a specific plan.

Conditions in the metropolitan area have changed radically in recent years due to

1) The decentralization of residents, commerce and industry from the central city;

2) The creation of new financial problems in many small communities arising from the need for quickly providing extensive new facilities;

3) The construction of a system of high-speed arterial highways, which has had the effect of opening up new industrial sites, new residential developments, and a general dislocation within the metropolitan area;

4) One effect of the transportation system and the filling up of the spaces between communities has been to make this metropolitan area more compact than ever.

It would appear that the first step in meeting this situation is the adoption of an attitude of planning of this area in the same way that a city planning board plans the development of a community. Such an attitude, moreover, could be formalized by the establishment of a metropolitan planning council. The impact of metropolitan changes on the City of Boston calls for some such a device. A precedent may be found in the Division of Metropolitan Planning which existed some years ago.

CONCLUSIONS.

A review of the situation seems to point to the following conclusions:

(1) The City viewed as a governmental structure has in general been fully studied; a blueprint of desirable organization and administration has been

determined. Future action must focus on compliance with such recommendations, coupled with continuous analysis of municipal operations to promote efficiency and economy.

2) Efforts to improve the City's revenue situation should move along three lines:

a) Recommendations forthcoming from the Legislative Research Commission should be studied, and those beneficial to Boston should be advocated.

b) The production of sound property valuations for tax purposes, and the improvement of assessing techniques should be advanced.

c) A consideration of other tax sources to lessen dependence on property tax should be entertained.

3) Notwithstanding the extensive physical planning which has taken place in Boston, there appears to be a lack of economic analysis and planning. There is a need for, first, gathering data of various kinds; for instance, as regards the central business area it would be useful to have data on retail sales volume, office occupancy, other building occupancy, ratio of taxes to rentals, new building and demolition, traffic and parking counts within the district, terminal facilities, land values, business and industrial location factors, *et al.*

The report on the Assessing Department in the administrative survey urges that department to collect data, in the following statement:

"In Boston, as in most cities, there is a fertile field for coordinating Assessing Department work with the activities of other municipal agencies in such matters as the collection and pooling of factual and economic data in some mutually useful pattern, in adopting standards of classifying and reporting upon buildings and other structures by commonly acceptable standards, . . .

Moreover, there is need for an impartial interpretation of data by competent economists as the basis of executive and legislative policy. The City has been continually faced with economic dilemmas which should be resolved by informed economic analysis. Many instances immediately come to mind:

Whether it is in the best interests of the city to accede to the pending request for special tax consideration in the development of the Boston & Albany Yard properties.

Whether such development would adversely affect downtown business and whether that consideration should be honored even if it were so.

What is the probable economic effect of urban redevelopment and urban renewal?

Is the judgment underlying the designation of areas for industrial, commercial development sound in the light of modern business and industrial trends?

Will a proposed transportation or highway plan redound to the economic benefit of the city?

What is the impact of tax proposals on the city?

What are the economies of any specific proposal?

What should be the economic policy underlying property values?

In a word, there is need for informed economic analysis. A specialist in economies attached to the Planning Board might serve this purpose.

4) Attention must be centered on the need for metropolitan planning, to achieve a balanced economic and social develop-

ment of Boston and the metropolitan area; plans should proceed from some form of metropolitan council.

Respectfully submitted,

EDWARD F. MULLEN, *Chairman*,
LEO J. DANN,
EDWARD U. LEE,
ROGER J. ABIZADE, M.D.,
H. W. DWIGHT RADD,

The Finance Commission.

* Contract awarded.

Upon October 29 the Mayor approved a contract as requested in the following letter:

BOSTON, October 27, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Attached is tabulation of the only bid received on proposals for furnishing cast-iron castings to the Water Division of the Public Works Department. This bid was publicly opened and read in this office on October 19, 1954.

Authority is requested to award a contract for Items 1 and 3 to E. L. LeBaron Foundry Company, the only bidder, at the prices checked on the accompanying sheet. No bids were received on Item 2; this item will be readvertised.

Approximate total amount of contract will be \$25,473, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

Bids were as follows:

Cast-Iron Castings.

Item 1. 91,250 Pounds Service Pipe Upright Stock (Class C), Cast-Iron Castings, Per Pound.—E. L. LeBaron Foundry Company, 15 cents.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon November 3 the Mayor approved a contract with Ellis Fire Appliance Company for repairs and flame-proofing of stage and window drapes, etc., in various schools. Bids, opened November 1, were as follows:

Ellis Fire Appliance Company, \$3,850; Massachusetts Motion Picture Service, Inc., \$4,099.

HOSPITAL DEPARTMENT.

Upon November 1 the Mayor approved a contract with Frank E. Dacey Company for furnishing and installing complete, 332 window shades of various sizes, including all new rollers, in the Maternity Building (excluding basement), Boston City Hospital. Bids, opened Wednesday, October 6, were as follows:

Arrow Venetian Blind Company, \$1,632.33; Frank E. Dacey Company, \$1,424.80.

PUBLIC WORKS DEPARTMENT.

Upon November 1 the Mayor approved a contract with N. Bevilacqua & Son for sewerage works in Silver street, South Boston, at an estimated cost of \$1,476. The work to be done under this contract is to be completed within 60 days after approval of the contract. The following bids were received October 27:

N. Bevilacqua & Son, \$1,476; John J. Botti, \$1,490; Joseph Capone & Son, \$2,305; R. A. Buccella & Sons, Inc., \$2,505; Bagarella Construction Company, Inc., \$2,530.

Award was made to the lowest responsible bidder, as follows:

Kane Chevrolet Company, Inc., \$7,800.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, commercial houses, etc., for furnishing labor, supplies and goods. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

BOSTON, October 22, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Parks and Recreation Department has submitted a requisition to this office for 5,500 dozen Hoodsie cups for the annual Halloween celebration.

In the past, H. P. Hood & Sons was the only company that rendered satisfactory service regarding deliveries of the ice cream. Inasmuch as this is the most important factor to be considered at this time, permission is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to H. P. Hood & Sons for 5,500 dozen Hoodsie cups at a price of 55 cents per dozen.

Approximate total amount of contract will be \$3,025, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, October 27, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Parks and Recreation Department has submitted a requisition for one (1) 1954 Buick, Model 72R, Roadmaster sedan to be delivered immediately.

Dickson Buick, Inc., has submitted an informal written quotation on the above vehicle and can guarantee prompt delivery. Inasmuch as immediate delivery of the vehicle is a most important factor to be considered at this time, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Dickson Buick, Inc. It is my opinion that, in this way, the best interests of the city will be served.

Approximate amount of contract will be: \$3,767.36, less allowance on 1950 Chrysler, \$1,100.36, net delivered price, \$2,667.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, October 27, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted a requisition to this office for 30,000 pathogenex snap-on utility caps. Informal requests for prices were solicited from various suppliers.

Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Martin Products Company, the lower bidder on the informal requests for prices. Inasmuch as Martin Products Company is the manufacturer of the utility caps requested, it is my opinion that no advantage would be gained by publicly advertising for bids.

Approximate total amount of contract will be \$1,050, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

HOSPITAL DEPARTMENT.

Sanatorium Division.

BOSTON, October 28, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

Your approval is respectfully requested to award a contract, without public advertising, to M. Solimando for repairing hurricane damage in an amount not to exceed the sum of \$8,945.

Three bids were obtained for doing this work, as follows:

M. Solimando, \$8,945; Rossano Construction Company, Inc., \$9,864; Parkman Construction Company, Inc., \$10,816.

The work will consist of replacing doors and windows, patch plastering, repairing brick parapets and cast-stone coping, and replacing broken hardware.

This work will be charged to the appropriation "Hurricane Emergency, 6-52-51."

Respectfully yours,

RICHARD J. CONDON, *President*,
Board of Trustees,
Boston City Hospital.

BOSTON, October 28, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

Your approval is respectfully requested to award a contract, without public advertising, to Eugene Ricciardelli in the amount of \$7,100 for repairing the underground steam line at the Sanatorium Division. Bids have been received as follows:

Eugene Ricciardelli, \$7,100; J. F. Stack & Co., \$8,780; Joseph F. Dwyer, \$11,400.

This work is of an emergency nature. Uprooting of trees and other damage done by the hurricane produced steam leaks that must be cared for before the cold weather sets in. This is a main steam line and there is a great waste of steam, also the homes of three resident doctors will be without heat unless the line is repaired.

This repair work will be charged to the regular appropriation, 1-06-21-261.

Respectfully yours,

RICHARD J. CONDON, *President*,
Board of Trustees,
Boston City Hospital.

PARK DEPARTMENT.

BOSTON, November 1, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

During the past years, as an off-season project, we have been generally able to clean the catch basins on our parkways with our own help. This year we are using every available man cleaning up and repairing damage caused by the recent hurricanes. This will have to continue for some time, thereby forcing us to have the catch-basin cleaning done by contract.

In order to have this work started as soon as possible, we have asked William J. Banfield, 50 Terminal street, Charlestown, a contractor who has the necessary equipment and experience to do this type of work, to submit prices. He has offered to clean the catch basins at a price of two dollars and twenty-three cents (\$2.23) per cubic yard of material removed, which includes the cost of all labor, equipment, and the furnishing of dumps. This is the

same price that the Public Works Department is paying the low bidder on their last publicly advertised contract for this type of work.

We feel this price to be fair and reasonable, that nothing would be gained by publicly advertising, and that it would be in the best interests of the city to negotiate a contract on this basis.

In view of all this, I respectfully request that I be given permission to award a contract, without publicly advertising, to William J. Banfield, 50 Terminal street, Charlestown, Mass., for cleaning catch basins in any park roadways in the City of Boston at the unit price quoted above. The total cost which is not to exceed six thousand (6,000) dollars, to be charged to Parks and Recreation Department, Budget Item 299.

Respectfully yours,

FRANK R. KELLEY,
Commissioner.

WELFARE DEPARTMENT.

BOSTON, October 25, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

YOUR HONOR:

On October 15, 1954, your approval was received to award a contract, without advertising, to Dr. Joseph M. Lynch, of 23 Bay State road, Boston, Mass., as medical consultant to the Welfare Department.

It has been found necessary to revise the department's request because the department cannot enter into a one-year contract until such time as the funds for the fiscal year 1955 have been appropriated. Therefore, may I have your approval to award a contract to Dr. Joseph M. Lynch, from October 15, 1954, until March 31, 1955, at a total cost not to exceed two thousand (2,000) dollars?

Sincerely yours,

JOSEPH K. COLLINS,
Chairman.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with Domenick Puleo for alterations at the Dorchester High School, from November 1, 1954, to December 31, 1954. This extension was requested because of a delay in getting materials.

Approval has been given for the extension of the time of completion of the contract with Joseph P. O'Hearn for plumbing and gas-fitting work at the High School of Commerce, from October 4, 1954, to November 19, 1954. This extension was requested because the contractor was delayed due to school classes being in session.

PUBLIC WORKS DEPARTMENT.

Approval has been given for an extension of time for the completion of the contract with Adams Asphalt Company, Inc., 53 Blanche street, Cambridge, for bituminous concrete pavement in Belford, etc., streets, from October 31, 1954, to December 31, 1954. This extension was requested because the contractor was delayed due to inclement weather.

Approval has been given for an extension of time for the completion of the contract with Susi & DeSantis Company,

Inc., for the building of sewerage works in Federal road and Sherman street and water works in Federal road, West Roxbury, from October 19, for a period of 29 days. This extension was requested because of unforeseen obstacles which delayed the starting of the work.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A 10-inch pipe sanitary sewer in Silver street, between E street and 100 feet northwesterly, in the South Boston district, at an estimated cost of \$1,600.

A 10-inch-12-inch pipe surface drain in Moss Hill road, between Woodland road and Mossdale road, in the West Roxbury district, at an estimated cost of \$7,000.

A 10-inch pipe sanitary sewer and 10-inch pipe surface drain in Driftwood road, between Mossdale road and Mossdale road, in the West Roxbury district, at an estimated cost of \$4,200.

A 10-inch pipe sanitary sewer and 10-inch pipe surface drain in Mossdale road, between Moss Hill road and Moss Hill road, in the West Roxbury district, at an estimated cost of \$16,800.

A surface drain of 12-inch pipe in Moss Hill road to Woodland road, in the West Roxbury district, at an estimated cost of \$6,500.

A 10-inch pipe sanitary sewer, 10-inch pipe surface drain in Clarendon avenue, between Hautevale street and Beech street, in the West Roxbury district, at an estimated cost of \$2,000.

Three hundred and twenty-five linear feet of 10-inch pipe sanitary sewer and 325 linear feet of 10-inch pipe surface drain in Veterans of Foreign Wars Parkway, between Manthorne road and Brucewood street, in the West Roxbury district, at an estimated cost of \$4,500.

TRANSFER OF APPROPRIATIONS.

PROCEEDINGS OF CITY COUNCIL.

Monday, October 25, 1954.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 P.M., President WHITE in the chair. Absent, Councillor McLaughlin.

The Reverend Edward L. Murphy, S.J., Director of Laymen's Retreat League for Working Men, Boston, was escorted to the rostrum.

INVOCATION BY REV. EDWARD L. MURPHY.

In the Name of the Father, and of the Son, and of the Holy Ghost. Amen.

Direct, O Lord, all our actions, and by Thy gracious assistance help us to carry them out, so that they may always begin from Thee and by Thee be happily ended.

Grant us grace and wisdom to carry on the trust and charge that has been placed upon us by the confidence of our own people, that we may then with courage and generosity answer to Thee for the responsibility as well as the privilege that has been afforded us by their generous choice of us, to be, in Thy place, directors of their civic and political lives; that we may with a great sensitivity of heart and generosity of spirit always keep in mind the interests that are best for them, knowing always it is through justice and charity the foundation of human society is most securely built; and that we may be permitted by the light of Thy Holy Spirit always in our reflections, in our considerations, and in our judgments, to seek the guidance of Thy Holy Spirit for the sake of those who have entrusted us with Thy Divine Authority.

In the Name of the Father, and of the Son, and of the Holy Ghost. Amen.

The meeting was opened with the salute to the Flag.

TO REOPEN AQUARIUM.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.

To the City Council.

Gentlemen:
I transmit herewith communication from the Commissioner of Parks and Recreation concerning your order of October 11, 1954, relative to replenishing the stock of the Aquarium in South Boston, making it possible to reopen the same to the public.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Parks and Recreation Department,
October 20, 1954.

Harold Flemming,
Chief Clerk, Mayor's Office.

Dear Sir:

This will acknowledge memo from your office with attached enclosure, City Council order requesting his Honor the Mayor to consult with the United States Department of the Interior, Fish and Wild Life Division, relative to having that agency replenish the stock of the Aquarium in South Boston, making it possible to reopen the same to the public.

I desire to inform the councillors that considerable thought was given, and a long time elapsed before we closed the Aquarium.

We have endeavored in many ways to obtain the necessary exhibits for the Aquarium, including many communications with the Department of the Interior, and it is the considered judgment of the Commissioners of Parks and Recreation that the expense of operating and maintaining the Aquarium should no longer be borne by the citizens of Boston.

We are making arrangements to set up an aquatic exhibit at the Franklin Park Zoo.

Very truly yours,
FRANK R. KELLEY, Commissioner.
Placed on file.

TRANSFER OF APPROPRIATION TO PUBLIC CELEBRATIONS.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.

To the City Council.

Gentlemen:
At the suggestion of the Director of Administrative Services, I submit herewith an order providing for the transfer of \$19,000 from the Reserve Fund to Public Celebrations.

Because it has been found necessary during the course of the year to authorize expenditures for various public celebrations in excess of the tentative allowances included in the original budget estimates, the unexpended balance remaining in the original appropriation is insufficient to cover the

expenses for the balance of the year. It is estimated that the additional amount requested will be allotted as follows:

Labor Day.....	\$1,000
Columbus Day.....	4,500
Armistice Day.....	1,000
Christmas celebration.....	1,000
Christmas Festival (Boston Common).....	10,000
Miscellaneous (Roxbury Day, Commander Jack Barry Day, dedication of veterans' squares).....	1,500
	\$19,000

I respectfully recommend that the transfer order now pending before your Honorable Body be rejected, and that approval be given to the accompanying order.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$19,000, to the appropriation for Public Celebrations, \$19,000.

Referred to the Executive Committee.

RELEASE OF BOND OF HUYLER'S, INC.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.
To the City Council.

Gentlemen:

I am in receipt of the attached communication from the Commissioner of Public Works, in which he recommends the release of a bond in the amount of \$20,000 on file in the permit office of his department.

This bond was filed in 1950 to protect the city's interest in the construction of a steam line on Plympton street, Boston.

Huyler's, Inc., which filed the bond with the city, has sold its building, and the new owners of the building are filing a bond in the amount of \$20,000 to protect the City of Boston.

I therefore recommend the passage of the accompanying order releasing the original bond filed by Huyler's, Inc.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
October 22, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At the present time, a bond in the amount of \$20,000 is on file in the permit office of this department, to protect the city's interest in connection with a steam line crossing Plympton street, a public way in the City of Boston. This bond was filed by Huyler's, Inc., on August 25, 1950, with the United States Guarantee Company as surety on the bond.

Huyler's, Inc., has sold its building to the Miller & Hollis Corporation and the H. L. Hildreth Company and, therefore, a representative of Huyler's has requested that they be relieved of their liability under the bond coincidental with the filing of a bond in the same amount by the new owners with the National Surety Corporation as surety. This arrangement is satisfactory to the department, and, therefore, I requested the Corporation Counsel to prepare a resolution to be submitted to the City Council for adoption by that Body.

I respectfully request, therefore, that the enclosed resolution, which, as stated, was prepared by the Law Department, be submitted to the City Council for approval, in order to provide for the release of the United States Guarantee Company from all liability on its part as surety accruing on or after May 18, 1954, when the new bond was filed.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, On August 25, 1950, in connection with a steam line running from 64 to 65 Plympton street, Boston, Huyler's did give to the City of Boston under section 16 of chapter 27 of the Revised Ordinances of 1947 a bond in the amount of \$20,000 with the United States Guarantee Company as surety; and

Whereas, Miller & Hollis Corporation and H. L. Hildreth Company, as successors to the rights and obligations of Huyler's with respect to said steam line did on May 18, 1954, give to the City of Boston under said section 16 a bond in the amount of \$20,000 with the National Surety Corporation as surety; now, therefore, it is hereby

Ordered, That the United States Guarantee Company be, and hereby is, released from all liability on its part accruing on and after said May 18, 1954, on the aforesaid bond given by Huyler's.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATION TO PENAL INSTITUTIONS DEPARTMENT.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.

To the City Council.

Gentlemen:

I am in receipt of the attached communication from the Penal Institutions Commissioner which contains a request that an appropriation of \$10,000 be made available to cover the services of an architect to prepare plans and specifications for changes in the plant at Deer Island. This request is made necessary by the action of the Metropolitan District Commission in taking land for the construction of a new sewerage system and filter beds. These plans, when prepared, will serve as a basis for securing reimbursement from the Metropolitan District Commission for the damage to plant facilities at Deer Island which have resulted from the sewerage project.

It is planned to utilize the funds secured in this manner to finance whatever new construction may be found necessary. It is believed that the appropriation herein provided will be the only expenditure of municipal funds to be required.

I respectfully recommend the adoption of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Penal Institutions Department,
October 22, 1954.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

I respectfully request the sum of \$10,000 for a set of architect's plans for a new stock barn at the House of Correction at Deer Island.

The present stock barn is located on land that has been taken over by the Metropolitan District Commission for the new sewerage system and filter beds and is now practically isolated from the rest of the institution by shafts, rock and dirt piles, equipment, work buildings, etc., and with the large number of employees of three contracting companies working around the clock on three shifts, together with the many pieces of rolling stock entering and leaving the island, there is a very serious security problem involved. The ever present danger of inmates escaping, getting hurt, and fraternizing with outsiders is getting more complicated each day. This situation, coupled with the possible danger of the barn collapsing from the effects of blasting and vibrations, is another reason for immediate attention.

These plans are requested for the purpose of giving the Metropolitan District Commission an idea of the cost to relocate and replace this valuable piece of property.

Respectfully,
EDWARD L. FRIEL, Commissioner.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Sales of City Property, \$10,000, to the appropriation for Penal Institutions Department, House of Correction, Construction of Buildings, etc., \$10,000.

Referred to the Executive Committee.

TRANSFER OF APPROPRIATION TO ASSOCIATE MEDICAL EXAMINER SERVICE, SOUTHERN DIVISION.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.

To the City Council.

Gentlemen:

I submit herewith an order providing for the transfer of \$300 within the appropriations of the Associate Medical Examiner Service, Southern Division.

Since this transfer involves an increase in the Personal Services item, the approval of your Honorable Body is required. The transfer has been made necessary because of extra service performed by the Associate Medical Examiner during the illness of the Medical Examiner.

I respectfully recommend adoption of the accompanying order.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Associate Medical Examiner Service, Southern Division, 2, Contractual Services, \$300, to the appropriation for Associate Medical Examiner Service, Southern Division, 1, Personal Services, \$300.

Referred to the Executive Committee.

CONVEYANCE OF CERTAIN RIGHTS IN TIDEWATERS TO COMMONWEALTH OF MASSACHUSETTS.

The following was received:

City of Boston,
Office of the Mayor, October 25, 1951.
To the City Council.
Gentlemen:

The filling and development of the South Bay and adjacent areas in the City of Boston, including Fort Point Channel above Dorchester avenue, has been eagerly sought for many years. Chapter 638 of the Acts of 1954 has finally authorized the State Department of Public Works to make a start on the project by acquiring all rights in the tidewaters involved and doing all things necessary to have said tidewaters declared to be nonnavigable waters within the meaning of the constitution and laws of the United States.

Said chapter 638 is based, in part, upon the city's conveying to the Commonwealth, without consideration, all rights of the city in the tidewaters above the easterly side of the highway bridge over Fort Point Channel at Dorchester avenue. By the express terms of the statute, such conveyance cannot be made until "authorized after two separate readings, by two separate votes of two thirds of all the members of the city council of said city, the second of said readings and votes to be had not less than fourteen days after the first."

The great advantages which will flow to the city from the filling and development of the areas involved are too obvious to require elaboration. Suffice it to call attention, therefore, to the fact that the completion of the steps which chapter 638 authorizes will enable the city to maintain its Dover street and Broadway Bridges without a draw. The elimination of the cost of operating and maintaining these drawspans will reduce Boston's annual expenses by nearly \$50,000.

Accordingly, I urge upon your Honorable Body passage of the order transmitted herewith authorizing the conveyance to the Commonwealth of Boston's rights in the tidewaters involved. The State Commissioner of Public Works has informed me that the State Department of Public Works deems proper the condition recited in the order and providing that if the tidewaters involved have not by January 1, 1965, been declared nonnavigable, the city's rights therein shall revert in the city.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That the hereinafter described conveyance be, and the same hereby is, authorized under chapter 638 of the Acts of 1954, to wit, the conveyance by the City of Boston (by its Mayor) to the Commonwealth of Massachusetts, without consideration, of all rights of the City of Boston in the tidewaters above the easterly side of the highway bridge over Fort Point Channel at Dorchester avenue in the City of Boston upon the condition that if prior to January 1, 1965, said tidewaters shall not have been declared to be nonnavigable waters within the meaning of the constitution and laws of the United States, such rights shall, upon entry by the Mayor of the City of Boston in the name and behalf of the City of Boston, revert in the City of Boston.

Referred to the Committee on Public Lands.

The motion as amended was passed, and the Council recessed at 3.23 P.M., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President WHITE at 8.41 P.M.

PAMPHLET ON INCINERATION.

The following was received:

City of Boston,

Office of the Mayor, October 25, 1954.

To the City Council.

Gentlemen:
At the present time there is pending before your Honorable Body an order for the approval of a site for an incinerator in the Dorchester district.

In your consideration of this order your Body has held a public hearing, at which time various objections were raised to the construction of an incinerator along the banks of the Neponset River. Many of these objections were prompted by a misunderstanding of what an incinerator accomplishes, how it operates, and a fear that an incinerator would be an ugly monstrosity giving forth unpleasant odors. In order to clear up any misunderstanding with respect to this type of opposition, a pamphlet has been prepared which seeks to give information setting at rest most of the objections that have been raised to incineration in Boston. I am pleased to send copies of this pamphlet to your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

(Annexed hereto is a copy of the pamphlet referred to in the foregoing message.)

Referred to the Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. AHEARN, for the Executive Committee, submitted the following:

1. Report on message of the Mayor and chapter 369 of the Acts of 1954, entitled "An Act Empowering the Boston Traffic Commission to Provide by Rule or Regulation for the Removal of Vehicles Parked or Standing in Violation of Law on Public Ways in the Downtown Area of the City of Boston"—that same ought to pass.

The report was accepted, and the order was passed.

2. Report on order (referred June 14) for acceptance of chapter 268 of the Acts of 1952, relative to additional pay to police officers on duty under certain circumstances—that same be placed on file.

The report was accepted, and the order was placed on file.

THE NEXT MEETING.

On motion of Councillor Hurley the Council voted that when it adjourn it be to meet on Monday, November 8, 1954, at 2 P.M.

REFERENCE OF REDEVELOPMENT PLAN OF "NEW YORK STREETS" AREA TO BOSTON HOUSING AUTHORITY.

Coun. PIEMONTE offered the following:

Ordered, That the Land Assembly and Redevelopment Plan for the "New York Streets" Project submitted to the City Council by his Honor the Mayor on October 4, 1954, be, and the same hereby is, remanded to the Boston Housing Authority for the purpose of including in the proposed project area the three excluded parcels abutting on Dover street; and for the purpose of making provisions for the widening of Dover street.

Referred to the Executive Committee.

APPOINTMENT OF COMMITTEE FOR LIAISON BETWEEN BOSTON CITY COUNCIL AND CERTAIN ORGANIZATIONS.

Coun. FOLEY offered the following:

Ordered, That the President of the City Council be, and hereby is, authorized to appoint an ad hoc committee of the Council of three or five members; that this ad hoc committee be assigned the task of exploring the means available of establishing effective and continuing liaison between the Boston City Council and the following organizations:

- (1) the Greater Boston Chamber of Commerce and particularly the Municipal Affairs Committee thereof;
- (2) the Boston Retail Trade Board;
- (3) the Boston Citizens Council;
- (4) the Boston Real Estate Board;
- (5) such other business organizations as the Committee may see fit to include;

that such means as monthly luncheons, round table discussions, etc., be considered; that a report of the committee's findings and/or progress be furnished the Council not later than one month from the date of passage of this order.

Passed under suspension of the rules.

REDUCTION OF ANNUITY.

Coun. PIEMONTE offered the following:

Ordered, That the annuity payable to Margaret E. Carlson under section 89A of chapter 32 of the General Laws by virtue of an order passed by the City Council on April 9, 1951, and approved by the Mayor on April 10, 1951, be, and the same hereby is, reduced from the amount fixed in said order, of \$1,500 a year, exclusive of any and all increases resulting from subsequent legislative acts or the acceptance thereof, to the amount of \$1,300 a year plus any and all such increases.

Passed under suspension of the rules.

LICENSE TO AMERICAN INTERNATIONAL GAELIC GAMES COMMITTEE.

Coun. McCORMACK offered the following:

Ordered, That a license be, and the same hereby is, granted to American International Gaelic Games Committee for the conduct of hurling games at Fenway Park on November 7, 1954, and for Gaelic football at said park on November 14, 1954, provided that a liability insurance policy with limits of \$100,000 for bodily injury to any one person, and \$300,000 for bodily injury for any one accident, is filed as provided in section 25 of chapter 41 of the Revised Ordinances of 1947. The fee for said license shall be \$10.

Passed under suspension of the rules.

Adjourned, at 8.55 P.M., on motion of Councillor Kerrigan, to meet on Monday, November 8, 1954, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

SEWERAGE WORKS IN BRIGHTON.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Brighton and are bounded as follows:

A parcel of land, supposed to belong to Glenley, Inc., bounded:

Southerly by Kenrick street, 8.73 feet; westerly by Newton boundary line, 86.50 feet; northerly by land hereinafter described as taken from Glenley, Inc., 8.57 feet; and easterly by other lands supposed to belong to said Glenley, Inc., 86.92 feet, containing 694 square feet, more or less.

A parcel of land, supposed to belong to Glenley, Inc., bounded:

Southerly by land hereinbefore described as taken from said Glenley, Inc., 8.57 feet; westerly by the Newton boundary line, 84.95 feet; northerly by Margo road, 8.51 feet; and easterly by other land supposed to belong to said Glenley, Inc., 85.11 feet, containing 680 square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Margo road, bounded:

Westerly by the Newton boundary line, 42.01 feet; northerly by the northerly line of Margo road, by two measurements, 14.35 feet on a curve of 197.26 feet radius and 347.30 feet; easterly by sewer easement taken by the City of Boston on August 17, 1954, 40 feet; and southerly by the southerly line of Margo road, 347.30 feet, containing 14,178 square feet, more or less.

The sewerage works to be constructed are as follows: 360 linear feet of 10-inch pipe sanitary sewer and surface drain at an estimated cost of \$4,000, in Margo road, for a distance of approximately 350 feet easterly from the Newton boundary line, and 220 linear feet of 10-inch pipe sanitary sewer and surface drain at an estimated cost of \$2,400, in private land between Margo road and Kenrick street.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on the northerly side of Margo road, for a distance of approximately 365 feet easterly from the Newton boundary line, and the abutting parcels of land situated on the southerly side of Margo road, for a distance of approximately 310 feet easterly from the Newton boundary line, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the aforesaid plan.

Parcel.	Amount.
1. Glenley, Inc.,.....	\$348
2. Glenley, Inc.,.....	348
3. Glenley, Inc.,.....	348

TRANSFER OF APPROPRIATIONS

City of Boston
Department of School Buildings
26 Norman Street

August 20, 1954

Miss Agnes E. Reynolds
Secretary, Boston School Committee

15 Beacon Street
Boston 8, Massachusetts
Dear Miss Reynolds:—

Under date of August 16, 1954, you forwarded the following transfer order to the Board of Commissioners of School Buildings:—

ORDERED, That of the amounts appropriated by the School Committee on April 5, 1954 (see p. 133), to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1954, the following sum is hereby transferred:

FROM

Item C. Alterations, Furniture and Equipment for Special Educational Needs \$64,000.00

TO

Item E. General Alterations and Repairs \$64,000.00

At a meeting of the Board of Commissioners of School Buildings which was held this date, and at which meeting all Commissioners were present and voting, it was voted, unanimously, to report favorably on the above described proposed order, all as provided in Section 7 of Chapter 351 of the Acts of 1929.

Very truly yours,

Board of Commissioners
of School Buildings:—

By Joseph F. O'Connell Jr.
Chairman

ACTION ON CERTAIN SALARY ITEMS

Mr. Lee: Mr. Chairman, I am not quite clear what action the Committee took in Conference on one little group of our people, that is, on the summer playground teachers—the school yard play teachers on page 10. Do they move along with the other temporaries who are on per diem?

Superintendent: No, Mr. Lee. They do not.

Mr. Lee: There were various cases of other workers who were paid by the session, or in small amounts, where you made a point of bringing them into line with all temporaries. It seems to me we should do the same with the school playground teachers. This is at the bottom of page 10. They are still paid much less than the Park and Recreation Board pays its people.

Chairman: We pay \$40 a week.

Superintendent: I think they are now on the same salary schedule as the Park Department. Isn't that true, Mr. Smith?

Business Manager: That's right.

Superintendent: We brought them up, Mr. Lee. They work two sessions.

Mr. Lee: I see. It is really double that per day?

Chairman: That's right—double sessions.

Mr. Lee: That would make it \$6, wouldn't it?

Secretary: No, \$8.00 a day.

Mr. Lee: Those are the supervisors. It is \$8.00 a day?

Superintendent: Two times \$4.00, Mr. Lee. That is in the afternoon — spring playgrounds. It is a total of \$8.00 a day, five days a week — \$40 a week.

Mr. Lee: So the Committee wants to leave that alone?

Chairman: Yes.

Miss Fitzgerald: Mr. Chairman, I don't know what was determined the other day on the research assistants in the Department of Educational Investigation and Measurement—page 8. I made a motion concerning putting their maximum the same as that of the vocational guidance people in the Department of Vocational Guidance.

Superintendent: Mr. Chairman, it was acted on in conference, and there were not three votes for it, so that we carried it just as it is. I recall Miss Fitzgerald brought it up and voted for it, but there were not three votes for it so it remained this way.

Chairman: Any further questions?

Miss Fitzgerald: I wondered if there were three votes for it at the present time, Mr. Chairman.

Chairman: What was the motion?

Miss Fitzgerald: I moved that the research assistants in the Department of Educational Investigation and Measurement have the same maximum as vocational guidance people.

Mr. Ward: How much does that amount to, Mr. Smith?

Business Manager: I don't know what the story is.

Superintendent: Mr. Chairman, I just want to say this for the record—that if there are any changes in any of these salaries now then we will have to ask for another recess and come back with new figures — which will have to be worked out, will they not, Mr. Smith?

Business Manager: That's right.

Mr. Ward: But this doesn't amount to so much that it makes any difference, Mr. Smith. After all, this is a very, very small item. It can be put in there. It doesn't affect the budget in the least. It is not a big item.

Business Manager: Until we know, we cannot give the amount of money needed in the several transfer orders.

Mr. Ward: Suppose we let you know now? Suppose we vote upon this matter and let you know now? It will take about two minutes to revise your figures.

Mr. Lee: Mr. Chairman, before we go further, if Miss Fitzgerald was perhaps away at that time when this matter was argued, I do want—

Mr. Ward: And I was away. It is one of those unfortunate things.

Superintendent: May I say that Miss Fitzgerald wasn't away. She was here, and she offered it as a motion, but there weren't three votes for it.

Mr. Lee: Maybe she was present, once, but it may have been gone over twice. Anyway, I recall very distinctly that I went over the ground asking the Superintendent to distinguish be-

tween the heads of departments and the workers. And the upshot of that was that even I, who looked forward to that group's being substantially recompensed, came to realize that the \$6336 was, if anything, rather high.

In other words, it was pointed out that if we were to bring the research assistants up to \$6336, and if, following the idea I had, we brought the Juvenile Adjustment people up to that same amount, it would be quite an increase, and that possibly a previous Committee had been too enthusiastic in the \$6336 that was given the vocational guidance instructors.

At least I know the matter was thoroughly gone into at the time and that I finally became satisfied that the research assistants were fairly well compensated and that perhaps the vocational instructors were treated with more generosity than common.

That may not prove anything except that we did go over the ground very, very thoroughly.

Mr. Ward: At that time, Mr. Lee, were you opposed to this recommendation of Miss Fitzgerald?

Mr. Lee: I started by being for it, and then I became convinced that if we did that we ought in justice to go ahead with the Juvenile Adjustment personnel and that we would end up paying them all \$6336, which is what the vocational guidance people get, and besides its being rather an expensive thing, I became convinced that perhaps the \$6336 was a little bit high.

In other words, I believed that the research assistants were getting a pretty good salary even though it happened to be less than the vocational guidance people. It wasn't that they were getting too little so much as it was that the vocational guidance people were perhaps getting more than other comparable workers, and on that I withdrew my advocacy of that raise. However, it was at least thoroughly discussed at the time. I can vouch for that, and I became convinced that it was adequate as it was.

Miss Fitzgerald: The motion is to increase the maximum of the research assistants.

Chairman: To what?

Miss Fitzgerald: \$6336.

The Chairman stated the question was on increasing the maximum salary of research assistants in the Department of Educational Investigation and Measurement to \$6336, and the Secretary was directed to call the roll.

On roll call, the members respectively stated that they voted as follows:

Miss Fitzgerald: Yes.

Mr. Lee: No.

Mr. Musco: No.

Mr. Ward: Yes.

Chairman: No.

The motion failed of passage.

"BATTLE OF KINDNESS"

Mr. Lee: Mr. Chairman, I was hoping that I could express my perhaps well-known views on this whole school salary subject by an opening statement rather than making a separate issue over every single case that comes along. On a case by case basis, I would have made an amendment for a somewhat smaller salary addition for the head masters. If I could, I would like to quickly state the situation, with the hope of swinging other members of the Committee to my view of the present happy inclination of our fortunes as I see it.

I should like now to define the terms of the great battle of which we are now coming onto the field of final issue. The battle is between the teachers and the School Committee. It has been waging for a great long time. The teachers are battling to give us their very best service. We are battling to give the teachers dollars. The teachers have prepared themselves in every way conceiv-

able for giving us their very best service, by their college training, by examinations, by other professional work; and in turn we prepare—in fact we bristle with twenty millions of dollars, which we point directly at them.

So, I insist that we are engaged in the very happy pursuit of each trying to do something that is desirable and proper toward the other. I do want to make out that neither side seems to be out of line. The teachers are meeting our dollars. They are coming forth to meet them. And our dollars are meeting the teachers. There seems to be little or no shortage of teachers, and there seems to be little or no surplus of teachers, so this great contest of giving is, I believe, in very good adjustment.

We are getting fine teachers for our schools. We wouldn't want to put forward any fewer dollars for fear they would turn elsewhere. We should not present too many more dollars for fear that a great number of teachers from other school systems would turn to us, in greater numbers than we can use.

So, while I myself have gone ahead with a somewhat heavier dollar fire concentrated upon some of our teachers who now only get \$13 a day, and I have gone ahead with partial increases for other teachers, I do urge some recognition that things are in pretty good balance now, as we go through the rest of these figures.

Chairman: Thank you very much. Mr. Lee.

The following was offered:

B. ORDERED, That in addition to any increment accruing by reason of his or her anniversary date and provided for by the salary schedule orders to be adopted by this Committee this day, every person serving in a rank hereinafter named in this order receive, effective September 1, 1954, a one hundred and twenty dollar (\$120) increase in his annual salary, provided, that in no event shall any such person receive more than the maximum salary prescribed for his rank by said salary schedule orders:

SALARY SCHEDULE, 1954-55

The following twenty-six orders establishing a Salary Schedule, with increments, for teachers, members of the supervising staff and others, for the year ending Aug. 31, 1955, were offered:

1. ORDERED, That effective as of September 1, 1954, the salaries of teachers, members of the supervising staff and others are hereby established for the school year September 1, 1954, to August 31, 1955, inclusive, in accordance with the following schedule and subject to the following adjustments or limitations.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

2. ORDERED, That during the period commencing September 1, 1954, and ending August 31, 1955, teachers, members of the supervising staff and others who on August 31, 1954, shall not have reached the maximum of their salary schedules, shall be advanced in accordance with the provisions of the regulations on their respective anniversaries by the amount of the annual increment provided for in the following schedules until the maxima of their respective ranks are reached; provided that the final increment shall be such as shall place the person upon the maximum salary of his rank.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

3. ORDERED, That in adopting this salary schedule the School Committee reserves the right, in the event that the General Court of Massachusetts does not grant the School Committee in 1955 power to appropriate, or the Mayor and City Council of Boston do not appropriate, a sum sufficient in the opinion of the School Committee to pay in full the salaries specified in this salary schedule, to revise the salary schedule at any time between January 1, 1955, and August 31, 1955, both inclusive, by making such reductions therein as would amount in effect to no more than the amount by which this salary schedule exceeds the salary schedule of September 1, 1950.

Mr. Lee: Mr. Chairman, this is where that amendment of mine comes in. I don't want to read it all. It follows the same language except that it takes the same precaution between September 1st and December 31st of this year so that if we run short of money we have given warning ahead of time that we won't be able to pay as much as we would like. I think it is a good precautionary measure.

The following is the suggested amendment referred to by Mr. Lee:

And be it further

ORDERED, That in adopting this salary schedule the School Committee reserves the right, in the event that there is not a sum sufficient in the opinion of the School Committee to pay in full the salaries specified in this salary schedule, to revise this salary schedule between Sept. 1, 1954, and Dec. 31, 1954, by making such reductions therein as would amount in effect to no more than the amount by which this salary schedule exceeds the salary schedule of Sept. 1, 1953.

Miss Fitzgerald: Mr. Chairman, I would like a point of information on this order which Miss Reynolds has just read. The only difference here is in the dates.

Chairman: It seems to be.

Mr. Lee: It is just a difference in dates.

Superintendent: Mr. Chairman. Mr. Lee drew this order himself. I am seeing it for the first time this evening.

Chairman: What do you mean, Mr. Lee, just what it says?

Superintendent: I think that Mr. Lee has in mind that the increases which have been given out of unexpended balances, if they prove to be in excess of the money available, should be reduced to the base salary in effect before these increases were granted. Isn't that true, Mr. Lee?

Mr. Lee: That is true.

Superintendent: I think that accounts for the difference in dates.

The Secretary continued reading:

Mr. Lee: Is this the point where you thought we ought to bring in that order?

Secretary: This is all Order No. 3.

Mr. Lee: It is in two parts?
Secretary: Yes, all that I just read is Order No. 3.

Mr. Lee: Are we including that amendment of mine?

Superintendent: Yes.
Chairman: Yes, that is in there.

The Secretary was directed to call the roll and the members, as their names were called, respectively voted as follows:

Miss Fitzgerald: Yes.
Mr. Lee: Yes.

Mr. Musco: Well, Mr. Chairman, I would like to know if we are considering both the order as it stands originally and also the amendment in this vote.

Chairman: We are.
Mr. Musco: Well, I feel that Order No. 3 is repeated in Mr. Lee's amendment.

Chairman: The only difference is the change in dates.

Mr. Musco: In fact it means that any time between January 1 and August 31, 1955, the salary schedule could be revised.

Chairman: He has September of 1954, hasn't he?

Mr. Lee: Yes; mine starts right off.

Mr. Musco: Do we see any loophole here or a legal problem?

Superintendent: I wouldn't think so, Mr. Musco. The Corporation Counsel was the one who suggested the first part of the order, which is effective in an emergency from January 1st on, so I see no conflict in an emergency provision beginning forthwith.

Mr. Musco: I believe Mr. Lee has been more sceptical about this salary advancement than I have. I have more confidence, I believe, in the Business Manager's recommendations.

Business Manager: Thank you.
Mr. Lee: I don't intend to use that to reopen the discussion of salaries any time between now and December 31st, if my assurance means anything. I just mean that if Mr. Smith tells us we just won't have enough funds for the week of December 15th or something, then we can retrench a little bit so our funds will last up to the Christmas vacation. It is just in case we actually do run short. After all, it is always possible with such a narrow margin of reserves. Perhaps we will hear that several school buildings have blown down or something or other during the day.

(Secretary's note: This was the day of the hurricane.)

(Roll call continued:)

Mr. Musco: Yes.

Mr. Ward: Yes.

Chairman: Yes.

The following was offered:

Miss Fitzgerald: Mr. Chairman, there is one portion of the order which I don't intend to vote in favor of as read by Miss Reynolds, and the rest of it I would be in favor of.

Chairman: Do you want to single that out?

Miss Fitzgerald: That is the portion on the compensation of temporary teachers which is hereby fixed for the period, and so forth, at \$14 per day of actual service. I would like to be recorded as against that.

Chairman: Would you record Miss Fitzgerald as being opposed to the \$14 per day for temporary teachers?

Miss Fitzgerald: I believe that all money should be given to permanent people.

Secretary: You are going to vote on this order and you are going to say Yes?

Mr. Ward: Just read that part that Miss Fitzgerald is interested in and read that as a single order.

Secretary: This is all one order. I will record you Yes, Miss Fitzgerald, with the proviso—

Miss Fitzgerald: There is no proviso.

Chairman: Record Miss Fitzgerald as being opposed to the \$14 per day for temporary teachers and that will appear in the public record.

The question now comes on Order No. 4 as read by the Secretary. Would you call the roll?

On roll call, the order passed by the following vote:

Miss Fitzgerald: Yes, with the exception of the compensation of \$14 per day for temporary teachers.

Mr. Lee: Yes.

Mr. Musco: Yes.

Mr. Ward: Yes.

Chairman: Yes.

The following was offered:

5. ORDERED, That for the year ending August 31, 1955, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to act in the position of a principal of a school or district, or of a director, associate director, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of two dollars (\$2) per day of service in addition to the regular salary of his rank. A

teacher or member of the supervising staff who may be similarly designated to act in the position of assistant director; assistant in charge; head of department; co-ordinator; guidance counselor or division head; submaster; vice principal; vice principal, special classes; shop foreman; or assistant supervising nurse shall be paid at the rate of one dollar (\$1) per day for each day of service, in addition to the regular salary of his rank.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

6. ORDERED, That for the year ending August 31, 1955, any master, junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of the department in charge of a single subject where there are in the proposed department not less than two thousand pupil hours, taught by at least four teachers, whole or part-time, shall be paid at the rate of one dollar (\$1) per day for each day of service, in addition to the regular salary of his rank.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

7. ORDERED, That for the year ending August 31, 1955, any teacher who may be designated by the Superintendent as teacher in charge of a building where there is no permanent submaster, vice principal, head of department, or co-ordinator, or as teacher in charge of an elementary unit in a junior high school or a high school building where there are at least four classes, shall be paid at the rate of one dollar (\$1) per day for each day of service in addition to the regular salary of his rank.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

8. ORDERED, That for the year ending August 31, 1955, any cafeteria manager, permanent or temporary, who may be assigned by the Superintendent to the office of the Director of School Lunches shall be paid at the rate of five dollars (\$5) per day of service in addition to the regular salary of her rank.

On roll call, the order passed by the following vote:

YEAS—Mr. Carr, Miss Fitzgerald, Messrs. Lee, Musco and Ward—5.

NAYS—0.

The following was offered:

9. ORDERED, That any person holding a position included in the foregoing salary schedule shall as of September 1, 1954, be placed on that step of said salary schedule corresponding to his or her years of service in the specified position unless other provision is made with respect to the person by a salary adjustment order adopted by this Committee this day, but in no case shall any salary be reduced.

Mr. Lee: I move an amendment to Order No. 9, Mr. Chairman—to be amended by striking out the last clause containing the words "but in no case shall any salary be reduced" and inserting in their stead the words "but no salary shall be reduced in such placement." The word "placement" refers to the main thought on line 3 of this order.

Chairman: "But in no case shall such salary be reduced—"

Mr. Lee: The order is about placing persons on certain rungs of the salary scale. I say: "But no salary shall be reduced in such placement," which, I believe, is the sense of the wording that is already there.

Chairman: Does this differ from your previous order?

Mr. Lee: Yes, I have tightened the wording up, I think. The old wording seems to me rather too broad and to contradict the order we passed where, if the Mayor didn't give us enough money, we might have to make reductions; but they wouldn't be reductions at the time of placement or in connection with placement on a step of the salary schedule. I have tried to get language that directs attention to this purpose of putting teachers on the step of the salary schedule that corresponds to their years of service, and so I have used the phrase: "but no salary shall be reduced in such placement," "placement" referring to the act of their being allocated to a step of the salary schedule consistent with their years of service.

Chairman: Question comes on the amendment as proposed by Mr. Lee that we add at the end of the sentence: "but in no case shall any salary be reduced."

Mr. Lee: Strike out that clause and say: "No salary shall be reduced in said placement."

Chairman: This is more than an amendment. This is going to change the whole context of the order here, isn't it, Mr. Lee?

Mr. Lee: It doesn't mean to. I am just trying to make a perfecting amendment that won't conflict with Order No. 3 we just passed.

Superintendent: What were your last words, Mr. Lee, please?

Mr. Lee: "But no salary shall be reduced in such placement."

"Placement" ties in with the main verb "placed" which is exactly under the number nine.

Chairman: Why couldn't you leave it in as it stands and just put "in placement" at the end of it—"but in no case shall any salary be reduced in placement."

Mr. Lee: "Or upon such placement?"

Chairman: "Upon such placement." Would that satisfy you?

Mr. Lee: That is all right.

Chairman: What is it again — "upon such placement"? The question comes on the amendment as proposed by Mr. Lee. Will you call the roll?

Secretary: "But in no case shall any salary be reduced upon such placement." Is that right?

Chairman: Yes.

Order No. 9, with the suggested amendment of Mr. Lee, reads as follows:

ORDERED, That any person holding a position included in the foregoing salary schedule shall as of September 1, 1954, be placed on that step of said salary schedule corresponding to his or her years of service in the specified position unless other provision is made with respect to the person by a salary adjustment order adopted by this Committee this day, but in no case shall any salary be reduced upon such placement.

As a conclusion to this salary schedule, which takes the third step in establishing a single salary schedule for the entire instructional personnel, it is hereby further

26. ORDERED. That it be, and hereby is, determined that it is the present sense of this Committee that subject to such modifications as may be required for practical administration:—

(a) In the case of head masters, the minimum annual salary shall be \$7032 and the ultimate maximum annual salary should be \$8400,—the objective maximum to be reached by the granting, in addition to regular anniversary increments of annual salary adjustments of \$240 on September 1, 1954, and of annual salary adjustments of \$120 thereafter.

(b) In the case of principals, the ultimate minimum annual salary should be \$7032 and the ultimate maximum annual salary should be \$8004,—the objective maximum to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$180, until those presently on maximum shall receive the salary of \$7776, and the next annual salary adjustments should be \$228.

(c) In the case of Head of Division of Juvenile Adjustment, the ultimate minimum annual salary shall be \$4872 and the ultimate maximum annual salary should be \$6504,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120.

(d) In the case of the directors listed below, the minimum annual salary shall be \$6300 and the ultimate maximum annual salary should be \$7500,—the objective to be reached by granting, in addition to regular anniversary increments, of annual salary adjustments of \$120:

Director of Distributive Education.

Director of Educational Investigation and Measurement.

Director of Elementary Supervisors.

Director of Fine Arts.

Director of Kindergartens.

Director of Music.

Director of Special Classes.

Director of Speech Improvement Classes.

Director of Visual and Radio Education.

Director of Vocational Guidance.

(e) In the case of heads of department, head instructors, submasters and vice principals, the ultimate minimum annual salary should be \$4872 and the ultimate maximum annual salary should be \$6504,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120 for heads of department and head instructors, and of \$180 for submasters and vice principals and with the maximum of \$6504 to be established when submasters and vice principals presently on maximum shall receive the salary of \$6336, and the next annual salary adjustments should be \$168.

(f) In the case of elementary, junior high school and high school teachers, the ultimate minimum annual salary should be \$3504 and the ultimate maximum annual salary should be \$5508 for those possessing a Bachelor's degree or equivalent and \$5904 for

those possessing a Master's degree,—the objective to be reached by the granting, in addition to regular anniversary increments, of annual salary adjustments of \$120 for high school teachers and of \$180 for elementary and junior high school teachers; and

(g) The ultimate maximum annual salary of technicians and junior high school science maintenance assistant in Visual and Radio Education should be \$4464.

Mr. Lee: Mr. Chairman, I move that we strike out the word "single" in the short paragraph introducing Order No. 26. I merely remind you that this salary is anything but a single salary schedule.

Chairman: You gave that speech before, didn't you?

Mr. Lee: It is a travesty and a occlusion to consider it a single salary schedule.

Chairman: Mr. Lee moves and Mr. Ward seconds the motion that we strike out the word "single."

Mr. Ward: And have simply "salary" and let this be an increase in salary for teachers and not a single salary schedule.

On roll call, Mr. Lee's amendment failed of passage by the following vote:

YEAS—Messrs. Lee and Ward—2.

NAYS—Mr. Carr, Miss Fitzgerald, and Mr. Musco—3.

Chairman: The question now comes on the order.

Mr. Lee: Mr. Chairman, I secondly urge defeat of paragraph (f), which enforces a dual salary schedule as the objective of those who claim to want a single salary schedule by its pointing to one salary for those with B.A. degrees and another salary for those with masters' degrees.

In fact, under this very schedule this coming year, it will create a dual salary schedule, two types of teachers in high school, when there was one salary last year.

But rather than argue all the fine points at this time, and yet so that we can in the future know what some of our thoughts were, I'd like the consent of the Committee to spread on the record at least excerpts from our debates on this subject, especially that part of the debate showing the extent to which we are letting the colleges dominate our schools, and, by demanding further college degrees for our teachers, cementing the bond even closer to all colleges.

Chairman: You mean that was given in the conference?

Mr. Lee: In the conference recently.

Chairman: You have those.

Secretary: If you will tell me just what it is, I will get it out.

Mr. Ward: Mr. Chairman, I am agreeable to Mr. Lee's desire to spread those remarks upon the public record, I join with Mr. Lee in this particular phase of his argument so far as master's degrees are concerned because I am

inclined to think that a person who teaches in our system and who has a bachelor's degree and is perfectly willing not to invoke the Fifth Amendment might go to a college not far away, and after they have a master's degree from certain colleges or universities they know all about hiding behind the Fifth Amendment. I think Mr. Lee's point is well taken when he points out the fact that we are sending our teachers into these schools and we are giving a little salary increase to them, and they go back to these very colleges where men like Furry teach and then they get their master's degree perhaps being taught by Professor Furry or others who are past masters in the art of ducking behind the Fifth Amendment, and I don't think we should have our teachers who are a good, honest, and clean lot being taught or trained by these particular types of professors in the universities. I heartily agree that Mr. Lee's remarks, that I am conscious of, should be spread on the record.

Chairman: No objections to the spreading of remarks of Mr. Lee as offered at a previous conference on the record. Would you point out to the Secretary that part?

Mr. Lee: Do you want your remarks, Mr. Chairman, included—some of them?

Mr. Musco: I believe that Mr. Lee had reference to the debate or some excerpts from the debate. If Mr. Lee feels that his entire discourse should be spread on the records, I have no objection; but to pull out excerpts from your debate or my debate or anyone else's debate is going to be a little bit of a problem.

Miss Fitzgerald: Mr. Chairman, I think that it was just you and Mr. Lee and myself who were present at that time. I have no desire to have anything I said at that time spread upon the records, but I have no objection to having your remarks and Mr. Lee's remarks so included.

Chairman: If they are related somewhat, would you spread them upon the record, Miss Reynolds?

Secretary: Yes.

Chairman: The public record.

Miss Fitzgerald: I want nothing of my own remarks included.

Mr. Ward: What I have said is on the record here tonight.

Chairman: That's right.

The following is the excerpt from the Conference notes of Aug. 26, 1954, referred to by Mr. Lee:

THE NATION OWES BEWILDERED YOUTH AN INTEL-LIGIBLE FOREIGN POLICY

Chairman: As Chairman of the Boston School Committee and one vitally interested in the civic and patriotic education of our school children I wonder if there is anything our schools can do to elu-

cidate current events and dissipate some of the confusion that exists among our older students and their parents, and the general public.

Most of our young men must look forward to service with the armed forces, but how do they feel when they read in the papers about a State Department foreign policy that supersedes proven military science. General Mark Clark, a great soldier, recently said: "Our post-war foreign policy is very weak. It is one appeasement and concession to Russia after another. The more you feed this voracious, hungry beast, the hungrier he gets." General Clark long ago suggested training the Nationalist Chinese and Vietnamese in Indo-China but his proposals were vetoed. The Reds now have China and a slice of Indo-China. By a cowardly concession at Geneva the iron curtain has just been dropped on 14,000,000 in Indo-China. The ring around the free nations is closing fast. Where, our boys and their parents want to know, should we draw the line?

Suppose a boy or girl reads about the Korean War in the history book. How intelligible will it be if the facts are told of how General MacArthur was removed from his command and both Generals Ridgeway and Clark agreed with him that the policy of stopping the war at the Yalu River was stupid because the Reds used it as a bastion from which they sent planes and bombs to kill over 125,000 American GI's. As a veteran of World War II, I saw the ravages of Communism in Italy and France. When are we going to wake up to its menace here in the United States? We fought in Korea and left our enemy right where we started from on the 38th parallel, arrogant and poised to strike again. All experts agree that the famous poem by Tennyson, "The Charge of the Light Brigade," was stirring verse but the military decision which sent brave men into the valley of death was an atrocious military blunder. Is history repeating itself? Is there anything we as parents and educators of our youth can do to prevent unnecessary sacrifice of our youth?

Over 900 GI's are now captives behind the iron curtain. They have been exhibited throughout Asia in bamboo cages to show the supremacy of the East. How long is it going to be before we regain our national honor? Teddy Roosevelt long ago enunciated the real American policy—"Speak softly but carry a big stick."

When Fifth Amendment citizens and pro-Communist sympathizers draw more sympathy from many American people than a Cardinal Mindzenty, 15,000,000 persecuted Protestants in East Germany, Jewish refugees, Poles and French behind the Iron Curtain and Italians resisting the

anti-God forces of Communism, then something is wrong with our thinking. Can we educate our youth to the facts? In the amphitheater behind the Tomb of the Unknown Soldier is this inscription: "When we assumed the soldier we did not lay aside the citizen."

Boys and even girls about to enter the armed forces should know the answer to vital questions of the day. The schools must help. Confusion must give way to reason and intelligent information.

The issue of Communism is above politics. Either you are against Communism and with those who are fighting it or you are playing a vacillating game and trying to straddle the most vital issue in America today. As a veteran I stand with those who are fighting the enemies of our liberties. As the Chairman of the Boston School Committee I will do everything possible to bring the truth that alone can keep us free, to the school children of Boston.

We demand a loyalty oath of our teachers. We outlawed the Communist Party in Massachusetts in 1951. Recently both the United States Senate and House of Representatives voted overwhelmingly to kill the Communist Party. Still we have a Senate Committee investigating Senator McCarthy for possible censure.

I hope that the Watkins Committee will leave no stone unturned in order to bring out the truth. The issue of Communism, its dupes and enemies, must be settled. Our teachers, our parents, our students should know the facts, otherwise the disruptive forces of Communism will continue to eat away at the foundations of our liberties. As the Saturday Evening Post said in its chief editorial in the issue of August 21, 1954, "The West Hasn't Much More Room for Retreat." At least we should be united on the home front. Our schools and our children should know where they stand.

I appeal to our school administrators, our teachers and everyone interested in our schools to help us find the answers to some of the so-called controversial issues of the day. The lives of our youth and the honor of our country depend on our solving the \$64 questions that keep the world and our people in a state of constant suspense. Our schools cannot shirk their responsibility of turning out alert, informed citizens in the midst of world tensions and anxiety at home.

Mr. Superintendent, I hope that our teachers and our administrators will pay close attention to the proceedings of the Watkins Committee which I hope will solve some of the questions that the general public, our parents and our teachers are confronted with today.

Thank you.

OUR SCHOOLS AT TENDER MERCY OF PHILISTINE COLLEGES

Mr. Lee: Mr. Chairman, you say there are confusions in the minds of our youngsters on these problems, practically of life and death, that lie ahead of them; and you say that you hope the administrative officers of the schools will do their utmost to bring a clear light to these paths that lie ahead of our youth; and you say you hope the administrators will not shirk their duties.

Chairman: Mr. Lee, I gave this statement with the hope that this Watkins Committee will act like true Americans and resolve some of these questions that are in the minds of the general public today and clear up the situation of who is for Communism and who is against it, and that is my only hope.

I hope that we pay attention to that.

Mr. Lee: Mr. Chairman, I am trying to work along with your idea. You say that you hope the Board of Superintendents or the administrators won't shirk the responsibilities that are theirs.

I want to make some practical suggestions toward what I hope will be congenial to the objectives you have in mind. I say that the School Committee and the administrative officials shirk their responsibilities to a very great extent, and I say that here is the situation.

The School Committee does not run the schools and the Board of Superintendents does not run the schools. The schools are run by the American colleges. The learning that our teachers pass on to the children they get from the American colleges.

Today we will have before us a question of giving further financial rewards to those teachers who go back to colleges to get an MA degree, and whatever thinking or lack of thinking or confusion or lack of confusion we have in our schools stems from what the colleges have to offer.

They have a feed pipe into the mind of every child.

COMMUNISTS HAD PARTIAL SUCCESS

Here is what I think happened. Everyone knows that the Communists tried to take over American education as a way of taking over America. Everyone knows that the first step in Karl Marx's doctrine is to centralize things. I have quoted that before to this Committee. Everyone knows that the Communists try to infiltrate the colleges. From the colleges they would have a feed-pipe into every town and village school. That was the easy way to do.

The Communists were not such fools but what they tried to take over the college education; and my belief is that they made little

headway in winning any recruits in any colleges in America to their party.

The Communists got very few college professors to marry them. But a lot of college professors committed adultery with Communism in their hearts.

What the Communists succeeded in doing was to stop in the college faculties a scholarly discernment of American civilization. They had that negative result. They did not get the colleges into bed with them, but they weaned them away from America to a considerable extent. They sold the idea of centralization of government. And we have seen that centralization. We know how the brain trusters thought.

As Mr. Carr implies, we know what happened in the Far East. We know what Washington committees have discovered along those lines. We have seen the magnification of bureaucratic control at Washington.

Chairman: Mr. Lee, my purpose in giving the statement was just to point out that the opening of school coincides with the investigation by this Watkins Committee, and there is no question in my mind—

Mr. Lee: Which committee is that?

Chairman: The Watkins Committee.

Mr. Lee: The committee that is investigating McCarthy?

Chairman: Yes, and the controversy among the Senate Committees; and I just hope that they will resolve some of the questions that are confronting the American public and especially as that would pertain to education in our public school system.

Mr. Lee: Mr. Chairman, you have to come down to a practical point somewhere. Now I think it is worthwhile pointing out that the college faculties by and large have forgotten the truth that man's struggle for liberty is a struggle against government, and the college faculties go in for bigger and bigger government and more and more of a master state; but the important thing is that they don't enthuse the youngster with the particular kind of very successful and merciful civilization which is the American civilization.

Their heroes are not the heroes of American civilization. The man who devises a machine for braiding clotheslines to hang your clothes up, the man who devises a machine for manufacturing baseballs and making them come out round, the man who manufactures automobiles, the banker who gives money to men in advance, before the customers show up, to get production going—these unbossed citizens are not the heroes of your college faculties. Their heroes are the state, and the bigger the state, the better they like it.

The towns don't amount to much among college faculties,

and the cities don't, and the states are only so-so. But the United States is fine. And the United Nations is superb.

If I build a house for you, that's no good. But if the Federal Government builds housing, it's wonderful.

COLLEGES HAVE SMEARED AMERICA WITH THEIR SILENCE

Our college faculties have lifted up their noses too high to see the beauty and vividness and brilliance and success of the average man's service-swapping, dollar-swapping, equalitarian civilization; and I think that the fact that they have smeared America with their silence and have not been interpreters of America is the outstanding fact in American education.

They have not published the good tidings of America.

It was Pericles and Plato and Socrates who expressed the best in Athenian culture. The articulate element of our society, the learned element, the professors, do not discern and do not express the best in American culture. Their minds have been blinded and they smear freedom with words like "black market."

Well, every free transaction is a "black market." In order to avoid a "black market" you have to have a price and pay ceiling on everything and comply with that price and pay ceiling. The intellectuals have gotten the idea around that free transactions and freedom itself are "black" by using the phrase "black market."

Then they bring in the French phrase "laissez-faire" to smear freedom again. Instead of saying "leave to live by no man's leave," which is the English translation of "laissez faire" and which is human and warm and truthful, they bring in a foreign phrase and ascribe abuses to it, half of which did not exist or were due in reality to intervention by government in behalf of favored friends; and by such phrasing and labeling they try to belittle the average American's way of life, and I think that is where our trouble is.

The colleges have made a very unprogressive crusade in favor of big government, and away from freedom from government, which is the essence of our American civilization.

They have even made "rugged individual" sound like something bad. Yet every man with a grain of freedom in his make-up wants to be rugged and wants to be an individual.

COLLEGES STRANGELY SENSITIVE TO CRITICISM

Then, as you imply, Mr. Carr, I am worried about it because they are very suspicious and resentful of criticism. I read excerpts from almost all the speeches at the National Educa-

tion Association's convention this year, and all of them said American education was under attack. Then they pointed to the attackers.

Well, I am familiar with most of the attackers, and I couldn't see that the attackers of American education, so called, were attacking American education in any way. They simply disagreed on a very difficult question the same as we disagree around this table.

Now why are these college elements so sensitive to criticism and why do they feel that the slightest criticism is a kind of attack? They speak of Mr. McCarthy, whose committee you are interested in, in the strongest terms, and any college professor who doesn't take an anti-McCarthy position is socially and professionally ostracized.

They don't go in for tolerance especially. If they did, they could offer Mr. McCarthy a teaching chair in the social science of government. But their interest in academic freedom doesn't go that far. They use academic freedom as a banner under which to ram their particular ideas into the student's mind, and then stuff the folds of the banner in his lips if he gurgles in protest.

Now you have a very opinionated group in American colleges who tolerate no dissension, who look away from America and look toward a more regimented economy in the brain truster tradition in which they took part and of which they were the architects, and I think that is where you fail to give to the child a conception of our extraordinarily vivid and vital culture because the people who teach them get all their ideas from this college element.

Maybe the colleges are better than we are. But at least they are different. Samplings of opinion show that average Americans are about equally divided pro and con McCarthy; yet your college faculties are about 100% anti-McCarthy.

Is it wholly proper for an elected School Committee to turn over its education to people whose views are not those of the electorate that elected them but whose views are those of the college element which are a very opinionated crowd and whose ideas are funnelled right into the minds of all our youngsters?

PROMOTION AND PAY FOR TEACHERS WHO GIVE LECTURES TO COLLEGE PROFESSORS

Now I would much rather not give credits to a teacher in salary for going back to these college people for more—for their M. A. degree. I think it would be nice for teachers to give refresher courses to the college faculties during the summer. For I think our teachers are in much

closer touch with American life. They see much more of the variety of our people. They are faced much more with the problems of everyday life; and I think that education would get a big advance if the college professors and the social scientists would come and learn from our teachers during the summer; and to those teachers I would be willing to see extra credits and extra pay given.

Secretary: Now the vote comes on Order No. 26.

Mr. Lee: Mr. Chairman, I need not remind you that I am voting "no" on grounds beyond the grounds I stated because it is pie in the sky anyway for this Committee to make grandiose plans which only a future Committee can activate.

The Secretary was directed to call the roll and the members, as their names were called, respectively stated that they voted as follows:

Miss Fitzgerald: Yes.

Mr. Lee: No.

Mr. Musco: Yes.

Mr. Ward: Yes, for the salary increase.

Chairman: Yes.

SALARY ORDERS

The following was offered:

ORDERED, That all full-time permanent Civil Service employees listed on monthly payrolls, except the Director of School Hygiene, the Secretary, the Structural Engineer, the Director of School Lunches, the Assistant Director of School Lunches, the Head Supervisor of Attendance, and James P. McDevitt, designated as Acting Supervisor of Attendance, shall receive an increase in compensation at the rate of twenty-two dollars (\$22) per month, to become effective on September 1, 1954.

Mr. Lee: Mr. Chairman, I move the amendment that the exceptions also include the secretaries.

Chairman: We killed that once, didn't we?

Mr. Lee: It hasn't been officially acted on. This is where we officially act, I understand.

Chairman: Was there a roll call on that previously?

Secretary: The Secretary is excluded.

Superintendent: Mr. Lee is talking about the high school, junior high, and elementary secretaries being excluded from this order.

Mr. Lee: I exclude those doing secretarial work in the schools merely because there is a great diversity of such workers and we have got the Jacobs report to untangle that situation and to make good recommendations, and we may perhaps come out with vastly greater recommendations for increases than what we have here, but at least it is a very in-

tricate matter, and I would rather wait and except the secretaries from this order until the Jacobs Report has come back to us.

So I move that we don't cover those who engage in secretarial work in the schools.

Chairman: Question comes on the amendment of Mr. Lee that we except the secretaries in the schools.

On roll call, Mr. Lee's amendment failed of passage by the following vote:

YEAS—Mr. Lee—1.

NAYS—Mr. Carr, Miss Fitzgerald, Messrs. Musco and Ward—4.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for demolition of the George Putnam School, Columbus avenue, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Monday, November 15, 1954, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
(Nov. 6.) *Superintendent of Construction.*

PROPOSALS FOR REMOVING SNOW.

The Commissioner of Public Works of the City of Boston, Room 508, City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for removing snow in the following snow areas: Nos. 1, 2, 3, 4, 5, 10, 11, 12, and 13, and in other areas within the city corporate limits. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of five thousand (5,000) dollars for each area, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Removing Snow" (ALL BIDDERS SUBMITTING PROPOSALS IN ARFAS 1 TO 5 ARE REQUIRED TO SUBMIT EVIDENCE OF OWNERSHIP OF AT LEAST TWO MECHANICAL SNOW LOADERS AND IN AREAS 10 TO 13 ARE REQUIRED TO SUBMIT EVIDENCE OF OWNERSHIP OF AT LEAST ONE MECHANICAL SNOW LOADER OF APPROVED TYPE AS PROPOSED IN THE CONTRACT FORM), and left at Room 508, City Hall Annex, before 2 p.m. of Monday, November 15, 1954, with a certified check for two hundred (200) dollars for each area, or eighteen hundred (1,800) dollars for all the areas, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The following is the report to the Trustees of Boston City Hospital in reply to their letter of August 6, 1954, concerning the incidence of diarrhea in the Children's Building:

BOSTON, October 28, 1954.

The Executive Committee of the hospital staff in accordance with the vote of the Trustees of August 6, 1954, was requested to investigate and report as soon as possible on responsibility for the recent diarrhea outbreak in the Pediatric Wards.

The committee met twice on August 10, 1954, and 23 times during the next three months. Pertinent records were examined. Persons concerned with the care of children directly or administratively during the period concerned were interviewed.

We had before us, dated September 9, 1954, a communication from the Department of the Attorney General, Commonwealth of Massachusetts, enclosing a statement titled "Violations of Licensure Rules and Regulations for Hospitals and Sanatoria in Massachusetts as Revealed in Mary Curley (Pediatric) Building."

The various items in this document included a statement of various regulations and stated an alleged violation in each instance under the term COMMENT. The order as stated there is followed in drafting this report, following a detailed investigation. To each of the 21 specifications, following "COMMENT," a section labeled "REPORT" has been added.

(1) *Chapter Two, Page 6, II-E.6.*

Epidemic Diarrhea of the Newborn.

Hospital authorities shall immediately report by telephone to the State District Health Officer and local Board of Health or Department of Health the occurrence of two or more cases with symptoms suspicious of epidemic diarrhea of the newborn. Any single case shall, after not more than 48 hours from the onset of symptoms suspicious of infectious diarrhea of newborn, be similarly reported.

COMMENT: Department of Public Health or Local Health Department were not notified.

REPORT: There is no evidence indicating a violation of the regulation as cited. The words "symptoms suspicious of epidemic diarrhea of the newborn" of necessity emphasize the exercise of informed professional knowledge and judgment on the part of the physician who makes the diagnosis or establishes the reportable "suspicion."

It should be made clear that not *all* cases of gastroenteritis or of diarrhea in the newborn are to be reported as having "symptoms suspicious of epidemic diarrhea of the newborn." Since diarrhea can be due to a number of causes, the guide for the interpretation of the legal requirement of reporting must be finally the honest, informed, and best judgment of the responsible physician.

REPORT OF TRUSTEES OF BOSTON CITY HOSPITAL REGARDING EPIDEMIC IN INFANT WARDS SUB- MITTED TO MAYOR HYNES.

(Continued from page 1389.)

From this brief background it is stated that the physicians in charge of the treatment of infants and especially of premature infants at Boston City Hospital prior to July 12, 1954, felt in their best clinical judgment that they were *not* dealing with one or more cases of infectious diarrhea of the newborn. They used laboratory studies. They availed themselves of expert consultant services. All physicians concerned have been interviewed. These physicians did not feel then nor do they feel at this time that any of the cases treated at Boston City Hospital before July 12, 1954, were either infectious diarrhea of the newborn or that there were "symptoms suspicious of infectious diarrhea of the newborn." As a result of this opinion no report was made prior to July 12, 1954.

In July, 1954, there was a temporary change in the professional supervision of the Pediatric Service because of summer vacation schedules. There was a major turnover in house staff (intern and resident) personnel, due to the annual termination of appointments on July 1.

There were instances of newborn infants with loose stools during early July. There had been some increase in the number of such cases during June. The responsible physicians at that time did not feel that they were dealing with a reportable situation.

The cases of diarrhea increased in number and in severity during July. The physician in charge reported the presence of a diarrhea outbreak to the Director of the Division of Communicable Diseases of the Massachusetts Department of Public Health on July 12. He made the report personally. The report was made by telephone.

(2) Page 7, III-B-1d.

A room, or rooms, adequately equipped shall be available for the isolation, whenever necessary, of cases or suspected cases of communicable disease which are either subject to legal quarantine or may endanger the health or well-being of other hospital patients.

COMMENT: Inadequate isolation facilities.

REPORT: This statement of violation cites language of the Licensure Rules and Regulations applicable to the entire physical plant of the hospital and applies it specifically to the Children's Building. Isolation facilities are available throughout the entire hospital. The South Department of the hospital is essentially an isolation facility for the entire hospital.

It is the charge of "inadequate isolation facilities" with specific application to the Children's Building which is of interest here. The floors or wards concerned in the treatment of the infants which are the subject of this report were located on the seventh and eighth floors of the Children's Building. There definitely were adequate isolation facilities present in the form of two large glass-enclosed isolation areas off the large wards on each of these floors. These areas were used for the isolation of suspected cases of communicable diseases at various times. These areas were plainly marked with the painted legend "isolation" on each of the access doors. In addition to these areas there were other areas present and available on each of the floors which were at various times used for isolation purposes.

(3) Page 7, III-B-4.

Sterilizing Facilities:

Sterilizers and autoclaves of the proper type and necessary capacity for adequate

sterilization of instruments, utensils, dressings, water and operating room materials shall be provided and maintained in a satisfactory condition.

COMMENT: Sterilizing facilities inadequate in Pediatric Building.

REPORT: This charge of a violation cites the requirements for sterilizing facilities of the entire hospital, then particularizes with reference to the Children's Building. There were sterilizing facilities present in the Children's Building of the proper type and necessary capacity. The number and location of these fell short of the ideal. There is no evidence that any defect of sterilization procedures contributed to the outbreak of diarrhea.

(4) Page 11, VII-F.

Each chief of service, in cooperation with a committee of staff physicians, shall establish policies of procedure, maintain standards of performance, provide regulations for attending and house staffs, conduct departmental meetings for analyses of work and confer with such other personnel and staff members as may be necessary for the proper conduct of his service.

COMMENT: If policies of procedure exist regarding isolation of ill infants, it is apparent that they were not followed.

REPORT: There is adequate evidence that the Pediatric Service since its reorganization on January 1, 1953, complied with the requirements of VII-F as set forth on page 11 of the Licensure Rules and Regulations. The physicians and nurses of the service were fully cognizant of the requirements and techniques for proper isolation procedures.

The essential element of proper isolation care is an adequate nursing staff. This is necessary in order to assign specifically designated nurses to the sole and full time responsibility of around-the-clock care of infants in isolation.

There is a nationwide shortage of nurses. The shortage is acute at Boston City Hospital. Despite repeated efforts of the medical and nursing staffs of the Pediatric Service it was not possible for them to obtain adequate numbers of nurses to properly carry out isolation procedures.

(5) Chapter Three, Page 15, VA-1b.

There shall be provided:

Suspect nursery for infants suspected of having transmissible diseases.

COMMENT: No facility for the transfer of infants suspected of having transmissible diseases.

REPORT: There were facilities for suspect nurseries for infants suspected of having transmissible diseases. Various areas were from time to time designated for such purposes. Newly admitted

infants were so handled until the presence or absence of disease was established. When an obviously ill infant was removed from a nursery where other infants were present, those remaining were treated as suspect cases with no admissions or discharges from the designated area until the possibility of other cases of infection was ruled out. At one time in April, on April 12 precisely, an entire ward was closed except to newly admitted gastroenteritis cases.

(6) Page 15, VA-1c.

There shall be provided:

Isolation nursery for infants with transmissible diseases who are not transported to another hospital for care.

COMMENT: Inadequate isolation facilities. Also, Isolation "C" had no running water.

REPORT: See comment under Number 2 above. The statement is made that "Isolation 'C' had no running water." This designated isolation facility was *not* used for isolation care. Its use was restricted to infants seriously ill with noncommunicable diseases requiring special nursing care. No premature infants were placed in Isolation "C" at any time.

(7) Page 15, VA-1d.

Premature nursery required when an average of four or more premature infants are provided care at any one time.

COMMENT: The premature nursery was not restricted to the use of normal premature infants, as required. Infected premature infants were kept in the premature nursery and well and ill non-premature infants were kept there also.

REPORT: Premature nurseries as required by Licensure Rules and Regulations were available in adequate number and were utilized. All premature infants which required highly specialized care were transferred to the premature nursery facilities. There were times when carefully selected infants technically "premature" (under 5 pounds 8 ounces birth weight) were kept with normal newborn infants. These were infants who were in good condition, were feeding well, and who were growing and developing normally.

Premature infants with any type of infection were *not* kept with well premature infants. Full term infants were *not* kept in the premature nursery. Sick premature infants were at times kept with sick nonpremature infants. This deviation from ideal practice was necessary because of the inadequate number of nurses. No infant weighing over 5 pounds was ever admitted to the premature nursery except one child born of a diabetic mother. This infant required special care which, because of the nursing shortage at the time, was *not* available in any other part of the hospital.

(8) Page 15, VA-2b.

The suspect nursery shall be equipped with cubicles and shall be physically separated from the newborn nursery.

COMMENT: No suspect nursery, so infants that should have been transferred to a suspect nursery were left in the premature nursery even after they became infected.

REPORT: It is pointed out that the requirement of a "suspect nursery" can be met at any time the need arises by designating a specific area as a "suspect" facility. This was the practice. The seventh and eighth floors of the Children's Building are predominantly cubicle wards. These are all physically separated (they are in an entirely different building) from the nurseries for the full-term newborn.

When an infant in a premature nursery developed loose stools he was placed in isolation. The nursery from which he had been moved was closed to admissions, and no discharges were permitted while the remaining infants were closely observed for the development of symptoms.

(9) Page 15, VA-3c.

Individual bassinets of the single-unit type or individual bassinets with a tray or table complete with equipment for the exclusive use of the infant to whom it is assigned shall be provided.

COMMENT: Bassinets were suspended on racks, and individual bassinets were not provided.

REPORT: Individual bassinets of the type required by Licensure Rules and Regulations were not available in the Children's Building. There were a limited number of "Isolette" units and incubators of modern and approved type for the special care of the premature or sick infants as indicated. There is evidence that bassinets of the recommended type had been requested by the Pediatric Service.

It is pointed out that this long-time deficiency was known to the licensing and inspecting authority. Representatives of this authority had visited the hospital's infant and premature infant care facilities on several occasions in consultation concerning a proposed new premature unit to be constructed.

It is pointed out that in this as in perhaps other instances of charges of violations the Foreword to the Licensure Rules and Regulations may very well have some pertinent application: "One or more regulations relative to the standards as set forth in these licensure rules and regulations may be waived by the Department of Public Health if, after an inspection by the Department of Public Health, it is found that compliance with a particular regulation would cause undue hardship or would be physically impossible to comply with, providing this noncompliance with the regulations shall not jeopardize the safety or proper medical care of the patients." There is no record of any report of deficiencies in patient care made to the hospital by the Licensing Authority prior to July, 1954.

(10) Page 16, VA-4c.

Individual bassinet equipment for the exclusive use of the infant to whom it is assigned shall include all necessary supplies in covered containers to permit bassinet care, including an individual thermometer in a container labeled with the infant's name, a 24-hour supply of linen, and a holder for card hung at the foot of the bassinet to contain the information necessary to identify the infant.

COMMENT: Individual equipment not provided.

REPORT: Individual bassinets of the type mentioned under Item 9 were not available. The self-contained 24-hour supplies and equipment were not possible to maintain in the absence of such bassinets. Certain essential items of individual equipment, such as thermometers in properly labeled containers, were maintained.

(11) Page 16, VA-5b.

The temperature of the premature nursery shall be maintained between 75° F. and 80° F. Humidity shall be 55 per cent to 65 per cent.

COMMENT: The door to the premature nursery is wide open.

REPORT: Temperature and humidity in the premature nurseries were generally maintained within the recommended limits. Infants who required a carefully regulated individual environment, with temperature, oxygen, and humidity carefully regulated, were kept in individual "rooms" within the nursery itself—in incubators or Isolettes.

It was standard practice, generally adhered to, to keep the doors to premature nurseries closed. That the door was open on the specific occasion alleged is not denied. There were not adequate numbers of trained personnel available to police the entire area to prevent violations of ideal practice and procedures at all times on a 24-hour basis.

(12) Page 16, VB-1-1-1.

An infant shall be transferred to an isolation nursery if he:

1. Has a transmissible disease.

COMMENT: Disregarded.

REPORT: It was the practice to place infants suspected of communicable disease in isolation. As stated above, strict isolation procedures were not at all times possible because of inadequate numbers of nurses.

(13) Page 16, VB-1-1-4.

An infant shall be transferred to an isolation nursery if he:

4. Is delivered outside the hospital, unless the rooming-in plan is used.

COMMENT: Newborns, delivered outside, admitted to Maternity and then transferred to premature nursery.

REPORT: Infants delivered outside the hospital were not placed in nurseries with well babies or in premature nurseries. They were admitted to separate facilities in the Children's Building during an observation period. In no instance since January 1, 1953, was any premature infant born outside the hospital ever admitted to the premature nursery.

(14) Page 17, VB-2f.

Infants in the suspect nursery shall not be cared for by nurses assigned to any other nurseries, but may be cared for by nurses assigned to the maternity floor.

COMMENT: Nurses caring for well premature infants cared for ill premature infants.

REPORT: This comment is true. Certain highly skilled and technical nursing procedures may not be performed by student nurses. The very serious shortage of graduate nurse personnel cannot be overemphasized in this regard. On certain days, and particularly during certain hours, more particularly at night, graduate nurses of necessity carried heavy loads of patient care and responsibility. The same nurse would at times care for both well and sick infants.

The Pediatric Service made known its need for additional nurses to the Superintendent's Office and to the Nursing Department. Efforts were made through those channels to obtain additional nurses. These efforts were not successful.

(15) Page 17, VI.

Any hospital providing pediatric care shall maintain proper facilities for the care of these children, separate and apart from the services for adult patients and the newborn nursery service.

COMMENT: Inadequate facilities for the care of children admitted.

Adequate facilities and procedures for the isolation and treatment of children with transmissible diseases were not provided or carried out.

REPORT: The two comments as stated above come under the heading "Pediatric

Services." The first charge states facilities were inadequate for the care of children admitted. It is an absolute and an unqualified statement. The major requirements are that the children's service be separate and apart from adult services. All children thirteen years of age and under are treated in a separate Children's Building. These services should be separate and apart from the newborn nursery service. They are actually in an entirely separate building. There were specific inadequacies concerning part of these children's services as stated in parts of this report.

The second comment states flatly that "adequate facilities and procedures for the isolation and treatment of children with transmissible diseases were not provided or carried out." It has been pointed out that an entire and separate unit of the hospital—the South Department—is available and is utilized for the treatment of communicable diseases of children. That deficiencies in certain isolation problems existed in the Children's Building has already been discussed above.

(16) Page 17, VII, A-1.

All hospitals providing maternity or pediatric services shall provide a well-ventilated and well-lighted formula room which shall be adequately supervised and used exclusively for the preparation of formulas.

COMMENT: Formula room not adequately supervised.

REPORT: It is stated that the formula room was not adequately supervised. It is pointed out that certain personnel on the Pediatric Service had responsibility for the formula room. The services of the formula room are provided at certain peak periods. It is not apparent that "adequate supervision" means "constant" supervision. There was supervision. There is utterly no evidence that terminal sterilization of formulae, the essential and vital operation of the unit, was at any time inadequate or contributed to the diarrhea outbreak. The formulae prepared in this central formula room go to all bottle-fed infants. Any outbreak of disease attributable to contamination of formulae or nipples would of necessity have involved many bottle-fed infants, not just some of the premature infants.

(17) Page 17, VII, A-2.

Equipment shall include handwashing facilities with hot and cold running water with knee, foot, or elbow controlled valves; a double-section sink for washing and rinsing bottles; a gas or electric plate; facilities for storing of cleaning equipment; refrigeration facilities; utensils in good condition for preparation of formulae; cupboard and work space and a work table; an autoclave and a supply of individual formula bottles, nipples, and protecting caps, adequate to prepare a 24-hour supply of formula and water for each infant.

COMMENT: Entire formula preparation and refrigeration setup not approved.

REPORT: The equipment, work area, and refrigeration setup in the formula room were less than ideal. But it is again stressed that there is absolutely no evidence pointing to failure in terminal sterilization of formulae as they left the formula room as being a cause of the diarrhea outbreak.

(18) Page 17, VII, B-2.

Formula room staff only shall be permitted to enter the formula room.

HOSPITAL REPORT.

(Continued from page 1392.)

COMMENT: Entrance to formula room not restricted. Maintenance man entered with truck of bottles.

REPORT: Entrance to the formula room was restricted to authorized personnel. In the incident cited, and possibly in other instances, porters, runners, messengers might enter the room momentarily. There is an unfortunately large turnover in service personnel within the hospital. It is not possible to maintain complete supervision at all times of all areas and all persons to ensure perfect performance of nontechnical and nonprofessional procedures.

(19) Page 17, VII, C-1.

Prior to entry into the formula room an individual shall change to a short-sleeved comfortable gown, completely cover her hair with a cap, and wash her hands.

COMMENT: Maintenance man entered without washing his hands.

REPORT: The failure of a maintenance man to wash his hands on an occasion is covered by the discussion under charge No. 18.

(20) Page 17, VII, C-6.

Cultures shall be taken weekly of the formulae, nipples, and caps picked at random from the 24-hour formula supply.

COMMENT: Cultures not taken on formulae, nipples, and caps weekly.

REPORT: Cultures were taken, but not weekly as required. It is again pointed out that there is no evidence that there was any breakdown in formula sterilization which in any way contributed to the diarrhea outbreak.

(21) Page 18, VIII, C-7.

Feeding equipment from infants suspected of, or infected with, transmissible diseases shall be sterilized prior to the return of the equipment to the formula room.

COMMENT: Feeding equipment from Pediatric Service not sterilized before return to formula room.

REPORT: Such equipment was washed but sometimes was not sterilized before return to the formula room. It was thoroughly cleansed and sterilized before use in formula filling. All formulae were terminally sterilized before being distributed to bottle-fed infants. It is once more stressed that there is no evidence of any formula room dereliction contributing to the diarrhea outbreak.

SUMMARY AND CONCLUSIONS.

There were cases of diarrhea present in varying number and degree of severity among premature infants and other infants on the seventh and eighth floors of the Children's Building of Boston City Hospital from February through July, 1954. After careful, detailed, and lengthy investigation the committee finds that the judgment of the responsible physicians in charge of the Pediatric Service during that time is supported. Detailed study of the cases of infants presenting symptoms of diarrhea prior to July 12, 1954, showed no cases of epidemic diarrhea of the newborn, and the symptoms were not suspicious of

infectious diarrhea of the newborn. The cases prior to July 12, 1954, were consequently not reportable.

There were deaths among premature infants with gastroenteritis prior to July 12, 1954. Detailed study of these cases shows that in many of these deaths there were diseases or conditions present other than diarrhea with prematurity. It is pointed out that gastroenteritis or diarrhea in a premature infant may be a cause of death without the disease being epidemic diarrhea of the newborn.

In July new cases of diarrhea appeared. Although the course of the illness and the signs and symptoms were not typically those of an acute outbreak of epidemic diarrhea of the newborn, the existence of the outbreak was reported to the Massachusetts Department of Public Health.

In the opinion of the committee the chief factor responsible for the incidence of diarrhea at the time was the shortage of graduate nurses.

Infected and suspect infants are being cared for in full compliance with Licensure Rules and Regulations. There has been no new case "suspicious" of epidemic diarrhea since the July diarrhea outbreak was brought under control. One newborn infant had a day of diarrhea. This infant finally proved to be merely a nutritional problem associated with feeding.

It is important to point out in this report that the Pediatric Service physicians, visiting staff, house staff, and the nursing service, in particular, gave devoted and continuous service to all infants with diarrhea. Many infants seriously ill with diarrhea completely recovered due to around-the-clock care of the highest order. Every available nurse literally performed the work of several nurses. The direction of the Pediatric Service is in competent and conscientious hands.

In connection with our study we have examined the records of births and especially those of newborn premature infants at Boston City Hospital. We are pleased to report to the trustees that since 1947 the death rate of premature infants has been dramatically reduced at this hospital to one-fifth of the death rate at that time. The premature death rate at Boston City Hospital for the first nine months of 1954 is exactly what it was for 1953, which was the best recorded year to date. These figures compare favorably with other hospitals in Boston and elsewhere.

MAYOR HYNES APPROVES CONTRACT FOR REPAIRS TO ICE PLANT AT CITY HOSPITAL.

(Continued from page 1389.)

gate, excavate, and locate the leaks that have brought about the conditions of flood to the ice plant. The letter of request, approved by the Mayor, reads as follows:

HOSPITAL DEPARTMENT.

Boston, November 1, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

We respectfully request your authorization to dispense with publicly advertising for bids in the *City Record*, and to award a contract to John J. Appel, 23 Sunnybank road, West Roxbury, for furnishing all the labor and materials necessary to investigate, excavate, and locate leaks in soil and water supply lines in yard which are causing the flooding of the ice plant, Boston City Hospital, at a cost not to exceed the sum of \$3,300.

As of October 29, 1954, two of these leaks had actually been discovered, one in an underground high pressure water main, and at least one in an underground soil line resulting in the flooding of the ice plant, endangering valuable machinery and equipment and presenting a grave hazard from a health standpoint making immediate remedial action imperative.

Because of the emergency nature of the work, your permission is respectfully requested for the award of a contract, without advertising, to John J. Appel, 23 Sunnybank road, West Roxbury, for locating leaks in soil and water supply lines and making the necessary repairs to the pipes in soil and water supply lines in yard causing the flooding of the ice plant, Boston City Hospital, at a cost not to exceed the sum of \$3,300.

Respectfully yours,

BOARD OF TRUSTEES,
BOSTON CITY HOSPITAL,
RICHARD J. CONDON,
President.

CONTRACTS AWARDED.

Permission to award the contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

* Contract awarded.

PUBLIC WORKS DEPARTMENT.

Upon November 4 the Mayor approved a contract as requested in the following letter:

Boston, November 2, 1954.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract for bituminous concrete pavement in Guest street, Ward 22, and Hemman street, Ward 18, to the Rufo Construction Company, Inc., the second lowest bidder, at an estimated cost of \$33,504.50.

At the present time, the low bidder, J. D'Amico, Inc., is working on a contract in West Roxbury, involving the construction of six new streets that are in a deplorable condition, and it is most essential, therefore, that the work be completed, if possible, before the end of the current construction season. However, the latter contractor cannot possibly complete, before the end of the current construction season, the work involved in the present contract and the work involved in the construction of the subject contract, which provides for the construction of a new street in Guest street, in Brighton, and the reconstruction of Hemman street, in Roslindale, including the construction of new sidewalks.

As you probably know, the Elm Farm Foods Company recently completed the construction of a very costly warehouse on Guest street, and the roadway area adjacent to their premises is in a deplorable condition. I am anxious, therefore, to have it constructed before the end of the season, in order to provide a reasonably suitable facility for the latter-referenced company, which invested such a large sum in developing the site. I am also anxious to complete the sidewalk work on Hemman street, Roslindale, before the end of the year, because the residents on said street have been very patient and have waited at least one and one-half years for the new sidewalks. However, as stated, the work involved in these two streets cannot, in my opinion, be completed by the low bidder before the end of the current year.

Representatives of the second bidder, the Rufo Construction Company, Inc., have promised me that they will, if weather conditions permit, complete both Guest and Hemman streets this year. Therefore, as there is only a difference of \$8.50 in the bid submitted by the low bidder, J. D'Amico, Inc., and the second bidder, the Rufo Construction Company, Inc., I recommend that the contract be awarded to the second low bidder, the Rufo Construction Company, Inc., at the bid price of \$33,504.50.

The work to be done under this contract is to be completed December 31, 1954. The following bids were received October 28, 1954, after advertising in the *City Record* October 16, 1954:

J. D'Amico, Inc., \$33,496; Rufo Construction Company, Inc., \$33,504.50; S. J. Tomasello Corporation, \$34,968; A. Singarella & Son, Inc., \$35,243.50; James A. Susi, \$35,325; Brooklyn Construction Corporation, \$35,360.25; P. V. Barone Cor-

poration, \$35,704.50; Carriere Construction Company, \$36,292; Dooley Brothers, Inc., \$38,278.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Upon November 8 the Mayor approved a contract with Faneuil Construction Company for roofing work on various buildings of the Sanitary Division at Victory road, Dorchester, and 650 Albany street, Boston, at an estimated cost of \$15,172. The work to be done under this contract is to be completed within 60 days after approval by the Mayor. The following bids were received November 3:

Faneuil Construction Company, \$15,172; John F. Shea Company, Inc., \$18,446; M. Solimando, \$21,890; Burgess & Blacker, \$26,807.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, supply houses, and commercial houses. Communications from heads of the departments interested were as follows:

ADMINISTRATIVE SERVICES DEPARTMENT.

Purchasing Division.

Boston, November 1, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Attached hereto is a tabulation submitted by Shawmut Dairy, Inc., of deliveries and returns of milk bottles and cans covering the period from April 1, 1953, through April 30, 1954, reflecting shortages and overages in the returns of milk containers to the Shawmut Dairy, Inc., during that period of time. This tabulation covers deliveries to the Long Island Hospital and Boston City Hospital and empty containers returned during the period above mentioned. This tabulation coincides with records maintained by the Long Island Hospital and Boston City Hospital.

It is noted, that for the period April 1, 1953, to September 30, 1953, for Long Island Hospital, there was a shortage of 420 cans at \$4 per can and a shortage of returned bottles in the amount of 1,054 at 5 cents per bottle, which constituted a shortage in dollars of \$1,680 for cans and \$52.70 for bottles, a total of \$1,732.70 for both cans and bottles. It is further noted that for the following period October 1, 1953, through April 30, 1954, 205 cans were returned over the number delivered which set up a credit of 205 cans at \$4 per can or \$820. During the same period, 1,405 fewer bottles were returned than were delivered which at 5 cents per bottle represents a shortage of \$70.25 in returns. Deducting this latter figure, there was a net credit for this period on deliveries to Long Island Hospital in the amount of \$749.75. Deducting the \$749.75 credit for overage in returns, during the period October 1, 1953, through April 30, 1954, from the \$1,732.70 shortage in returns for the preceding period, there is a \$982.95 balance due Shawmut Dairy, Inc., on the Long Island Hospital deliveries for the two periods combined.

On deliveries and returns of milk cans and bottles for the City Hospital for the period from April 1, 1953, to September 30, 1953, there was a shortage of 453 cans at \$4 per can, making a total of \$1,812, and there was a shortage in returns of bottles in the amount of 767

at 5 cents per bottle, a total in dollars of \$38.35. The total dollar shortage in returns of cans and bottles for the period was \$1,850.35. For the period October 1, 1953, through March 31, 1954, there was a shortage in returns of 100 cans at \$4 per can, a total of \$400, and a shortage in bottles of 738 at 5 cents per bottle, a total of \$36.90, or a total dollar shortage in returns of cans and bottles in the amount of \$436.90. The total dollar shortage for the two periods for the Boston City Hospital is \$2,287.25. This, plus the \$982.95 shortage for Long Island Hospital, makes a balance due Shawmut Dairy, Inc., for shortages in returns of cans and bottles in the amount of \$3,270.20.

Authority is requested to make payment to Shawmut Dairy, Inc., in the amount of \$3,270.20 covering the shortages in returns of cans and bottles above enumerated. This is in accordance with the provisions of Article 8 of the contracts with Shawmut Dairy, Inc., covering milk deliveries for the periods enumerated.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 2, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Boston City Hospital has submitted a requisition for seven (7) treatment cars to be delivered immediately.

Informal requests for prices were solicited from twelve dealers and manufacturers; three bids were received. Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Thomas W. Reed Company, the lowest bidder on the informal requests for prices.

Approximate total amount of contract will be \$1,120, less 2 per cent discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 2, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Water Division of the Public Works Department has submitted a requisition for one (1) 6-inch H. C. T. compound meter.

Hersey Manufacturing Company, the manufacturer of the above meter and the only source of supply, has submitted an informal written quotation. Owing to the foregoing facts, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Hersey Manufacturing Company. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$1,240, net.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 3, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of requisitions No. 395 and No. 398 from the Water Division of the Public Works Department for immediate delivery of curb cocks and couplings.

Informal requests for prices were solicited from the three major manufacturers. Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, for curb cocks and couplings to Mueller Company, the lowest bidder on the informal requests for bids. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be \$3,283, less 2 per cent discount, 15th proximo, f.o.b. Decatur, Illinois, full freight allowed.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 3, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Automotive Division of the Public Works Department has submitted a requisition for one (1) 1954 Buick, Model 41D, to be delivered immediately.

Dickson Buick, Inc., has submitted an informal written quotation on the above vehicle and can guarantee prompt delivery. Inasmuch as immediate delivery of the vehicle is a most important factor to be considered at this time, authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Dickson Buick, Inc. It is my opinion that, in this way, the best interests of the city will be served.

Approximate total amount of contract will be: List price, \$2,877.12, less taxes, \$188.30 — \$2,688.82, less allowance on 1949 Buick, \$700, net delivered price, \$1,988.82.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 3, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

This office is in receipt of a requisition from the Fire Department for one Model 197D addressograph as per specifications submitted.

Addressograph-Multiplication Corporation, the manufacturer of the above equipment, has submitted an informal written quotation. Authority is requested to dispense with publicly advertising for prices and award a contract, without public advertisement, to Addressograph-Multiplication Corporation. It is my opinion that in this way the best interests of the city will be served.

Approximate total amount of contract will be as follows:

List price, \$2,644.50; plus transportation, not to exceed \$50; less trade-in on old machine, \$100; total net price, \$2,594.50.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

BOSTON, November 5, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The Sanatorium Division of the Boston City Hospital has submitted a requisition for two Frigidaire ER 47 refrigerators—commercial size. Informal requests for prices were solicited from several local distributors.

Authority is requested to dispense with publicly advertising for prices and award

a contract, without public advertisement, to Commercial Refrigeration Company, the lowest bidder on informal requests for prices. This company can make immediate delivery of these refrigerators to the Sanatorium Division; therefore it is my opinion that the best interests of the city will be served by awarding the contract to Commercial Refrigeration Company.

Approximate total amount of contract will be \$1,391, less one half of 1 per cent for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Purchasing Agent.

REAL PROPERTY DEPARTMENT.

BOSTON, October 29, 1954.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

At a meeting of the Real Property Board duly held on Thursday, October 21, 1954, it was unanimously

Voted, To engage the services, by contract, of Wallace B. Orpin, engineer, of 7 Mamelon Circle, Mattapan, for the engineering services in connection with the construction of the proposed off-street parking facility at Mattapan square; his fee to be 5 per cent of the estimated cost of construction, not to exceed \$1,750. The chairman is authorized to execute the proposed contract subject to the approval of the Mayor.

Your approval of the action of the Board is respectfully requested.

Respectfully yours,

HERMAN CARP,
Commissioner of Real Property.

EXTENSION OF CONTRACT.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for an extension of time for the completion of the contract with Arthur H. Curtis Company for new oil burning equipment at the Grover Cleveland School, from September 24, 1954, to December 3, 1954. This extension was requested because of a delay in obtaining certain material.

FIRE DEPARTMENT ORDERS.

General Order No. 69.

I. DEACTIVATION OF RESCUE COMPANY 1.

Effective at 8 A.M., Tuesday, November 9, 1954, the apparatus of Rescue Company 1 shall be deactivated.

The hose wagon of Engine Company 7 shall be fitted out from the equipment of Rescue Company 1 and shall take the rescue assignments of Rescue Company 1. Engine Company 7 shall have, at all times, six men and one officer.

The following details will become effective at 8 A.M., Tuesday, November 9, 1954, and continue in effect until further notice:

Hoseman John H. O'Neill, from Rescue Company 1 to Engine Squad 34.

The seven members detailed from Rescue Company 1 to Engine Company 7 shall be placed on seven different groups. The hose wagon shall be manned by two members detailed from Rescue Company 1 and one member of Engine Company 7 when responding for rescue work. The pumper of Engine Company 7 and the four remaining shall be available to answer an alarm of fire in the event that an alarm is sounded while the hose wagon is out.

In the event that the hose wagon of Engine Company 7 is absent for any reason, the Fire Alarm Headquarters shall assign the nearest Engine Squad Company or Rescue Company 3 to cover a rescue assignment. Engine Company 7 shall answer all alarms under its present assignment with such of its apparatus as may be in quarters.

The officer of Engine Company 7 shall make out the Daily Report for Rescue Company 1. The officers of the various companies to which the members of Rescue Company 1 have been detailed will notify the officer of Engine Company 7 of the group numbers to which the detailed members have been assigned during this period.

By order of Fire Commissioner
FRANCIS X. COTTER.

PATRICK E. COLLINS,
Acting Chief of Department.

General Order No. 70.

I. RETIREMENTS.

The following retirements, in accordance with section 57, chapter 32 of the General Laws, as amended, are hereby announced, to become effective at 8 A.M., Wednesday, November 10, 1954:

Capt. Bartholomew F. Clements, Engine Company 25.

Aide-to-Deputy Chief Thomas F. McGowan, Ladder Company 30.

Hoseman Adolphe L. Billotte, Engine Company 30.

Captain Clements was appointed to the Fire Department June 22, 1925, and was promoted to the grade of lieutenant October 16, 1940, and to captain December 10, 1947. Aide McGowan was appointed to the department August 24, 1928. Hoseman Billotte was appointed May 15, 1925.

The foregoing members leave the department with the best wishes of their associates.

II. A.D.T. ASSIGNMENTS.

Company commanders shall add the following signal numbers to running cards of the American District Telegraph Company in this department:

All signals are located at the Port of Boston Commission, Commonwealth of Massachusetts, Commonwealth Pier No. 5, Northern avenue.

Signal 825, lower level east, nearest box, 12-7122.

Signal 826, lower level center, nearest box, 13-7122.

Signal 831, lower level west, nearest box, 14-7122.

Signal 832, upper level east, nearest box, 15-7122.

Signal 833, upper level center, nearest box, 16-7122.

Signal 834, upper level west, nearest box, 17-7122.

Signal 835, mezzanine, southeast corner, lower level east, nearest box, 12-7122.

Signal 836, mezzanine, southwest corner, lower level west, nearest box, 14-7122.

Apparatus to respond to all foregoing signals: Engine 39, Ladder 18, District Chief 6.

III. 1955 UNITED RED FEATHER CAMPAIGN.

His Honor, Mayor John B. Hynes, through the City Employees Group Chairman, has made an appeal to all city employees to participate in the 1955 Red Feather Campaign of the United Community Services of Metropolitan Boston in order that funds can be raised to aid the many worthy member agencies, such as hospitals, health services, social agencies, and other organizations conducted for the common welfare.

The following schedule of donations is suggested to members of the department:

Privates, \$2; lieutenants, \$1; captains, \$5; district chiefs, \$7; deputy chiefs, \$8.

Civilian employees in the department receiving salaries equal to the foregoing rates are asked to give according to the schedule. It is understood that this is a voluntary effort, but the attainment of a total donation of at least \$5,000 will reflect credit upon the members of the department.

Pledge cards are being distributed to the department today. Company com-

manders and heads of branch divisions are requested to personally interview each member of their commands, including employees on injured leave, and ask them to make a contribution. All pledge cards are to be made out and returned to Headquarters on or before November 19, 1954. However, completed cards with initial donations should be sent to Headquarters as soon as possible before the foregoing date. Company commanders are requested not to hold a number of completed cards while awaiting the receipt of one or two others. Company commanders shall fill in the stub of the pledge card as requested and return the stub to the member donating money or pledging contribution.

Also issued with this order is a solicitor's daily report envelope together with sheets of carbon paper. Company commanders are requested to fill out the front of these report envelopes in triplicate, and pull the two white copies out over the flap of the envelope before the envelope is sealed. Carbon sheets should be used, so that all three copies can be made simultaneously. List the names of members, the total amount subscribed by each member, and amount paid at the time of the pledge. Cash donations and pledge cards should be placed in the report envelope, the envelope sealed as directed above, and forwarded to Headquarters as soon as possible. It is desired that company commanders return to Headquarters as many pledges as possible on or before 11 A.M., Monday, November 15, 1954.

Company commanders are requested not to detach any of the white lists from the envelopes. It is important that the two white listing sheets be pulled out over the flap of the manila envelope before the envelope is sealed. Envelopes containing pledge cards and currency will be received at Headquarters by Principal Clerk and Stenographer Ursula E. Nurse on or before November 19, 1954. Delivery of envelopes can be made on any weekday except Saturday, and must be made between the hours of 9 and 11 A.M.

No deductions will be made on department payrolls in connection with this campaign, as the pledge cards appear to indicate.

By order of Fire Commissioner
FRANCIS X. COTTER.

PATRICK E. COLLINS,
Acting Chief of Department.

POLICE DEPARTMENT ORDER.

General Order No. 1,954.

The Police Commissioner having heard the complaint of Capt. John D. Ahern, Division 11, against Patrolman Robert F. Mullen, Division 11, on Monday, November 1, 1954, at 2:30 o'clock p.m., at Police Headquarters, charging him with violation of the Rules and Regulations of the Boston Police Department, has made a finding of guilty.

Therefore, it is ordered that the said Patrolman Robert F. Mullen be suspended for a period of six months, effective as of Friday, October 22, 1954, at 5:45 o'clock p.m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

The report was accepted, and the order was passed, yeas 5, nays 0:

Yeas—Councillors Hurley, Kerrigan, McCormack, Piemonte, White—5.

Nays—0.

Voting Present—Councillor Foley.

PATCH-PAVING CONTRACTS.

Coun. FOLEY, speaking on a point of parliamentary inquiry, inquired of the City Clerk, through the Chair, whether or not a reply had been received from the Public Works Commissioner in answer to an order passed by the City Council on May 17, 1954, concerning patch-paving contracts. The Chair stated that no reply had been received.

The purpose for which the meeting was called having been accomplished, President WHITE declared the meeting adjourned at 11.34 A.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

SEWERAGE WORKS IN
HYDE PARK.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structures on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the way known as Farwell avenue, bounded:

Northwesterly by easement taken February 18, 1931, 40 feet; northeasterly by the northeasterly line of Farwell avenue, 200 feet; southeasterly by another part of Farwell avenue, 40 feet; and southwestly by the southwestly line of Farwell avenue, 200 feet; containing 8,000 square feet, more or less.

The sewerage works to be constructed are as follows:

Approximately 200 linear feet of 10-inch pipe sanitary sewer, 10-inch pipe surface drain, and 5 catch basins, at an estimated cost of \$2,500.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Commission estimates that the abutting parcels of land situated on both sides of Farwell avenue, beginning at a point approximately 200 feet south of Summit street and extending southerly for approximately 200 feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on the aforesaid plan.

Voted, That this commission determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes and the construction of sewerage works in Farwell avenue, Hyde Park district, under the order of the commission of August 23, 1954, and awards no amounts therefor.

Owners unknown (Farwell avenue), 8,000 square feet, nothing.

STREET WIDENING IN WEST
ROXBURY.

The Public Improvement Commission has ordered the making of a public improvement consisting of the widening and construction of Pond street, West Roxbury district, as a highway, between Avon street and the Brookline boundary line, bounded and described as follows:

The highway named Pond street is hereby widened and relocated, between Avon street and the Brookline boundary line, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following-described land exclusive of trees, shrubs or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to Town of Brookline, bounded:

Westerly by Brookline boundary line, 43.11 feet; northerly by the northerly line of Pond street as widened and relocated under this order, by three measurements, 212.81 feet on a curve of 498.53 feet radius, 58.83 feet, and 174.67 feet on a curve of 477.63 feet radius; easterly by Avon street, 12.94 feet; and southerly by the northerly line of Pond street as it existed prior to this order, by nine measurements, 18.62 feet, 53.18 feet, 61.41 feet, 41.42 feet, 179.80 feet, 36.89 feet, 43.15 feet, 30.45 feet, and 10.86 feet, containing 10,217 square feet, more or less.

Trees, shrubs or structures standing upon or affixed to the aforescribed land, shall be removed therefrom within thirty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Pond street as hereby widened and relocated is bounded:

Westerly by Brookline boundary line, 91.31 feet, northerly by the northerly line of Pond street, as hereby widened and relocated, by three measurements, 212.81 feet on a curve of 498.53 feet radius, 58.83 feet, and 174.67 feet on a curve of 477.63 feet radius; easterly by the easterly line of Pond street as hereby widened and relocated, 49.09 feet; southerly by the southerly line of Pond street as hereby widened and relocated, by eight measurements, 2.94 feet, 25.07 feet, 40.17 feet, 45.93 feet, 41.92 feet, 104.97 feet, 190.85 feet on a curve of 447.08 feet radius, and 44.84 feet on a curve of 39.42 feet radius.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this commission determines that the undermentioned estate sustains damages by the making of the public improvement consisting of the widening, relocation and construction of Pond street, West Roxbury district, as a highway, under the order of the commission of August 23, 1954, in the amount herein-after mentioned, and awards said amount therefor.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings, or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Mossdale road, bounded:

Westerly by Mossdale road, 100.08 feet; northerly by the northerly line of Mossdale road, by four measurements, 57.09 feet on a curve of 35 feet radius, 385.76 feet, 124.31 feet on a curve of 120 feet radius, and 65.19 feet; easterly by the easterly line of Mossdale road, by two measurements, 158.82 feet on a curve of 130 feet radius and 121.79 feet

on a curve of 325 feet radius; southerly by the southerly line of Mossdale road, by three measurements, 285 feet, 353.58 feet on a curve of 840.27 feet radius, and 32.08 feet on a curve of 20.06 feet radius; westerly by Moss Hill road, 76.25 feet; northerly by the northerly line of Mossdale road, by three measurements, 39.79 feet on a curve of 27.21 feet radius, 336.75 feet on a curve of 800.27 feet radius, and 285 feet; westerly by the westerly line of Mossdale road, by two measurements, 109.43 feet on a curve of 285 feet radius and 109.96 feet on a curve of 90 feet radius; and southerly by the southerly line of Mossdale road, by four measurements, 65.19 feet, 82.88 feet on a curve of 80 feet radius, 417.49 feet, and 37.66 feet on a curve of 35 feet radius; containing 61,031 square feet, more or less.

The sewerage works to be constructed are as follows: 1,560 linear feet of 10-inch pipe sanitary sewer and surface drain, at an estimated cost of \$17,000.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land, situated on all sides of Mossdale road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against them; said parcels and the supposed owners thereof being shown on the aforesaid plan and on file in the office of said department.

Voted, That this commission determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes in Mossdale road, West Roxbury district, under the order of the commission of October 27, 1954, and awards no damages therefor.

Owners unknown (Mossdale road), 61,031 square feet, nothing.

SEWERAGE WORKS IN WEST ROXBURY.

The Public Improvement Commission has ordered that sewerage works be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following-described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being the private way known as Driftwood road, bounded:

Southerly by the northerly line of Mossdale road, 103.52 feet on a curve of 800.27 feet radius; westerly by the westerly line of Driftwood road, by four measurements, 52.70 feet on a curve of 35 feet radius, 177.91 feet on a curve of 290 feet radius, 234.38 feet on a curve of 600 feet radius, and 39.27 feet on a curve of 25 feet radius; northerly by the southerly line of Mossdale road, 90 feet; and easterly by the easterly line of Driftwood road, by four measurements, 39.27 feet on a curve of 25 feet radius, 250 feet on a curve of 610 feet radius, 150.06 feet on a curve of 250 feet radius, and 44.46 feet on a curve of 25 feet radius, containing 19,173 square feet, more or less.

The sewerage works to be constructed are as follows: 400 linear feet of 10-inch pipe sanitary sewer and surface drain at an estimated cost of \$4,500.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this commission estimates that the abutting parcels of land situated on both sides of Driftwood road, excluding the parcels at the corners of Mossdale road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said parcels in the amount hereinafter respectively set against it; said parcels and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 1444, Sewerage Works, Driftwood Road, Mossdale Road, West Roxbury, October 18, 1954, James W. Haley, Chief Engineer, Survey Division, Public Works Department," and on file in the office of said department.

Voted, That this commission determines that no person sustains damages in his estate by the making of the public improvement consisting of the taking of an easement for sewerage purposes and the construction of sewerage works in Driftwood road, West Roxbury district, under the order of the commission of October 13, 1954, and awards no damages therefor.

Owners unknown (Driftwood road), 18,173 square feet, nothing.

AMENDMENTS TO ORIGINAL AWARDS OF DAMAGES.

The Public Improvement Commission has voted amendments to original awards of damages as follows:

Voted, That the amount of \$425 be, and the same hereby is, awarded to Harry Angelo for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 29, 1951, for the widening and relocation of Poplar street, West Roxbury.

Voted, That the amount of \$850 be, and the same hereby is, awarded to Allen W. Morgan (administrator of the estate of Marion V. Everett), for all damages sustained under the order of the Board of Street Commissioners and Mayor of November 29, 1951, for the widening and relocation of Poplar street, West Roxbury.

Voted, That the amount of \$375 be, and the same hereby is, awarded to Thomas J. and Florence D. Dalton for all damages sustained under the order of the Board of Street Commissioners and Mayor of March 27, 1953, for the laying out and construction of Oakmere street, West Roxbury.

Voted, That the amount of \$150 be, and the same hereby is, awarded to Carrie E. Pike for all damages sustained under the order of the Board of Street Commissioners and Mayor of June 22, 1953, for the laying out and construction of Bateman street, Hyde Park.

PAROCHIAL SCHOOL HEALTH PROGRAM.

This is the first full year the Pure Tone Audiometer has been used in the parochial schools. Before starting its use, the entire staff was given intensive training in the use of the audiometer. The nurse in the school makes all the preparations and helps with the children when the testing is done, but it has been found advisable to have one nurse, who is responsible and specially trained, to do the actual testing. All children in the third grades and also those children referred by the teachers from other grades were tested.

INVITATION FOR PROPOSALS FOR REBUILDING CATCH BASIN AND CONSTRUCTING GUTTER INLET AT REAR OF ADMINISTRATION BUILDING AT THE SANATORIUM DIVISION.

The City of Boston, by the Board of Trustees, Hospital Department, and of the Boston City Hospital, hereinafter referred to as the Awarding Authority, invites sealed proposals for rebuilding catch basin and constructing gutter inlet at rear of Administration Building at the Sanatorium Division, 249 River street, Mattapan, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, November 30, 1954, at the office of the Assistant Superintendent of the Sanatorium Division, 249 River street, Mattapan, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained at the office of the Assistant Superintendent of the Sanatorium Division, 249 River street, Mattapan, Mass. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

Specifications may be obtained after 12 o'clock noon, Monday, November 15, 1954, at the office of the Assistant Superintendent of the Sanatorium Division, 249 River street, Mattapan, Mass.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the amount of \$100, shall be submitted with each bid filed as above stated at the office of the Assistant Superintendent of the Sanatorium Division. The bid deposit shall be in a separate envelope, properly marked.

The rate per hour to be paid those employed to do the work under this contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide for insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful bidder.

The Awarding Authority reserves the right to reject any and all bids and to waive any informalities in bidding if it be in the public interest to do so.

No bid of a bidder shall be withdrawn prior to thirty (30) days from the opening of the bids by the Awarding Authority.

FURNISHING STEEL PIPE AND LAYING STEEL AND CAST-IRON WATER PIPES.

Proposals for Furnishing Steel Pipe and Laying Steel and Cast-Iron Water Pipes Across Long Island Bridge, from Moon Island to Long Island, Boston Harbor.

The Commissioner of Public Works of the City of Boston, Room 508 (Contract Office), City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for furnishing steel pipe and laying steel and cast-iron water pipes across Long Island Bridge, from Moon Island to Long Island, Boston Harbor. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508 (Contract Office), City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Furnishing Steel Pipe and Laying Steel and Cast-Iron Water Pipes Across Long Island Bridge, from Moon Island to Long Island, Boston Harbor," and left at Room 508 (Contract Office), fifth floor, City Hall Annex, before 2 P.M. of TUESDAY, NOVEMBER 23, 1954, with a certified check for THREE THOUSAND (\$3,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the Hearing Room, 401 City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

BOSTON'S FIRE-FIGHTING METHODS BECOMING THOROUGHLY MODERNIZED TO MATCH BEST OF ANY CITY OF SIZE IN COUNTRY — NEW TRAINING PROGRAM SENDS ENTIRE FORCE TO SCHOOL IN SQUADS WHERE INSTRUCTION IN NEW WAYS IS GIVEN — FIRE COMMISSIONER PUTTING INTO EFFECT RECOMMENDATIONS OF CITIZENS' COMMITTEE TO MAYOR JOHN B. HYNES.

MT. VERNON STREET, DORCHESTER, ADJACENT TO THE COLUMBIA POINT HOUSING PROJECT, BEING RECONDITIONED FROM WILLIAM T. MORRISSEY BOULEVARD TO FIRESTONE PLANT, ALONG WITH REPLACING OLD RAILROAD TRACK WITH NEW.

Finished-type highway is now being provided for the entire length of Mt. Vernon street, Dorchester, from William T. Morrissey Boulevard to the Firestone Plant. This was made known in a letter of approval by Mayor Hynes at the request of Public Works Commissioner George G. Hyland. The work is being rushed to completion to escape the rigors of winter. The letter requesting approval for the work, without public advertising, reads as follows:

(Continued on page 1415.)

PAVING WORK ON OTIS STREET IN VICINITY OF ST. ANTHONY'S SHRINE BEING COMPLETED BY PUBLIC WORKS DEPARTMENT—SUMMER AND ARCH STREET WORK ALSO INCLUDED TO MAKE HIGHWAY AGAIN ACCESSIBLE TO TRAFFIC —PUBLIC ADVERTISING BY-PASSED FOR QUICK NECESSARY OPERATION.

Otis street, in the rear of the new St. Anthony's Shrine, along with the reconstruction and resurfacing of a section of Summer and Arch streets, is being reconditioned by Charles Todesca to provide for public convenience. Approval for the work has been given by Mayor Hynes in reply to a letter from the Public Works Commissioner who seeks a speedy operation to have such work done before the winter sets in. The letter of Commissioner Hyland reads as follows:

(Continued on page 1415.)

Due to recommendations made by the citizens' committee appointed by Mayor John B. Hynes, the Fire Department is undergoing and has undergone many changes. These are combining to give Boston and its citizens the best and most efficient fire-fighting force of any large city in the country.

Under Fire Commissioner Francis X. Cotter and executives under him, such as Acting Chief Leo Driscoll, new theories of fire fighting, developed in cities over the country, have been introduced and put into effect.

The most significant innovation is the single engine company. This does away with pump and hose wagon combination. Except for the high value area of the city, the department will now use only one piece, combining the operations of the double engine company.

Other changes include a new-type squad unit for rescue work, ladder pipes to convert aerial ladders into water towers, plus a complete change to new-type hose nozzles and dacron hose, replacing the heavier canvas and rubber hoses.

Newer methods of fire fighting compel retraining, from the assistant chiefs to the newest probationer.

The program started last March. Chief Driscoll has carried on the work.

The training program is now in full operation, with the opening of the first of the 10-day sessions in Memorial Hall at Fire Headquarters for captains and lieutenants.

There will be 28 weeks and 14 meetings to instruct the 310 officers who directly command apparatus. At the end of each 10-day period officers will take a comprehensive examination.

When all of the apparatus officers have finished the first course they will go on to a more advanced program. These classes will treat individual fire problems.

The junior officers are being instructed by the department chiefs, most of whom are experts in at least one phase of fire fighting but who will also attend fire science conferences to keep abreast of new techniques.

The fire fighters, meanwhile, are already back at school, learning how to use their combination hose wagon and engine.

Each company spends five days at the school working out the various evolutions in "dry" runs.

The training system was first devised by the Hartford, Connecticut, Fire Department.

In the near future a new \$100,000 drill school will be constructed on Moon Island. The money, it is reported, has already been appropriated, and the plans have been drawn.

Engine squads and aerial trucks are working out at the old Navy drill school on First street, South Boston.

While the laddermen train in the operation of the gun, the single engine companies come from Columbia Point and make a series of "wet" runs on the same fire before they are put in service at a station.

Engine squad companies are entirely new.

BOSTON'S FIRE-FIGHTING METHODS BECOMING MODERNIZED.

(Continued from page 1413.)

Boston will use them primarily as a rescue unit to augment the one rescue squad now in service.

The complement of these trucks varies in number and is composed of previously trained rescuemen, enginememen, hosemen, and laddermen. Each will train the other in the use of equipment he is familiar with.

For fire-fighting purposes this type of apparatus also uses a Hartford Department plan. The pump drops a big draught line at the hydrant, goes halfway to the blaze, from where a series of small lines are run into the fire.

This operation, being an entirely new way of running a pump, requires concentrated training of its personnel. A series of new nozzles are being introduced that allow a variety of stream types from fog spray to powerful straight stream.

The use of these nozzles on live fires is a must in the training schedule.

Commissioner Cotter and Chief of Department John V. Stapleton will address each group of officers on varied subjects.

MT. VERNON STREET NOW BEING RECONDITIONED.

(Continued from page 1413.)

PUBLIC WORKS DEPARTMENT.

BOSTON, November 9, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Under date of October 5 of the current year, a contract in the amount of \$17,005 was awarded to Adams Asphalt Company, Inc., for constructing a section of Mt. Vernon street, Dorchester, adjacent to the Columbia Point Housing Project. The contract provided for the construction of the southerly half of the roadway that extends from a point near the site of the Firestone Company to the Pumping Station.

At the present time, the owner of the freight track, which is located in Mt. Vernon street, from the William T. Morrissey Boulevard to the Firestone Plant, is laying a new track in the center of the present widened roadway and removing the old track. The latter-referenced section of Mt. Vernon street should be constructed immediately subsequent to the completion of the track work. The construction of the latter-referenced section will provide a finished type of highway for the entire length of Mt. Vernon street, and it is most essential, in my opinion, that this desirable improvement be completed this year.

It is my unqualified opinion that it would be in the best interests of the City of Boston to amend the current contract with Adams Asphalt Company, Inc., in order to include the resurfacing of the section of Mt. Vernon street, from Morrissey Boulevard to the Firestone Plant, which is approximately 750 feet easterly of said boulevard.

The contractor has agreed to do the construction work under the terms and conditions of the current contract, and at the applicable unit bid prices which were submitted as a result of publicly advertising for proposals. There are only three items in the proposed amendment that are not provided in the current con-

tract, namely, the furnishing and laying of 240 tons of bituminous concrete base, the furnishing and laying of 160 tons of crushed stone on macadam base, and 2,000 gallons of OA asphalt for penetration.

However, the current contract provides for the payment of \$7.40 per ton for 230 tons of bituminous concrete wearing surface, and the contractor has agreed to furnish the bituminous concrete base at the same unit price of \$7.40. The contractor has further agreed to furnish and lay the crushed stone for \$3.20 per ton, and the asphalt at a rate of 17 cents per gallon. The latter-referenced three unit prices, which would be included in the amendment, are fair and reasonable, in my opinion. It is estimated that the cost of the reconstruction work involved in the proposed amendment to the contract will approximate \$6,000.

Under the terms of the current contract, which is in the total bid price of \$17,005, we can expend up to an additional 25 per cent, or an amount not in excess of \$4,251.25. The present contract, therefore, does not provide a sufficient amount to do the proposed additional work unless the amendment specifies that an amount not in excess of \$23,000 may be expended to do the work provided in the original contract, plus the work proposed in the amendment.

Due to the proximity of the cold weather, we do not have sufficient time to publicly advertise for proposals for the additional work, and, aside from that point, no advantage, in my opinion, would accrue to the city from a financial point of view, as most of the additional work will be done under the unit prices included in the current contract, which was publicly advertised, and the three items not covered in the contract will be done at unit prices, which, as stated heretofore, are fair and reasonable.

I respectfully request, therefore, your authorization to dispense with advertising and to amend the current above-referenced contract with Adams Asphalt Company, Inc., so as to provide for the construction and reconstruction of the section of Mt. Vernon street that extends from the Morrissey Boulevard to a point approximately 750 feet easterly, with the understanding that the applicable unit prices in the current contract will prevail, and that the additional three unit prices quoted hereinbefore will be included in the amendment; and with the further understanding that the amendment will provide that an amount not in excess of \$23,000 may be expended for the work provided in the current contract and in the amendment to said contract.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

PAVING WORK ON OTIS STREET ORDERED.

(Continued from page 1413.)

PUBLIC WORKS DEPARTMENT.

BOSTON, November 10, 1954.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Under date of October 21 of the current year a contract in the amount of

\$34,379 was awarded to the low bidder, Charles Todesca, for reconstructing a section of Summer street, Ward 6, and Washington street, City Proper.

The section of Otis street located in the rear of the new St. Anthony's Shrine, which faces Arch street, is in a very poor condition and should be reconstructed before the end of the current construction season. The plant of the Boston American is also located on Otis street, and the trucks use this street to a large extent in delivering and receiving paper and newsprint. The street is one of the few streets in the downtown area that is in a poor condition. We could not do the resurfacing work prior to the present time because of the construction work involved at the new shrine.

Mr. Todesca has agreed to do the necessary reconstruction of Otis street under the terms and conditions of the current contract, and at the unit bid prices, with the exception of one minor item which is not included in his contract. This item provides for the furnishing and laying of 40 cubic yards of high early-strength concrete, at an agreed price of \$21 per cubic yard. No advantage would accrue to the city by publicly advertising for bids for the reconstruction of Otis street, and time does not permit any such advertising, in view of the lateness of the season. The work will have to be done over week ends, and principally on Sundays, in order not to cause traffic congestion in the area.

I respectfully request, therefore, your authority to dispense with advertising, and to amend the above-referenced current contract with Charles Todesca so as to provide for the reconstruction of Otis street, City Proper, from Winthrop street to Summer street, with the understanding that the work involved will be done in accordance with the terms, conditions, and unit prices in the current contract, with the exception of the item providing for 40 cubic yards of high early-strength cement concrete. The latter-referenced item will be paid at an agreed price of \$21 per cubic yard. It is estimated that the work on Otis street will not exceed \$4,000.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.
